

Coach Maddock's Gridiron Heroes Battle Against Aggies Today

This afternoon the football team from the Agricultural college at Logan will meet the first of a series of two games between these schools. This is the first time that these institutions have met in the great fall game for two years. The annual contest scheduled for election day last year was ended off owing to the death of Guard Evans of the A. C. team from injuries received in the game with the Golden Miners.

The university gridiron warriors left this morning on a special train accompanied by 200 rooters and one of the strongest elevators ever organized at the school on the hill, went up to defend the university. The men were in the prime of condition after a week of hard scrimmage practice and when they line up against the Aggies this afternoon they will play their first big college game. The students are especially anxious to see how the men will act in their own case as the only opportunity they have had to see the men in action was against Ogden High school last Saturday.

Coach Maddock has made several changes in his line-up since the Ogden game, and the change-up has advanced the standard of the team materially. In the center of the line Home and Olson, and Dave Olson at right guard will still remain in their old positions. Korman has been chosen over Nelson for center and Count Christensen will play regularly at guard. The changes in the backfield will greatly strengthen the team. Jesse Walker who showed up well at right half will be shifted to Home's fullback position. Walker's place, however, will be taken by Home's fullback, who played right half on high school last year and this will be his first try out on the U. team. He has shown especially well at practice, and was kept out of the Ogden game on account of a bad knee. Jack Leach, the Michigan star and Schwitzer who played himself the find of the season in the Ogden game, will play at fullback and left half respectively.

WEIGHT OF MEN.
During the week Coach Maddock has taken a physical examination of every man on the team and found that every regular is in perfect physical condition. The measurements show that the

HARRY LEWIS EASY FOR BILLY PAPKE

Pittsburg, Oct. 8.—The hopes of William Lewis, the New York middleweight and champion of the middleweight title of England and France, to wear the American championship belt went glimmering tonight at Duquesne gardens when Billy Papke, the Illinois brawler, had him all but out at the end of the sixth round. The game was held before the National Sporting club of Pittsburg. It was Papke all the way, and while Lewis was on his feet at the end of the sixth round, he was in bad shape from Papke's constant jabbing. There was no dispute over the decision.

Papke easily was given the public's favorable verdict. Lewis, holding on and half unconquerable after his 15-minute beating, weakly signified his intention to ask for a return match with Papke, who, unmarked and smiling, said he believed he had proven his superiority over Lewis, and would not agree to a match at any date. Both Papke and Lewis entered the ring shortly after 10 o'clock, smiling and confident. As the ring sounded for the opening round Lewis rushed in with a rapid succession of rights and lefts to Papke's body, none of the blows, however, having steam behind them. After careful sparring, Papke led with a vicious right jab to the stomach. In the clinches Papke was warned three times to break clean, the crowd hooting his slowness in getting away from Lewis. As they came up for the second round Papke turned

S.S.S. HEALS KIDNEY OR BLADDER MISERY GOES AND YOUR LAME BACK FEELS FINE.

S.S.S. heals Sores and Ulcers in the very simplest way. It is just good right down into the blood and removes the cause, and the place is bound to heal because the impurities and morbid matters which have been the cause of keeping the ulcer open are no longer absorbed from the blood. External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only allay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the tissues around the place, but instead they constantly discharge into the flesh around the quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge. Since impure blood is the only hope of a cure, S.S.S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S.S.S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. DIABETES TALKS OF GERMANY

It was not easy for us to believe that Diabetes is curable, but the first case we came in personal touch with was astonishingly convincing. We were considering the purchase of Fulton's Compound and were looking for cases to try them on. One of our number knew Charles A. Newton, the Yeomanmaster of the S. P. R. Co., at Sacramento—a very worthy man. He also knew that Newton had Diabetes and was in a hospital in the Capital City, and that his recovery seemed impossible when he last heard from him. A letter was written to Newton that Fulton claimed his Diabetes Compound cured Diabetes and that he wanted to know from OUR friends if this was so, and that if he (Newton) would take it that we would send him a supply of it. Newton replied to the effect that four or five months before we wrote him he had heard about the compound, had taken it, that the sugar was nearly out and he was almost well. His complete recovery followed, and he told an S. P. Engineer who had Diabetes and he recovered.

We also saw, Fletcher, of San Francisco go on this treatment and get a complete recovery after physicians had declared that the case was hopeless. Fletcher is now a 3rd Degree Mason and is one of San Francisco's most widely and favorably known citizens.

We have seen hundreds recover since and there is no longer any question about Diabetes in people of middle age and over being curable. For free literature, address John J. Fulton Co., 212 First Street, San Francisco, Cal.

Clow offered \$175 before the race and the proposition was accepted. Irish Mike won the event, the purse being worth \$115, so that Clow got the horse for \$60.

The residents of Gate City, Va., were surprised recently when an automobile passed through their town. It was the first motor-driven vehicle that had ever used the highways of the town.

In connection with its good roads work, the Denver (Colo.) Automobile club has begun a crusade against the overflow of irrigation ditches, which is causing much damage to roads in many parts of the state.

A grand stand that will accommodate 2,965 persons has been planned and 1,000 parking places marked off for spectators at the Quaker City Motor club's charity road race in Fairmount park, Philadelphia. It is estimated the net proceeds will reach \$20,000.

It has been easy enough to beat Pittsburg since it won the pennant. Four National league pennants for Fred Clarke. Only three managers in any major league ever surpassed the record—Anson, Hanlon and Seale, and a fourth equalled it, Connelley. The pirates' 1909 victory is a splendid achievement. In team and individual work they are the conquerors; they simply outplayed all other teams at every turn of the road, save scientific fielding, in which of course the cubs beat them. But their victory is decisive and clean.

Which will it be, Detroit or Pittsburg? It looks like the latter. Another interesting question—will tigers and pirates make a better battle than tigers and cubs? It is to be hoped so. Tigers and cubs, history discloses, do not make a very interesting fight. The odds are in favor of Pittsburg. If they can hit the gait by which they won the National league flag, it's all with Detroit unless it can hit a faster gait than it has this season. Incidentally, it's about time for the American league to produce a world beater if it expects to maintain a parity with the old organization.

ADMIRAL SEYMOUR TALKS OF GERMANY

German Emperor Only Person Who Can Say Whether Will Be War With Germany.

POOR POLICY TO DISCUSS IT

In All Parts of World Always Found Germans Strictly Observed The Proprieties.

New York, Oct. 9.—While preparing to sail on the cruiser-battleship Inflexible, after participating in the Hudson-Fulton celebration, Admiral of the Fleet Sir Edward W. Seymour, commanding the British squadron, is quoted as expressing himself, for the first time, on the talk of war between Germany and Great Britain.

"In my experience with the Germans in all parts of the world," he said, "I have always found that they strictly observed the proprieties."

Asked whether he thought there was any probability of a war between England and Germany, Admiral Seymour replied that the German emperor was the only person who can answer that question satisfactorily. Personally, he hoped not, as war today meant a great loss of life and expense which must be met by taxation, and in his opinion it was wrong even to discuss publicly the likelihood of war between the two friendly nations.

"Do you think that Germany is preparing for war?" he was asked. "Germany is increasing her navy," said Admiral Seymour, "but I cannot tell you the reason because I do not know it. The intention is not yet in sight and nations have to be prepared for war. It is easy to inflame the minds of one people against another, and then one never knows what may happen."
