There was a very large attendance of the members and their friends, High Five was played by nearly all present, after which lunch was served. The evening was one of great enjoyment, long to be remembered by all who participated.

The Salt Lake Opera company appeared in Ogden last evening to a good house. The opera, "The Wedding Day," was received with loud applause from was received with joud applause from beginning to end, especially were the music lovers delighted with Miss Luci-la Ferrin, Ogden's popular soprano. The other leading roles in the opera-played by Miss Clark, Miss Dwyer, Mr. Spencer, Mr. Goddard, and Mr. Pyper are deserving of great praise. The Spencer, Mr. Goddard, and Mr. Pyper are deserving of great praise. The company has always been gladly re-ceived in Ogden, and will continue to have a hearty greeting with the thea-tergoers of our city. Mr. H. G. Whit-ney, the manager, has great cause to be proud of his company of vocalists.

The annual convention of the Na-tional Women's Christian Temperance Union is to he beld from November 15 to 20 in Fort Worth, Texas,

A valuable function of the patriotic societies is to bring into deserved prom-inence bits of history not generally known. For example, only the special student of history probably is aware that a "declaration of independence" was made by the women of Edmonton was made by the women of Edmonton, N. Some of the topics included in the program for next season of the Social Economics Club of Chicago are suggestive. Among them are: "Is the Abolition of Caste Promoted by the Women's Clubs?"-discussion may not be limited to color question; "Are Men and Women Diverging in Sympathy Because of the Economic Conditions?" "Why Are There So Few Schools in the Poorer Districts of the City?" "What Public Utilities Are Necessary to Raise the Standard of Living?" This club has a way of getting at the root of questions which it discusse and its meetings are invariably spirit-ed and valuable.

The big Woman's Club of Denver, Colo., has for some time been cherish-ing an ambition for a club-house. This has now taken shape, and plans are being made looking to an early realiza-tion of the club's desire. An appeal has been sent out to friends of the club which is signed by Mrs. James G. Whitmore, president, and Mrs. Sarah Piatt Decker, ex-president. The ap-peal for financial aid is frankly ad-dressed esepcially "to those gentlemen sed esepcially "to those gentlemer who are members by marriage." The club's statement of its present condition makes a good showing. It has on hand now \$4,000 in certificates of deposit, and an open account of \$2,500, a good beginning for its club-house. It proposes to issue 5,000 shares of stock at \$5 a share, constituting \$25,000 of 1 per cent long-time bonds. A signifi-cant paragraph of the statement of the finances shows that the society, since its organization seven years ago, has received in fees and dues \$24,000. The difference between this sum and the relatively small amount now to its has been spent almost entirely credit for philantrophic purposes. The ap-peal includes an all too modest list of the good works accomplished by the club, a list, however, that should war-

WITH DELICATE NERVES.

The Hard Work Entailed by the Charge of a School Room Often Causes the Health to Break Down,

Teaching school is an occupation which has many attractions for cul-tured women, but it also has many drawbacks and often affects their health seriously. Especially is this so in the case of women with delicate ner-vous systems and those with a tendency to pulmonary troubles. Miss Mary K. Powers of Ellsworth, Wis, is a teacher whose health was broken down by the hard work which the charge of a large school entails. She says:

"During the winter of 1898, while teaching school, I became subject to nervousness, which grew worse until my whole system was run down. My back ached and at times I was so dizzy that I could scarcely stand. My limbs were swollen and always tired, so that I felt no more rested in the morning than when I went to bed. I was also troubled with a cough and the food I ate did not strengthen me. This condition, accompanied by palpitation of the heart, kept up for several months until in March, when I read about Dr. Williams' Pink Pills for Pale Dearly in a company part of the part of People in a Juneau, Wisconsin, news-

I felt so encouraged by this improvement that I kept on taking them until I had used three boxes, and was entirely cured. I always keep Dr. Williams' Pink Pills by me and I take them occasionally when I feel the need of a tonic.

of a tonic. "I believe firmly in the good done by Pink Pills for Pale People and have ad-vised many of my friends to use them." The pills which cured Miss Powers are not a patent medicine, but a prescription used for many years by an eminent practitioner who preduced the most wonderful results with them, cur-ing all kinds of weaknesses arising from a watery condition of the blood or shattered nerves, two fruitful causes of almost every ill to which fiesh is heir. Acting directly on the blood and nerves these pills have proved a boon to women, invigorating the body and regulating the functions of the ex-

hausted patient. They are an unfailing specific for They are an untailing specific for such diseases as locomotor ataxia, par-tial paralysis, St. Vitus' dance, sciati-ca, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sal-

The incorporation by Congress of the National Society, U. S. Daughters of 1812, has given a new impetus to this already flourishing organization, and its membership is being rapidly en-larged. Georgia, Vermont, and Missourl are forming State societies, with preliminary work in the same direction reported from other States in which not now exist. iety undertakes, as a rule, definite piece of work. Massachusetts, for example, devotes itself to the effort to restore the old frigate Constitution. The National Society has for its prin-cipal object the building of a national home for aged and destitute women of the families of the patriots of 1812. The pensions from that war are small for adequate support, and the home, which is to be located in some attractive and central place, will sup-ply an often-needed refuge. The New Yark State Society, whose headquar-ters are in New York and whose president is Mrs. William Gerry Slade, also president-general of the National Society, is active in many ways. M. C. A. The Boston Herald tells of a new organization in Colorado called "The Sheldon Union." To it belong progres-sive girls who do housework for a livsive girls who do housework for a liv-ing. At a recent club meeting the girls debated on the question, "Resolv-ed, That the trials of the servant are greater than those of the mistress," with some witty things said and good points made on both sides. The mis-tress's side of the argument was sus-tained by two members who were once house-maids, but are now housekeep-ers, and who declare that their last state is worse than their first. Those on the other side of the question affirm. on the other side of the question affirmed that training schools for the mis-tresses would accomplish a great good. The next board meeting of the G. F. An important anouncement is made by the Twentleth Century club of Bos-ton, an organization that has obtained wide fame for its pioneer and original work for civic betterment. It has a mixed membership, which includes many men and women who are spec-ialists in the discussion of social prob-lems, and have had much experience in the work. Recognizing the value which this practical knowledge will be to clvic and town improvement asso-ciations and departments, the Boston club has organized a lecture bureau, to make it available to those interested.
