BEAUTY!

OR, THE
Secret of a Fair Face

An Item of Interest to Every Lady who
Desires to be More Beautiful
than she now is.

Unfortunately not one woman in a hundred,
subjected to the whims of an American climate,
possesses that base and starting point of real
beauty—a pure and clear complexion.

What nature has thus denied, art must
be called upon to furnish.

It can be done; it is done daily. Prof. W. R.
Hague placed beauty within the reach of every
unlucky daughter of Eve who be discovered
that surprising article known in fashion circles
as the true secret of beauty, and called

Robb read a long statement setting
forth the importance of the
question under consideration. He
would hold the committee
responsible for every hungry
stomach and naked back in the
land. God says "Ye shall not sell
the law to give a title for land."

We have violated the laws of God, and
fraud and perjury prevail every-
where. There was a great deal
more of this kind of talk, and the
committee declined to hear him.

J. P. O'Grady, who represented
dry goods merchants and the shoe
trade, wanted to read a statement
but the committee declined to hear
him as it would take too long, and
O'Grady declined to submit his
"long statement," which would take
two hours to read.

Mr. Graham, secretary of the
Workingmen's Union, held that we
do not desire the outlaws of the old
world to come here and upset our
government. Our shipping has
been driven off the seas by foreign
steamers. I would tax steamers in
favor of freight.

Howitt, Mr. Marshall, a
large shipowner, to give his views.
He said he did not want any pro-
tection against steamers. He
thought the removal of taxes as
much as possible, consistently with
revenue necessities, would revive
trade, and the abolition of prohibi-
tory law, preventing Americans
from bringing their vessels abroad,
would revive the shipping trade.

Horatio D. Humphreys, of the National
Reform Association, attributed
the present depression to the
mistakes on the part of the govern-
ment in the tariff and in the
money market, and in the
tariff and in the money market, and in
the tariff and in the money market.

The president of the Cigar Mak-
ers' Union spoke of the cause of the
depression in the cigar trade only.
He said that while the number of
cigars manufactured steadily in-
creased, the condition of the cigar
makers got worse and worse, and
there were four suicides in New
York, of cigar makers, far want of
employment. The trouble has
been caused by the general govern-
ment by its taxation, which
throws business into the
hands of large manufacturers. The
first cause is the introduction of
3,000 Coolies into the trade in San
Francisco, and in New York the
tenement house system caused ruin.
The system is a shame and disgrace.
The Coolies are a pest to the
people, and they are a danger to
children and women. They work
from 12 to 18 hours, and still only
make enough to live, or rather
starve on, and when the cigar mak-
ers strike for wages, the landlords
who were the manufacturers, turn-
ed 1,000 wretched families into the
streets. In the tenement houses
the people get, say tobacco for 1,000
cigars and make 1,000 out of it, and
they trade off the extra hundred
to the butcher, the grocer and the
baker, and pay the revenue on
them. He said that the tenement
house system be abolished, and
that cigars be allowed to be
made in factories. He was not op-
posed to Chinamen as a rule, but
was opposed to the importation of
Chinese or any other labor under
such a system. He did not care
how many Chinamen came to the
country or what wages they worked
for, provided they were not impor-
ted as coolies. He was opposed to
the importation of all labor by con-
tract.

There were other and uninterest-
ing addresses, and the committee
adjourned till to-morrow.

The Freight Question.

The railroad and Pacific Mail
matters are in statu quo, pending
the meeting of the Pacific Mail di-
rectors to-morrow, when it is ex-
pected they will announce their
future programme. From a canvass
to-day it is probable that the Mail
Company will at once enter the
field for freight, regardless of the
Pacific route or any contention, and
will carry all the goods they can at
a fair rate. They have already been
offered all the dead weight they
will require for the next six months
from one shipper alone, and the
company is no doubt, but that they
will meet with encouragement
from those classes of shippers, par-
ticularly those from whom the
Pacific route has attempted to ex-
port a double rate, at a time when
they thought they would be obli-
ged to succumb. It is also intimat-
ed that the Mail Company will put
on a winter line of steamers, and
will do all in their power to accom-
modate shippers, if the latter in
turn will guarantee to ship all
their freight by them.

The Labor Question Committee.

NEW YORK, 5.—In the labor con-
gress, this afternoon, Hastings had
a tilt with Hewitt. He would not
make his statements specific and
was told to stand aside. He then
charged Hewitt with being hostile to
him and said his treatment was
not just. Mr. Hewitt took occasion
to say, in view of an allegation of
Hastings, that he (Hewitt) was not
a member of any team, and did
not import any foreign goods.

Robb read a long statement setting
forth the importance of the
question under consideration. He
would hold the committee
responsible for every hungry
stomach and naked back in the
land. God says "Ye shall not sell
the law to give a title for land."

We have violated the laws of God, and
fraud and perjury prevail every-

Co. and the phasing mill and
box factory Loveland & Doolittle,
with nearly 1,000,000 feet of lumber,
were burned to-night. The
factory is owned by the Geo. Ames
estate; lost from \$70,000 to \$80,000.
Insurance from \$20,000 to \$40,000.
Supposed to be incendiary.

Terrible Storm—Great Destruction
of Property.

WASHINGTON, 5.—At 3 o'clock
this afternoon this city was visited
by the most terrible storm known
for many years. Some 50 houses
were unroofed and
