

FLOW OF GOLD FROM EUROPE CONTINUES

One Engagement Made by the Mercantile Trust Co. of St. Louis for \$500,000.

FIRST EVER MADE IN CITY.

In New York the Week Opened With A Cheerful Tone in the Financial District.

New York, Nov. 11.—The week opened with a cheerful tone in the financial district. The two trust companies against which there had been several runs were transacting business on a normal basis today, receiving deposits and paying out money on checks as though nothing had ever happened out of the ordinary.

The flow of gold from Europe to the United States continues. The first engagements of the metal for import announced today were by the Mercantile Trust company of St. Louis, for \$500,000, and by the Illinois Trust & Savings bank of Chicago, for \$200,000. Both engagements were made in London. The St. Louis engagement is said to be the first instance in which a financial institution in that city has taken gold direct from London. The total engaged since the beginning of the financial stringency is thus brought up to \$1,521,310.

The United States secured practically all of the \$3,000,000 gold offered in London market today. There was little competition for today's offerings and the American bankers secured the precious metal at a price 3d per pound sterling cheaper than the price of last week.

The stock market showed a steady tone during the early trading, considerable investment demand for stock being reported by brokers.

In Good Shape For Winter?

If not, try a bottle of Beef, Wine and Iron—it enriches the blood and strengthens the nervous system. Highly recommended by the medical faculty.

Only 75c a bottle.

Try a Bottle at Our Pharmacy. You'll be Invigorated.

TWO-CENT PASSENGER RATE.

Case of Penn. Ry. Against Philadelphia County Argued.

Pittsburg, Nov. 11.—The case of the Pennsylvania Railroad company against Philadelphia county, in connection with the 2 cent passenger rate law is being argued today before the Pennsylvania supreme court here. The case was recently decided in a Philadelphia court against the county authorities in their efforts to collect a fine from the company for violation of the new passenger rate law. Before the law was in effect the common pleas court of Philadelphia granted an injunction restraining the county of Philadelphia from enforcing it. Gen. Todd said today:

"As it appears to me we are to have the same arguments to refute before the supreme court that were presented in the common pleas court in Philadelphia and our line of argument will be substantially the same. It is purely a question of the rights of the Pennsylvania Railroad company under its charter, against the rights of the commonwealth of Pennsylvania to

make general laws for what are considered to be best for the interests of the people at large."

A VERY SMALL BARY.

Chicago, Nov. 11.—One of the smallest and most perfectly formed infants of premature birth ever known, in a dimly lit incubator in the room of its mother, Mrs. Edna Hines, wife of Chas. R. Hines, a civil engineer.

The baby, when born, Oct. 19, weighed but 14 inches in length. Over the perfectly formed wrists its mother easily slipped her wedding ring. During the three weeks that have elapsed the baby has gained only a few ounces and now weighs but a pound and a half.

MONEY NOT INFECTIOUS.

New York, Nov. 11.—Dr. A. H. Doty, health officer of this port, who for years has made a study of infectious diseases and especially the medium of their transmission, does not agree with the theorists who contend that money is a transmitter of disease.

Dr. Doty says that while bacteriological examinations were presented to show that different forms of bacteria were found on money, practical and careful observation has proved that infection was caused not by the spread in New York in all instances by personal contact, and most especially with ambulance cases, rather than through the handling of money or clothing. He says, however, that much needless and harmful agitation is being devoted to the theory that money is an agent of disease.

He contends that there are many other considerations in the protection of public health that constitute a real menace that go to make up the consideration of the public rather than conditions which are based on theory.

CHICAGO-PITTSBURG WEDDING.

Chicago, Nov. 11.—A wedding that was looked forward to with interest in Chicago and Pittsburg society was announced today by the young woman's mother yesterday without any explanation. The persons interested are Miss Isabel Postreduct, a Pittsburg heiress, and John Cudahy, Jr., son of the Chicago packer. Miss Postreduct's father was a merchant of Pittsburg, who left a large estate to his widow and daughter.

John Cudahy, Jr., is 23 years old, and is working the Louisville Packing company's office, a plant controlled by his father. The engagement was announced last summer. The acquaintance began at Mackinac Island, where the Cudahys have a summer home.

ARIZONA SMELTER CO.

Application Made for the Appointment of a Receiver.

Trenton, N. J., Nov. 11.—Application was made to Judge Lanning in the U. S. district court here today for the appointment of a receiver for the Consolidated Arizona Smelting company and the Arizona Smelting company. The application was made on behalf of Frank L. Crocker of New York, who alleges that the assets of the company are in a chaotic state due to attachment in Arizona, and he charges insolvency.

Counsel for the company opposed the application and denied insolvency. Counsel claims that the company owes but \$110,000, and that the assets are upwards of \$3,000,000. A claim against the company by Wallace & Co., for about \$100,000 is not being pressed. Counsel for Crocker claims this is because Charles W. Morse agreed to take care of the claim.

Judge Lanning took the application under advisement.

JUNIOR CLASS STRIKES.

Lincoln, Neb., Nov. 11.—The junior and senior classes of Western University at University Place, a suburb of Lincoln, struck today because the faculty refused to reinstate a number of students suspended last week for committing pranks.

NO PLAN IN HAVANA.

Havana, Nov. 11.—The peace proposition of Gen. Manager Orr for the settlement of the street railway strike was rejected last night at a meeting of the strikers.

CLEVELAND TO HUNT RABBITS.

Princeton, N. J., Nov. 11.—For the first time since his recent illness, President Cleveland will today make a trip into the hunting preserves in the country near here. Accompanied by his son Richard and C. B. Priest of Princeton, Mr. Cleveland is going rabbit hunting. It is stated that his health is rapidly improving.

CUT WHALE IN TWO.

Philadelphia, Nov. 11.—A whale was run down and cut in two off Cape Hatteras by the steamer Admiral Farragut which has arrived here from Jamaica.

Capt. Mader of the Farragut stated that on Saturday afternoon when off Cape Hatteras, a school of from 15 to 20 whales was seen. He supposed that they would disappear by the time the

school came near, but was mistaken. The sharp prow of the Farragut cut one, about 50 feet long, squarely in two, one half disappearing on the port side and the other on the starboard side.

O. G. MURRAY NOT ILL.

Baltimore, Nov. 11.—A report that O. G. Murray, president of the Baltimore & Ohio railroad, was taken ill on the line while on an inspection trip and compelled to stop at New Castle, Pa., was doubted at his office here today. Mr. Murray is at his office as usual.

MARCONI AFTER POWER. FROM HERTZIAN WAVES.

Sydney, N. S., Nov. 11.—While occupied chiefly at Glace Bay in the perfection of his newly inaugurated service of Atlantic wireless telegraphy, Mr. Marconi announces that he is giving considerable thought to the employment of Hertzian waves for transmission of power as well as means of communication.

He asserted in an interview that Hertzian waves are now being employed for many purposes besides telegraphy in the British navy. All of the larger ships, he said, are being equipped with an apparatus with the same waves that were employed for wireless communication, for the invisible transmission of power to the extent of controlling and exploding torpedoes and that the inventor's attention was called to a recent cable dispatch from Paris telling of an Austrian electrician who was attempting to obtain financial support from the American colony there for an invention for which he claimed would utilize wireless messages in case of war. Admitting the possibilities of such an invention, Mr. Marconi remarked that whereas the present cables can easily be cut with a few blows, it would require the action of a large plant to nullify the wireless service, and as the invention has yet to be thoroughly tested, it might not succeed. Its discovery, it was admitted, was a valuable contribution to the wireless principle.

UNION NATIONAL BANK. OAKLAND, CAL., CLOSES.

Oakland, Cal., Nov. 11.—The Union National bank, the oldest bank in Oakland, closed its doors today. The Oakland Clearing House is investigating its assets and will report in several days. J. Dabell Brown of the California Safe Deposit & Trust company was vice president until a few days

ago. It is claimed that the bank closed because of its connection with the California Safe Deposit & Trust company. A statement of assets and liabilities will be given out later. It is impossible to say at this time whether the bank will again open its doors. The officers of the bank say they are only taking advantage of the legal holiday to straighten up their business.

THE DESERET NEWS.

BACK TO THE "CART WHEEL."

Silver Dollars Prove a Novelty to Factory Hands.

Pay envelopes filled with silver dollars were handed to employees in many factories on Saturday and yesterday for the first time in many years. Some men drew whole pockets full of the

"iron boys," and to many they were such a novel sight that men never known to have saved a dollar threatened to put away a couple of the silver ones as souvenirs.

For years the silver dollar has been almost out of circulation in the east, although still popular with the western man who likes to feel that he has a dollar in his pocket. Recently the government announced a discontinuance of the coinage of the "cart-wheels," and as rapidly as possible the silver dollars have been sent to the mint for exchange for silver certificates.—New York Herald.

RETURNED MISSIONARIES.

Have you a friend or acquaintance in your former field of labor, to whom you would like to send a copy of the Semi-Weekly News? If so, take advantage of our special offer, made to aid the great missionary work. We send the paper one year to any point in the United States, Canada or Mexico at half price, \$1.50. This does not apply to points where there are regular wards or stakes. Foreign postage extra.

QUEEN ALEXANDRA'S NEW DANISH HOME.

The cut shows the villa of Hvidovre, the beautiful estate purchased recently by the English queen and her sister, the dowager empress of Russia. It is situated near Copenhagen, not far from the seashore, with which it is connected by an underground passage. The house is furnished in part with some of the household belongings used by the royal sisters when they were girls in their native Denmark.
