ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory:

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN W. MURDOCK,
Administrator of said Estate.

Salt Lake City,
Oct. 25th, 1879 d 27, 10 9 to 25, 11, 9

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and Cheap Rates. This agreement, however, has already been broken by several watchmakers, who are underselling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, **cheaper than any other Watchmaker's in Salt Lake City.**

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

*Articles and Workmanship Guaranteed to Give Perfect Satisfaction.*

**The "Champion-Octavia" Collision.**

NEW YORK, 26.—A dispatch from Philadelphia says: The Board of United States Steam Vessel Inspectors made public this morning their conclusions regarding the *Champion-Lady Octavia* collision on the 7th inst., off Cape Delaware, and by which so many people perished. The board finds after examination of 15 witnesses of the *Champion's* crew and passengers, and six of the *Lady Octavia's* crew, that the disaster was wholly due to the absence of a proper lookout on the *Champion*. The night was clear, and the mate and boatswain of the *Lady Octavia* state that the *Champion's* lights were seen from ten to fifteen minutes before the collision. The report further says: We are of the opinion that the fault rests mainly with R. H. Leonard, first mate of the *Champion*, who had charge of the watch, and were it not for the fact that he is lost, we should express ourselves in condemnation of his actions in more severe terms, as it is evident he called the lookout from his post to assist in setting the top-sail, not keeping a lookout himself or giving instructions to the man at the wheel to do so; the small number of the crew necessitating the assistance of the mate.

**Wrecks.**

The steamship *State of Alabama* rescued the crew of the ship *Saxon*, from Boston for Antwerp with palm oil. The crew was much exhausted from exposure and want of food. One was washed overboard before the *Alabama* hove in sight, while taking in the lifeboat of the steamer, the sea smashed it into pieces, throwing the third officer and two seamen into the water. Ropes and life buoys were instantly thrown them and they hauled themselves on board. The steamship also passed a large quantity of wreck stuff and a great number of petroleum barrels.

It is reported here that the mail steamship *Bellona*, Capt. Potteder, from Montreal and Quebec, was driven ashore during the terrible gale at Lake Saint Peter. No further particulars could be obtained owing to the tremendous heavy sea running. The *Bellona* was iron-built, 1,914 tons measure, and built in Glasgow, Scotland, in 1862. She had seven bulkheads and was considered a good vessel. She was owned by H. W. Hughes, Liverpool, England.

The mail steamship *Albert*, from Picton, Nova Scotia, is reported wrecked on Magdalene Islands. The reports say the passengers and crew are all saved.

**Benzine Explosion.**

An explosion of benzine in the bath room of the New York Electrotype Foundry occurred to-day, doing considerable damage to the building and probably fatally burning Edward O'Keep and Wm. Gray. The children in a schoolhouse near were saved from a panic by the prompt action of the teachers.

**Important Land Case.**

DENVER, Col., 26.—An important case, involving in its results the title to all the property upon which Leadville stands, was decided by Judge Hallet, of the United States District Court to-day. The title to the land upon which the town stands and suburbs, had been derived through patents from the United States government for placer mining grounds. The case was the St. Louis Smelting and Refining Co. vs. Thomas Kemp, et al., brought by the company to recover a lease which was purchased from the patentee, Thomas Snow, by the company, and which was taken possession of by the defendants. The court decided the patent void on the ground that it appeared from the evidence, that patentee's tract of placer mining ground was composed of several different placer claims which had been purchased, and it did not appear in the proceedings he had made as many different applications, and had as many runnings made by the Surveyor General, or posted as many different notices or done $500 worth of work in all the different claims which had been conveyed to him constituting the tract included in the patent. The case goes to the United States Supreme Court.

**Frightened by Fire.**

ST. LOUIS, 26.—Between 10 and 11 o'clock this morning, a fire was discovered on the ground floor of the Webster School, corner of Eleventh and Jefferson Streets, the largest primary school building in the city. The school fire alarm was immediately struck, and the teachers and scholars throughout the building were apprised of the danger. The children on the ground floor got out safely and in good order, but those on the upper floors were seized with a panic and rushed wildly and shrieking in terror to the stairways, down which they hurled themselves in the greatest confusion. The pressure was so great on the stairs between the second and ground floor that the bannister gave way, and several children were precipitated to the floor below. One child had an arm broken, one was badly hurt about the head and another severely bruised. Mrs. Baltasgar, a teacher, in her heroic efforts to stay the rushing tide at the head of the stairs, was hurled from her feet, trampled upon and borne to the bottom where she was dragged out very much bruised but not seriously hurt. The fire was only a trifling affair and soon mastered.

**Washington Notes.**

WASHINGTON, 26.—The Chief of the Bureau of Docks and Harbors makes among the estimates for the coming year $421,000 for Mare Island.

The Chief of the Bureau of Medicine and Surgery calls attention to the pressing necessity of putting up quarters for the medical staff on the hospital grounds at Mare Island. Suitable buildings can be erected for the pupose at a cost of $15,000.

The excess of value of exports over imports of merchandise for October was $40,067,878, the largest in the history of the country. The excess of imports of gold and silver into the country over the exports from July 1st to November 22nd amounted to about $65,000,000.

The Chief of the Bureau of Steam Engineering recommends an appropriation of $1,165,000, for the completion and erection on board of the machinery of the double-turreted monitors.

The Treasury Department purchased 500,000 ounces of fine silver for delivery at the Philadelphia and San Francisco mints.

**All About Cheek.**

NEW HAVEN, 26.—In the Hayden case this afternoon, Dr. Treadwell was the only witness examined. The defense demanded that the cheek of the deceased girl on which it was alleged footprints would be found, should be brought into court. The Court refused to order this. The defense then issued a subpœna ordering Dr. White, custodian, to bring it into court. This was done. Then the State, rather than have the remains of the girl exhibited in court, withdrew all testimony relating to the nail prints.

**For Winter Quarters.**

RAWLINS, Wyo, 26.—The troops now stationed here, to-day, received orders to go into winter quarters, as follows: Four companies, I, K L and M Third Cavalry, under command of Colonel Brackett, to Fort Laramie; companies A, B, D and F, Third Cavalry, to Fort Sanders, and companies E and I to Fort Steel: five companies, B, C, K, D and F of the Fifth Cavalry, under command of General Merritt, who will arrive here on the 20th, will go to Fort Russell.

**Desperado Arrested.**

COUNCIL BLUFFS, 26 — A desperado named Samuel Woodruff, with an alias or two was arrested at Big Grove, this county, to-day. He is charged with the murder of a man named E. H. Haywood, near Denver, Col. The arrest was made by Deputy Sheriff Chas. A. Hawley, of Denver, at the point of a double-barrelled shot gun. He will be taken West to-day.

**Morton's Son.**

INDIANAPOLIS, 26.—The *Journal* has a special from Washington as follows: It is understood that the President will send to the Senate, among the first appointments made, the name of John Morton, oldest son of the late Senator Morton, as Collector of Internal Revenues of San Francisco.

**Village Destroyed.**

CHICAGO, 26.—The village of Randalia, Fayette County, Iowa, containing a population of 200 or 300, was almost entirely destroyed by fire yesterday. Scarcely any insurance. It is believed the fire originated in the spite of a saloon keeper who set fire to a rival's premises.

### FOREIGN.

**GREAT BRITAIN.**

**Foreign Notes.**

LONDON, 25.—Copies of reports of the United States Consuls in Europe on the rate of wages paid to and the cost of living of the working classes in Europe, have been distributed by the foreign office to the chief chambers of commerce in England. At the request of the Trades Union Congress, the British foreign Parliamentary committee, Lord Salisbury, secretary, has instructed Sir Edward Thornton, British minister to Washington, to obtain a few more copies for the use of trades unions. Documents of this nature would be of great value to trades which have to compete with foreign manufacturers and of especial value in the regulation of wages in competitive trades. The foreign office would render greater service if, through its own consuls, it would collect information for itself instead of having to beg it from the American government.

A Berlin correspondent thinks there is very little chance of Gortschakoff seeing Prince Bismarck on the way to St. Petersburg. In well-informed circles in Berlin it is thought unlikely that Gortschakoff will resign as soon as is generally supposed. It is even thought that Count Schouvaloff has the best chance of succeeding him.

The Polish refugee Xavier Branicki has died in Egypt.

Ex-Queen Isabella has gone to Madrid to attend the marriage of her son, King Alfonso, to Princess Marie Christine.

The mother of Prince Charles of Monaco is dead.

Of the bullion withdrawn from the Bank of England yesterday, £102,000 went to the United States.

The steamer *Lake Champlain*, from Montreal and Quebec, has arrived. The *Lake Champlain* was in collision with the bark *J. Harlan*, Captain Smylie, from Ardrossan, for New York, the latter sinking. The crew were saved. The steamer had her bows damaged.

The *Bolivia*, from New Orleans, was slightly damaged by a collision in the Mersey.

The colliers throughout Lancashire and Cheshire yesterday gave notice of a demand of an increase of 10 per cent. in their wages. They also expressed a desire for the introduction of a sliding scale in their wages. The masters will reply to their demand next week. The North Staffordshire colliers demand a similar advance.

The *Pall Mall Gazette* says: There was a fair demand for wheat off the coast and a good many cargoes were sold both for the continent and the United Kingdom at improving prices, the decline of the early part of the week being fully recovered.

The town of Sligo was on the verge of a riot last night, and the police had to clear the streets. They were stoned and made several arrests. Davitt was serenaded by two bands. The police paraded the streets this morning and further reinforcements have arrived. No fresh disturbances have occurred. It is thought the Government intends to remove the trials of the oners to Dublin instead of taking them to the county assizes. A larger number of magistrates are on the bench than hitherto. Killen's examination is proceeding. Davitt and Daly are present as spectators. Davitt has telegraphed to Newcastle he will keep his engagements to speak there Sunday and Monday and will attend the monster meeting at Glasgow.

Mr. Queen's counsel, said Killen's being a barrister, might lead the people to believe they would act upon his advice. He made a long quotation from Killen's speech at a meeting on which he (Monroe) relied for Killen's committal, to the effect that he "would like nothing better than to see thousands of men coming over the mountains, rifle in hand." He showed that others who were present at the meeting had remonstrated against Killen's counselling physical force.

Killen made a long, rambling speech for the defense. He was ordered by the Bench to sit down. The short hand reporter and others were then examined.

The King and Queen of Denmark will pass through Berlin on Friday next on their return from Vienna to Copenhagen. Their visit to Berlin will not be entirely without political importance. The King may intercede for the Duke of Cumberland. It is not improbable he is the bearer of a submissive message from the Duke to Emperor William.

It is asserted that the Duke of Cumberland has become more reconciled to the thought of renouncing his claim to the throne of Hanover and accepting as a compromise a guarantee of succession to the Dukedom of Brunswick.

### MILLARD STAKE CONFERENCE.

The Millard Stake Conference was held in Fillmore City, Saturday and Sunday, November 22nd and 23rd, 1879.

There were present on the stand: Of the Presidency of the Stake, Ira N. Hinckley, Edward Partridge and Jos. V. Robison; Elder Thos. Callister; Bishops Alexander Melville, Daniel Thompson, Joseph S. Black, D. R. Stevens.

After the opening services,

President Hinckley said he felt like appointing the Bishops of the Stake as a standing committee to see about building a suitable meeting-house, for the purpose of accommodating the Stake, and to see what industrial pursuits we can engage in to employ our labor at home and thereby become more self-sustaining.

Bishops D. Thompson and D. R. Stevens followed in an interesting manner, touching upon the principle of tithing and the favorable condition of their wards.

2 p.m.

After the usual devotional ceremonies, Elders Jos. V. Robison, Thomas Callister and Edward Partridge, also President Hinckley, addressed the meeting upon the necessity of becoming self-sustaining, building suitable and convenient meeting-houses, and the general duties of the Saints.

Sunday, 10 a.m.

After singing and prayer,

The clerk read the statistical reports of the Stake.

Elder E. Partridge followed, showing that our reports should be attended to very punctually and carefully, in order that we may know our true condition financially as well as religiously.

Elder Jos. V. Robinson realized that the children that were born in the gospel had great advantages over those born in the world; showed that much care should be taken in the training of the young.

Benediction.

2 p.m.

Devotional services over,

Elder E. Partridge presented the general authorities as also the local authorities, all of whom were unanimously sustained.

Elder N. Pratt said we had been gathered from the various parts of the earth for one great purpose, viz., to serve the Lord and build up his kingdom on the earth. Spoke of the prosperity of the Saints, and that the Lord was with us.

Elder L. Brunson followed with a few interesting remarks.

President Hinckley said he felt that we had a good time during our conference; that the spirit of God had been with us. He thanked the people for attending and the choir for their sweet music.

At the Priesthood meeting on Saturday night there was much valuable instruction given.

Conference adjourned until February 21st, 1880, at 10 a.m.

LAFAYETTE HOLBROOK,
Stake Clerk.

ESTRAYED.

A BLACK horse mule Colt, about 8 months old, roach mane and shaved tail. The finder will be rewarded by returning to BRIGHAM YOUNG.
