

DISPOSITION OF GARBAGE CANS

Agitation on Question Brings Some Pertinent Suggestions From Rulon S. Wells.

NEED FOR NEW ORDINANCE

Along the Lines of the Measure Voted by Mayor Thompson During His Administration.

Present the agitation of the garbage question, now occupying a leading place in the minds of the city council and others, the views of Rulon S. Wells, formerly a member of the city council and author of an ordinance governing the disposition of garbage which was passed by the council and vetoed by former Mayor Ezra Thompson, is timely and interesting.

Mr. Wells said this morning that there was just as much need for the passage of an ordinance similar to the one he introduced several years ago as there ever was. "The condition, in fact," said Mr. Wells, "becomes more aggravated as time goes on and the city increases in population. The garbage question is one which the city authorities and the health department cannot afford to ignore, as the public health is either endangered or preserved in proportion to the efficiency of the method adopted for the disposition of the city's refuse."

MR. WELLS' ORDINANCE.

"The ordinance which I introduced," said Mr. Wells, "made it unlawful for any garbage can or bucket to be placed in the streets. The present law requires householders to place their garbage buckets in the street, in front of their residences, where the filth oozes out and ferments in the sun and it is sometimes permitted to stand a day or two before being gathered up, and becomes an extremely nauseating object to passers by and to the people themselves. I have heard of strangers in the city passing these foul smelling buckets, and wondering if the city permitted such obnoxious conditions to exist in this otherwise beautiful city. No other city in the country allows the accumulation of refuse to be placed in the streets in front of the residence premises to my knowledge. It might be argued that other cities have back alleys running through their blocks, and that all garbage is gathered through these alleys. This may be true, and it is to be regretted that we have not similar alleys in all instances. But inasmuch as we have no such alleys, we should do the next best. In my opinion, that would be to compel the garbage gatherers to go into the lot, perhaps as far as the back yard, to gather the cans, and this would make the property owners more vigilant to see that the cans were gathered at the proper time, as well as to see that they failed to do the work because the ordinance would provide that neglect to do so gather the receptacles would be punishable by a suitable fine."

"The people of this city have become so accustomed to putting their cans out in the street, that they think they are compelled to do so. If the council would adopt some such means as that suggested, and see that the health department enforces the regulations, there would be no complaint of foul smells and disease breeding conditions arising from garbage cans as has been the case of late. I sincerely hope that some means will be adopted, and that promptly, for the proper handling of the garbage business, even if it does entail a little extra expense upon the taxpayers of the city."

WANTS DEED RETURNED.

In a suit filed yesterday in the district court, Mrs. Sarah Jane Goodwin accused her daughter, Mrs. Sarah Binnal, and the latter's husband, Joseph Binnal, of defrauding her out of a piece of property. The land in question is in lot 3, block 9, plat B, and she asks that a deed executed by her be set aside. Mrs. Goodwin alleges that she was persuaded by the parties named to transfer the property to them, lest it fall into the hands of the county, and that she did so at a time when she was responsible for her actions because of illness.

AUSTRIAN CASE CONTINUED.

The case of Mike Pplich, charged with disturbing the peace and rioting, was yesterday continued by Justice Helm of Murray until Monday next. The postponement was made at request of defendant's attorney, Soren N. Christensen. The latter is credited with the statement that he will have the series of hearings against the Austrians drawn out as long as possible, to make all the expense he can for the county in the prosecution of the cases. He says the wrong man are in custody, but the officers are just as confident that they have the right parties.

CHARGED WITH ASSAULT.

Complaints were issued from the county attorney's office yesterday afternoon, charging Mary Jarrett and Kate Speed, both colored, with assault and battery and intent to commit murder. The two women are accused of having shot Ella Branch, Aug. 3, and the complainant is Daniel Branch, the victim's husband. The Branch woman is slowly recovering at St. Mark's hospital.

Mrs. W. G. Page gave a luncheon at the Commercial club on Tuesday for Miss Dorothy McConnell of Kansas City, the table being decorated in pink and white sweet peas and covers laid for eight.

"What, McDonald's Salt Lake Chocolates the finest made in the United States? I should think the best chocolates would be made in one of the large cities."

Doesn't the finest furniture come from Grand Rapids? The choicest writing papers from small towns in the New England States? Now, really, aren't nearly all of the best known products of mill and factory from towns or smaller cities?

SO IT REMAINED FOR McDONALD TO LEAD THE WORLD IN THE MAKING OF CHOCOLATES AND COCOA.

And McDonald's great confection of the hour is MERRY WIDOW CHOCOLATES. Compare them with Chocolates made elsewhere—the comparison will be emphatically in favor of the Merry Widows—in favor of the Salt Lake concern as against the world.

RAILROAD NEWS.

SPEED RECORDS BROKEN.

Train on Pennsylvania Road Exceeds 100 Miles an Hour.

Chicago, Aug. 22.—A dispatch to the Tribune from Warsaw, Ind., says: All speed records of the Pittsburgh, Fort Wayne & Chicago division of the Pennsylvania railroad were broken yesterday. A special train carrying Prof. F. T. Turnoure, dean of the engineering department of the University of Wisconsin, Prof. C. E. Grandall, of the railway engineering department of Cornell university, and F. M. Graham, the Pennsylvania chemist, at Altoona, made a test run from Altoona to Warsaw, a distance of nine miles. The speed was in excess of 100 miles an hour.

The object was to determine the impact of trains with the rails while running at different speeds. The train making the record run was composed of a locomotive, a coach and a caboose. The train, in another test, ran 32 miles an hour, and stopped within 700 feet from where the engineer shut off steam.

HONORS STREET CAR.

President of Erie Road Will Set Up Reading Room.

Chicago, Aug. 22.—A dispatch to the Tribune from Milwaukee, Wis., says: President Fred D. Underwood, of the Erie railroad, has purchased an old-fashioned street car, the first in which he ever rode, and shipped it to Wauwatosa, where it will be set up as an outdoor reading room on the grounds of his ancestral home.

Mr. Underwood has kept the old homestead, which he visits once a year, in such condition that many of his friends may spend their summers there. There are three tents for overflow visitors.

CARS ORDERED OUT.

Word comes from eastern sources that all the storage cars which have been under cover during the last several months have been ordered out for service in moving the fruit, wool, and grain crops of the country. The business of the present season is estimated at 25 per cent greater than last year, and while a shortage of equipment is not anticipated, yet every available storage box car will be brought into requisition. Some of the big lines of the east will be compelled to borrow refrigerator cars to move the fruit crop, going eastward from California, Oregon, Idaho and Utah.

SPIKE AND RAIL.

A. P. Maginnis of Los Angeles, land and tax commissioner of the Santa Fe railroad, is in Salt Lake for a few days. He is accompanied by Mrs. Maginnis and they are guests at the Kenyon. Mr. and Mrs. Maginnis will go north on a fishing trip before returning to Los Angeles.

H. L. Newton, passenger agent for the New York Central lines at Dallas, Texas, is in Salt Lake. He is accompanied by his wife and daughter.

Nearly 100 Eagles passed through Salt Lake yesterday on their way east after attending the convention of the Eagles at Seattle. They left for the east over Rio Grande trains No. 2 and No. 4.

Church Notices.

Regular services of the Church of Jesus Christ of Latter-day Saints will be held in the Tabernacle at 2 p. m. tomorrow, Sunday. Sunday school at 10 a. m., and meetings in the city ward assembly rooms and adjacent wards as follows:
