Pro-grams will be rendered each evening. HEALTH OF MRS. CHOULES IM-PROVING. Recently a "News" representative visited the stricken George Choules' family, and was pleased to find Mrs. Choules much stronger than she was, although she is still in a very delicate condition, her heart being affected so that the least excitement will almost invariably throw her into a dead faint. However, she is not nearly so subject to spells as she was soon after her husband's tragic death. A few days after Mr. Choules' death package was received from Mr. and Mrs. W. A. Williams, a son-in-law and daughter of the deceased, who are la-boring in Honolulu as missionaries, in which was found a baton, tipped with a walrus tooth and the initials "G. C." engraved thereon, being designed as a present for Mr. Choules. Mrs. Choules also received a curious souvenir in the shape of a small basket made of brown seeds, somewhat larger than apple seeds, sewn together and nicely inter-twined with ribbons. The present was by a native artificer in fancy made

EMERY. Another Outbreak of "Smallpox"-

Contracted at a "Candy-Pulling." Special Correspondence.

Emery, Emery Co., Feb. 7.-Smallpox has again broke out in our little town. On the evening of the 19th of January a party of young people gathered at a certain house to have a "candy-pull," where at the same time some of the little children were sick with what was supposed to be chicken-pox, but from which thirteen young people took the infection, and are now down with what is declared to be the smallpox, and sev-eral more have been exposed. All are isolated to two or three houses, and strictly guarantined, and we hope to have it corralled again.

While the affliction is of the usual mild type it is a great calamity to our thritfy little burg, as schools and public gatherings have been suspended since Decembzer 1st. We have had

since December 1st. We have had since that time forty-five cases, though only one case proved fatal, that of Henry Keel, and we are hopeful that that may be the last one. OPPOSE VACCINATION.

The majority of the people here are opposed to vaccination, and we say hall to the Anti-vaccination league. Let us have branches in all the cities and towns of the State, and prepare for the fight in the next Legislature.
