TODAY'S METALS:

SILVER 64% LEAD, \$4.00 CASTING COPPER 154

in manners of the second The week's business on the mining exchange closed with the sale today of \$,260 shares of stock for \$2,318. The buyers were apparently not out in force today, which accounts for the decline in the volume of business when compared with yesterday. In spite of this fact, however, the business of the week was very good. Altogether more than 107,-600 shares of stock were sold for the aum of \$51,396.32. Yankee Consolidated, Lower Mammoth, Star Consolidated and Grand Central received much attention for the brokers this week. Yankee has, however, weakened materially owing to rumors that the ore body is in conflict with the May Day lines. After being traded in at 23 on Monday, It has since weakened to about 16, but closes today with sales at 17. Lower Mammoth jumped forward on news that a strike of high grade copper ore had been made. From Monday's prices the stock sold up to 47, but it has since fell to 41, owing to information that the ore is not as rich as that which was first exposed. Star Consolidated opened at 60 on Monday, but it has ce weakened to around oi, presumably on account of the fact that shipments have been infrequent lately Grand Central closes the week quite strong compared with its standing at the beginning of the week, when it sold at \$5.60. Today the stock stands

around \$5.

Petro shows a strong decline today.

After standing around 23 for some time
past the stock sold down to 19½ today.

South Swanson let go several hundred
shares this week which carried the
stock down to \$1.15½ per share around

which price it still remains.
Utah of Fish Springs has sold up to 90 because of the payment of a 2-cent dividend, May Day stiffened up during the week to around 32. It closes the week around 30. Bullion Beck is a little stronger owing to improvements in the Muldoon claim.

FLUCTUATING.

Over 107,000 Shares of Stock Sold | The Quotations Today Show Big Gains This Week.

GRAND CENTRAL IS STRONG IMPORTANCE OF TUNGSTEN.

New Uses for It Should Increase Value of Western Deposits-Mammoth Dividend Posted.

Not for a long time has silver showed such fluctuations as have occurred during the past few weeks. It was hoped that when it was quoted at 64% per oz. on the 5th and 6th inst that it would not recede so rapidly to 62%, but its sud. den rise is now quite as surprising. A gain of % of a cent per oz. is recorded since yesterday. This brings the price to 64% today as compared with 62% on Monday, showing a gain of 11/2 cents per oz. this week.

Various reasons are alleged for the advance, but it is probable that extensive purchases for the far East has had the greatest effect in sending the price up. The silver market is controlled from London and in spite of idle talk to the contrary, the American Smelting & Refining company is not big enough to materially affect the quotation of the white metal from day to day.

WILL VISIT THE MINES.

May Day and Yankee Con. People

Will Decide as to Ore Location. Secretary F. W. Muhlenbruch of the May Day and Capt. Egan of the Yan-kee Con. expected to visit the mines this evening to peacefully decide which property the Yankee Con. workings are located on. It was known some time ago that the upraise where the ore was found was not within the May Day lines, but in the course of working since then the ore has been followed back some distance towards the May Day, and it may be possible, Capt. Egan says, that the ore has entered the May Day ground. However, it is expected that the matter will be amice ably settled. To see the folly of the ably settled. To see the folly of the lawsuit rumor one has only to think that only a few cars of ore have yet been shipped, which would not be worth fighting over in court.

TUNGSTEN DEPOSITS.

Are Being Successfully Mined Near Bridgeport, Conn.

According to the New York Tribune the deposits of tungsten at Oceola and other places in Nevada-some of which other places in Nevada—some of which are owned by Salt Lake men—are over-shadowed by the big deposits which are being mined at Long Hill, near Bridgeport, Conn. The wolfram and elite are there found in combinahe week to around 32. It closes the veek around 30. Buillon Beck is a little stronger owing to improvements in the Muldoon claim.

The closing figures were posted as follows: Bid. Asked.

Bid. Asked.

55 to \$650 a ton, and the owners of this mine control the world's market for tungsten. It appears from this account that the American Tungsten Mining and Milling company was formed a little over a year ago and has been working the mine since September and erecting a plant. The minerals are being used by the United States government in a series of experiments to find projectiles that will pierce the heaviest and hardest armor plate. The resident chemist is Professor Herbert Shiistone, late of Barbados, British West Indies. Mr. Shiistone is one of half a dozen chemists in the world who have analyzed or who know practically another about wolfram or schedilts. wolfram or scheelite.

The vein of scheelite and wolfram which is now being worked, is from twelve to fifteen feet thick, and appar-ently of unlimited width. The ore is practically pulverized and thin, and passes through Hooper separators, and the valuable ore is taken out of the tail-

ings.
The American Tungsten Mining and The American Tungsten Mining and Milling company does not separate the wolfram from the scheelite. It is shipped to buyers as it comes from the separators. But the two can be readily separated by the use of a magnet, as wolfram responds to the magnet, and scheelite does not. The Krupp steel works of Germany have taken nearly all of the output thus far, A month ago, however, a large consignment was sent to an experiment station of the United States government, and recently it was demonstrated that a projectile with a tungsten jacket made from wolfram and scheelite would penetrate the hardest kind of harveyized nickel steel armor.

ITEMS FROM BINGHAM.

The West Mountain Will Not Start Before Spring.

Neptune is making a 3-car shipment of concentrates made at the Dewey. Hart & Jones' plan to send down four carloads of ore from their Black Dog (Red Wing) lease the last of the month. Yesterday a carload of Columbia copper concentrates went from Rogers' mill. The mill is now running on Old Leaden dumn ore.

Jordan dump ore.
The West Mountain Placer company

The West Mountain Placer company has decided to let its property remain idle until spring, when we understand operations are to be resumed.

The W. A. Farish report gives estimated amount of ore blocked out in Dalton & Lark mines at 200,000 tons. An indication is thus given that with completion of long drain and development tunnel, which will give upwards of 200 feet depth below main incline bottom, another private pyritic smelter will be among Bingham's acquisitions in the near future.

Mountain Gem was on the market

Mountain Gem was on the market again Monday with a car lot of good carbonate ore, and another will be shipped today; both from Hecock &

Chance mill will start another carload shipment tomorrow. It is still making but one shift a day and turn-ing out about a 30-ton product per

Yesterday the heavy frame work for ement of lower terminal of High-Boy tram was raised, and the tramway can soon be put in readiness to change to its increased capacity. Shawmut mill, power permitting, is turning out a carload of good concen-trates daily, running two shifts. The Shawmut had a carload of concentrates and one of crude on the market Wednesday, and another 2-car lot (mixed) will go down today.

Ross tunnel of Mountain Chief group

has now been run 890 feet. It passed some distance under a sag, but is now rapidly galning depth. Several very nice showings of mineral have been

ountered and the prospects are good that a paying mine will be opened.

John T. Hodson has started a small force has been started to work on the Alamo group. The old Alamo tunnon is in perhaps 300 feet on a large vein of copper ore, that is caving in places. Tunnel is to be cleaned out and thor-oughly timbered, when further driving and cross-cutting will be in order and active developments will be continued

The Alamo is in a most favorable lo-cality and ought to prove a treasure

Mammoth Dividend Posted.

As foreshadowed in last night's "News," the Mammoth Mining company posted its dividend of 5 cents per share, or \$20,000, today. This sum will be paid on November 1st, the books to close on the 25th inst.

MINING NOTES.

The Katherine of Stockton had a car of ore on the market today.

Ed McCarrick went to Mt. Nebo district today on mining business. Leasers on the Red Wing of Bingham

marketed a car of crude ore today. The Ophir Hill was on the market today with five cars of concentrates. A car of concentrates from the Col-

today. The Horn Silver of Frisco had three cars of concentrates on the market to-

umbia of Bingham was on the market

It is reported that the Joab Lawrence estate has resumed operations at the Vallejo, at Alta.

Streaks of lead are reported to be en-tering the drift off the tunnel level of the Ben Butler at Bingham. Messra, McCarrick and Page have re-

turned from the Red Wing Extension and report 50 tons of milling ore on The Tesora vein has been drifted on for a distance of 700 feet and, excepting 150 feet, ore has been found for all that

The Taylor-Brunton Sampler report. ed six cars of ore from Stockton n Bingham and three from Frisco

A new tunnel, 650 feet long, is to be started at the Asbrook property in Box-elder county which will tap the vein

about 500 feet on its dip. A new ore bin is being built at the Star Consolidated of Tintic. At the same time a force of men are working on the 400-level and after a couple of weeks it is expected that shipments will

Tooele Transcript: Two loads of ore passed through Tooele from the Apex mine in Dry canyon at Willow Springs, Deep Creek. The mine is owned by C. Deep Creek. The mine is owned by C. A. Carlgreen and shipments are made across the desert by team. The shipped ore goes 130 ounces in silver, 45 per cent lead, \$3 dollars in gold and 4 per cent copper. In the two loads were 50 hundred of such kind of ore. Mr. Carlgreen reports the road on Johnston pass almost impassable for teams. The road should be fixed right away. should be fixed right away.

Mr. J. P. Lindsey, of Bingham, has been in Tooele looking after some min-ing claims he owns in Middle canyon. He had just discovered that some of the people locating grazing land in that canyon has covered some of his mining laims, and he proposes to make it hot for the locators, as they have to swear there are no mining claims, or mineral, on the lands they enter. Mr. Lindsey and other miners of Bingham will en-ter a protest against the land being granted for any other purposes than

BUSINESS NOTES.

The week has witnessed several large deals in stocks, mostly in sugar. Sales have been made in Lehi at \$15.30, and brokers have orders on hand for more, but are unable to supply it. One local party desires a block of \$5,000, but could not be accommodated up to noon today. Ogden has advanced to \$160. The actdue to the high price being obtained for the product. At Lehi, an average of 2,000 to 2,400 bags is being turned out daily. Over 25,000 tons of beets have daily. Over 25,000 tons of beets have been received up to this time, which is not yet one-half of the total. The board of directors will make their annual inspection of the plants on Monday, going down on the Rio Grande Western special at 8:45 a. m., ad returning at 4:30 p. m. Springville, Lehl and Bingham Junction will each be vietted.

Merchants have been eagerly awaiting the change in the weather, and now that it has apparently come, a bright-ening up is looked for in various lines. Following are the latest quotations of

BANK CLEARINGS.

The total clearings of the United states for the week ending yesterday amounted to \$1.695,493,162, a falling off of 132 per cent from the same week last year. Salt Lake's clearings for the same week were \$2,556,174, a decrease of the person only one per cent. These figures put us in advance of Rochester, New Haven, Hartford, Los Angeles, Portland, Me., and Des Moines. Denver clearings were close upon five millions, and those of Seattle \$3,100,000.

CAINS THROUGHOUT LIST.

Prices Confused Because of Realization in Some Stocks and Aggression in Others.

The Closing Was Furiously Active and Buoyant at the Very Top Level.

New York, Oct. 20 .- There was active trading at the opening of the stock market and prices moved up throughout the list. Gains in the steel and traction stocks were most marked, but very large blocks of the leading railroad stocks changed hands. The western railroad stocks generally were conspleuous.

The movement of prices became very much confused through large realizations in some stocks, and aggressive strength in others. Declines were not large outside of People's gas, which lost 14. Business became less active later, but towards 11 o'clock the market became generally strong under the leadership of tobacco, Louisville, Pacific Mail and the iron and steel stocks.

The demand for stocks continued very active and broad into the second hour, but the offerings so nearly balanced the buying that prices showed very little variation. The American hoop stocks and Federal steel advanced 2 to 24. The bank statement showed an unexpectedly large shrinkage of reserves, but speculative sent nt was apparently not affected, and the large buying continued with undim-inished confidence, and with no yield-ing of prices. The closing was furious-ly active and buoyant at the top level.

A New Catarrh Cure, Which is Rapidly Coming to the Front.

For several years, Eucalyptol, Guala-col and Hydrastin have been recog-nized as standard remedies for catarrnized as standard remedies for catarrhal troubles, but they have always been given separately and only very recently an ingenious chemist succeeded in combining them, together with other antiseptics into a pleasant, effective tablet.

Druggists sell the remedy under the name of Stuart's Catarrh Tablets and it has met with remarkable success in the cure of pasal catagrib, bronchial and the cure of nasal catarrh, bronchial and broat catarrh and in catarrh of the

Mr. F. N. Benton, whose address is care of Clark House, Troy, N. Y., says: When I run up against anything that is good I like to tell people of it. I have en troubled with catarrh more or less some time. Last winter more than over. Tried several so-called cures, but tild not get any benefit from them. About six weeks ago I bought a 50 cent box of Stuart's Catarrh Tablets and I on giad to say that they have done conders for me and I do not hesitate o let all my friends know that Stuart's catarrh Tablets are the right thing.

Mr. Geo, J. Casanova of hotel Griffon Vest 2th street, New York City writes:

have commenced using Stuart's atarrh Tablets and sirendy they have given me better results than any catarrh cure I have ever tried. A leading physician of Pittsburg ad-vises the use of Stuart's Catarrh Tab-lets in preference to any other treatent for catarrh of the head, throat or

He claims they are far superfor to nhalers, salves, lotions or powder, and tre much more convenient and pleasant to take and are so harmless that little shildren take them with benefit as they contain no optate, cocaine or any pol-All druggists sell Stuart's Catarrh Tablets at 50 cents for full sized pack-age and they are probably the safest

Protective Policy

OF THE

O'S PICTORIAL Is a universally recognized fact, Patrons of the "Great Overland Route" are assured that every device of human skill has been adopted to protect them against accident. Millions of deliars have been spent by the Union Pacific Railroad company in the improvement of track and equipment. The line is renowned for its unparalleled speed record, reliability for maintaining time schedule, and for the general superiority of its service.

All tickets good via Denver without extra charge.
