

## WORKMAN DIGS UP A BAG OF JEWELS

English People Directed Wrecker  
On St. Louis Fair Building  
Where to Find Them.

WERE STOLEN TWO YEARS AGO

Trusted Indian Servant, Fatally Hurt  
By an Elephant, Makes Full  
Confession.

St. Louis, Aug. 15.—Acting under instructions cabled from England, John P. O'Brien, a laborer employed in the wrecking of the world's fair buildings, has unearthed an alligator bag containing jewels valued at \$50,000, which were stolen from Mr. and Mrs. P. Henry Clayton of Devonshire, England, during a visit to the Louisiana purchase exposition two years ago.

The jewels were stolen from a trunk and they were not missed until the Clayton had returned to England after a tour around the world. They then had no means of knowing where the jewels had been stolen. About a month ago a Hindoo servant who had been in their employ during their trip was fatally injured by an elephant in India and on his death bed confessed that he stole the jewels while in St. Louis. He said that he became alarmed and, fearing detection, had dropped them into a hole in the wall of a manufacturer's building. Later he again wished to secure the gems, but on returning to the place he had secreted them, could not reach the bottom of the space between the plaster and the side of the building. Fearing to make any inquiries or ask assistance, the Hindoo departed from St. Louis with the Clayton, leaving the jewels in their hiding place.

O'Brien was generously rewarded and was also employed by Mr. Clayton as his personal attendant.

Repulsed, Victor Losing Seven Hundred Men Killed.

London, Aug. 15.—According to the correspondent at Aden of the Daily Mail, after devastating 19 Omani villages, the mad mullah, inflamed by his success, attacked the sultan of Midertain's territory. Both sides lost heavily. The sultan had nine near relatives and 700 warriors killed, but eventually repulsed the mullah toward Illig and the coast.

### A BREAK FOR LIBERTY.

Italian Girl Ordered Deported Makes a Successful One.

New York, Aug. 15.—An 18-year-old Italian girl, who has made desperate efforts to evade the execution of a sentence of deportation imposed by the Ellis Island immigration officers, gave her custodians the slip yesterday and last night enjoyed her first real taste of freedom since she passed the statue of Liberty to make her home in America. She is Gracina Ferranti, whom the immigration officers excluded because she was regarded as likely to become a public charge. With her in the break for real liberty went a companion named Salvatore Laporte.

Sixteen immigrants upon whom the sentence of deportation had been passed and who had been under treatment in a hospital in Manhattan were being taken in an ambulance to Ellis Island. At the Battery landing, six Italians tried to break through the ambulance open and Miss Ferranti and Laporte jumped out and disappeared. Miss Ferranti escaped from the hospital several days ago but was recaptured.

### OLDEST HISTORICAL DATE.

Chicago Professor Announces It as 4241 B. C.

Chicago, Aug. 15.—Prof. James H. Breasted, the Egyptologist of the University of Chicago, announced in an article in the Biblical World published yesterday, that the "oldest fixed date in history" is 4241 B. C. In that year, he says, the calendar was established, the year beginning on what would now be July 19. Consequently, the calendar now in use was 6,411 years old last month. The professor arrived at these conclusions during his long exploration trip in the Nile valley when he compared the astronomical dates in the old and middle kingdoms of Egypt. Prof. Breasted but recently returned from Egypt.

### TO PROSECUTE ELEVATOR TRUST

Chicago, Aug. 15.—Steps are being taken which may lead to the prosecution of certain elevator companies in Chicago alleged to constitute a trust under both the state and the federal laws. The moving spirit in the proceedings is John Hill, Jr., a board of trade member, who has had many battles in the last 25 years with elevator companies alleged to be acting adversely to the interests of grain producers and the public and in violation of the laws. Mr. Hill proposes to present all the evidence he may secure to the interstate commerce commission and the federal department of justice in order that, if the law will justify it, the elevator companies may be prosecuted under the national and anti-trust law. He also believes they have agreements which make them a trust in violation of the state law.

### WHO IS MISS ESAC?

Believed to be Miss Isabel E. Case of Haverhill, Mass.

Haverhill, Mass., Aug. 15.—It is believed here that Miss A. Esac, the mysterious woman who has been seeking an interview with President Roosevelt at Oyster Bay is Miss Isabel E. Case of this city. Miss Case has been absent from her home here for some time. Some months ago she sought the president in Washington and at that time was placed under detention and brought back to this city by her father. Miss Case has been interested in an effort to secure a pardon for John H. Huch of this city, who is serving a sentence in state prison for manslaughter, and she has been at the statehouse in Boston several times on that errand. It is said that her visit in Washington some time ago was for the purpose of securing clemency for Huch.

### HUGE TRANSACTION IN OREGON LANDS.

Portland, Or., Aug. 14.—Ownership of almost one-half of the land of the state of Oregon changed hands today. After extended negotiations the greater portion of the land included in the old Oregon Central military road grant was transferred from the California and Oregon Land company to a syndicate composed of eastern and California capitalists. Approximately 500,000 acres are included in the sale and the consideration involved is about \$750,000. The principal purchasers of this great tract are the Hunter Land company of Minneapolis, Minn., and Richard Sykes, a capitalist of Santa Barbara, Cal. Associated with them are the W. R. S. Trimble company of Jamestown, N. D., and Andrew E. Johnson, vice president of the Hunter Land & Steamship company. The tract sold is a strip of land running from the Cascade forest reserve to the Oregon-Idaho boundary, a distance of approximately 225 miles. It has a width of 12 miles. The only portion that is excluded from the sale is a strip 25 miles long, running through the Klamath Indian reservation. The purchase of the tract is declared to be the initiative step of an extensive colonization project.

This evening the company was welcomed to Dusseldorf by Lord Mayor Marx at the town hall. All the leading men of the Rhenish Westphalian industries and many prominent citizens were present, and the Americans were welcomed enthusiastically.

### MILES OF DEAD HERRING.

Boston, Aug. 15.—Dead herring covering an area of over 15 miles were reported by Capt. Anderson of the Danish steamship Texas, which arrived yesterday from Copenhagen. The fish were floating on the eastern edge of the banks and the steamer plowed through them for an hour and a half. A battered dory floating in the midst of the fish led the captain to believe that some heavily laden fisherman may have foundered.

Cole, former president of the wrecked Globe National bank who was released from the Greenfield jail last April, after serving six years for embezzlement, died at St. Margaret's hospital last night. T. Bedford, director in the Standard Oil company, to Johannes Schiott, formerly a lieutenant in the Norwegian navy. The ceremony will be performed on Oct. 12, at the Bedford summer home at Grensfarms.

The couple met in Brooklyn about two years ago. Lieut. Schiott had come to this country to attend a concert given by his brother, Christian Schiott, and there saw Miss Bedford for the first time. He later called on her at her home. Lieut. Schiott entered the Norwegian navy as a cadet and saw 10 years' service.

### TENNIS GAME ENDS IN HUNT FOR A WILDCAT.

New York, Aug. 14.—A tennis game which attracted about 100 members and guests to the lawns of the country club of Westchester yesterday, closed with a wildcat hunt, which started from the very net of the court and ended a mile away.

The game had among its witnesses Miss Beatrice Hoyt, former first champion, and was between Miss Emily Scott and C. P. Weston, Jr., on one side, and Miss Scott's sister and Charles Jackson, Jr., on the other. Suddenly one of the players beheld something larger than a ball coming flying through the air over the net in his direction. He took a slap at it with his racket and missed it. The thing was the wildcat.

The animal landed in the court near the players and began clawing, scratching and spitting. When players and spectators realized the nature of their visitor, there was a wild scramble. Policeman William Kelly secured a shotgun and fired upon the beast. He missed and the cat scampered from the court. Kelly took after him, some of the members and guests of the club joining in the chase. The wildcat turned toward Pelham bay. Along the edge of the bay it scurried for a mile and then it climbed up a tree. It was not used to outdoor life, evidently, and it is believed to have escaped from the Bronx zoo. In the tree the creature's body made an easy mark for the policeman, who brought it to the ground with one shot.

The body of the cat, according to the police, was three feet long. It was taken back to the club and its hide will be stuffed.

Snyder to file charges against them for perjury. The district attorney has taken the papers in the case and is investigating it.

### CHAS. E. BROWNE RELEASED.

New York, Aug. 14.—Charles E. Browne, former examiner of silks in the government customs service in this city, was ordered released from Sing Sing prison by Judge Hough of the United States court today on a writ of habeas corpus. Browne was recently brought back from Canada, where he had fled after giving bail, and was taken direct to prison. His counsel claimed this was in violation of the extradition treaty between the United States and Canada. In his opinion discharging Browne from custody Judge Hough declared that there is no authority vested in the United States to seize or hold a person extradited in pursuance of treaty privileges, except upon the charge on which the extradition was granted. The court declared:

"This decision rests not only principally upon the civil rights of a fugitive criminal who has been returned in accordance with an increasingly civilized international law, but upon the grounds of national honor, imposing upon this government the obligation to deal with the human being entrusted to it by a friendly foreign

### A PRIVATE EXCURSION.

Four Men Capture an Engine on N. P. And Run It.

Missoula, Mont., Aug. 14.—Four men took possession of a freight engine at Saltese, 100 miles west of this city on the Couer d'Alene branch of the Northern Pacific, and ran it to St. Regis on a private excursion. A warrant is out for the arrest of Frank Regan, a caretaker of the engine, and three unknown companions. It is stated that the men had been drinking and drove the engine at a terrific rate of speed, ringing the bell and blowing the whistle. They stopped at several stations to obtain more drink. At St. Regis the water in the boiler became dangerously low and the men did not know how to replenish the supply. They left the engine standing on the main line and fled.
