LIGHTS SHONE IN SAN FRANCISCO.

Streets Lighted for First Time Last Night Since Great Calamity.

"MAN WITH THE HOE" SAVED.

Street Car Service Improving—Immense Hospital Camp in Golden Gate Park.

Money Brokers Confronted With Problem—Have Been in Habit of Advancing Salaries of City Employees.

San Francisco, May 1.—For the first time since earthquake and fire laid this city in ruins, street lights last night gleamed through the black mantle which has enveloped the city after midnight since the day of the disaster. For nearly two weeks not a street light has broken the darkness in which the city has been wrapped. Everybody stayed indoors after dark and nearly all San Francisco went to bed with the setting of the sun. For the first week after the fire lights in residences were not permitted. Glimmering of arc lights in the Potrero district last night was seen from all over the city and did more to make people hopeful, restore confidence and good feeling than anything since the earthquake. Next to the resumption of street car service, the restoration of electric lighting is one of the most important indications that the city is rapidly returning to normal conditions.

Street lights were burning in only a small section of the city last night, but they were hailed with much satisfaction as a good omen. The lights shone on the right side of the city and on the right side of the city. The lights shone on the right side of the city and on the right side of the city. The lights shone on the right side of the city and on the right side of the city.

HUNDREDS OF ARC LIGHTS.

General Manager Naphthali of the San Francisco Gas and Electric company has announced that there will be several hundred arc lamps in operation throughout the city tonight. The company claims that it has enough power in the Potrero plant to illuminate the city tonight. The company claims that it has enough power in the Potrero plant to illuminate the city tonight. The company claims that it has enough power in the Potrero plant to illuminate the city tonight.

STREET CAR SERVICE.

The street car service is rapidly being extended as far as large gangs of men clear the streets of debris and replace the twisted and warped rails. The United Railroads operated cars last night until 10 o'clock. Seven o'clock was the hour set for the cessation of street car traffic when permission was granted to resume it, but late yesterday afternoon the railroad company was advised that it would be permitted to run cars until 10 o'clock at night, it having been demonstrated that there was no more danger at night than in the day time. The cars run so far have been utterly inadequate to handle the heavy traffic and the owners of almost every kind of vehicle are making a lucrative business of hauling large numbers of people at the rate of 25 and 50 cents each to and from the ferry.

A BALMY NIGHT.

Last night was the warmest and balmiest since the thousands of people there have been compelled to camp in the open. In nearly all the parks and squares the homeless are now quite well provided with warm bedding and food. The problem has been solved by the arrival of more tents and blankets, but the food question is one that is causing the authorities much worry.

EARTHQUAKE CENTER.

Prof. E. Knowlton has just returned from a 30-mile walk to Bolinas bay, where he says there is evidence that the recent earthquake had its center. Few if any of the houses in that vicinity escaped damage, but no fatalities occurred. There is now an island in Bolinas bay where there were once islands and shoals, and on either side of the island the water is 10 feet deep.

GOLDEN GATE HOSPITAL.

Golden Gate hospital has been established in the park by company A of the United States army. Capt. C. L. Hilditch, and 100 men. This is the largest field hospital in the army. The camp is thoroughly up to date, having six medical and one surgical ward, and is equipped with a dispensary, commissary outfit and two months' supplies and everything necessary for maintenance.

THE MAN WITH THE HOE.

The nature of "The Man with the Hoe" has been saved. This fact will be welcomed by the world. The world has been told that the man with the hoe was a man who was killed by the earthquake. The world has been told that the man with the hoe was a man who was killed by the earthquake. The world has been told that the man with the hoe was a man who was killed by the earthquake.

BACK TO WORK.

Three thousand men found employment when their old tasks were reopened. The men who were killed by the earthquake have been given the opportunity to go back to work. The men who were killed by the earthquake have been given the opportunity to go back to work. The men who were killed by the earthquake have been given the opportunity to go back to work.

AS TO CHINATOWN.

Fifty Chinese, owners of property in old Chinatown, have decided to rebuild on the site where their buildings were destroyed. The Chinese have decided to rebuild on the site where their buildings were destroyed. The Chinese have decided to rebuild on the site where their buildings were destroyed.

nese, the Chinese consul general and the vice consul give it as their opinion that the owners or lessees of land in Chinatown cannot be deprived of the right to rebuild if they so desire.

OLYMPIC CLUB.

The Olympic club decided to accept the offer of the Hobart mansion on Van Ness avenue for temporary clubhouse and will at once proceed to fit up the buildings so that it will be suitable for club purposes. The Olympic club decided to accept the offer of the Hobart mansion on Van Ness avenue for temporary clubhouse and will at once proceed to fit up the buildings so that it will be suitable for club purposes.

TELEGRAPHIC BUSINESS.

Supt. James announces that the Western Union Telegraph company is now in a position to handle all of its business as if there had not been no earthquake. All messages have been sent up to date, the great congestion incident to the catastrophe having been removed and a new general operating plant completed at West Oakland.

The fire underwriters adjusting bureau has adopted a resolution to the effect that in the adjustment of losses preference will be given to policyholders who do not employ professional adjusters.

San Francisco had more than a score of institutions devoted to the housing and care of children. Not one of them passed through the earthquake without damage, but in the whole district all their crumpling walls and showers of plaster only one life was lost, that of an infant in the Alexander maternity cottage. The babe was less than 48 hours old.

FELT AT ALCATRAZ ISLAND.

The report given publicly several days ago that the earthquake shock was not felt on Alcatraz island in the bay of San Francisco, proves to have been unfounded. It was experienced by the inmates of the rock and the soldiers who do not employ professional adjusters.

MONEY BROKERS' PROBLEMS.

The money brokers are confronted with a serious problem, especially those who month after month have been in the habit of advancing the salaries of municipal employees. Today the city is in a position to pay day in many of the departments, the day on which the brokers have been in the habit of presenting bonds and collecting the two, three or five per cent commission to which they are entitled.

Between the fire and the earthquake many of the assignments have been destroyed. It is necessary to have them honored by the auditor before the money can be paid. Yesterday Auditor Horton was besieged by a score of the anxious brokers, demanding that he accept a substitute for the missing powers of attorney. Horton refused to give any satisfaction.

The workmen will be given to the persons to whom they belong unless proper documents showing a bona fide assignment are filed. He declared. Sixty per cent of the city servants draw their salaries through brokers. The profit in the business has become so great that the privilege of negotiating such loans has become a political plum. To secure it some brokers have advanced large sums for campaign purposes, with the understanding that the business will be directed to them. There is no strict rule about the privilege, however, and all the brokers have to do is to bring in a check, taken from the city, and give the salary assignments, executed at the same time. Under the ruling of the auditor they have been thrown upon the mercy of the borrowers.

HARRIMAN AND CANAL.

Not Opposed to It But Warns People Against "Anti-Railroad Agitation."

Seattle, Wash., May 1.—E. H. Harriman, president of the United Pacific and allied lines, addressing an audience of Seattle business men last night, declared that he is opposed to the Panama canal, but warned the people against what he termed the "anti-railroad agitation," which he said was being carried on throughout the country. While water transportation should be encouraged, the people must not forget land transportation, which is of greater importance. He said that his first public utterance on the subject of the Panama canal. He promised the cattle shippers that the United Pacific would reach this city as soon as the necessary franchises are granted to enable it to come, adding that construction would be commenced at this end of the line the moment the opportunity presented.

GOD FORGOT HER.

So Old Woman of 108 Said and Committed Suicide.

Chicago, May 1.—A dispatch to the Record-Herald from Uniontown, Pa., says: Tiring of life, after 108 years of trouble, Mrs. Mary McKirrick, believed to have been the oldest woman in America, committed suicide by hanging herself by cutting her throat with a carving knife. She declared that God had forgotten her and neglected to call her. She was 108 years old and had been married to her husband for 70 years. She had five children and 12 grandchildren.

SALVATION ARMY.

Will Hold Biggest Meeting Outside London for Benefit of San Francisco.

New York, May 1.—The Salvation Army has arranged the biggest meeting it has ever given outside of London for Sunday evening, May 13, at the Hippodrome, for the benefit of the San Francisco sufferers. This will be a part of its twenty-sixth anniversary congress, which will be held from Friday, May 11, to Wednesday, May 16, in London. The big meeting at the Hippodrome will be the first of a series of meetings which will be held in London. The meetings will be held in London. The meetings will be held in London.

Not In San Francisco, And Not In Salt Lake

State Superintendent of Public Instruction Nelson Notified That There Will Be No Meeting Of the National Educational Association This Year—Will Raise Funds For San Francisco School Houses.

State Supt. of Schools Nelson today received a letter from President N. C. Schaeffer of the National Educational association, stating that the executive committee of the association which met in Chicago on Saturday had decided to postpone until next year the meeting of the association which was to have been held in San Francisco this year. There will be no meeting of the association this year at all.

In regard to the plan proposed by the state board of education to have a dime day in the schools throughout the United States to create a fund for rebuilding the schoolhouses of San Francisco, President Schaeffer states that many of the schools have already taken up contributions for the relief of the sufferers and other schools have prohibited such a contribution and therefore it will be impossible to do anything on the plan proposed.

This means that Salt Lake, too, will be left out of consideration this year, and that it will have to defer its efforts to secure the National Educational convention meet to some time in the future.

GREAT LAKES MARINE STRIKE.

It Was Officially Inaugurated at The Head of the Lakes At Midnight.

TRAFFIC IS AT A STANDSTILL.

Officials Declare That Innumerable Train Crews Will Be Thrown Out of Work.

Duluth, Minn., May 1.—The great lakes marine strike was officially inaugurated at the head of the lakes at midnight. Orders were received from President Keefe, of the Longshoremen's union, calling them out. The tug men, however, were not notified and they are working as usual. William Jones of the Lake Firemen's association last night received a telegram from President Keefe calling upon all members to quit work at midnight. It is provided, however, that this does not affect boats belonging to the Lumber Carriers' association, men employed on boats carrying mails, or men who have signed papers for round trips. The men on boats subject to strike orders are the union mates, firemen, and others.

QUIET AT CLEVELAND.

Cleveland, O., May 1.—Every member of the International Longshoremen, Marine and Transport Workers' union, employed on boats and docks, went to work at midnight last night and today not a pound of ore, coal or grain was being handled in the port of Cleveland. The same condition exists in practically every lake Erie port.

Every tug in the harbor was tied up this morning. The licensed tugmen's protective association, affiliated with the Longshoremen, as are the firemen, on the tug, and not a screw on a tug turned after midnight last night.

Lumber boats, package freight boats and passenger boats are not affected by the strike at present as their owners are not affected with the Lake Carriers' association.

In the port of Cleveland 4,600 men are directly affected, 1,000 of whom are seamen.

Trade union innumerable, officials say, will be thrown out of work by the stoppage of the coal traffic. Some of the big elevators will have to restrict operations and others will have to shut down the lake grain trade. It is estimated that if the strike lasts for one month, 30,000 men in Cleveland alone will be thrown out of work.

AT A STANDSTILL IN CHICAGO.

Chicago, May 1.—Lake freight traffic was for the greater part at a standstill here today. The boats were making little apparent effort to move their vessels.

Several of the boats which are not affected by the strike were upon their sides early in the day large placards, announcing that they were "union" boats. The center of the strike was far as this city is concerned is in the city proper, but in South Chicago, where the mills of the Illinois Steel company, a branch of the United States Steel corporation, is located.

The passenger boats running out of Chicago have not thus far been affected by the strike.

BOOMING CALIFORNIA.

Promotion Committee Tells of Attractions of State for Colonists.

San Francisco, May 1.—Neither the earthquake nor the fire had much of a deterrent effect in giving publicity to the opportunities which California offers people looking for permanent locations.

Rufus P. Jennings, chairman of the California promotion committee, at present located in Franklin hall, said today in speaking of the present work of his committee: "The publicity department of the California promotion committee, under the direction of Clarence C. Edwards, is doing excellent work in sending out to eastern correspondents, to very many newspapers and to publishers whose publications circulate in the great industrial centers of the east and the middle west, articles about California and San Francisco. These articles tell of the opportunities which California offers people looking for permanent locations in agricultural or other industrial pursuits."

Articles reaching the east from such a source and at this time certainly have a tendency to allay apprehension concerning the present state and the future of California, and also correct misstatements which have gained circulation concerning prevailing conditions in San Francisco and its vicinity."

ABSOLUTE QUIET PREVAILS AT MT. CARMEL, PA.

Mount Carmel, Pa., May 1.—Absolute quiet prevails here this morning, following the shooting of a number of foremen miners by a detachment of state constabulary yesterday. None of the victims is dead, but four are thought to be fatally injured.

Lieut. Smith and his foremen are at the Shayre colliery and Sheriff Joseph Sharpless telephoned the lieutenant from Shamokin early today not to enter

BIG SNOW STORM.

Fell in Wyoming Last Night at Rate of Six Inches an Hour.

(Special to the "News.")

Ogden, May 1.—Union Pacific railway men arriving here today declare that Wyoming was visited last night by one of the fiercest and heaviest snow storms of the entire winter. In fact that the fall was probably the heaviest for the length of time it fell, on record. They declare that for two hours it came down at the rate of six inches an hour, and that it was absolutely overwhelming. Old timers say they have never seen anything like it before and fear great loss among sheep and cattle. One conductor said today that the headlight of his engine soon became covered, and that not a glimmer of its rays would penetrate more than 20 to 25 feet ahead.

Gov. Pardee Returns From His Visit to the Ill-Fated California City.

San Jose, Cal., May 1.—The list of dead and missing has run up to a total of 77, and the last body found was that of Mrs. Augusta S. Rodgers, a dressmaker with apartments over the Novelties theater. She was killed in the collapse of that building and her body was partly incinerated by the flames. Search had been made almost daily for the remains but they could not be located. Yesterday afternoon after removing debris the searchers discovered a hand with the fingers buried off at the first joint. On the second finger was a solid gold band ring.

GOV. PARDEE'S VISIT.

Oakland, Cal., May 1.—Gov. Pardee has returned from Santa Rosa, where he inspected the ruin wrought by the earthquake. He was accompanied on his trip by Secy. of Commerce and Labor Metcalf, Gen. Greely, Congressman McKinley and several other officials.

The governor said that the pressing need of Santa Rosa at present is money. The debris from the wreckage of many buildings must be cleared away before business can be resumed. It is estimated that \$147,000 will be required to do this work. There is call for \$25,000 or \$30,000 for immediate needs.

A gentleman said that the conditions at Santa Rosa were depressing, but the townspeople were brave-hearted and had faced the calamity with sturdy determination to recover. The business district is in ruins, while much of the residence portion is destroyed.

A remarkable escape from injury was that of Luther Burbank, the world famous horticulturist. His home and experimental gardens were undisturbed. Mr. Burbank saved his valuable collection of photographs negatives. These were unbroken, though the other half of the gallery in which they were stored was smashed to splinters.

A report has been received from San Jose, which also suffered severely, that the local relief fund has been ample to provide for all citizens as well as aid many refugees from San Francisco. Clothing, food, shelter and supplies of all kinds have been abundant, and the volunteers have been working long as a single case of destitution remains. There has been no scarcity of ready money in San Jose for ordinary requirements, and very little inconvenience to individuals. The banks will be prepared to re-open in a few days.

At the Agnews asylum for the insane great damage was done and most of the inmates are now living in tents. Aid in obtaining better shelter and for food and clothing would be welcome.

The passengers on the Sinaloa and other places, which were partly wrecked, but as yet no appeals for outside assistance have been made.

DESPERADO FRANK SMITH KILLED BY HARRY BARBER.

Portland, Ore., May 1.—A special correspondent telephoning from New Era states that Frank Smith, who shot and killed Policeman Hanson, Sheriff Shaver and Capt. Hendricks, was shot dead this morning at 11:15 a. m. by a member of the posse.

Word was received from Canby today that a man answering Smith's description had begged for bread at a bakery and had then disappeared. A posse of 50 men started for the place at once. When the posse found Smith's trail and he was run down in a clump of bushes. He was shot by Harry Barber of Spokane.

JUDGE MOSES HALLETT RETIRES TO PRIVATE LIFE.

Denver, May 1.—After 40 years service as judge of the United States court of the district of Colorado, Judge Moses Hallett today retired to private life. Robert E. Lewis was sworn in as his successor. Ceremonies in honor of the retiring judge were participated in by judges of the state courts and members of the Denver and Colorado bar association.

REAR ADMIRAL BROWNSON DINES ADMIRAL CAMPION.

New York, May 1.—Rear Admiral Brownson, commanding the United States cruiser division of the North Atlantic squadron, which is in North river, gave a dinner aboard his flagship, the West Virginia, last night to Rear Admiral Campion of the French navy, who is here with the three French cruisers that took part in the Paul Jones ceremonies. Those at the dinner were the French admiral and his staff, and the captains of the three French cruisers; Admiral Brownson and his staff and the captains of the American ships. Gen. Horace Porter, former ambassador to France; M. Akide Eky, the French consul general; Gen. Fran. D. Grant, and Rear Admiral Coghlan, Mayor McClellan was unable to be present.

The dinner was set on the quarter deck of the West Virginia, which was brilliantly illuminated, as were the other American ships. The diners sat under a canopy of flags and toasts were drunk to the president of France, the president of the United States, the French and American navies and the United States army. The band of the West Virginia played the "Marseillaise" and the "Star Spangled Banner."

Admiral Campion is to give a dinner tonight on board his flagship, the cruiser Marechal.

The dinner was going on aboard the West Virginia last night for the French admiral and his staff, the other French officers were being entertained aboard the other American ships.

THREE POLICEMEN KILLED IN STREETS OF WARSAW.

Warsaw, May 1.—Three policemen were killed in the streets during the night, but the threatened May day outbreaks have not materialized.

Warsaw is like a city of the dead. The shops and restaurants are closed. No cars and no street cars are running and no newspapers are being sold. The streets are patrolled by troops, but a heavy rain is falling which is keeping the population indoors.

BERTHA SHRIMP LOST.

Des Moines, Ia., May 1.—Miss Bertha Shrimp, the Mount Ayer, Ia., high school champion swimmer, who broke with Count Amador de Cespedes of Costa Rica, a few months ago, when it was learned that the latter had a wife living in Chicago, was secretly wedded to Marcus A. Greenleaf of Pomona, Cal., a week ago. News of the wedding reached Mount Ayer friends today. De Cespedes explained at the time the engagement was broken that he had not known it was necessary to secure a divorce.

RELIEF FROM MANILA.

Manila, May 1.—At an auction sale of boxes for a concert to be given May 2 for the benefit of the San Francisco sufferers the Philippines carried the Americans, a prominent native purchasing the governor-general's box for \$550.

TO CARRY INTO EFFECT THE ARMSTRONG ACTS.

Boston, May 1.—Announcement was made yesterday that a committee of Boston policyholders of the Mutual Life Insurance company of New York, had been named to assist the stockholders of the company in carrying into effect the Armstrong acts which have become law in New York. The committee includes Solomon Lincoln, for many years president of the local officers of the company, and Col. William A. Gaston, Massachusetts policyholder who carries \$50,000 of insurance in the Mutual Life Insurance company of New York.

KING EDWARD LAUGHED.

Naples, May 1.—The fact that King Edward had a slight fall on stairs of his royal yacht Victoria and Albert yesterday before leaving for Mount Vesuvius, has been the subject of much gossip about the accident.

The king, however, was not injured and laughed at his mishap.

DEBRIS MUST BE REMOVED.

Business Cannot be Resumed Until It Is—Luther Burbank Had Narrow Escape.

San Jose, Cal., May 1.—The list of dead and missing has run up to a total of 77, and the last body found was that of Mrs. Augusta S. Rodgers, a dressmaker with apartments over the Novelties theater. She was killed in the collapse of that building and her body was partly incinerated by the flames. Search had been made almost daily for the remains but they could not be located. PARIS LOOKS LIKE AN ARMED CAMP

Forces Concentrated Under Prefect of Police Estimated at Nearly Eighty Thousand.

PREVENT MAY DAY DISORDERS

Strong Bodies of Troops Are Posted at Main Railroad Depots in the City.

Place de la Republique Center of Interest—Many Arrests Made There—Many Anarchists Expelled.

Paris, May 1.—May 1, the day for which the government made prodigious preparations, finds many quarters of the city presenting the appearance of an armed camp. The forces concentrated under Prefect of Police Lepine are estimated at 80,000 troops, 12,000 police and 8,000 Republican Guards, gendarmes and detectives. Detachments of troops of all arms took up positions in the main centers at an early hour. The bulk of the military forces had been strictly confined to barracks since midnight, and remained under orders to be ready to move at a moment's notice. The troops at midnight began to guard the public sources of water, gas and electric supply. The plan of the officials was to avoid the use of the military unless such a step was imperatively the aspect of the city during the early hours was little different from usual, but toward noon the military activity increased.

The Metropolitan railroad and the omnibus continued to operate, but cab traffic was crippled, owing to the cab men's fears of extensive central markets were deserted, the company folk refusing to risk bringing in provisions by troops, which are guard.

TROOPS AT RAILWAY STATIONS.

Strong bodies of troops are posted at the main railroad depots in the city. The St. Lazare station is surrounded by a squadron of cuirassiers, several companies of infantry and Republican Guards.

Prior to the opening of the bureau a regiment of infantry took up a position on the terrace and detachments of cuirassiers guarded the entrances to the streets. The bureau opened at the usual hour, but business was restricted.

BANK OF FRANCE GUARDED.

The bank of France was similarly guarded by infantry and cavalry and pickets of troops patrolled the streets. The bank opened at the usual hour, but business was restricted.

The doors and windows of the Prince Eugene are closed.

MANY ARRESTS.

11:30 p. m.—Owing to an increase of action at the Place de la Republique, the troops intervened and a hundred arrests were made. The prisoners were immediately taken before magistrates, who quickly passed upon the cases and the disturbers of the peace were taken to jail.

PROCESSION BROKEN UP.

12:30 p. m.—The striking printers attempted to march in procession from the Bourse du Travail (labor headquarters), singing a revolutionary song. They attacked the police who intervened and the latter were compelled to draw their revolvers. The procession was then broken up.

PATROLLING THOROUGHFARES.

1:30 p. m.—A squadron of cuirassiers, with an ambulance has occupied a part of the Place de la Republique, the Champs Elysees.

Detachments of cavalry are patrolling the thoroughfares in the vicinity of the ministries and the quay d'Orleans. A police guard has been stationed at the American embassy.

ANARCHISTS EXPELLED.

2:25 p. m.—Many anarchists have been expelled from the city, including Stephen Guetsoff and one woman.

M. Levy, secretary of the confederation of labor, and M. Fromentin, the wealthy anarchist have been arrested. Delegates from all trades are assembling at the labor headquarters.

CONTINUOUS ARRESTS.

3 p. m.—The Palace de la Republique is the scene of continuous arrests. The number of disorders persons has increased by several thousand. A detachment of 400 infantry has taken arms on the Place de la Republique.

CHARGED BY CAVALRY.

4:35 p. m.—A squadron of cavalry charged the manifestations on the Place de la Republique forcing the rioters to wards the St. Martin canal. Dragonnades formed a cordon cutting off ingress to the square. Fifty additional arrests were made.
