

LONDON HEARS CRY OF THE UNEMPLOYED

Discharged Woolwich Workmen
March From the Arsenal to
The House of Commons.

COMPLAINTS FAR-REACHING.

Premier Campbell-Bannerman
Receives Deputation and Made a Sympathetic Reply to the Grievances.

London, April 22.—The cry of the unemployed was raised in London again tonight when several thousand workmen who had been discharged from Woolwich arsenal as an outcome of War Secy. Haldane's scheme of reducing military expenses marched with banners and torches to the house of commons to impress their grievances upon the government. The complaints of the men are far-reaching, representing not only loss of employment, but the wiping out of their savings invested in little properties located in the historical and heretofore prosperous town of Woolwich.

Some of the discharged men have been employed in the arsenal at Woolwich for not less than 20 years. A number of printers and other tradesmen, artisans and citizens joined the procession, which was further augmented by a strong body of workmen from the army clothing factory at Pimlico. The entire eight miles of march was thickly lined with spectators. The procession, which was perfectly orderly, was halted at St. George's circle, a mile from the house of parliament, from where a deputation of picked men proceeded to the house of commons to lay their grievances before Premier Campbell-Bannerman.

The premier received the deputation in a private room, War Secy. Haldane and Baron Tweedmouth, first lord of the admiralty, being present. The premier made a sympathetic reply and assured the men of the government's anxiety that these inevitable discharges should entail as little hardship as possible.

HARRY THAW'S MOTHER MAKES A STATEMENT.

Pittsburg, Pa., April 22.—Mrs. Mary C. Thaw, mother of Harry K. Thaw, tonight asked the Associated Press to give to the public the facts concerning a suicide at her home here eight years ago, which she asserts some newspapers have distorted and elaborated upon. Mrs. Thaw in her statement, says: "In 18 years during which I occupied Lyndhurst, it is safe to say that the number of ministers and their families for whom it was a stopping place reached many scores. Among these was the wife of a former assistant postmaster of the Third Presbyterian church, of which I and my family are members. After her husband had resigned from that position they both resided in teaching in a seminary in the central part of Pennsylvania. Later I heard that the wife had become an invalid, suffering from nervousness and with a tinge of melancholia. When I heard that the husband had received a call from the church in Kentucky I invited the invalid wife to visit me at Lyndhurst while preparations for leaving the old home and settling in the new one were under way, believing that the change of scenery, rest, medical

DO IT NOW.

Now is the time to take something to clean and build up the blood, ridding the system of the poisonous waste matter and acids which cause Rheumatism, Blood Disorders, Nervous Debility, Backache and other miserable weaknesses.

Here is one of the simplest though safest and most certain mixtures, which can readily be prepared at home at nominal cost:

Fluid Extract Dandelion one-half ounce, Compound Sarsaparilla three ounces. Get these ingredients from any reliable pharmacy and mix by shaking them well in a bottle. The dose is one teaspoonful after meals and at bedtime. Also drink plenty of water.

This home-made mixture, writes a noted authority, will overcome most forms of Kidney and Bladder troubles and at the same time force the Kidneys to filter and strain all impurities and acids from the blood, restoring the full blood count of 35 per cent red blood corpuscles, which means good, sound health and vigorous vitality, to say nothing of the clear, rosy skin and complexion which must result.

care and careful nursing would be beneficial.

"I returned from an afternoon reception one day and, not finding her in the library, sent a maid to her room, who reported that the door of the bathroom was locked and she could get no answer. This alarmed me, and I ordered the gardener to enter by a window, when the startling discovery was made that the poor woman had ended her life in the manner described in the highly colored account given in one Pittsburg and some of the eastern newspapers. The family physician was immediately sent for. The husband was telegraphed to. The pastor of the Third church and his wife came also and he very kindly offered to accompany the remains to Kentucky and conduct the funeral services. The doctor, on his arrival said it would be necessary to have the coroner. The coroner was sent for and all the usual formalities attended to. Stripped of all useless verbiage, these are the facts in the case."

HEROIC ELEVATOR BOY.

Chicago, April 22.—Fire damaged to the extent of \$250,000 a six-story building at 290-292 Washington street today. Twenty girls, employed by the Healy Music company were obliged to leave the building by means of fire escapes, but none was injured. Horace Manley, in charge of the elevator, made repeated trips with his car to the upper stories and rescued 45 girls. Manley was finally overcome by smoke and was carried out by firemen.

ROOSEVELT LEAGUE.

Application for Certificate of Incorporation is Denied.

New York, April 22.—The application of Bella Tokaki and others of this city, for a certificate of incorporation of the National Roosevelt league, was denied today by Justice Bischoff in the supreme court. The principal object of the proposed organization was "to aid in securing for the president and citizens of all parties, irrespective of political affiliations, the nomination of Theodore Roosevelt to succeed himself as president of the United States."

The petition declares that present political parties and large numbers of public men, notwithstanding their publicity, professing "nationalism" and much attached to governing the people for a party and by a party, or of a class for a class by a class. It was to this latter portion of the petition that Justice Bischoff took exception. He took the ground that while these allegations may be proper objects for debate, they are not proper when placed in formal

A Skin of Beauty is a Joy Forever.

articles of incorporation. He therefore refused to admit the league to the document until the improper matter shall have been eliminated.

WARNING TO AERONAUTS.

Near the Coast the Upper Currents Blow Out to the Sea.

New York, April 22.—Alan R. Hawley of New York, who with Arthur O. Altmeyer of Philadelphia, made an 85 mile balloon trip from Philadelphia to Mattawan, N. J., yesterday, has issued a warning to aeronauts that they must be careful in making balloon trips near the coast or the ocean will get them. He has observed, he says, that all the upper currents near the coast tend to carry the balloon out to sea. He thinks that the balloonists who are to make ascensions at the Jamestown exposition should be warned.

Hawley is qualifying for the international balloon races to be held at St. Louis next October.

In order to do this he has to make 15 ascensions, of which the one of yesterday was the sixth.

THE RICHEST MAN IN THE WORLD.

The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the kidneys will disappear and your health will be restored, as is strengthened and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured my permanent and chronic kidney disease, which certainly would have cost me my life." Sold by F. J. Hill Drug Co.

MAURICE GRAU'S WILL.

Amount of His Estate Breaks a Grand Opera Tradition.

New York, April 22.—The tradition that a grand opera impresario dies poor has been broken, according to an announcement made here today that by the will of the late Maurice Grau, for years manager of the Metropolitan Opera House and who died recently in Paris, a very large fortune is divided equally between his wife and his only child, Miss Lulu Grau. The value of the estate is not given. Several well known New York business men are the executors.

HENRICH CONRIED III.

New York, April 22.—Advices from Berlin, received here today state that Henrich Conried, manager of the Metropolitan Opera House, is seriously ill at the Hotel Kaiserhof. He is suffering from spinal trouble, it is said, and cannot move without assistance. Mr. Conried, who has been ill for several months, departed for Europe a week ago last Tuesday.

A TREASURE CAVE.

Found on the Coast of Northern Portugal.

Lisbon, April 22.—A cave containing valuable treasures has been found on the coast of northern Portugal. The treasure included many old gold coins, jewelry and antique weapons, supposed to have been a buccaner's hoard. Recent earthquakes which exposed the cave, made the discovery possible.

RAILROADS IN MINNESOTA

Sunderberg Investigating Committee Reports Their Value At \$215,000,000.

NET EARNINGS 18 PER CENT.

In Arriving at Conclusion All Conditions Past and Present Were Taken Into Consideration.

St. Paul, April 22.—Railroad property in Minnesota is valued at \$215,000,000 by the Sunderberg investigating committee, which returned its report to the state senate today. "This is approximately \$27,000 a mile. The property is capitalized to the extent of about \$490,000,000, of \$50,000 a mile on an average. The net earnings, according to the committee's findings averaged over \$5,000 a mile last year, or 18 percent on the committee's valuation.

The report says that to arrive at the cost of reproducing and equipping the different lines in their present condition the committee considered the original cost of construction; the cost of improvements, betterments and equipment added since; the cost and character of the lines recently built; the expense of operating and the earnings under the existing rates; value of stocks and bonds, the geography of the line and the judgment displayed in its location.

Referring to the Chicago Great Western, the report says:

"This road was built by A. B. Stickney, who raised the funds by acquiring after organization, reorganizing and reorganizing corporations of Minnesota, Iowa and Illinois."

The capital stock and debt is \$143,663 per mile, and the committee figures that it is about one-fifth of that, or \$28,990 a mile. It is last report the company certifies that the line and equipment cost \$38,611 per mile.

Referring to the fact that in 1891 there was reported a "purchase of constructed road" \$6,312,192, the committee says:

"It was then 815 miles long. Fifteen years later this elastic item had been stretched to \$59,524,244, but the whole line had shrunk 60 miles in length. It had been watered too much."

BITTEN BY A SPIDER.

Through blood poisoning caused by a spider bite, John Washington of Bosqueville, Texas, would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." 25c. Guaranteed at Z. C. M. I. Drug Store.

RUMOR OF CHANGE OF VENUE FOR THAW TRIAL.

Binghamton, N. Y., April 22.—Atty. Delphin M. Delmas and W. H. McPike, of counsel for Harry K. Thaw, are in the city, guests of Dr. Charles G. Wagner, superintendent of the state hospital, who was a prominent witness for the defense in the Thaw trial. It is believed that Mr. Delmas' coming is a preliminary step to bringing Thaw here for a second trial.

The attorneys had a conference with Justice George F. Lyon while here.

New York, April 22.—Clifford W. Harridge, counsel for Harry K. Thaw, said today that so far as he knew no movement was contemplated looking toward holding the second Thaw trial at Binghamton. He expressed the opinion that Thaw's second trial, like the first, would be held in New York City. Mr. Harridge interpreted the visit to Binghamton to Atty. Delmas and McPike as a social call upon Supt. Wagner of the state hospital there.

Dist. Atty. Jerome said tonight he had no intention either of asking for or consenting to a change of venue for the Thaw trial.

"There is no reason why the case should not be tried in New York," he said. "I shall certainly not ask for a change of venue, and will just as certainly fight an application for a change of the defense makes one."

Asst. Dist. Atty. Garvan, temporarily directing the Thaw case, said he believed there was no foundation for suggestion that Thaw would be tried at Binghamton. He explained that it was perfectly possible to try Thaw outside of New York City under an agreement to change the venue, but pointed out that to accomplish this it would be necessary to secure permission from a court here. He said if Thaw's attorneys were planning to change Thaw to the Binghamton jurisdiction the arrangement was unknown to the district attorney's office. Mr. Garvan said that nothing as to the second Thaw trial had been decided upon by the prosecution.

LOTTERY DEALERS INDICTED.

Mobile, Ala., April 22.—Eight more indictments have been found by the United States grand jury, investigating the operations of the Henderson National Lottery company. The names of those indicted will be divulged on Wednesday, according to the United States district attorney, at which time the jury will have concluded its investigations in this city. The Wilmington, Del., grand jury, to be impaneled immediately, is to take up the ticket end of the violations, all persons indicted being subject to indictment by the Wilmington jury.

TRIED TO KILL FOREMAN.

Hazleton, Pa., April 22.—Jan Barilla, who told the police last week that he was a member of a band of anarchists with headquarters at Hazleton, who were plotting to kill President Roosevelt, arrived today at Audenreid, his former home, where he shot at Charles Krause, a mine foreman. The bullet struck Krause's waist and he escaped unhurt. Barilla was arrested. It is believed he is demented.

CATHOLIC UNIVERSITY.

Cannot Recover From Wagerman Because of Statute of Limitations.

Washington, April 22.—The statute of limitations was held to bar The Catholic University of America from recovering \$28,000 from John F. Wagerman, claimed to be due on notes executed to the late Thomas E. Wagerman. The jury in the case was today directed by Justice Anderson to return a verdict for the defendant. An appeal will be taken.

JUSTICE KILLS HIMSELF.

Ridgewood, N. J., April 22.—Francis W. Gardner, justice of the peace and a wealthy resident of this place, killed himself with a pistol last night. Mrs. Gardner followed her husband to the door of an apartment occupied by a young woman. When Gardner

FIVE GOOD REASONS TREE TEA

KNOW THEM

Reason No. 1
There are two varieties of tea—land and mountain tea. Lowland tea looks well, mountain tea drinks well. TREE TEA is mountain tea.

Reason No. 2
There are two sorts of tea—early tea and late tea. The early tea is the best tea. TREE TEA is early tea.

Reason No. 3
There are two kinds of tea—economical tea and extravagant tea. TREE TEA is economical tea. Costs less than 1/4 of a cent a cup.

Reason No. 4
There are two kinds of food—pure food and impure food. TREE TEA is tested by experts. TREE TEA is pure food tea.

Reason No. 5
There are two kinds of packages—protected and unprotected. TREE TEA packages are lined with purified paper. TREE TEA is protected tea.

INHERITED BLOOD TROUBLES

A THOROUGH CLEANSING OF THE BLOOD THE ONLY CURE.

Pure, rich blood, free from all inherited taints or disease, contains everything necessary for the proper growth and development of the body, and for nourishing and sustaining the system with healthy vigor and strength to keep it free from disorder and disease.

"The blood is the life," and no richer heritage can be handed down to posterity than a pure blood supply. As good blood is a blessing, so in like proportion is impure or diseased blood a handicap and a misfortune, for not only is life's struggle harder, but existence becomes a burden when some inherited blood taint is continually cropping out.

Through the blood disease germs are carried from one generation to another, parents transmit them to their children, and so it goes on down the family line, spreading disease and suffering until the taint is removed from the blood. Scrofulous affections are the most usual form in which inherited blood troubles are manifested. The blood, being tainted with scrofulous and tuberculous matter, cannot supply the needed nourishment and strength to the body, and we see the effects shown in various ways. Such persons are usually pale and anemic, their bodies frail and frequently not fully developed, and they are often afflicted with skin diseases, weak eyes, catarrhal affections, sores and ulcers, etc., and where the blood is especially vitiated the bones are affected and white swelling or hip disease makes life a lingering misery.

"Like begets like" is just as true of the physical kingdom as it is of the vegetable world, and so sure as any blood disease exists with the parent, it will be handed down to the child. This is as true of Catarrh, Rheumatism and other blood disorders as it is of Scrofula. What is commonly known as "growing pains" with children is usually the inherited taint of Rheumatism, and the little innocents are allowed to suffer because the parents do not realize that the seeds of this powerful disease are being manifested in childhood, and will in later life become a serious and dangerous trouble.

Inherited blood troubles do not always manifest themselves in childhood because of the care and attention with which the little ones are guarded in the interest of health; but when middle life is reached or passed, and the machinery of life has begun to wear out, the trouble can no longer be held in check, and declining years are made miserable because of disease.

There is but one cure for inherited blood troubles, and that is a thorough cleansing of the blood, and no medicine equals S. S. S. for this purpose. It goes down to the very root of the trouble and removes every trace of impurity or pollution, and cures blood diseases of every character. S. S. S. not only cleanses and purifies the blood, but supplies it with the rich, healthful properties it needs, and by its fine tonic effects builds up the entire system. S. S. S. is the only blood medicine on the market that does not contain a mineral ingredient in some form. It is made entirely of healing, cleansing roots, herbs and barks, and is the one medicine that can be given to children or persons of any age with absolute safety. Those who have inherited blood taints can rely on S. S. S. as a cure, and so thoroughly does it remove the cause that no signs are ever seen of it in later life. Whether your inherited trouble be Scrofulous, Rheumatic, Catarrhal or some other form of disease S. S. S. is the right remedy because it is a perfect blood purifier and tonic. Book on the blood and any medical advice desired
