

known it to be. There is very little snow on the mountains in the south.

Box Elder—Showers on the 21, 22, 23 and 24; half an inch. Maximum temperature, 82; minimum, 41. Grain and everything have been benefited by the copious rains. Grain is in the boot. Lucern is sixteen inches high. Too dry for upland crops.

Cache—Maximum, 81; minimum, 35. Rain on 22nd. Weather has been warm and very good for crops. All planting finished except potatoes. Farmers smile.

Rich—Maximum, 81; minimum, 36. Showers on 22nd and 26th. Everything looks lovely.

Morgan—Most favorable week yet. All kinds of crops growing very fast. Good rain on 22nd. There is a good prospect for fruit.

Summit—Maximum, 93; minimum, 32. Shower on 22nd. Weather warm, and just the thing for crops. Free from frosts. Grass is growing very fast now.

Wasatch—Maximum, 86; minimum, 37. Shower on night of 22nd. Weather warm and had a good effect on grain and grass, which now look well. An ideal week.

Uintah—Fine weather for small grain and garden stuff. Peas are in bloom. Corn and potato planting nearly finished. Strawberries through blooming. Ranges and pasture are in fine condition.

Weber—No frost. All crops growing finely. Good rain on 22nd, followed by warm weather. Now watering lucern.

Davis—A warm rain on 21st did an immense amount of good to crops. Winter grain is now in head. Corn, cane and late potatoes are up. Cabbage and tomato plants are being set out. Spraying fruit trees in progress.

Salt Lake—Since the nice showers vegetation has been growing very fast. In some places sugar beets have not come up thick enough to pay. Corn has come up very good.

Tooele—Rain during first part of week caused rapid growth. No frost. Corn is coming up. Lucern will be ready to cut in about two weeks.

Utah—Weather has been hot. Half an inch rain on 22nd. Balance of week good growing weather. First watering of grain is almost over. Corn and potatoes are showing up good. Fruit is growing rapidly. Cut worms are destroying beets on bottom lands at Spanish Fork.

Juab—Busy week; spraying fruit trees. Warm days, and grain doing well. Corn and potatoes up. Watering small grain first time.

Sanpete—Small shower on 25th. Crops doing well. Everything with the last week of fine weather. Water is getting low.

Millard—Warm and good growing weather. Light rain 21st and 22nd. All crops looking well. Vegetables could not look healthier, or make better progress.

Sevier—Shower 21st and 24th. All crops doing finely. First part of week a slight frost.

Garfield—The water is very scarce. Sevier river now so low that it can be crossed without water getting over shoe tops. Driest spring known to oldest inhabitant.

Iron—Crops growing very nicely. Little snow on the mountains.

Kane—Weather very dry, but warmer. Lucerne ready to cut in a week.

Washington—Fruits are doing well. Past week very favorable for crops. Cutting lucern. Cherries are ripe.

THE EUPOREAN MISSION.

[*Millennial Star*, May 21.]

ARRIVALS.—The following missionaries from Utah and Idaho arrived in Liverpool per the Guion steamer *Arizona*, May 7th, 1894: For the Scandinavian Mission—Anthon Pebrson, of Logan; Carl A. Johnson, of Huntsville; Carl Hansen, of Spring City; John A. Jensen, of Cedar City; Charles Lundgren, of Mayfield, and Rasmus M. Larsen, of Basalt, Idaho. For the Swiss and German Mission—Alonzo Francis, of Morgan, and Chas. J. Lang, of Salt Lake City. For the British Mission—Stewart Eccles, of Eder; Wheatley Gibson and Elijah W. Clayton, of West Weber; Frederick Scholes and A. C. Morris, of Salt Lake City; Joseph Barker, of North Ogden; Joseph Fowers of Hooper; Charles W. Robins of Layton; S. W. Ross, W. L. Webb and Edward Southwick of Lehi; James Tucker of Morgan; William John Lee of Ogden; Herschel Bullen Jr. of Richmond; William T. Jones of Cedar City and Wm. D. Bingham of Clifton, Idaho.

RELEASES AND APPOINTMENTS.—Elder B. M. Blackburn has been honorably released from his labors as traveling Elder in the Liverpool conference, to return home, May 26, 1894.

Elder C. C. Cressall has been honorably released from his labors as president of the Nottingham conference, to return home, June 9, 1894.

Elder N. T. Porter Jr. has been released from his labors as traveling Elder in the Scottish conference and has been appointed to preside over the Nottingham conference.

Elder J. M. Dalton has been released from his labors as traveling Elder in the Welsh conference and has been appointed to labor in the Irish Conference.

Elder Alfred Smurthwaite and J. W. Crook has been released from their labors as traveling Elders in the Newcastle conference and have been appointed to labor in the Manchester conference.

Elder Wm. D. Bingham has been appointed to labor as traveling Elder in the Netherlands mission.

Elder Stewart Eccles has been appointed to labor as traveling elder in the Scottish Conference.

Elder Wheatley Gibson has been appointed to labor as traveling Elder in the Newcastle conference.

Elder Frederick Scholes has been appointed to labor as travelling Elder in the Leeds conference.

Elders Joseph Barker, Charles W. Robbins and James Tucker have been appointed to labor as traveling Elders in the Cheltenham conference.

Elders Joseph Fowers and Elijah W. Clayton have been appointed to labor as traveling Elders in the Nottingham conference.

Elder S. W. Ross has been appointed to labor as traveling Elder in the Liverpool conference.

Elders W. L. Webb and Herschel Bullen Jr., have been appointed to labor as traveling Elders in the Sheffield conference.

Elder Edward Southwick has been appointed to labor as traveling Elder in the Birmingham conference.

Elder William John Lee has been appointed to labor as traveling Elder in the Manchester conference.

Elder A. C. Morris has been appointed to labor as traveling Elder in the London conference.

Elder T. Johnes has been appointed to labor as traveling Elder in the Welsh conference.

FEARFUL WRECK.

ECHO, Utah, May 31.—The Union Pacific track is now clear and trains are running again regularly after the terrible accident of Tuesday. The track was wholly blocked from noon till 9:30 Tuesday night, when it was sufficiently cleared to let the west bound passenger pass. This train, which left Evanston at noon Tuesday, was held nine hours between Castle Rock and Wasatch stations, Echo canyon.

The wreck occurred as follows. A force of men were engaged on the line between Castle Rock and Wasatch, and just before 12 o'clock the men were called on the train, which was expected at the station at noon, pass. The work train had just got under good headway when the crash came. The special freight had come down on orders, and should have been flagged at Wasatch, but by some blunder was allowed to go through the station without stopping. It was going about ten miles an hour, when it suddenly came upon the work train, and almost before any one could realize the situation the locomotive of the freight had smashed into the rear end of the freight train.

The workmen practically had no warning, so were unable to get out of the way, and the result was terribly disastrous. On the freight train the engineer and fireman both were hurt, but not fatally. On the work train two men were killed outright and ten or twelve others more or less severely injured, receiving broken arms or legs, lacerated bodies and dangerous bruises. One of the dead men was from Echo, the other from Evanston. The names of the injured men and one of the persons killed could not be obtained outside of railway sources. One of the men killed is James Lewis.

The men most severely hurt were taken back to Evanston for surgical attention. A crew of men were put at work as quickly as possible, and cleared the track of the wreckage. The freight locomotive was dished and badly smashed. Ten to fifteen cars were derailed and more or less badly wrecked.

E. G. Rognon, Esq., of Salt Lake, was in Brigham the latter part of last week, says the *Voice*. Mr. Rognon came to meet a Mr. Davis, of Paradise, with whom he rode out into the mountains toward La Plata to look at some mining property. Mr. Rognon found and inspected the grounds, of which he owns a controlling interest, and found it more than his most sanguine hopes had pictured. The property is undeveloped but it has a good vein of gold and lead bearing quartz. It is the intention to put a force of men to work on it this summer.
