In the provinces the tactics adopted by the government here, are being re-peated. The various postoffices were encircled by cordons of troops at day-

Another employer said that feeders are at the very bottom of the printing trade as far as the pressroom is con-cerned and that the occupation is essentially one for boys or younger men. That being true, he declares that the wage scale is high enough, but even at that the employers would, generally speaking, be willing to grant the in-treased scale, but not with the shop rules forced upon them. For feeders the employers say they have been will-ing to pay \$14 per week on a flat scale and for helpers on automatic cylinder and for helpers on automatic cylinder presses the same figure. The union is asking \$16 for the latter class of labor and the asking \$16 for the latter class of labor and the employer maintains that the responsibility involved and the ability required is not sufficient to demand the larger figure. Chicago, May 12,—The city council's gallant judiciary committee has re-moved the limit on the height of women's hats. It has decided on a city ordinance which will permit the

the eldermen have no patience with the construction of three-story hats. The aldermen have no patience with the Elgin minister, Chicago theater owners, or Illinois legislators, who are attempting to interfere with the Magna Charta rights of Chicago women Magna Charta rights of Chicago women to wear any size or shaped head adornment which pleases their fancy. Therefore the aldermen propose to raise the awnings. All must be holst-ed to a height of 8 feet and 6 full inches above the sidewalk level. Alderman lipps was the man who discovered the reason for the "squat-ty" hats. He noticed that it is not
