CHILDREN MUST ATTEND SCHOOL

Compulsory Education Law Will Be Rigidly Enforced Hereafter.

BEGINNING NEXT MONDAY

Board Will Require Attendance In School of All Healthy Children Between Ages of 8 and 16 Years.

On and after Monday next the provisions of the compulsory education law will be strictly enforced, and persons found guilty of violations thereof will be called to account. The statute requires that children of school age, that is, from 8 to 16 years, shall attend the public schools at least 30 weeks each year, save for the following exceptions:

"That such child is taught at home in the branches prescribed by law and for the same length of time as children are required by law to be taught in the district schools."

"That such child has already acquired the branches of learning taught in the district schools."

"That such child is in a physical or mental condition as to render such attendance impracticable."

"That such child is attending some public, district or private school."

"That the services of such child are necessary to the support of a mother or invalid father."

NO INDIVIDUAL NOTICES.

The schools of Salt Lake are in session 20 weeks, and, therefore, it is usually permitted during the first 10 weeks. Many are prone to take advantage of any leniency on the part of the school officials, but it has been determined to compel every one to live up to the provision of the statute. Individual warnings to parents, employers, etc., will not be sent out, as heretofore. The board considers that all should now be acquainted with requirements in the premises and should act accordingly.

How to Cure a Cold

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of, the less danger there is of pneumonia and other serious diseases. M. B. Chamberlain, of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy is absolutely the best medicine for the common cold. I have recommended it to my friends and they all agree with me." For sale by all druggists.

A QUIET HOLDUP.

Masked Man Lines Up Occupants of Saloon and Loots Register.

The Big Four saloon, 144 West Second and South street, was visited by a daring hold-up this morning after midnight and the fellow got away with \$100 in cash which he took from the cash register.

The robber had a handkerchief over his face and carried a revolver. Slipping quietly into the saloon he lined up a man named Ryan, the bartender. Charles Bradbury and Byrne Riddell against the wall and compelled them to hold up their hands. A man named King was asleep in the back room but the robber did not pay any attention to him.

"Don't look at me or some one will get hurt," exclaimed the robber as he went to the cash register. He secured \$50 and quietly walked out of the place and disappeared.

F. S. Richards, Special Counsel in Water Rights Secured Title.

The city may seize the five small lakes at the head of Cottonwood canal if you if J. W. Thomas and H. H. Cole, who claim them, do not agree to sell them to the city for \$2,000. Frank S. Richards, special counsel of the city in water right matters, has secured the government title to them and declares that no two persons can claim to own them or be without rights. Quinsy, Sprains and Swellings Cured.

In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a few days. It is the best pain killer right now. Mrs. L. Cousins, Otterburn, Mich., Chamberlain's Pain Balm is a liniment and is especially valuable for sprains and swellings. For sale by all druggists.

THE REASON WHY

The city may seize the five small lakes at the head of Cottonwood canal if you if J. W. Thomas and H. H. Cole, who claim them, do not agree to sell them to the city for \$2,000. Frank S. Richards, special counsel of the city in water right matters, has secured the government title to them and declares that no two persons can claim to own them or be without rights. They have, however, spent about \$1,700 in dredging the lakes, and the city council committee on water is willing to compensate them for this, but not to pay them the \$7,500 they ask, which they consider a hold-up.
