J. Rolts is also working a gang of men in this district. Down the Salt Wash Smith, Brown and Wheeler have opened up a fine copper vein, which runs \$30 in copper and gold. On an adjoining property Hunt, Henry and Morrison have a three foot yein which shows values as high as 6 ounces in gold with a good showing of copper. Louis Roe of Paradox, Colrado, has charge of this property. Talbot and Jones in the lower end of the Salt Wash have also a fine showing of copper. Mr. Antiers and Mr. Morrison will be

in this city a few days, as they are up buying supplies and also consulting with Judge Burton, who is interested with them in the International.

The Mammoth mill starts up today. Opening Dealings Were Not So Large as All the ore bins are full to overflowing and everything points to a record mak-Recently, but Were Well Distributed.

It was learned at the offices of the company this morning that the mili Profit-Taking Stocks of Yesterday would not only begin working on the ores of the company, but would also Firmer, Wiping Out Losses-Prices handle the ores of the Star Consolidated mine as well. The Oregon Short Line began work yesterday upon the contract let by the Star Consolidated and the ores will be hauled directly to New York, Nov. 12 .- Opening dealings in stocks were not as large as re-

the Mammoth mill; this work will be completed by the middle of next week as a large force of men has been put to work. BINGHAM COMPANY MATTERS.

Work in Progress at the Old Dalton

and Lark.

M. D. Murphy, who has charge of the Dalton & Lark drainage tunnel is spending a few days in the city. In speaking of the work now under way at that portion of the Bingham com-pany's property, he sold that there nev-or was a time when each active er was a time when such active opera-tions were in progress as at present. The shaft along the line of the tunnel was about completed. When this was done, work along the big drain would be pushed upon three faces and they hoped to complete twenty-five feet of tunnel per day. The pump now in op-eration had freed the mine from water

lown to the 850 level and drifting was at present in progress along this level, blocking out larger bodies of ore. The R. G. W. has nearly completed the spur up to the mouth of the tunner from which arrangements were being made to concrste an electric read to the made to operate an electric road to the Dalton & Lark workings, During the past week a 300 hourse-nower all ompressor was installed with which,

pending the completion of the shaft, the tunnel was being pushed into the moun-tain at the rate of ten feet per day. NEW OGDEN COMPANY.
