FOREIGN.

A SWISS VILLAGE DESTROYED BY FIRE.

Fragments of News from Germany.

Village Destroyed.

BERNE, 16.—The village of Firnstern, in the canton of Berne, Switzerland, has been destroyed by fire. None of the inhabitants perished in the flames.

Bits from Berlin.

BERLIN, 16.—The Imperial war budget for 1887 maintains the army on an effectual peace footing of 427,274 men. A credit of 7,000,000 marks is asked on the first account for fortifications on the frontier, which are required to meet the new methods of attack.

The Dutch Government is negotiating with the German Lloyds with the object of having the steamers of the company call at Flushing instead of Antwerp after July 1, 1887. The Belgian Government opposes this scheme, and it is confident that it will succeed in having Antwerp retained as a port of call.

The company started in Berlin to compete with the Government postal telegraph monopoly

HAS COLLAPSED.

Lower rates were charged and branches were formed in the leading centres but the public failed to respond. The official press congratulates the State administration upon its triumph.

The Dantzic ship owners are organizing an opposition to the bill to be introduced into the coming session of the Reichstag, making a compulsory seamen's insurance. All the German shippers opposed the measure, urging that it would result in the reduction of ships and the discharge of many seamen, and would diminish generally the resources of the maritime population.

Emperor William and Empress Augusta have decided to confer medals of distinction upon couples celebrating their golden or diamond wedding, after an exemplary life. The medal will bear on one side an effigy of the Emperor and Empress, and on the reverse side the following passage from Romans: "Rejoicing in hope, patient in tribulation, steadfast in prayer."

CORRESPONDENCE.

LAKETOWN.

Affairs in this Quiet Place—New Stake Tabernacle.

LAKETOWN, Rich County, Utah, November 14th, 1886.

Editor Deseret News:

Affairs in this region seem to be very quiet just now. Our farmers had quite a busy time of it during spring, summer and fall. Crops were not as heavy as in some previous years, but the quality of grain, etc., was better than that produced in some former seasons. We were blessed with being exempt from frost, none of the crops having been touched by it.

Several private dwellings have been erected lately in this place. Our worthy Bishop is setting an example, by way of building quite a commodious and substantial house, which will be an embellishment to this end of the valley.

Several young couples from our town have joined hands and entered the eternal bonds of matrimony during the past year.

DEATH

has thrice entered our town during the present year. The first taken was an infant daughter of Brother Allen, then Father John Nebeker, a pioneer of Utah, and one of nature's noblemen; Then Elder George Earley, a good, steady, upright old gentleman. The health of the people is generally good, with the exception of occasional coughs and colds and other minor ills.

Our material prosperity is somewhat enhanced by a grist-mill and saw-mill in the mouth of the cañon. We have two or three carpenters, two smiths and a thrifty co-operative store. But still we have no man to look after the people's blessed soles; and, as a consequence, a great deal more has to be expended for boots and shoes, than would otherwise be necessary.

We are very thankful to say that our

LOCAL INSTITUTIONS

are in an excellent working trim. The Young Men's Association has recently been reorganized and great things are expected to be done by it during the winter. The Y. L. M. I. A. is also filling a noble mission. The same can also be truthfully said in reference to the Ladies' Relief Society, Primary Association, and Sabbath school.

We have a very comfortable meeting house which we fail not to occupy frequently and profitably.

It seems that in this latest storm we Laketowners have been the recipients of special favors from the worthy weather clerk, for we have had more snow than any of our neighbors in the valley.

None of us are very rich in Laketown, nor are there any so poor as to be in want of any of the necessaries of life.

A call was made upon us from President Budge last week for about 10,000 feet of lumber for the

STAKE TABERNACLE,

or its equivalent in money. Our Bishop called the brethren together this afternoon, after regular meeting, and within a very few minutes about three-fourths of the required amount was promised, all in small amounts, and not two-thirds of the brethren of the ward were present, so that we hope promptly to fill our part in the good work of erecting a house which is so much needed in our Stake.

The NEWS finds its way into the homes of nearly all the Saints in the ward, and is not only welcome but eagerly anticipated and sought after.

Yours respectfully,
JOSEPH IRWIN.

BEE CULTURE.

PLANTING TIMBER IN CONNECTION WITH IT.

PROVO, November 16, 1886.

Editor Deseret News:

The past summer has not been very good in Utah County for bees, one cause of this being grasshoppers, which damaged the lucern and sweet clover.

The cultivation of timber in these valleys is a great advantage to bee culture, or I may say to every class of farming. On all kinds of farm lands which have to be irrigated, the banks of every ditch may be set thick with any kind of timber, which would protect the water ditch and make

A GOOD WIND-BREAK

to protect fruit trees, lucern, sweet clover and all farm products, and especially the bees on the pastures and in returning home to their hives laden with honey.

Beehives should be placed in a thick grove of timber, so planted as to protect them from prevailing winds.

On the greasewood farm at Benjamin, the prevailing winds blow from the northwest and southwest. In places thick groves of trees planted to protect from the wind have proven a great benefit. In the greasewood apiary there are 140 colonies that have done very well, considering the damage done by the grasshoppers.

After about the middle of August

THE HONEY DEW

commenced falling and the timber was covered thick with it, both the leaves and the limbs. From early morning until sundown every day the bees were swarming thick on every tree. There are about 25,000 timber willows all planted on the water ditches. They were set from eight inches to four feet apart and make a very thick hedge all along the ditches. There are, besides, a great many other varieties of trees upon which the honey dew could not more than barely be discovered. There was more honey dew on the timber willow than on any other tree. It has this advantage over the other trees for the apiary.

The willow that has been planted from 8 to 10 years averages from 20 to 30 feet in length and from 10 to 18 inches in circumferance at the butt, and will make good wood or poles.

I do not intend to say much about timber culture only in connection with the bees. My object is to show a valuable means to advance bee culture.

A GREAT DEAL

of honey is imported into Utah, and yet we can produce a surplus and of as good a quality as can be produced in the United States. I would like to hear from the beekeepers of Utah.

S.

A WESTERN ROMANCE.

INDUSTRY MADE TO TELL IN AN UNEXPECTED WAY.

"There goes a young man who has a romance," remarked a well-known citizen of St. Paul to a reporter, as he looked through the window as a young man of perhaps twenty-five passed up First Avenue, a remarkably handsome lady leaning upon his arm. "Tell you about it? Certainly; only I won't give you the names of the parties, for if I did you would print it and nearly every one in the city would recognize in the couple two well-known Minneapolis people.

"Some years ago the young man worked in one of the big mills and was looked upon as a good man in his position. One day a party of ladies visited the mill, among them the lady you saw him with. While looking at the different things around the mill this young lady dropped from her finger into a lot of wheat which was being stored a valuable diamond ring which had been presented to her by her mother, who had died years before.

"Of course, the young lady was nearly heartbroken and refused to be comforted by her friends. This young man, who was standing near when she dropped the ring, saw the whole thing and made up his mind to recover the ring. That evening, as soon as his work was done, he went to the bin in which the wheat had been stored and there, accompanied by a friend, sifted all the wheat and placed it in bags. It was nearly morning when he found the ring. The wheat was then emptied back into the bin and the young man went home. When he went to work again he went to the head miller and succeeded in being released for the day. His next move was to dress himself in his best suit and return the ring to the owner.

"To her he related how he received it, and by his pleasing manners so captivated her that she invited him to call. This he did, and the friendship thus begun soon ripened into something stronger. The young lady's father took a great liking to the young man and gave his consent to a marriage arranged between him and his daughter. When the marriage took place the young man left the mill and was started in business by his wife's father. He is now worth about $100,000, and can lay his good fortune to recovering the lost ring."—*St. Paul Globe.*

Use St. Jacobs Oil and prove that "an ounce of prevention is worth a pound of cure."

TAKE SIMMONS LIVER REGULATOR

For all Diseases of the Liver, Kidneys, Stomach and Spleen

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts greatly on the Bowels and Kidneys and exercises the action of the Liver, and is, therefore, the best preparatory medicine, whatever the sickness may prove to be. In all common diseases it will, unassisted by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate like a glass of wine, but is no intoxicating beverage to lead to intemperance; will promote digestion, subpate headache, and generally tone up the system. The dose is small, not unpleasant, and its virtues undoubted.

No loss of time, no interruption or stoppage of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION.

I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, prompt and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. L. M. HINTON, M. D., Washington, Ark.

CHAS. W. STAYNER, Attorney for Estate. d td

LEGAL NOTICE.

In the Probate Court, in and for Salt Lake County, Territory of Utah.

In the matter of the Estate of A. P. Rockwood, deceased.

Order appointing time and place for settlement of final account and to hear petition for distribution.

ON READING AND FILING THE PETITION of Zerubbabel Snow, Administrator of the Estate of Albert P. Rockwood, deceased, with the will annexed, setting forth that he has filed his final account of his administration upon said estate in this Court; and that a portion of said estate remains to be divided among the heirs of said deceased, and praying among other things for an order allowing said final account and of distribution of the residue of said estate among the persons entitled, according to an agreement entered into among the heirs of said estate;

It is ordered that all persons interested in the estate of the said Albert P. Rockwood, deceased, be and appear before the Probate Court of the County of Salt Lake, at the Court Room of said Court, in the County Court House, on the seventh day of December, 1886, at 11 o'clock a. m., then and there to show cause why an order allowing said final account and of distribution should not be made of the residue of said estate among the heirs and devisees of the said Albert P. Rockwood, deceased, according to said agreement.

It is further ordered that the Clerk cause copies of this order to be posted in three public places in Salt Lake County and published in the DESERET EVENING NEWS, a newspaper printed and circulated in Salt Lake County, three weeks successively prior to said 7th day of December, 1886.

ELIAS A. SMITH, Probate Judge.

Dated November 12th, 1886.

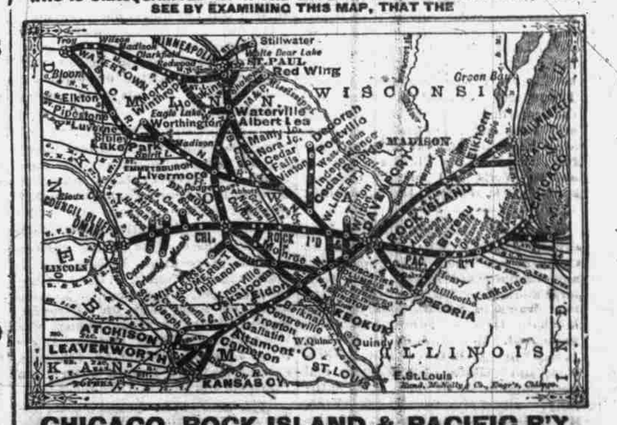
JOHN SHARP, General Superintendent.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous steel track to principal points West, Northwest and Southwest, is the only true middle-link in that system which facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota; and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.
