thereby destroy his crops and vegeta-

Plaintiff alleges that he owns a valuable tract of farming land near the smelter, valued at about \$13,000 and that he smoke and gasses from the smelter has settled upon the same and des-troyed his crops and blighted his foll-

The effect is such that plaintiff believes that his farm and all other land similarly situated, will in course of time, become absolutely barren and uninhabitable. Around the smelter er Mammoth, declared that unless the railroads made a reduction in the preswithin a radius of two miles there are numerous valuable farms which are affected by the mineral substances from the smokes and gasses, and this suit is brought for plaintiff himself and all othesr whose lands are similarly affected A number of damage suits against the same defendant are now pending, wherein farmers seek to recover various sums as damages caused to their

the \$15 limit, which carries the \$1.50 per ton freight rate, is too expensive and leaves practically no profit to the mine owner. The prodecrs, he declared, stand just as good a show by breaking the ore down just at it comes and put-ting up the \$2.50 rate. The fact of the matter is, Mr. Chipman said, the \$15 limit on low grade ores is of no benefit whatever. He believed that if the limit crops and lands by the discharge of smoke and masses from the smelter. Plaintiff in this action alleges that his injury is irreparable, and he asks that whatever. He believed that if the lim-it was raised to \$20, the railroads would defendant be enjoined so as to prevent it from so operating its smelter that get a greater tonnage than they do now and the mine owners would have an such smoke and gasses will not be dis-charged, and in the event that the opportunity to market their low grade ores with more certainty of realizing a smelter cannot be operated so as to avoid the injury to plaintiff's premises, it is asked that the operation of the same at all be enjoined. profit Other speakers, among them being ames W. Neill and C. E. Allen, agreed James W.

with Mr. Chipman that at the present time it is difficult to come out even on Up to about noon today Manager R. H. Channing had not received service in the action brought against the Highow grade ores shipped from Tintic to local smelters. the Mr. Nell thought that if the produc-ers went to the railroads asking for a flat rate on ores they would be met with a refusal. He believed that the rates should be figured out on a differ-ent basis entirely and that they should be based on the meanly

TINTIC ORE SHIPMENTS.

#### The Output of Week Aggregated 142 Car Loads.

Special Correspondence. Eureka, Feb. 14-As forefold in the "News" last week, the shipments this week from Tintle district have increased very materially, amounting to 142 cars, distributed among the mines as follows:

Cars Atax Bul ion-Beck Centennial-Eureka Dragon Iron Mine ..... Grand Central Noon's Iron Mine ......

alammoth ..... Eagle and Blue Bell Uncle Sam ..... May Day Martha Washington .....

COLUMBIA CONCENTRATES.

# This Bingham Mine is Making a

Good showing. The management of the Columbia Copper mine of Bingham made a set-tlement today for a 75-ton lot of con-centrates, which contained average values of 31 per cent copper. Another car-load will leave Bingham today. The total shipments of concentrates from the mine during the month of January, Manager Cook said today, aggregated 73,000 pounds. February will end with

tiating with eastern parties to place a appointed, after a thorough discussion rig on their Green river oil lands. f existing conditions, which will probably report upon some plan and submit the same to the producers at the adjourned meeting to be held next Fri-

With the arrival of a carload of cas-ing from the east a few days ago work was resumed at the well of the Oil City company near Deseret Switch on the line of the Rio Grande Western east of Woodside.

Last night's meeting was called to or-der by Manager H. S. Joseph, of the Carisa mine, who stated the object of the gathering. He was made chairman and P. J. Daly secretary. James Chipman, manager of the Low-er Mammoth declared that unlass the Word reaches here that the Debeque Oil company at Debeque, Colo., is soon to resume drilling operations. The first oil said ought to be encountered within the next two weeks. President Ray of the Westwater Oil

ent tariffs the shipment of low grade ores from Tintic would have to cease. and Asphaltum company has lately sent a force of men down to Grand county The cost of sorting ores to get it under the \$15 limit, which carries the \$1.50 per to do development work. He is soon to install a refinery.

Superintendent Alex Hillstrom of the New York and Utah came in from Clark's valley last Monday. Work there is shut down for an indefinite period .- Price Advocate.

#### Looks Encouraging.

According to survey the long tunnel of the Bingham & Eastern is now less than 60 feet from the I X L (bedded) vein. Following the Jersey Blue fissure it is running in a good quality of milling ore that Supt. Dugan has rea-son to feel confident will make into a

large body of better quality at intersec tion of veins.

A shaft was formerly sunk on the I X L that went into fine mineral, but water prevented farther sinking with out pumping machinery. The tunnel has now drained the I X L. It ran into a large "pocket" of water the other day that wused a couple of days' suspension of operations.

Ore already in sight and the imme be based on the metallic contents of the ores. This is done in Colorado and some diate outlook suggest that the Bingham & Eastern people may put a concen-trating mill on their splendid site in Carr fork this season.—Bingham Bulleother places, Mr. Neill said, and he felt confident that the transportation companies would do the right thing if tin. some plan along the lines he sugegsted

#### From the Wolverine.

Manager L. A. Jeffs of the Wolverine of Park City, returned from camp last hight. He says the property looks much better now than it has at any previous time. In driving the tunnel, 40 feet of highly miner lized quartz has been cut and there is every indication that the contact will soon be encountered, when he anticipates some important disclosures of ore.

## MINING CONCENTRATES.

Europe, Visits Property. After making a thorough examina-tion into conditions at the J. I. C. mine of Park City, Manager G. D. B. Turner returned to the city last eve-Samuel McIntyre of the Mammoth management is inspecting that Tintic mine today.

Ernest Bamberger departed for Denver today to attend the Daly-West When seen this forenoon, Mr. Turner shareholders meeting next Monday.

informed a "News" representative that the is well pleased with the looks of W. S. McCornick, treasurer of the Daly-West Mining Co., will leave to-night to attend the Denver meeting the situation at the property and ex-pressed the confidence that the shaft would soon penetrate a rich body of of shareholders next Monday

The assessment of five cents per share The shaft is completed to the depth of 370 feet and the bottom discloses quartz highly impregnated with copper, which, he states, is a pretty sure indi-cation that a richergore body is not far n the stock of the Wabash Mining ompany becomes delinquent next Saturday.

R. G. Wilson, manager of the New York Bonanza of Park City, is expectd home from California within the next day or two.

Secretary Matt Dougherty came down from the Wabash mine at Park City last night. All he had to say to-day was "the Wabash looks good." According to informal talk by the owners of the burned properties on Sec-ond South street, the chances are good for the erection of a fire proof structure.

a six or eight story, fire proof struc-tures on the site of the Atlas and Cen-

ral blocks. One prominent local in-

an increas of 8.7 per cent.

Andrew J. Davis expects to depart this evening for the east in the inter-est of the Trade Dollar Extension Mintor the erection of a fire proof structure, as two disastrous fires on the same site have suggested that a fire proof build-ing would be the proper thing. It is believed that the Walkers fully recog-nize the growing demands of the city office quarters, and are likely to erect a six or eight story, fire proof strucing company, operating at Silver City,

Scockton visited that property yester-day. He was accompanied by Manager M. M. Johnson of the Newhouse mines, M. M. Johnson of the Newhouse mines, whom he took along as a guest. Both gentiemen returned very much pleased with conditions at the property. The men who have been working in the north drift for some time have com-pleted their work, but another contract is to be let to extend the drift for 100 feet more. In the face of this drift Mr. Bettles gentiemen returned very much pleased with conditions at the property. The men who have been working in the north drift for some time have com-In the face of this drift Mr. Bettles into commission,
