AMERICAN.

CINCINNATI, 14.—A Cleveland dispatch says: A large vote is being polled. The republican majority for the State ticket will be about the same as last fall. It is estimated that Foster's majority will be 15,000.

J. H. Taylor, who is claimed to be from Chicago, attempted to vote in the Second Ward and was arrested. Five colored men were lodged in the station house on the charge of suspicion. There were several others arrested for alleged attempts at illegal voting. Voting generally is proceeding peaceably.

Midnight—The vote polled in this city and county was probably the largest in its history. The day was clear and pleasant, and a large number of business men were at the polls during part of the day. Returns are coming in very slowly; not one-fifth of the vote yet being known. If the republican gain in those places reported continues, the majority in the county will be about 3,000. The name of Williams, the colored candidate for the legislature on the republican ticket, has been extensively scratched, but it is not unlikely that Williams and the whole republican ticket are elected.

The weather throughout the State was very fine. The indications are that the heaviest vote ever known has been polled. Statements of losses and gains will be based upon the vote for Secretary of State in 1878, when the republicans carried the State by 3,000 majority.

The republicans claim the legislature on report by 4,000 republican majority. Cincinnati and Hamilton County democrats do not concede this. Four hundred and forty precincts, wards and townships give a net republican gain of 6,628.

Chicago, 14.—Returns from 16 voting places in Iowa give Gear, 4,432; Trimble, 1,977; Campbell, 682. Outside of this Gear has in various polling places, 2,149 majority, so far as reported. The republicans have gained in all cases but one, Marshalltown. Franklin County will give Gear an unusually large majority.

Iowa returns from 21 voting places: Republican vote, 6,146; democratic, 3,081; greenback, 1,198; a considerable number of scattering prohibition votes. Besides this, there are other republican majorities aggregating 4,140.

11 30 p.m.—At this hour the returns received by the republican State committee, and by the State Register, indicate that the republican majority on the State ticket over both democratic and greenback tickets will be at least 20,000. Mr. Russell, chairman of the republican State committee, estimates that it will be 25,000. This will be a gain of 27,000 over two years ago, and 16,000 over last year. In the Fifth congressional district, Thompson, republican, is undoubtedly elected over Calhoun, fusion. Legislative returns indicate that the republicans will have a majority on joint ballot of 65.

Newark, N.J., 14.—The city election to-day gives nearly 2,500 majority for Fiedler, democrat, over Macknet, republican, for mayor. The German vote, heretofore republican, was almost solid for Fiedler, the main issue being on a liberal construction of the Sunday law. For the common council the republicans elect eight, the democrats seven. The new common council will stand 18 republicans, 11 democrats and one liberal. The democrats are celebrating the result by a procession and music.

CHEYENNE, 14.—Ft. McKinney, Wyo., Oct. 14.—Great excitement prevails in this vicinity on account of the recent rich discoveries of gold-bearing quartz in the Big Horn mountains, about 75 miles northwest of this post, at the head of Tongue River. Large numbers of miners are passing through this place en route to the mines. Nearly all the citizens of this section are leaving for the mountains. Ore has been assayed with the following results: The lowest \$4, the highest \$70 per ton.

DENVER, 14.—It is understood that subscriptions to build the extension of the Denver and Rio Grande railway are to be at once utilized. The conflict in relation to the right of way to Leadville through the Grand cañon of the Arkansas will be disposed of this

month, as the case is ready for submission to the court. The Rio Grande Company expects to complete the line to Leadville at an early day thereafter.

CUMBERLAND, Mo., 14.—The Borden Coal Company resumed to-day several small companies resumed yesterday and to-day, and two more resume to-morrow, all at 50 cents per ton.

SAN FRANCISCO, 13.—A Vancouver dispatch says: The *St. Paul* arrived at 5.45. At every town on the river Grant was cheered by assembled crowds. Several isolated houses attracted attention with shotguns and waived flags and handkerchiefs. A salute of 21 guns was fired on the dock. The Twenty-first Regiment band played, "See the Conquering hero comes."

All the troops and the whole population of Vancouver gathered at the dock on the *St. Paul's* arrival, 200 citizens bore torches. A delay of an hour occurred before the party make its appearance. At 6.45 Gen. Grant came on deck and was introduced by Gen. Howard to the officers of the post and to Mayor Johns, who said: "I had the pleasure of landing with you here twenty-seven years ago," and to the committee on reception, General Grant taking the arm of General Morrow, walked to the end of the dock where the soldiers greeted him with cheers. The party then took carriages for General Howard's residence, preceded by the band and soldiers. General Howard's residence, the company barracks and the House of Providence were brilliantly illuminated; bonfires blazed on Main street, and flags were stretched across the street at various points. Shortly after the Grant party arrived at Howard's residence Gov. E. P. Terry, Sec'y. N. Howings, Surveyor Gen. Wm. McMickler, Auditor T. M. Reed, Major J. R. Hayden, Judge John P. Hoyt, Hon. F. H. Cook, president of the council; Hon. Geo. H. Steward, Speaker of the House, and 30 members of the legislature entered the house in a body and took places in the east parlor, Gov. Terry welcomed Gen. Grant, in a brief address, to which the general feelingly responded.

At the reception all officers of the post and their wives, and many prominent citizens of Vancouver, called. Grant will meet the citizens of Vancouver to-morrow morning. He goes to the cascades on Wednesday and Salem on Thursday.

SAN FRANCISCO, 14.—A Portland dispatch says: All preparations having been perfected by the citizens' committee, the steamer *City of Salem*, left this morning at 9 o'clock for Vancouver, having on board the reception committee and members of the press. The steamer arrived at Vancouver about 10.30; at 11.30 the *St. Paul* started for Portland with Gen. Grant and party, accompanied by the *City of Salem*. Just before leaving the wharf for Portland, Hon. H. W. Corbett, chairman of the committee on reception, made an address of welcome, to which General Grant replied in a few words, simply expressing his thanks. The steamers reached the city about 2.30, and amid the thunders of artillery, clanging of bells and screaming of whistles, the *St. Paul* came alongside the dock. At least 20,000 persons had assembled in the vicinity, awaiting the arrival of the distinguished guest. Every house-top and available nook was crowded, and the streets for a large number of blocks were filled with a mass of surging humanity. Gen. Grant was met at the wharf by Mayor Thompson, who said:

"Gen. Grant, as mayor of the city of Portland, in behalf of the citizens of this city, I extend to you a cordial welcome, and tender you the hospitalities of Portland." Gen. Grant simply replied: "Mayor Thompson, I thank you."

The party were then escorted to the carriages in waiting, and the procession, under charge of Grand Marshal Col. McCracken, at once formed.

Leaving Flander's wharf the procession moved up E Street to First. When it arrived opposite the custom house and the Central School building, all the children of the public schools, to the number of 2,000, were ranged along the sidewalk dressed in gay holiday attire.

When the carriage containing General Grant came opposite the centre column of the pupils, the procession halted, four little girls, each bearing in her hand a large and eloquent bouquet, stepped forward from the front line and ad-

vanced to the carriage in which Grant sat and presented him with the floral offerings. He took the tributes and bowed his thanks, when the quartette withdrew and resumed their places in line. Two thousand childish voices immediately struck up the national anthem "America." At the close of the song the 21st Regiment Band responded and rendered an appropriate air. The procession then resumed its line of march. These exercises were witnessed by many thousands and constituted one of the most pleasing and attractive episodes of the day's demonstration.

Continuing the march the procession moved down Morrison to Front, and down that street to the Clarendon Hotel, where General Grant and party are stopping. The city is attired in gay holiday trappings, and Front and First Streets present to the eye a perfect wilderness of flags and bunting for nearly a mile. The shipping in the port is displaying a profusion of flags and streamers on every hand. The enthusiasm assumes a form quite extravagant. For hours before the procession moved and during the time it was in motion, the streets were jammed for many blocks by eager and enthusiastic thousands.

NEWARK, N.J., 15.—Full returns from the city elect Fiedler, democrat and liberal by 3,367 over Macknet, republican. Total, Fiedler 12,573, Macknet, 9,206, Robinson, greenback, 167.

BALTIMORE, 15.—At the Front Street Theatre in a new variety show to-night, in the last act of the play of "Raving Jack," in which a discharge of musketry takes place, a young man named John Nelson, of Queen Anne's county, Md., a medical student at the University of Maryland, who was seated in the audience, was fatally shot from the stage. One of the muskets had been loaded with ball instead of a blank cartridge. Nelson was shot through the head.

CLEVELAND, 15.—This morning a passenger train No. 1, due here at 6.30 a.m. from the east, on the Lake Shore Railroad, ran into the rear end of a freight train at Glenville, Ohio. Three clerks in the postal car and the engineer of No. 1 were slightly injured. One lady passenger was also slightly bruised, but her injuries are not serious enough to prevent her from proceeding to her destination. A dense fog prevailed at the time of the accident.

BOSTON, 15.—Henry J. Gunn, who murdered his father in Bridgewater, September 25, was arrested last evening. He claims that the murder was justifiable, his father having provoked him beyond endurance.

ST. LOUIS, 15.—The *Globe Democrat* special from Independence, Mo., says: Two desperadoes, named Stevens and Campbell, were arrested at Holden, Mo., last night, on suspicion of having been engaged in the robbing of the express train at Glendale last Wednesday night. They live in the vicinity of Holden, were absent from home for two days before and after the robbery and returned with considerable money. They were shadowed by detectives, and their actions led to their arrest. They were taken to Kansas City this afternoon and lodged in jail. The opinion is confidently expressed that the whole gang live in Jackson and adjoining counties and have been secreted within 15 miles of Glendale until some 36 hours ago.

FOREIGN.

LONDON, 15.—Field Marshal Count Von Moltke, of the German army, has reported to the Emperor that a considerable increase of the military defences of Alsace-Lorraine will be necessary.

The Russian press is very impatient about the dearth of news from the Central Asian expedition, especially as no effort has yet been made to reconcile the apparent contradictions and official reports of the action at Geoktepe. Meanwhile a letter from Tiflis, published in the *Golos*, says: Grave apprehensions are felt there for the safety of the expedition. The letter describes the invalid men arriving at Baker as being in a miserable plight and says that a number of them have died of diphtheria and scorbutic diseases and that medical necessities were insufficient. The truth about the Geoktepe affair is gradually leaking out. The assault on the Dargiltep earthworks was made on the Plevna

pattern and after an ineffectual cannonade the Russians made a rush with fixed bayonets, but were repulsed and retreated in disorder. The Turcoman cavalry, attacking the Russian flank and rear, created such confusion that when the vanguard reached the main force in reserve, the latter was unable to stem the tide of retreat and was itself compelled to retire 40 miles before order was restored. According to private intelligence received in St. Petersburg, the Russian loss is much greater than the official reports admit.

Your committee have made a thorough examination of William Jennings' farm, situated in Davis County, containing more than 100 acres. The farm is fenced all around with a good substantial board fence with cedar posts and sub-divided into eight fields having the same quality of fence. There are trees planted seven feet apart nearly all the way around the farm and on the lines of the division fences. The trees consist of several varieties, such as black walnut, elm, box elder, cherry and mulberry. There is an enclosure of about three acres, wherein there is a fish pond of about one acre, fed by spring water and well stocked with fish. The balance of the enclosure is well stocked with red clover and two groves of thrifty trees, besides those planted at the edge of the pond. The hay produced on the farm is of the best quality, consisting of Kentucky blue grass, timothy, red clover and red top. We believe the farm to be the best fenced and cultivated of any of its size in the Territory and we unhesitatingly award to William Jennings the "first prize" diploma, and the Morrison sulky plow offered as a premium by H. B. Clawson, agent.
