SESSION OF THE DISTRICT COURT

Joe Coyne Sent Up for Three Years for Robbery—Other Criminal Cases.

HAS RUNNING AWAY MANIA.

Janie Murdock Takes Neighbor's Horse and Disappears—Robber Attempts Hold-up.

Ogden, March 6.—In the district court before Judge Howell yesterday morning, Joe Coyne, who pleaded guilty to the robbery of the Clark residence on Feb. 12, was sentenced to three years in the state prison.

George Williams, a negro, who is charged with burglary in the third degree, will plead this afternoon.

The hearing of the motion for a new trial in the case of Lorenzo Montgomery, who has been found guilty by a jury of a statutory offense, has been continued until March 20.

The final arguments on the motion to strike out the information in the case of the State of Utah against H. E. Blamett, R. J. McGuire and J. H. Barrett, charged with robbing Frank Murdock, the 14-year-old girl who has a mania for running away from home with a horse and buggy belonging to her own uncle, this time she appropriated a horse belonging to Henry Larson of Fifth Avenue, and has completely disappeared.

This is the second time within ten days that the girl has left home with a horse. The last time she and her brother took a horse and buggy belonging to Bishop Martin of Farr-West and started for Salt Lake, only to be arrested at Layton by Sheriff Wade of Davis county. They were returned to Ogden and held at the sheriff's office for a few days. Upon their promise to be good, they were allowed to go to their home.

It was late yesterday afternoon that the girl went to the Larson place and took a valuable family horse and rode away upon it. Which direction she went, the officers have been unable to learn at the present time. Her recent disappearance is the most mysterious of any former escapades. None of the relatives of the girl seem to be able to do anything with her, and they may have her sent to the State Industrial school. They state that they have been everything in their power to keep the girl at home but have thus far failed, and are now determined to let the juvenile court officers act.

ROBBED ON WHEELS.

President's Counselor Frank W. Stratford of the North Weber stake and president of the Weber county board of education, was in the city yesterday afternoon from West Weber, and for the first time the information was given out of an attempt by a hold-up highwayman to rob him several nights while on his way home.

President Stratford was driving along Wilson lane when a stranger, in a dark suit, drove up near him and commanded him to halt, catching a glimpse of a tough looking face and the threatening attitude of the man. President Stratford touched his horses with the whip and drove away from the would-be "road-agent," who continued to shout to him to halt. Upon reaching home the constable was notified also the sheriff's office and men were sent out on the case. Thus far no arrests have been made.

CARPENTER FALLS TO HIS DEATH.

Ogden, March 6.—Advices were received from the coroner's office that

Your Blood is a Field of Battle

A valiant little army is continually marching through your veins, arteries and capillaries. Night and day they patrol every alley and channel of the body in search of their natural enemy, the germs of disease.

They are the white corpuscles,—the "Little Soldiers of the Blood."

Modern science has demonstrated that these white corpuscles are the disease-fighters of the blood. See the picture in the circle, and the explanation of how they fight for you. They destroy the millions of germs which pass into our bodies with every breath we take. When the blood is poor and thin and deficient in its proper supply of white corpuscles, the invading germs swarm in, and finding the defending force too weak to oppose them, take possession of the body and begin their work of destruction.

This is the beginning of an attack of an infectious disease such as the grip, pneumonia, and fevers, and even of the winter cough or cold.

The germs of such diseases sweep across the surface of the delicate mucous membranes of the throat, the nostrils, the air passages of the lungs. Nothing can stop their attacks or defeat their ravages, but pure, disease-fighting blood,—the blood that Hood's Sarsaparilla makes.

It is also owing to the thin, impure condition of the blood that scrofulous troubles, eczema, boils and pimples, develop, and rheumatism, catarrh and other diseases gain a hold.

When such troubles are once established, nothing but a medicine that will absolutely and irresistibly cast them out can permanently cure.

As a blood-purifying tonic and health-builder, Hood's Sarsaparilla is pure and sure. It is pleasant to take, bright, clear and bracing to the last drop, with no depressing after-effects.

It has cured thousands of people and is probably taken in more homes today as a reliable family medicine than any other preparation. It is essentially a blood-maker, a digestive, an appetizer, an invigorator that nourishes both brain and body and enriches the blood.

If you are ill, weak, run-down, have "that tired feeling," if your appetite is poor and your digestion bad, Hood's Sarsaparilla is just the medicine for you. If your disease is of long standing or of constitutional nature, like scrofula or eczema, or catarrh, if it is caused by acidity of the blood like rheumatism or neuralgia, or pleurisy, Hood's Sarsaparilla possesses just the qualities necessary to cure you, and you will find them in this medicine as in no other.

Take Hood's Sarsaparilla for your spring medicine, and fill your body with generous life-giving blood, rich in red corpuscles to nourish you, and normal in white corpuscles, the disease-fighters of the blood. Then you may reasonably expect health, good appetite, perfect digestion, clear and energetic brain power all the coming year.

Be sure to get Hood's Sarsaparilla, in usual liquid form, or in chocolate-coated tablets called Sarsatabs. 100 Doses One Dollar.

this number of translations has been \$104.34, and it is considered good policy by City Marshal Williams to feed and clothe the transient during the last 14 months, and very little crime has been committed. Many of the transients who come here would like to stay longer, but they have no money and even to be charged with vagrancy in order to get a chance to rest up. They come mostly from the east and are travel worn on arriving from Colorado. This may be granted in the future, and the transients put to work on the streets and the city streets could have been made into a work camp.

HIGH PRAISE FOR B. Y. U. STUDENTS.

Last week the B. Y. U. was placed up in a most unique way by a gentleman residing in one of the eastern states. It seems that he is making a point of studying educational institutions from the inside rather than from the outside, that is, by taking every opportunity to mingle with, and study the students of college towns when they are in the city of Provo, and not directly under school discipline. Thus, he related to the president that he had watched the students at almost every point where they mingle with the city of Provo, and he frankly stated that he was amazed to find the smoking of cigarettes and other characteristic vices of college towns. "I am so pleased with your institution," said he, "that I shall send my son here next year. He is at present in a high school in Chicago."

OFFICIAL TEACHERS' COLLEGE.

By a late decision of the general church board of education, the Brigham Young university is made the official teachers' college for the church school system. It has already had the distinction of being the official training school for the church.

Address to Parents.—Chief of Police Browning will speak at the Baptist church Sunday evening at 7:30. His address will be to the mothers and fathers and the young women and young men of the city.

Roadwork in Canyon.—The force of the snow has been melting, and the roadwork in the canyon will be rushed while good weather permits. The slow receipts of ties and rails by the company make progress upon the line very slow except with the grades and rock work, which is being rushed. The steel for the bridges is expected to arrive within a week or 10 days.

PROVO.

The "News" is delivered by carrier every night (Sunday excepted) at 75 cents per month. All payments and complaints should be made to R. J. Dugan, agent for Daily, Saturday and Sunday News. Orders taken on four Church Work. Residence, 22 North Fourth West.

Carrier east side of Academy Ave. Bell 28 red.

COUNTY FEEDS TRAMP ARMY.

Appropriation for Postoffice Falls.—High Praise for B. Y. U. Students.

Special Correspondence.

Provo, March 6.—Postmaster Clave has been advised by Senator Wood that owing to the great appropriations made by Congress, the smaller appropriations for the Provo postoffice building have not been granted. It will therefore be necessary to use wooden cornice instead of the more expensive material which was recommended on account of climatic conditions. J. M. Lippett, formerly in the government service in Panama, has arrived from Los Angeles to take charge of the construction. Contractor Lovell states that work will be pushed as soon as the terms of the contract are made. The building will be completed by July 25.

Superior Lath, in charge of the strawberry valley irrigation project, has returned from a trip to the mouth of the tunnel on the Strawberry side. He reports eight feet of snow on the road, and considerable trouble in getting to and from the works.

FEEDS GREAT ARMY OF TRAMPS.

Five hundred and sixty-nine tramps were fed in the county jail during the months of January and February. Of this number only 51 were convicted of any offense, the others were given a place to sleep. The cost of keeping

tramps to the side-walk and front of the building. The grounds have been prepared for lawns and flower beds. The side walk in front of the church property will also be cemented during the next few days. These improvements will greatly enhance the beauty of the building which is a model and a substantial structure.

Tomorrow evening the M. I. association has secured as speaker at their convocation the Rev. John R. Meakin. The word choir will furnish the singing. An invitation is extended to church members as well as church members of the community to attend this session.

SCHOOL AFFAIRS.

Miss Stella Cahoon will be at her post in the superintendent's office on Monday having returned from the coast after a "four weeks' visit." The regular board meeting was held on Monday evening and the routine business transacted. Mr. Fowler, art supervisor, is arranging for a grand art display from the B. Y. U. It will consist of about 100 specimens mostly from high school pupils. The exhibit will be an inspiration to the school and a parents' day will be set apart, during the time. The graduating class of the Arlington contemplates the presentation of Paul Revere's statue to the school as the end of the year. Captain Eli has been entertaining the school children with his lectures during the week. The Arlington library committee is busy in the purchase of books for a library. One hundred and fifty dollars is being expended, all of which was raised by the efforts of teachers and pupils.

LEHI.

INITIAL MOVE FOR WATERWORKS.

Water Supply Secured and System Will Be Hurdled to Completion.

Special Correspondence.

Lehi, Utah, March 6.—The Lehi and Alpine city councils met here in the Lehi city hall Tuesday evening, with the Alpine irrigation company officers, to close up the deal with Alpine for the five-sixths interest in the schoolhouse springs. Deeds and papers were drawn up and \$3,000 was paid over to Alpine for its interest in the schoolhouse springs. It was also agreed that Lehi should have a right of way through Alpine for a pipe line free, but should pay all damages in laying the line. It was also agreed that a piece of land around the springs as that the water could be kept perfectly pure, and a committee, consisting of Mayor Webb, Councilman Joseph Goates of Lehi and J. Beck of Alpine were appointed to secure this land.

Now that water has been secured for waterworks for Lehi, work will commence in the very near future to construct the seven mile pipe line from Alpine and get the water throughout the town as soon as possible. Twenty-six thousand five hundred dollars has already been secured by bonding to get the waterworks system under way, and the balance of the money needed will be furnished by a private company. Real estate has already taken a big jump in anticipation of water. Houses for rent cannot nearly supply the demand and a real estate boom is already on. Lehi will have the purest water of any town in the state. An immense pressure will be put on the water supply of the city, and insurance will be greatly reduced, as it is very high here now.

A special meeting of the city council was held after this meeting at which the sanitary condition of the city was gone over, and the city marshal and police were commended for keeping the city free from rowdiness and abating nuisances.

All arrangements have been made for the special election to be held March 23rd in the city hall, at which the taxpayers will vote on the question of bonding the city for \$20,000, \$15,000 of this will take care of the present indebtedness of the city, and \$5,000 will go to the contingent fund.

SUGAR CITY NEWS BRIEFS.

During the past week a demonstration of the efficiency of the Tanglefoot disc plow was given on dry farm land west of Lehi, which was most satisfactory, and was viewed by a number of prominent implement dealers and farmers here.

Messrs. J. H. Gardner, Dr. H. C. Holbrook, H. E. Osterlund and Edw. Southwick have purchased a one-half section of dry farm land north of the Alfred farm and fish ranch, on which they will plant 30-day wheat as an experiment.

Saturday evening the U. of U. Dramatic club will present "The Cabinet Minister" in the opera house for the benefit of the First and Second ward Sunday schools.

Feb. 27, Mrs. William Gray presented her husband with twins, boy and girl.

The following couples have received marriage licenses from Judge J. Williamson of Pleasant Grove and Frances Edna Mayberry of Provo; C. D. Olsen and Emma Kirkman, both of Santaquin.

RECEPTION TO EX-PRES. CLUFF.

Tuesday evening President G. H. Hymel entertained the members of the faculty and their wives at a reception in his home, the occasion being in honor of ex-President Cluff who was to start next day for Mexico. The dinner was most pleasant reminiscences of the faculty and their wives at a reception in his home.
