THE BAKING POWDER WAR.

The Royal Baking Powder Company is still making enemies among those who are manufacturing and selling impure articles for leavening purposes (and their name is legion), and this fact shows that it is continuing its vigorous work in the interests of the public.

This Company set out some time ago to expose the character, and, so far as possible, to break up the sale of adulterated baking powders. Having found from an examination of a number of specimens procured from grocers that they were generally of an inferior character, some devoid of all leavening properties, and many of them actually poisonous, it brought the matter before the public, denounced the makers by name in the press and to the health authorities.

The affair was speedily taken up by physicians, Boards fo Health, and Legislatures throughout the country; chemists were employed to make scientific tests of the various powders in the market, and the Government itself directed analyses to be made before it would purchase the supplies needed for army, navy, and Indian uses.

The result more than justified the charges so boldly made by the Royal Company. Not only were the majority of baking powders in the market found to be largely adulterated, but many of them were ascertained to contain lime, alum, and other poisonous ingredients to such an extent as to render them positively unsafe for use in human food. The information spread throughout the country and created a profound sensation. As a result many of these injurious mixtures were driven out of the market, and the sale of all of them seriously interfered with.

No occurrence of recent date has been so far-reaching as this in its beneficial influence upon the public health, and the action of the Royal Baking Powder Company in the inauguration of such a warfare, and in carrying it forward with such important results, were universally commented upon and appreciated. In making the charges they did not hesitate to enter into competition with every other baking powder in the country, and it is a public satisfaction that in all the tests and anaylses made the Royal Baking Powder was placed at the head of the list and declared by Boards of Health and by the Government chemists, Drs. Mott and Love, to be superior to all others in strength, and absolutely pure and free from all inferior substances.

In continuing this warfare against the adulterated food, more particularly the alum, lime, and otherwise impure and inferior baking powders which unscrupulous manufacturers are endeavoring to force upon the market in this locality, the Royal will undoubtedly meet with the old-time opposition and abuse. We are confident, however, that the public will appreciate, as heretofore, both the object of the "stop thief" cry and the work of the Royal Company in its attempts to protect it and to rid the market of these dangerous articles of food.

Z. C. M. I. SALT LAKE CITY, April 25th, 1884.

Z. C. M. I.,

GENTLEMEN.—With great pleasure I recommend the Miller Wrought Iron Range, as by far the Best Cooking Range that I know of, and as an Economizer of Fuel, its Boiler Attachment and Heater (in my experience of forty-five years) I have never found anything to equal it.

Yours truly, HENRY GROW, Nineteenth Ward, Salt Lake City.

SALT LAKE CITY, May 8th, 1884.

Z. C. M. I.,

GENTLEMEN.—I take great pleasure in recommending the Miller Wrought Iron Range, as being decidedly the Best Range in the Market; it requires very little fuel; a person can work around it without soiling or scorching the dress, the heat seems concentrated within, so that the kitchen is not over-heated, even during the warmest weather, the dampers are arranged to perfection, so that the heat may be regulated as desired; the Water-back is so protected that it does not wear out as in other Ranges, at the same time it heats the water wonderfully, and we are never without plenty of water in the bath room; the Oven bakes perfectly and is very large. In the opinion of my housekeeper (who is a very competent woman of twenty years experience) this Range is unequalled and should be called the "Kitchen Treasure."

Sincerely, MRS. DR. WHITE.

SALT LAKE CITY, April 21st, 1884

Z. C. M. I. Institution,

GENTLEMEN.—Replying to yours of 19th inst., will say that I take great pleasure in saying a word in favor of the Miller Wrought Iron Range. I have had one in constant use for one year, and it has proved satisfactory in every particular. Its general Cooking and Baking qualities are all that can be desired, and as an Economizer of Fuel I believe it has no equal; since using it we have had, ever ready, a constant supply of Hot Water in all parts of the house. I would not exchange it for any Range I have ever examined.

Very respectfully yours, M. B. SOWLES.

SANDY, Salt Lake County, April 19th, 1884

Z. C. M. I. Institution,

GENTLEMEN.—I take great pleasure in giving a Testimonial in regard to the merits of The Miller Wrought Iron Range, which I purchased from you, it is the best I have ever used in all respects. The Cooking and Baking qualities are excellent, the Hot Water Apparatus is splendid, and as an Economizer of Fuel I have never seen its equal. In fact, it is perfect in every particular.

Respectfully yours, SARAH M. DRIGGS, Sandy, Utah.
