## **COLLEGE PARADE** AT UNIVERSITY

Faculty, Regents, Alumni Graduates and Guests Join In Ceremonial.

COMMENCEMENT EXERCISES.

They Will be Held in Gymnasium Building Instead of at Downtown Theater.

For the first time in the history of the institution, there will be a campus parade of University of Utah alumni students and faculty tomorrow morning. The parade marks the beginning of commencement ceremonials such as mark the year's closing at the greater eastern universities. Heretofore it has been impossible on account of the

has been impossible on account of the undeveloped condition of the campus, the lack of suitable buildings, and the small size of the graduating classes. That it can be accomplished this year is regarded as a healthful sign of the state's progress educationally, and as a symptom of the bright future immediately ahead of the state's chief educational institution, now that the determination is becoming fixed to make it the center of education in the intermountain country, just as the

determination is becoming fixed to make it the center of education in the intermountain country, just as the state is striving to become the center in industrial growth.

The parade will form in front of the library building, the normal class with its 150 graduates leading. Following them will be 15 arts and science graduates, and then 13 engineers. The alomni, faculty, and regents will then collow to order, and all will proceed to the new symnasium building, where the commencement program will be rendered. #### DAINTY FOOD

Turns Pale Cheeks to Pink.

Our best physicians of the present day seek to cure patients by the use of food, rather than drugs, and this is the true method, for all physicians agree that only from food can the body be rebuilt.

Many people fail to give their phy-

body be rebuilt.

Many people fail to give their physicians credit, for after living on poorly selected or badly cooked food for a long time, perhaps, and when their allments become chronic, they expect the Doctor, with some magic potency, to instantly rebuild them.

This is not possible. The only true method is to turn as quickly as can be, to proper food. A Cincinnati, O., young lady says: "I was variously treated for my nerves, muscles, lungs, etc., but the treatment gave me no relief from my ails.

### AMUSEMENTS.

Theater—The second presentation f "Poter Pan" last night drew an-ther overwhelming house and the ap-lause over Miss Adams' beautiful rendition of "the boy who never grew up" was as enthusiastic as ever. While there are some people to whom the fairy daintiness and delicacy of the story do not appeal, everyone who remembers his or her childhood finds in members his of her chidness and the harrie's play an evening of deli-cious enjoyment. This afternoon's ma-tinee is already hearly sold out. The engagement runs until Friday night.

Maude Adams' unostentations generosity was evinced on Monday by her action in buying 50 of the best tickets in the paramet for the opening night of "Peter Pan" and ordering them sent to poor children. The order was accompanied by a request that no mention be made of it, and the "Neas" only obtained the information by hear-

fortunate enough to secure the tickets. Another part of Miss Adams' request was that the young guests of the evening should not be secured from the Orphan institutions of the city, as experience has taught her that the pathos of "Peter Pan" has a rather distressing effect than otherwise upon the minds of those bereft of parents. It is safe to say that those 50 seats were occupied by auditors whose enjoyment was not exceeded by that of anyong cisc in the vast audience.
