**DEATHS.**

RAND.-At Lowestoft, Norfolk, England, December 7th, 1884, Mary Ann Rand, relict of the late Captain John B. Rand. She was a dutiful wife and the mother of 12 children, nine of whom are now living and two of whom embraced the Gospel and gathered to Zion.

Sister Rand was born at Withersdale, Norfolk, October 5, 1822; was baptized a member of the Church of Jesus Christ of Latter-day Saints by Elder John Rackham, and confirmed by Elder Samuel Neslen, July 15, 1850. She has proven true to her covenants to the end. The Elders have ever met with a welcome at her home. She will be missed by a large circle of relatives and friends. She died with a smile on her face—her only anxiety being that but two of her children living had embraced the Gospel. Her last words to her son Charles, who was at her bedside when she departed this life, were, "It is too bad that none of you have received the Gospel, but the time will come when you will." May she rest in peace.—*Millennial Star.*

REYNOLDS.-In South Cottonwood, December 14, 1884, of typhoid fever, John W., son of Warren F. and Edna M. Reynolds, aged 34 years, 7 months and 4 days.

**DANGEROUS SUBSTITUTES****HORSFORD'S ACID PHOSPHATE**

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or P ro-Phosphoric Acid, which are declared by the highest authority to be **poisonous**. The same preparation also contains Chlorine Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK.
