one hundred and six years ago to-Cay Brigham Young was born in a utile Vermont village, and this afternoon the people of a great religious faith, well housed in a beautiful valley of the western mountains to which he led their forefathers, are meeting to do him honor.

The anniversary celebration is being held in Wandamere park, and in in charge of a committee of the great ploneer's descendants. At 2 o'clock formal exercises were opened by a of cannon which echoed on salute the distant hills where he first looked on the valley that he was to plan a few weeks later into a vast city with its wide streets and a great temple to symbolize the faith in God of its founders.

There are gathered at the park many hundreds of people, and after a program this afternoon an informal dinner will be held tonight, to be fol-lowed by dancing and other recrea-

following eulogy: Among the many illustrious names that brighten the pages of western American history, there is none that shines so luminously, there are few that will live so long, as the name of Utah's founder, Brigham Young. Doubtless much of his fame is due to the high po-sition that he held, as president of the church of Jesus Christ of Latter-day Saints; but this office, exaited as it is, would not have given him the place that he occupies in the history of his country. Place alone will not make a name illustrious. By their works will men be judged; not by the offices they hold, not by the names they bear, no, nor even by the ability they possess, independently of the uses made of it. Brigham Young was a genius, but that Brigham Young was a genius, but that is not all. He was a philanthropist, who used his great gifts and powers in such a way as to become a benefactor to mankind. That is his true title to greatness. That is his true title to greatness. OUTWITTING THE MOB. As early as July, 1888, the prophet had instructed the twelve apostles to take a mission to Europe, and the reve-lation commanding it gave the date upon which they should depart from the temple lot in Far West. This was before the mob troubles began, before the saints were driven, and before there was any prospect of such a calamity. But now all was changed; the expul-sion was an accomplished fact, and it was as much as a Mormon's life was dupon which they should depart from the temple lot in Far West. News Spread Rapidly-By Some Believed That He is Suffering From Nervous Collapse.

Guards at Penitentiary Say He Has Shown Signs of Restlessness-Strain Has Been Hard on Him.

Bolse, Ida., June 1 .- The morning sesion of the trial of William D. Hayood was abandoned today on account of the illness of the prisoner, who was attacked at an early hour by ptomaine poisoning. The doctors attending Haywood and his counsel, both stated that the fliness was not serious and they believed he would be able to be in court at 1:30 o'clock this afternoon, to which hour a recess was taken,

Haywood suffered acutely during the night and at 5 o'clock this morning the county physician was summoned. He called another doctor into consultation and finally opiates were administered to the prisoner. He had not recovered from the effects of the morphine at the hour set for the morning session.

The news of Haywood's illness spread quickly through the city and there were but few persons in the court room when the hour for convening arrived. Judge Wood made the announcement of Haywood's illness. He said the county physician suggested that the prisoner might be able to attend the trial during the aflernoon,

Attorney Richardson then made a statement as to the nature of the attack Haywood had suffered. He said he was sure it was nothing serious. The administeration of the oplates necessary to relieve the intense pain, he declared, had left Haywood in a weakened condition and it was this which made it impossible for the prisoner to be in court this morning.

It is believed that the prisoner is suffering a nervous breakdown, For some days he has complained of headache and the guards at the jail say he has shown signs of much restlessness. It has been plain they say that the strain of jury getting has been very

ANOTHER MOSES.

ANOTHER MOSES. A veritable Moses to a modern Israel, Brigham Young led his people in their historic flight into the western wilder-ness, and commanded in person the pioneer band, which entered Salt Lake valley on the 24th of July, 1847. They had penetrated to the heart of the "Great American desert," a region de-scribed by Daniel Webster as "a vast worthless area," unfit for civilized oc-cupancy and impossible to reclaim. Here they founded Salt Lake City, the parent of hundreds of cities, towns and villages, that have since sprung from the barren bosom of the waste, as Mor-monism's gift to civilization.
