

GEORGE J. GOULD QUITE OPTIMISTIC

Before Sailing for Europe He Expresses Himself on the Business Outlook.

TO ATTEND SISTER'S WEDDING

Marriage to Prince Helle de Sagan Will Take Place With His Consent and Blessing.

New York, June 9.—Before sailing for Europe on the steamer Prinzessin Cecilie today, George J. Gould said he felt that in going away he is leaving his properties in a comfortable position. He expressed himself as "moderately optimistic" on the general business outlook. In this connection he referred to the earnings of the Western Union Telegraph company, which, he said, he looked upon as the best criterion of general business, and said they are showing a smaller ratio of decrease by comparison with last year. He said political agitation against the railroads in the southwest had made a difference of between \$4,000,000 and \$5,000,000 in the net earnings of the Missouri Pacific, and added: "The stockholders may figure out for themselves what this means."

Referring to the troubles of the Wheeling & Lake Erie and the Washburn-Pittsburg Terminal, Mr. Gould said: "The receivership for the Wheeling & Lake Erie was inevitable after the Washburn-Pittsburg Terminal had defaulted. The Washburn-Pittsburg Terminal company was, unfortunately, overcapitalized. We probably could have carried it through, but I thought it was time to stop on behalf of the Washburn. The Washburn is a fine property with great earning powers, and it will not be permitted to become further involved."

Asked if he had abandoned any part of his transcontinental railroad idea, Mr. Gould said: "Every youngster has to have the measles and the whooping cough, and I don't know that they are any the worse afterward."

Mr. Gould said the Wheeling & Lake Erie receivership marked the end of the readjustments that were necessary to be made to his properties.

Mr. Gould is quoted as having said: "I expect to attend the wedding of my sister, Anna Gould, to the Prince Helle de Sagan. The marriage is to take place with my consent and blessing and with the full consent of all the Gould family."

JEFFREY TALKS.
New York, June 9.—E. T. Jeffrey, who is intimately familiar with the various properties in the Gould system, said today:

"The \$8,000,000 notes of Wheeling & Lake Erie Railroad company which mature on August 1, will be protected, but just how this will be done has not been definitely decided. There are still nearly two months in which to act upon this matter. Regarding the future of the Wheeling & Lake Erie and Washburn-Pittsburg Terminal, it may be stated in a general way that it has been decided by the directors of the companies that the lines in the Gould system east of Toledo could be developed through a reorganization."

"This will be brought about in due time, but will not be hurried."

IMMUNE COWS FOR ISTHMIANS.
Washington, June 10.—Twenty Jersey milk cows raised in the Texas fever country and that they may be immune from that affection are at New Orleans awaiting shipment to the Isthmian canal zone where their milk is to be used for the hospital patients. Heretofore the commission has endeavored to introduce

the cow into the canal zone with a view of furnishing natural milk but with unsuccessful results. Condensed milk is used largely by the employees of the commission.

RACE TRACK GAMBLING.

Investigation of Charges That Corruption Fund Raised Begun.
Baton Rouge, La., June 10.—Investigation was begun today of sensational charges that a fund of \$50,000 will be sent in saving race track gambling in Louisiana from adverse legislation. These charges were commented on in the assembly yesterday and last night. Gov. Sanders ordered that the houses today take steps to appoint a special commission to investigate whether such money had been used and whether such laws existed. He also ordered a special session of the grand jury immediately to investigate the corruption fund charges.

The Locke bill to abolish all forms of betting on horse races was posted for final action by the house today.

ANNA GOULD'S MARRIAGE.

Will Take Place Outside France to Avoid Any Unpleasant Incident.

Paris, June 10.—In order to avoid the possibility of any unpleasant incident, it has been definitely decided that the wedding of Anna Gould and Prince Helle de Sagan will take place outside France. Although the time and place of the ceremony are still rigidly guarded, it can be said that the couple will be married before the end of this month and probably in England.

Mr. Gould greatly pleased that her brother, George Gould, left New York yesterday for Paris, is to be present at the ceremony.

EMPRESS AUGUSTA VICTORIA FALLS FROM HORSE

Potsdam, June 10.—Empress Augusta Victoria, while out riding with the Emperor today, fell from her horse. Her majesty suffered no injury and returned to the new palace in a cab. Two surgeons upon examination found she had suffered no injury, excepting a severe bruise on the back of her right hand, which was bleeding.

PTOMAIN POISONED GUESTS ARE RECOVERING

Paris, June 10.—The guests of the Automobile club, some 300 persons, who were poisoned by ptomaines at a banquet last night given by the club, are recovering, excepting one person, who died last night.

CAMPAIGN AGAINST SMUGGLING IN PHILIPPINES

Manila, June 10.—The government plans to construct a fleet of swift cutters for a campaign against smuggling in the southern islands, where an extensive illicit traffic in opium, Chinese and various dutiable goods is carried on, practically unchecked. The cutters are to be stationed at strategic points and the islands of Mindanao and of the Jolo group. Hundreds of virtuous and other craft are engaged in the trade which has been carried on for years, practically unchecked. The cutters are to be stationed at strategic points and the islands of Mindanao and of the Jolo group. Hundreds of virtuous and other craft are engaged in the trade which has been carried on for years, practically unchecked. The cutters are to be stationed at strategic points and the islands of Mindanao and of the Jolo group. Hundreds of virtuous and other craft are engaged in the trade which has been carried on for years, practically unchecked.

SUES FOR DIVORCE.

Mrs. Grace-Snell Coffin-Walker, Coffin-Layman-Love Files Complaint.

Chicago, June 10.—A dispatch to the Tribune from Los Angeles says: Mrs. Grace-Snell Coffin-Walker-Coffin-Layman-Love filed suit for divorce from Hugh M. Love again yesterday. This is the second time she has filed this suit, and Love is her third husband. The allegations are the same as when the suit was filed April 14—extreme cruelty being the principal ground. Mrs. Love's brother came here from Chicago and advised her to withdraw the suit. When she went home she filed it again.

A Gentle Dose That Never Needs Increasing

A small dose of harsh physic—salts, castor oil or pills—soon ceases to be effective. Then you take larger doses. Else you take the physic more frequently. That is because the physic is irritating. The bowel lining grows hard, just as the skin becomes calloused by constant irritation. Calloused bowels can't perform their natural functions. The result is chronic constipation—the need of constant help.

Such physic belongs to an ancient era. Modern physicians have learned its effects and displaced it.

They now help the bowels gently and naturally. They use vegetables instead of minerals. Cascarets are purely vegetable.

They act just as laxative foods, just as exercise acts on the bowels. They don't harden the bowels—don't inflame the stomach—because they don't irritate. One small, sweet dose is always sufficient, unless the bowels are already calloused. Their use never causes pain.

Cascarets are candy tablets. They are sold by all druggists. Be sure to get the genuine, with C.C.E. on every tablet. The box is marked like this:

The vast-pocket box is 10 cents. The small-treatment box 50 cents. 12 small boxes sold annually.

FREE! FREE!! FREE!!!
Who will get the six pound box of chocolates by submitting the sweetest name for our chocolates?
EITE CANDY CO., 265 South Fifth West.

Now We're Sure
It's time to say something about our
Alaska Refrigerators.
They keep the food pure and sweet—that means health for every member of the family.
COME IN AND LOOK THEM OVER.

LIFE CONVICT APPEALS

To U. S. Supreme Court from Sentence Under California Law Imposing Death Penalty.

San Francisco, June 10.—J. W. Finley, a life-term convict in the Folsom penitentiary, who was condemned to death and sentenced to hang Friday under the new state law making it a capital offense for a convict sentenced for life to assault any person with intent to commit murder, has appealed to the supreme court of the United States and has been granted a stay of execution by the supreme court of California on his petition for a writ of error before the higher court.

Finley participated in the outbreak at Folsom in 1903, and was the first convict to be tried and convicted under the new law, a jury at Sacramento finding him guilty of assaulting a guard. His appeal to the supreme court of the state was denied. In his petition to the highest tribunal in the land, Finley made the point that the law under which he was convicted is repugnant to and in violation of the fourteenth amendment of the Constitution of the United States and that he has been denied the protection of the laws which is enjoyed by other persons under the same circumstances.

FELL TO HIS DEATH.

Little Boy Jumping on Spring Sofa Thrown Out of Window.

New York, June 10.—Pouncing on a soft beside an open window, 4-year-old Willie Witlick, living with his parents in East 104th Street and St. Nicholas Avenue, jumped once too hard yesterday afternoon and the springs tossed him high in the air and through the window. He fell five stories to instant death.

TO CONTROL BARKING OF DOGS.

New York, June 10.—An ordinance to control barking dogs and dogs running at large, was introduced Monday night by Councilman Charles H. Hartshorn, a Jersey City lawyer, in the Montclair, N. J. Council.

The ordinance provides that every time a dog barks or howls after 6 p. m. the owner must pay \$5 for the first bark and every following bark \$10. If Montclair dogs are allowed by their owners to bark or to attack anyone on the streets the ordinance specifies that such dog owner's fine shall be \$5 for the first bark and \$10 for every subsequent bark \$10 per.

MANILA BAND HONORED.

Manila, June 10.—The insular constabulary band is going to Australia as the guest of that government to participate in the coronation of the Australian king. The Philippine authorities donate the services of the band and Australia pays the expenses.

THERE'LL BE NOTHING TO IT BUT KEENE! YESNO?

New York, June 10.—That the suburban, the next big event in the Metropolitan racing season, will in all probability be added to the winnings of James B. Keene, is the opinion being expressed by horsemen. Mr. Keene's great horses, Colin, Cels and Ballerina are all eligible for the stake and some race followers are enthusiastic enough to predict that if Mr. Keene starts them he can win the race.

It may happen, as in other years, when Mr. Keene appeared to hold the Suburban safe, that something will turn up either before the race or during the race to prevent the spotted jacket from being carried to the front in the classic. At this time, however, Mr. Keene has every reason to anticipate a victory. Indications are that he not only holds the Suburban but barring accident, practically every other important race to come for horses of three years old and upwards.

CEREBRO SPINAL MENINGITIS VERY BAD IN NEW YORK

New York, June 10.—Despite the discovery of a serum shown by experiment to be effective in cerebrospinal meningitis, or spotted fever, reducing the death rate 50 per cent, no appreciable effect of its use is shown in the reports of the health department of this city, where the remedy was discovered. Dr. Simon Flexner, of the Rockefeller Institute, after years of work succeeded in perfecting a serum, which has been used in epidemic centers in Dublin, Vienna and in Cleveland. Its use has not become general here, through ignorance of the fact that it may be obtained at the Rockefeller Institute, or ignorance of its existence.

In 1905, when the disease was epidemic here, there were 2,755 cases reported, with 2,025 deaths; in 1906, 1,682 cases with 812 deaths and last year 802 cases with 642 deaths. It was said yesterday at the health department that all cases of the disease might not have been reported but the deaths have been. It was admitted that if the serum was generally used the result would at once be apparent.

Dr. H. Park, the head of the department's research laboratory, says that Dr. Flexner had asked the department to begin the manufacture of the serum. This would be begun, Dr. Park says, in July.

Dr. Park says his force of bacteriologists was now working to discover a serum for scarlet fever. The real germ of the disease has not been discovered, he said, although some scientists declare that the streptococcus was the cause. His department is on the alert for the discovery of a serum for tuberculosis, cholera, anthrax, typhoid and measles.

J. C. BRUSIE DIES SUDDENLY.

Los Angeles, Cal., June 10.—Judson C. Brusie of San Francisco, attorney, playwright and politician, who was released on \$15,000 bail following his arrest last Sunday on a charge of felony embezzlement, preferred by officials of the Metropolitan Surety company of New York, died today at the California hospital, where he was taken yesterday following his release. The immediate cause of death was heart failure, following an attack of nervous prostration precipitated by his arrest.

MONUMENT TO RUSSIAN DEAD.

Tokio, June 10.—Official telegrams received from General Baron Oshima and Count Nogi, have announced the successful unveiling of the monument erected on the slopes of Anthushan at Port Arthur, in memory of the Russian soldiers who fell there during the late war. The telegrams state that the Russian delegation has expressed much gratitude toward the Japanese participating in the affair.

TAMMANY'S TRIP.

On Way to Denver Will Stop at Kansas City for Divine Services.
New York, June 10.—A new feature of the trip to the national democratic convention at Denver has been decided upon by the Tammany legislative committee. It has been arranged that the train en route to Denver will stop over two hours at Kansas City and Omaha on Sunday, July 5, in order to allow the Tammany men who will go to Denver have been handed to Secy. Thomas F. Smith at the meeting. Over 600 names were handed in. Four special trains will be provided.

Yours and Ours

We supply to your children just as good food as we demand for our children.

We know that the wheat should be steam-cooked for six hours. So we do that.

Each berry should then be flaked so thin that the full oven heat gets to the center.

Then a fierce heat must be applied to break down the granules of starch. So we toast the flakes, for 30 minutes, at 400 degrees.

To make Mapl-Flake requires 96 hours.

There are many ways where this work could be slighted, and the taste would not show it.

Flaked wheat can be made, and is made, in one-fourth of the time we spend on it.

We could sell you the package for 10 cents instead of 15 cents, if we made those economies.

But we would not give half-cooked wheat to our children, so we don't to yours.

We know that starch, unless properly cooked, is insoluble. The particles are not separated so the digestive juices can get to them. So we spend 96 hours to get a food that's all food, all digestible.

And we flavor it with pure maple syrup, so that the food which is best for the child will be the food that it wants.

This flavor is expensive, of course, for we boil the pure maple syrup with the wheat when we cook it. But a child chooses food largely by taste. It is wise, for all concerned, to thus induce the child to eat the food it should have.

Mapl-Flake is the only wheat food which entirely digests. Our long process does all that is necessary. We use it in our homes. Please try it in yours.

The only food served in individual packages in hotels, clubs, cafes, and on dining cars.

POLITICAL POINTERS

Judge H. H. Rolapp and S. S. Smith of Ogden are the Weber county candidates for a place among the delegates who are to be selected to go to Denver and vote for Bryan. S. S. Smith was a member of the Utah legislature several years ago, and was formerly editor of a Democratic paper in Nebraska. He is well acquainted with Mr. Bryan, the acquaintance dating back to days before his political career brought him into general prominence. Judge Rolapp is well known as a Weber county citizen and both he and Mr. Smith have good backing among the Weber delegates.

John W. Snell, Democratic chairman of the Twentieth district, has called a primary for Wednesday evening at the south First West street, to choose delegates for Friday's convention, and elect a campaign manager.

June 27 the "American" party celebrates at Lagoon with a general display of fireworks both in the air and in oratorical outbursts.

The Young Men's Republican club will foregather Thursday evening to talk politics and prepare for a lively campaign.

C. C. Goodwin addressed the "American" club members at the Federation of Labor hall last night, with George R. Hancock in the chair. His address consisted of reasons why he thought the "American" party was destined to survive in Salt Lake.

MODERN WOODMEN.

Tomorrow to See Advent of Large Delegations En Route East.

Modern Woodmen day in Salt Lake will be tomorrow. On that day the Modern Woodmen from San Francisco and Los Angeles meet the Modern Woodmen from Seattle, Portland and the northwest and all join together here for the eastward excursion that will shape itself into a special train at Denver and carry them on to the Peroria convention.

Salt Lake's special interest in the western delegates Thursday is that an opportunity is presented to make them boosters for Salt Lake for the 1911 convention of the order. Salt Lake is out for this session and the Salt Lake delegation is heading a movement to send the visitors away in a frame of mind that will place them where they can't help but join in the movement.

Special sightseeing automobiles and street cars will be on hand to take the Woodmen over the city after which an organ recital will be tendered them in the tabernacle. The trip to Salt Lake or some of the outlying resorts will be made before the delegates pull out for Denver but this feature has not yet been fully decided upon.

CHANGE OF MANAGEMENT.

It is expected that within a week or so there will be a change in the management of the Volunteers headquarters. Capt McCoy has asked to be transferred to some other point and his request has been granted by Col. Wright of Denver. Before taking up his duties at a new post Mr. McCoy will take a vacation and a much needed rest. Mr. McCoy expects to go to Nevada in a few days where he has business interests. During the past six months Capt. McCoy and his assistants have done a great deal of good work here and have improved the headquarters to the extent of about \$2,000. There were two new cases for treatment this morning but neither of them were of a serious nature.

TRIED TO SELL NOTES.

R. Carman Arrested While Endeavoring to Dispose of Negotiable Papers.

Yesterday afternoon Detective Wheeling arrested a man giving the name of R. Carman and at the time of the arrest it was expected he would be charged with grand larceny but he will probably have to face no more serious charge than that of vagrancy.

Carman, it is claimed by the police, stole from R. S. Boyd, a traveling man for a whisky house, notes of the value of \$100, given by Boyd to B. E. West of the Colorado House, in payment for whisky purchased. The loss of the notes was reported to the police and Detective Wheeling was detailed to investigate the affair.

Yesterday afternoon he was in the office of a collector agency in the Atlas block when Carman entered and offered to sell two notes of \$50 each for the sum of \$90. The proposition was accepted by the agency and Carman was asked to endorse the notes. He was about to do so when he noticed Officer

On this day, 1885, De Sota landed. Thousands of housewives have landed on KAYSVILLE FLOUR. And are as delighted as was De Sota with America.
