TERMS—IN ADVANCE.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, JUNE 1.

Bad for Fruit.—A heavy frost fell last night in several parts of the city.

Sentenced.—We learn from the *Journal* that Wm. Bailey, for killing Dan Wight, was yesterday sentenced to 18 months in the penitentiary.

Beaver Items.—The notorious Ben Tasker is in prison at Beaver, charged with murder.

Fort Cameron, it is rumored, will be broken up as a military post. Forts Hall and Hurstfury are also said to be doomed. Bridger will be re-occupied.

McClanahan Bound Over.—Saturday's *Enquirer* states that the McClanahan examination, held before Justice Boyer, of Springville, was concluded on Wednesday evening, and on the following morning the judgment of the court was rendered. The doctor was held to appear before the grand jury in September next, in \$500 bonds.

Roof Blown Off.—A correspondent at Moroni, Sanpete County, writes that at about 12 o'clock night or day time not stated on the 26th inst., a whirlwind visited that settlement and blew off half of the roof of Soren Sorenson's house, at the same time bending some neighboring trees almost to the ground.

Mortuary Report.—Following is the Sexton's report for May:
Consumption (phthisis pulmonalis).... 2
Croup..... 1
Diphtheria..... 1
Effects of Injuries, Accidental..... 19
Gangrene..... 1
Lung Disease (acute)..... 4

JOSEPH E. TAYLOR, Sexton.

Shot in the Foot.—Mr. Joseph K. Parcell, of Wallsburg, Wasatch County, writes of a serious accident that befel Mrs. E. Plant, of that settlement, on Sunday, the 23rd inst. A loaded shotgun was leaning against the side of the house as the lady stepped to the door to go outside, and the jar made in opening the door caused the gun to fall to the ground. It went off as soon as it struck the earth and the whole charge entered Mrs. Plant's right foot, tearing and mangling it in a fearful manner. The neighbors were immediately summoned, and did the best they could to relieve the sufferer, whose pain was dreadful. A surgeon was sent for, but could not possibly attend on account of other cases, and the patient was without surgical aid, at last accounts. It is expected the entire foot will have to be amputated. The husband of the unfortunate woman was away from home when the accident occurred. He is a son of Dr. Plant, of this city.

The Parker Murder.—Another important item in the Parker murder case, in Southern Utah, has just come to light. It

will be remembered that when the aged lady, Mary Parker, was found near Rockville, her throat cut and her person outraged, that a young man named Jared Dalton was arrested on suspicion of being the perpetrator of the deed, he having been seen with her last, after bringing her the news that her runaway son had returned and was in the mountains near by, and desirous of seeing her. The readers of the News will also recollect that notwithstanding Dalton's assertion of having been sent by Parker to tell his mother he had come, that Parker could not be found anywhere, though diligent search was instituted for his discovery. Dalton was examined and bound over to await the action of the Grand Jury, and at last accounts was still in prison pending trial.

Mr. James G. Black, writing from Deseret, under date of the 29th inst., says that Sam Parker, the son of Mrs. Parker, was arrested at that place on the evening of the 28th, and that he declares Dalton's representation as to his whereabouts at the time of the murder is a base fabrication, as he was then herding sheep in Nevada, and did not hear of the sad news of his mother's death until the 24th inst. He is now on his way to Rockville to attend to the case. If young Parker can prove the *alibi* he claims, it will go far toward fastening the guilt upon Dalton, the accused.

A Tour of Inspection.—We have received a communication from E. Stevenson, Esq., giving particulars of a visit made by John Morgan, Samuel McKay and himself to the bee keepers of Davis County. We select the more interesting portions for publication. They examined over one hundred and sixty swarms, found some thirty infected with foul brood, which the owners unhesitatingly consigned to the flames, divided healthy and crowded swarms, urged upon the people the necessity of having competent bee inspectors appointed to look after unhealthy hives and have all such destroyed as soon as discovered, and on Sunday attended the closing of the Davis Stake Conference. They found the bee-keepers hospitable, and hopeful of success in their business, and had the pleasure of seeing a petition prepared and numerous signed, asking the County Court to appoint two inspectors to visit apiaries and condemn the unhealthy portions. There are many bee-keepers in the Territory who assert that the use of the extractor produces foul brood. The following affidavit, obtained by these brethren during their visit, may be of interest. Davis Co. Utah, May 29, 1880.

This certifies that we have kept bees for the past nine years, and we have not used the extractor at all, and only divided our bees two or three years at the beginning of our keeping bees, since which we have let them swarm naturally, and have had good success, until two years since, when we found some supposed foul brood and destroyed two hives. Since that time our bees have dwindled away, and this spring several have died and many are weakly.

T. H. PARKS,
IRA PARKS.

FROM WEDNESDAY'S DAILY, JUNE 2.

Early Closing Association.—The clerks of the leading mercantile houses of this city have organized an early closing association, the object being to secure a uniform practice of closing stores at earlier hours than those which prevails at present.

Museum.—The Curator respectfully acknowledges the receipt of copies of the circular of the Academic Department of the University of Deseret for 1880-82. Also the biennial report of the Territorial Superintendent of District Schools, for the school years 1878 and 1879, from Dr. Park, Principal of the University of Deseret. Also a specimen of Chinese floating soap from Mr. Harry Reynolds, of this city.

"Physician, Heal Thyself."—The *Beaver Watchman* says:

"The Salt Lakers are talking of building a highway from the city to the top of Ensign Peak. They are

very anxious to get nearer heaven, but the top of Ensign won't help them much. A better plan to gain happiness would be to drink less whiskey and publish more truthful newspapers."

First we have heard of the "highway." We fear the *Watchman* scribe is in need of his own advice.

Hurrah for Davis!—The Board of Directors of the Territorial Insane Asylum, adjourned their meeting last evening, without having arrived at any decision respecting the location of a site for the Asylum building. Balloting was tried several times but neither county could secure a majority. The nearest to it was Salt Lake, which at one time received 3 votes, there being 7 cast in all. It is understood that then the voting was as follows: Salt Lake's two representatives voted solid for this county; Provo's two did the same for Utah County; Ogden's one voted, of course, for Ogden; while the member from Davis County cast for Salt Lake, and Governor Murray gave his ballot to Davis County. To-day, however, the session was resumed, and resulted finally in Davis County's securing the Asylum by a majority of one—4 votes. It is understood, though, that there is a proviso to this, and that is that the site in Davis County is really the best, which question will be decided by a committee who will visit the place at once, to make more thorough inspection. Next to Salt Lake, Davis County suits us.

FROM THURSDAY'S DAILY, JUNE 3.

Machinery Arrived.—The machinery for the new silk factory has arrived, and will be put in the building in a few days.

Body Found.—The body of Amos Chase, who was drowned a few days ago in the Sevier River, was recovered yesterday morning.

Amputation Liable.—Mrs. E. Plant, the lady who was accidentally shot in the foot by a falling gun, in Wallsburg, last Saturday, is now in Provo, under the efficient care of Dr. W. Pike. It is still feared, the *Enquirer* says, that the foot will have to be amputated.

The Asylum Site.—The site chosen for the Territorial Insane Asylum, in Davis County, is a tract of land at the mouth of Shepherd's Canon, a short distance north of Farmington. It is said to be a beautiful location, commanding a noble view of the Great Salt Lake on the west.

Honorably Acquitted.—George H. Clark, of Pleasant Grove, who was arrested and examined before Justice Booth, of Provo, on Friday last, on a charge of stealing a heifer from the Provo estray pound, was discharged from custody, it being proven that he bought the heifer and did not, as was alleged, obtain possession of it under false pretenses.

Married and Settled.—Mr. and Mrs. Reinhard Maeser (the latter recently Miss Mary Friel) whose marriage took place in this city last week, have settled in Provo, where the young husband will resume his occupation of school teaching, a position for which he is none the less qualified from having a loving partner to assist him in his duties and comfort and cheer his home. Success!

Fatal Accident.—The following special was received this afternoon:

Bingham, U.T., June 3, 1880.

Editors Deseret News:

Mrs. Peter Tavey, wife of Peter Tavey, formerly of Salt Lake City, while coming from the depot in the transfer, last Friday morning, was thrown out by the sudden starting of the horses, and received injuries from which she died at noon to-day.

University Circular.—We have received a copy of the circular of the Deseret University for the year 1880-81, which a press of business has hindered our noticing before. From it we learn that the first term of the coming academic year, will begin on Monday, the 23d of August. There will be, as heretofore, three courses of study, making a thorough graded system, viz: The Preparatory or

Primary Department, the Normal Department, and the Academic. The circular says:

"In order to assist persons in the Territory who may be desirous of attending the Institution, and yet are unable to bear the cost of tuition, the Chancellor and Board of Regents have established a Beneficiary Foundation. By its provisions, such persons are admitted as students in the University free of charge. Those who are desirous of availing themselves of this provision, may first apply to the President of the Faculty."

The University is in a flourishing condition and is not only steadily increasing its patronage, but also its capabilities and conveniences for the dissemination of learning.

LAND PATENTS.

U. S. LAND OFFICE,
SALT LAKE CITY, Utah
May 31st, 1880.

The following patents have been received at this office and will be delivered to the proper parties upon surrender of the duplicate receipt, properly endorsed.
