The New York *Tribune* says, Middle Titiens has "succumbed to the trials of the American climate, as all singers do on their first arrival."

Russia expects that her grain harvest this year will feed her own people, and afford 75,000,000 bushels for exportation.

One million six hundred thousand dollars' worth of wood will be necessary, according to the estimate of the builders, for the St. Gothard tunnel.

The exact distances of the different railway routes is to be ascertained, and hereafter the mails will be sent whenever practicable over the shortest routes.

Dio Lewis' trip around the world, an unfriendly commentator thinks, ought not to cost him over \$4 or \$4.50, if he can travel as cheaply as he can eat.

The reports of the Minnesota wheat crops are to the effect that the yield will average not less than thirty bushels to the acre throughout the State.

A man was fined \$10 for trying to shoot his wife, in a country town in Massachusetts; but then it was in evidence that she wasn't a very good wife.

It is a singular fact that amid the temperance reform the pernicious habit of opium eating should be revealed as an evil worse, in many respects, than intoxication from alcohol.

The "diagonal waltz," just introduced into dancing society, is generally supplemented with refreshments of such a nature that the "diagonal" part of the gait is kept up all the way home in the morning.

The appointment of "floating teachers," has suggested the idea that there are a good many persons who would like appointments as "floating policemen," or floating anything else that has a salary attached to it.—*Oakland Transcript.*

The Savants hold that at one time there existed in the present United States a far higher civilization than what is now seen. Underground relics attest that our ancient predecessors had rings—but quite different from those in vogue in our times.

Judge Sutherland, of New York, decides that when saloon-keepers allow people to play for money in their saloons they are practically keeping gambling houses—an eminently sensible view to take of the subject.

A Kansas Baptist association has forcibly resolved: "That in our opinion the most befitting part which the Baptists of Kansas should take in the centennial movement would be one concentrated effort to pay their church debts."

Thomas Carlyle recently dined with a neighbor, and was so annoyed at the table by a loquacious busy-body, who discoursed on art, that he refused to enter into conversation, and at the end of the dinner suddenly said to his host: "For heaven's sake, put me in a room by myself, and give me a pipe!"

Two inquests were held the other day in Birmingham, England, on the bodies of children whose lives were prematurely brought to a close by being suffocated by their mothers during the night. A paper says the truth is that in many cases the mothers are so drunk when they go to bed that they are utterly unable to give any lucid account of the suffocation of their children.

One Ira S. Bush, was a very pious and influential church member at Port Jarvis. Lately it has transpired that he was a brother-in-law of Tom Ballard, a notorious burglar and counterfeiter, and that the pious Mr. Bush himself passed a great deal of counterfeit money. He was once convicted of the same, and eventually absconded, leaving \$5,000 to \$10,000 liabilities to friends who had believed in his integrity and befriended him.

One dark night, not long ago, a burglar entered a private residence on Broadway. On ascending one flight of stairs he observed a light in a chamber, and while deliberating what to do, a large woman suddenly descended upon him, seized him by the throat, pushed him down through the hall, and forced him into the street before he had time to think. "Heroic Repulse of a Burglar by a Woman" was the way the story was told the next day. But when friends called and congratulated her upon her courage, she exclaimed: "Good gracious! I didn't know it was a burglar! If I had, I should have been frightened to death. I thought it was my husband come home drunk, and I was determined he shouldn't stay in the house in that condition."—*Lexington Gazette.*

**A Successful Operation.**—A couple of weeks ago Dr. Benedict, in the presence of a number of other surgeons of this City, successfully performed a difficult and apparently dangerous operation upon Brigham Clayton, the young man who had his arm shattered some time since, by the accidental discharge of a shot-gun. The patient was placed under the influence of ether, when two inches in length of the shattered bone, between the shoulder and elbow joints, was sawed through; taken out and the ends brought together. We are glad to be able to say that the lad is gradually recovering, being now able to sit up in his room several hours each day and strong hopes are entertained that, in course of time, the injured arm will be almost as strong as the other one, but will, of course, be a couple of inches shorter.

**Tenth Ward Concert.**—An entertainment was got up last evening at the Tenth Ward Meeting House, for the benefit of the Sunday School of that ward, and was an entire success both as regards the number of patrons and the efforts made to please them. Recitations were given by some very young members and some older ones, of course; songs and choruses were interspersed with pleasing effect, and though the entertainment lasted three hours the interest was very manifest until the end. Willie Davis and E. Ford were the feature of the evening—the former with comicalities and the latter playing on the banjo; Sisters Maria Ashman and Sarah A. Kirkman played sweetly on the organ, Sisters Poll, Long, Woods, Ashman, and Kirkman sang attractively, and Masters Paul and Taylor and Sisters Taylor and Paul gave recitations in a very effective style. The whole was good and beyond expectation, but the above mentioned were given in a manner very creditable to themselves and the reputation of the Ward.

**That Alimony Case.**—It will be seen by a dispatch from Washington, this afternoon, that the proceedings of the Third District Court last week, in ordering the imprisonment of President B. Young, will be considered by the Cabinet. We certainly do not regret this, the common sense of the matter being that there are two horns to this dilemma—the acknowledged illegality and wrongfulness of the proceedings, or the acknowledged legality and rightfulness of plural marriage. Which stand the cabinet will take remains yet to be seen, but, of necessity, it must be one or the other.

**The Ogden Postmastership.**—About eight months ago efforts were made by a Methodist preacher and a postal clerk, named Sharp,

on the eastern mail route, to effect the removal of Mr. Joseph Hall, postmaster of Ogden City, on the plea that he was a "Mormon." To this end a petition was circulated in Ogden, asking the government to remove him and appoint Sharp in his place. A few persons were persuaded to sign the petition, but when it was generally understood in the city that a movement was on foot to procure the removal of Mr. Hall, the great majority of the citizens, without distinction of creed or party, signed a petition and forwarded it to Prest. Grant, requesting that Mr. Hall be retained in office, and bearing testimony to his honesty and eminent fitness for the position he occupied. This remonstrance had the desired effect for a time, but, within the last two months, several western senators have taken the matter up and represented that Mr. Hall was a polygamist and should not hold office under the government. This was also contradicted, but the dispatches of last night contain the news that Mr. Hall has been removed and Sharp appointed to the office. We understand that Col. Wickizer, the special mail agent for Utah, has several times expressed himself to the effect that Mr. Hall was one of the most efficient postmasters in this part of the country.

**Assignment of Chief Justice White.**—The following has been made public—

PROCLAMATION.

Utah Territory, } ss.  
Executive Office.

To all whom it may concern:

Know ye, that whereas the honorable Alexander White, recently appointed by the President of the United States Chief Justice of the Supreme Court of this Territory, has duly qualified and has filed his commission and oath of office with the honorable Secretary of this Territory; and

Whereas it has been customary for the Chief Justice to reside in Salt Lake City and hold Court therein, within and for the Third Judicial District of Utah;

Alexander White, Chief Justice of the Supreme Court of this our territory, to do and perform all acts relating or pertaining to the duties of judge of said court, to take effect on the date of these presents.

In witness whereof I have hereunto set my hand and caused the great seal of the Territory to be affixed. Done at Salt Lake City, this first day of November, A. D. eighteen hundred and seventy-five, and of the independence of the United States the one hundredth.

GEORGE W. EMERY,  
Governor of Utah Territory.  
By the Governor,  
GEORGE A. BLACK,  
Secretary of Utah Territory.

**A Monopolizing Policy.**—Now that the winter season begins to set in, people naturally commence to buy their fuel. The demand for coal brings to light the fact that there is a dearth of the article from the Weber mines, but no lack of it from the coal beds of the Union Pacific Railroad Company. The asserted cause of this scarcity of Weber coal is not the lack of enterprise in home mine owners and coal dealers, but a monopolizing policy that, it is alleged, is being pursued by the Union Pacific Railroad Company, who are charged with running plenty of coal into market from their own mines and withholding cars from the Weber coal dealers, thus preventing the product of the latter from reaching this market. If such be the fact, this great Railroad Company are highly censurable, for perpetrating such manifest injustice upon the people. If the cars are really not forthcoming for the freighting hither of the Weber coal the Company could not well put forward the excuse that they do not have them in sufficient number to afford the accommodation required, for it would be a damaging admission to assert that the equipment of so large and influential a road is insufficient for purposes of legitimate business. We hope, for the credit of the Company, that the charges against them of unjust discrimination in their own favor are incorrect. However, it being a matter of general public

interest, we will gladly publish any facts in relation to the matter from parties who are correctly informed on the subject.

By Telegraph.  
AMERICAN.

NEW YORK, 1.—A dispatch from London says that E. C. Hinger and Feman, iron masters at Vienna, are reported suspended, also H. Knesler & Co., bankers of Leipzig.

W. T. McFelton, formerly of Johnson, Hirsh & Co., announces his failure to-day; it grows out of the failure of his firm, the members having given their individual notes for the debts due by the firm.

A letter from Russia states that the government is engaged in a vigorous raid amongst the "Socialist" agitators: arrests have been made in numerous places, among others at Moscow, Fulla, Odessa, Riazan, and St. Petersburg. In one village near Moscow thirty working men were seized by the police; some of the prisoners resisted the arrest, and one, M. Rogatcheff, believed to be a leader of the socialist movement, defended himself so desperately that he had to be killed. The police are reported under the impression that they have struck a blow at the stronghold and centre of the movement, which will put an effective stop to its further spread.

There was another large gathering at the revival meeting at the Brooklyn Rink this evening. Sankey sang—"Go Bury."

The *Evening Post's* Washington special says that President Grant has ordered the removal of the postmaster at Ogden, Utah, who is a Mormon, but not a polygamist. This is the first step towards the removal of all Mormons holding federal offices in Utah; the removal was opposed by Senator Sargent of California, on the ground that the incumbent had a right to his religious belief so long as he did not practise polygamy, and thereby break the laws of his country.

BALTIMORE, 1.—It is reported, to-night, that the schooner *Brata*, of Norfolk, foundered in Chesapeake Bay, yesterday afternoon; Captain Jerry and Wm. Burns, the mate, are said to have been lost, and two of the crew saved.

GALVESTON, Texas, 1.—A fire at Sherman, Texas, to-night, destroyed three blocks in the business portion of the town. At nine o'clock the telegraph manager reported that the fire had nearly reached his office, and he was preparing to move. The wires are now down each side, and it is supposed that the office is burned.

ST. LOUIS, 1.—The *Republican's* Kansas city special says that news from the Osage Indian agency is to the effect that agent Gibson has sent to the Cheyenne agency for one hundred cavalry, and with this support he expects to force the Indians into submission. Those Indians who are opposed to Gibson's late actions have ordered him to remove all his goods off the reservation. Superintendent Hoag has been sent for and he will probably quiet the disturbance and settle the matter in dispute on his arrival.

MANCHESTER, N. H., 1.—The Merrimac rose several feet yesterday and to-day, on account of the severe storm on Saturday night, and serious fears are entertained for the safety of the river wall, built by the Amoskeog company to straighten the river. The wall is built of solid masonry, fifteen feet high and nearly half a mile long. On account of the narrowness of the river channel and the great pressure of sand on the inside, about fifty feet of the wall shows signs, to-day, of giving way. The damage is already estimated at five thousand dollars. Other rivers in New Hampshire and Maine show a heavy rise. Several bridges and a dam and one mill have been swept away on Barret Creek and the Little Ossipee river in Maine.

WASHINGTON, 1.—Several pastors in this city, of different denominations, who were apprehensive that the government was about to abandon its peace policy towards the Indians, called on the President to-day, to express their conviction that such a course would greatly disappoint Christian people all over the country, and be a blow to the cause of Christianity throughout the world. The President, with great promptness and "precision," replied that he did not regard the peace policy as a failure, and that it not only would not be abandoned
