**CAN'T BE SEPARATED.**  
Some Salt Lake City People Have Learned How to Get Rid of Both.

Backache and kidney ache are twin brothers. You can't separate them. As you get rid of the backache until you cure the kidney ache. If the kidneys are well and strong, the rest of the system is pretty sure to be in vigorous health.

Doan's Kidney Pills make strong, healthy kidneys. Alfred Clark, blacksmith, of 126 south Main St., says: "When a blacksmith is never sure that during the day a gnawing pain catches him across the back, which clings to him during the night, he is often in actual misery. Many a time I have had to lie just in one position in order to have any comfort. I enjoy half a decent night's rest. This is not a pleasant condition to be in for a man performing even the most trivial act around his workshop has twinges in the small of his back which almost makes him exclaim, 'neither is it pleasant to arise morning after morning very poorly prepared to commence another day's hard work. A sure indication that my kidneys were at the bottom of the trouble was the action and condition of the kidney secretions. Something about an advertisement wherein it stated that Doan's Kidney Pills could be depended upon in such cases induced me to try them. I bought a box, it is difficult to understand how a simple little pill could have had such effect upon the action of the kidney secretions and could have stopped the backache and the twinges in the back that the treatment did. I very emphatically endorse Doan's Kidney Pills."

For sale by all dealers, price 50 cents. Doan's Kidney Pills, Buffalo, N. Y., sole makers. The name—Doan's—and take no substitute.

this city was here this week and made arrangements with some of our lumber men for the necessary lumber. Brick for the building will be made here and quarrymen have the privilege of furnishing rock. In fact, the contractor inferred while here that our citizens would get the opportunity of furnishing the necessary material and labor should they desire to and upon reasonable terms. We pushed to completion as quickly as the conditions here will warrant.

about two weeks, the crop is reasonably fair. Grain is looking very well and bait fair for a good yield.

The canyon creek has been remarkably high this spring and has kept up well. It is in volume in volume. Farmers, however, have taken advantage of the large supply of water and at this date their farms are well soaked.

The soil crop is very promising and should not be unduly alarmed. It is expected to have an abundance this year. In fact the prospects at present are very fair for a bountiful harvest of all kinds of grain and stock raising.

The weather is showery and the atmosphere a little cool for the season of the year.

Labor is in good demand, and as we progress with the contemplated improvements more and more there will be no excuse for the loafer, those who desire to find employment can be accomplished at fair wages.
