GENERAL.

WASHINGTON, 29.—The following appointments were made to-day: W. H. Haines, commissioner of customs; L. H. Douglas, son of Fred. Douglas, member of the council of the Legislative Assembly of the Territory of Columbia; E. W. Little, of New Mexico, Wilson H. Griffith and Henry Proboscio of Ohio, commissioners under the act to provide for the centennial celebration of Independence at Philadelphia.

A recent letter from General Grierson mentions that a large number of young men of the Kiowa tribe had been seen going westward rapidly, though several of the leading chiefs were in pursuit of them. In the recent attack of Indians under Satanta and Satauk, three Indians were killed; two died afterwards of their wounds, and two others are expected to die.

A party of Indians attacked Whal-lernor Ranch, on Red River, June 3d, and were repulsed with three killed. One citizen was killed.

NEW YORK, 29.—The Kimball palace car, of California wood, is on exhibition here, and elicits much praise. Over twelve thousand persons have visited it since it left San Francisco.

BRUNSWICK, 28.—The express train from Boston was thrown from the track near Freeport, yesterday, by a break.

NEW ORLEANS, 29.—A Shreveport dispatch reports the steamboat *Red Cloud*, with nine hundred bales of cotton on board, burned to the water's edge at Montgomery, Georgia.

NEW YORK.—W. Douglas, the owner of the yacht *Sappho*, challenges any yacht on the Atlantic coast to sail, with an eight knot breeze, twenty miles to windward and return for five thousand dollars. It is said Lorillard's yacht *Wanderer* will accept.

Michael McLaughlin, of Philadelphia, who shot Jos. McKee, of that city, about a year ago, gave himself up to officer Frazer of the Broadway squad to-day, stating that the case had so preyed on his mind that he could not rest. He was taken to the Central office and locked up until advices were received from Philadelphia.

EUREKA, 29.—At eleven o'clock last night the stage of Woodruff & Ennor, en route from Palisade to Eureka and Hamilton, was robbed at a point two miles south of Mineral Hill. The robbers were only two in number, and both were well armed, and disguised to some extent. One was a large man, who evinced no trepidity, but was as much at home in the act as if it were an every-day occurrence; the other was smaller and was nervous to a degree piteous to behold in a bold highwayman. He had occasion to handle his pistol and from awkwardness or fright he was more astonished than any one else when it went off. There were eleven passengers in the coach, one of them a lady. The stage was stopped while ascending a small hill and the driver was ordered to throw down the treasure box, which he did. The passengers were then taken to the front of the lead horses, where they were ordered to strip their boots and coats, when their hands were tied and the robbers then examined them for money and valuables. They got about three hundred dollars in all, while one of the passengers had that amount in a vest pocket which was undiscovered.

FOREIGN.

MARSEILLES, 28.—The court has sentenced Cremieux, Etienne and Pensier to death; and Ductes, Martin, Nastong, Breton and Chachat to transportation for ten years.

BERLIN, 29.—The chancellor calls in the first issue of fifty one millions of German bonds; the interest ceases in January.

The American delegates to Russia were banquetted at Richmond by the wangelical alliances.

McMahon has declined the Paris candidature for the Assembly.

Pouyer announced yesterday that in less than six hours 4,500,000,000 had been subscribed; Paris alone subscribed 2,500,000,000. The final result in the provinces is not yet ascertained. This state of things enables the country to fulfill its engagement and hasten its deliverance. They will not wait for the dates fixed for paying the indemnity in installments.

Terrible riots have occurred among the miners in the Imperial iron works at Konigshutt, Silesia. The office of the superintendent of mines and prisons was destroyed by the rioters, who

commenced plundering the Jewish residents. Uhlans cleared the streets, killing seven miners, wounding thirty and arresting sixty. Martial law is proclaimed.

LONDON, 29.—In the House of Lords to-night, Lord Oranmere introduced a resolution expressing regret that the queen had been advised to sign the treaty of Wshington, a bargain so unbecoming the honor and dignity of the country. Its conditions, he said, were in conflict with the instructions given, and irritated Canada without conciliating America.

Earl Airtic defended and praised the treaty.

Earl Lamberton said it gave everything to the U. S., without securing an equivalent for England.

Lord Houghton was satisfied with the compact because it would prevent a future quarrel.

Granville closed the debate with a vigorous defence of the action of the government and the motion of Lord Oranmere was defeated.

BERLIN.—The Emperor has granted an amnesty to all natives of Alsace and Lorraine under sentence for political or military offences.

ST. PETERSBURG.—The government has suspended the publication of the *Moscow Gazette*, for disobedience to the law against libelous language with regard to the Constitution and authorities.

PARIS, 29.—The review of the army at Long Champs, to-day, was a success. Nothing occurred to mar its effect. All of the members of the military, and deputies of the Assembly were present. The troops showed much enthusiasm and repeatedly cheered Thiers. Military medals were conferred on Generals Vinoy and L'Admirault. A large number of promotions in the legion of honor were announced.

The *Patrie* denies that there is any truth in the rumor of a triple alliance between Russia, Prussia and Austria.

Gambetta, in a speech at Bordeaux, protested his loyalty to the present government.

The illness of Rochefort has become so serious that the physicians have had a consultation over his case.

LONDON, 30.—Correspondents agree that the review and the loan are successes. One says that with the Parisians revenge is uppermost, and they still hope for an attempt to re-adjust the frontier.

A cab strike is apprehended in London.

Gambetta arrived yesterday and has received many visits. The sentence of death on Cremieux will probably be commuted.

Sixty thousand masons are repairing Paris, which is being thoroughly disinfected. The papers express dissatisfaction at the success of the review. A circular from M. Rouher to the electors affirms that he is a defendant of free trade. In relation to the form of government for France, he says the nation must decide afterwards.

Gambetta in his Bordeaux speech, on the development of education, was much applauded.

The *Official Journal* speaking of the review, says: "We show Europe the army of a hundred thousand valorous men, admirably commanded, who saved civilization. We have also called for two thousand millions of francs and five milliards have been offered. The nation is evidently recovering."
