"Royal" the only absolutely pure baking powder made .--- Action of the New York State Board of Health.\*

Analyzing the Baking Powders.

Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted to examination and analysis of Prof. C. F. CHANDLER, a Member of the State Board and President of the New York City Board of Health, assisted by Prof. EDWARD G. LOVE, the well-known late United States Government chemist.

The official report shows that a large number of the pow, ders examined were found to contain alum or lime; many of them to such an extent as to render them seriously objectionable for use in the preparation of human food.

Alum was found in twenty-nine samples. This drug employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar to relieve my friends of prejudice. I of commerce used in their manufacture. Such cream of turter was also analyzed and found to contain lime and other impurities, in some some samples to the extent of 93 per cent of their entire weight.

All the baking powders of the market, with the single exception of "Royal" (not including the alum and phosphate powders, which were long since discarded as unsafe or behate powders, which were long since discarded as unsafe or nefficient by prudent housekeepers) are made from the import of tartar of commerce, and consequently contain time to a corresponding extent. The only baking powder yet found by chemical analysis to many former experimence unon the stand of great British Isles I had been such that I was really fearful in recard to my neather in the spore to my first mission and powlet were the stand of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the British Isles I had never passed and the powers of the beautiinefficient by prudent housekeepers) are made from the impure cream of tartar of commerce, and consequently contain lime to a corresponding extent.

Monday Morning, April 6th, 1885. REPORTED BY JOHN IRVINE.

At the Annual Conference, held in the Tabecnacle, Logan, Cache County,

JELIVERED.

DISCOURSE

JOHN HENRY SMITH,

It affords me pleasure to meet again with the Saints in Zion, and to have the privilege of mingling with the peo-ple of God in a general conference. It

mountain home. I never learned but one verse of poetry in my life, and that one I have repeated many times, and I for me to repeat it this morning. The

premium among them. The statistics of Great Britain show this fact; that illegitmate births in Ireland constitute That the heart cannot break, though the

nine. I say this speaks volumes for Ireland, and I trust that the Gospel may spread in that land and that thou-

he entirely free from lime and absolutely pure is the the British Isles I had never passed a " Royal." This perfect purity results from the exclusive suffered from a cold contracted during use of cream of tartar specially refined and prepared by however, my brethren promised me t patent processes of the N. Y. Tartar Co., which totally remove fartrate of lime and other impurities. The cost of that I should be enabled to accomplish as we could have wished to have done, this chemically pure cream of tartar is much greater than any other, and on account of this greater cost is used in no baking powder but the "Royal."

.

Prof. LOVE, who made the analyses of baking powders for New York State Board of Health, as well as for the Government, says of the purity and wholesomeness of "Royal":

" I have tested a package of 'Royal Baking Powder which I purchased in the open market, and find it composed which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either between the value of the bedgeed up in a manner so that they could not accomplish that which their hearts desired. After visiting various conferences, and giving the brethren such instructions and counsel alum or phosphates or any injurious substances.

"E. G. LOVE, PH.D.,"

the British Isles I had never passed a night in sound and perfect sleep. I suffered from a cold contracted during in his power to warn his is backed by the powers of heaven, and is now known as "the Saratoga Farm." that mission. On my departure in 1882, should go in peace; that I should enshould go in peace, that I should end in the borners of switzeriand and obspectively of the constraint and the blessings of the blessings of the borners of the Elders have of the earth must be warned, and this in the blessing switzeriand and the blessing solution of the carth must be warned, and this in the blessing switzeriand and the blessing solution of the earth must be warned, and this in the blessing switzeriand and the blessing solution of the earth must be warned, and this in the blessing switzeriand the blessing solution of the earth must be warned, and this in the blessing switzeriand and the blessing solution of the earth must be warned, and this in the blessing switzeriand the blessing solution of the earth must be warned, and this in the blessing switzeriand the blessing solution of the earth must be warned, and this in the blessing switzeriand the blessing solution of the earth must be warned, and this in the blessing switzeriand switzeri the object for which I was sent forth. And while I went with some forboding And while I went with some forbound with regard to myself, still it appears I had to return to Great Britain to lose that which had seized upon me on lose that which had seized upon me

l found upon my arrival in that land a corps of very excellent Elders. The mission was his very good condition, with an earnest and determined lot with an earnest and determined lot of missionaries who were willing to do anything that might be required at their hands for the furtherance of the purposes of the Lord. I found, how-ever, upon investigation, and minedia. had ever been thought of; everything that had ever been manufactured for partizan purposes in our own land sa scattered broadcast throughout Europe, and the masses of the people were warned in every direction in re-card to us. And not only ware then er, upon investigation and mingling with my brethren that the road seeme as the spirit suggested as to the best method to reach the people-getting their views and the result of their extheir views and the result of their ex-perience in the field, some of them hav-ing been there for a year or two-it was decided, on the suggestion of several, that an effort be made to dis-tribute more of the written word than had heretofore been done. Communi-cations were addressed to the Presi-dency of the Church, and by their con-sent a system of tract distribution was inaneurated and has been followed perience in the field, some of them hav-ing been there for a year or two-it was decided, on the suggestion of several, that an effort be made to distribute more of the written word than

countrymen. He was not successful in search is emissaries sent here at this on our arrival my attention was at-accomplishing the desires of his heart. time to aid in its advancement. The tracted by the very large and beautifu Ou the borders of Switzerland and Gospel must be preached; the nations | fields of grain, some 150 acres in exlabors we have performed: for we re-alize that it is not only a day of glean-them for their exaltation in His king-ready had 150 acres broken up this ing and gathering the people, but it is dom. The work of God must conquer spring. In connection with his inalso a day of warning. I will say here, that about the time our brethren in the southern States were murdered in cold blood, a wave of hatred scemed to have been engen-dered in the minds of the people in devery direction. The work of dour lood must conquer-posing force, and it will accomplish that destiny as sure as there is a God in heaven. Write it upon the page of history; stamp it upon your souls; for deity has designed that it should be the every direction. The present covering that destiny as sure as there is a for history is the people in deity has designed that it should be the case. the view before it. He has already I find in mingling among the people | finished a very neat little cottage for

I find in mingling among the people in the east that the moving force to-day against the Latter-day Saints is not the politicians of the country. The politicians, so far as they are con-cerned would care little about us, but there are behind them the people. There are first the ministers of the Gosmel 1 do not desire to speak gard to us. And not only were they warned through the newspapers, but lecturers began to take the field in every among us, or make charges against the water of which is conveyed to the lecturers began to take the field in every direction, and incite the people not to avoid our meetings, but on the coneral of these fine springs on his farm I expect to say more in the future
