THE

RUSHFORD WAGON

MANUFACTURED BY THE

WINONA WAGON COMPY.

Our General Manager, H. M. KINNEY, has spent two seasons in Utah, for the special purpose of learning the needs of the Territory in the Wagon line; and now after carefully preparing to meet them, we offer the Rushford Wagon to the trade. It is made of thoroughly Seasoned Timber, of the best quality, strongly ironed, and we know it will stand. We fully appreciate the severe climate and roads of this market, and have made a Wagon with special reference to them. A full assortment can be found with our General Agent, J. W. LOWELL, at Salt Lake City and Ogden. Hoping to merit the patronage and confidence of the trade of this country, we are

Yours truly,

WINONA WAGON CO.,

Winona, Minn.

EVENING NEWS.

Saturday, . . June 10. 1882.

BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

FORTY-SEVENTH CONGRESS.

SENATE.

WASHINGTON, 9.—Mr. Van Wyck introduced the following:

Resolved, That in the considering of the questions with the Senate advice and consent to the nomination of the persons named by the President to be members of the Tariff Commission, that the rules be suspended so that said question shall be considered in open session and not with closed doors.

McMillan reserved all points of order on the resolution which was held over till Monday.

The bill passed authorizing the Postmaster General to extend the mail route at *pro rata* additional pay for any distance not exceeding 25 miles beyond either terminal point named in the contract. The consent of the contractor to be obtained prior to the extension, and no contract to be extended beyond the original terminal points more than once during the original term of the contract.

The Japanese indemnity fund bill was taken up, discussed and again went over without action.

After a short executive session the Senate adjourned until Monday.

HOUSE.

WASHINGTON, 9. — The House went into a committee on the legislative appropriation bill.

The item appropriating $2,300,000 for salaries and expenses of internal revenue agents and surveyors, for fees and expenses of gaugers, and for salaries of storekeepers, having been reached, White, of Kentucky, objected thereto. He asserted that the commissioner of internal revenue, "the officer we are trying to investigate," was known to the secretary—one salary to one storekeeper and another to another; and at his request the item was passed over until the remainder of the bill was considered.

The committee rose. Recess.

AMERICAN.

Mints and Assay Offices.

WASHINGTON, 9.—The appropriations made for the San Francisco mint were as follows: Salary of superintendent, $4,500; $3,000 each for assayer, smelter and refiner and coiner; $2,500 each for asst. assayer, asst. smelter and refiner and asst coiner; $2,250 each for the chief clerk and cashier; $2,200 each for bookkeeper, abstract clerk, weigh clerk, warrant clerk and register of deposits; $1,800 for cashier's clerk; $1,600 each for assayer's computation clerk, asst. weigh clerk and superintendent's computation clerk; in all $43,600. For wages of workmen and adjusters, $242,000; for incidental and contingent expenses, $70,000. Appropriations were also made for the mints at Carson, Nev., and Denver, Col.; also the assay offices at Helena, Montana, and Boise City, Idaho.

Immense Immigration.

Hon. William A. Newell, Governor of Washington Territory, is here looking after the interests of his people. He states that the emigrants are settling there at the rate of 1,500 per day, and that the Northern Pacific Railroad will be completed to the Pacific Ocean in two years. The agricultural and manufacturing interests are rapidly developing themselves with the advanced progress of the construction of railroads and the immense influx of immigration. Eight of the largest steamships that ply between San Francisco, Puget Sound and the Columbia River are stopping at the principal ports of Washington Territory and Oregon.

The Utah Commission.

All the members of the cabinet were present at the meeting to-day, except Secretary Chandler. The declination of Phelps to serve as a member of the Tariff Commission was announced, and the names of several persons were considered in connection with the position thus made vacant, but no selection was made.

The Utah Commission bill was also considered, with a view to determining the membership of the commission, but no conclusion was reached. It seems that while Congress provided for the amount of compensation to be allowed the members of this commission, no appropriation was made out of which they can be paid. Congress will be called upon to remedy this defect before the members of the commission are nominated.

A Star Jury.

The *Post* says of the Star route jury: It is asserted that no sooner were the talismen ordered that a goodly number were found on hand and covenient for Marshal Henry's summons, and the defendant Dorsey, and an ex-Senator was seen to have the ear of Marshal Henry in a secluded alcove. There is no doubt that Marshal Henry was subsequently brought before Attorney General Brewster, and subjected him to a rushing examination, but as no overt act could be designated it was concluded the wisest policy was to make no fuss about it. For a time, however, it was seriously contemplated to demand of Marshal his resignation, but this determination, after a long conference with the Marshal was abandoned. It is is not charged that the jury have been corrupted or is susceptible of being tampered with.

It is reported that there has been a change in the United States Marshal of the District of Columbia in consequence of the manner in which the talismen from whom the jury in the Star route case was selected, were summoned by the Marshal's officer.

Pensions.

Cannon, of Illinois, in the House yesterday, showed the amount necessary for the payment of pensions the fiscal year would be about $100,000,000, next year $150,000,000, the following year $100,000,000, the fourth year 75,000,000, and after that he thought the annual appropriation need not exceed $50,000,000. His analysis of the bill was very thorough, and showed him to be perfectly familiar with all the necessities of the Government department.

Typographical Union.

ST. LOUIS, 9.—The International Typographical Union elected Geo. C. Clark, president; J. J. Clarkson, first vice president; F. A. Fowler, second vice president; Marks L. Crawford, secretary and treasurer. Cincinnati was selected as the place for the next meeting.

Severe Hail Storm.

LAREDO, Tex., 9.—A hail storm, last night, broke in the walls of Babcock Hall, killing one man and dangerously wounding two others. There was great damage to crops and sheep.

The Iron Strikers.

PITTSBURG, 9.—The iron situation is devoid of anything startling. Both sides remain firm, and preparations are being made for a long siege. From all quarters come reports of iron workers organizing fishing clubs and purpose camping out for the summer. The mills are still undergoing repairs. A number of establishments sent their horses out to the country for pasturage. The mining situation is also quiet.

That Oregon Election.

NEW YORK, 9. — The *World's* Washington special says: The Oregon election appears to have been carried by the republicans by the usual republican methods; the political assessment of money and the expenditures of the republican activity, encountering not only democratic poverty, but democratic inactivity. The republicans of Oregon have a superabundance of aid from the outside. The State-Oregon democrats had none. Though Oregon has for some years been a republican State the Legislature elected this year should have been democratic. The democrats should learn that the hour of danger for them is the hour of over confidence, and that nothing is accomplished without painstaking.

Failures.

The failures reported to New York are 106 against 136 last week. The Eastern States had 12; Middle, 19; Western, 25; Southern, 22; Pacific States and Territories, 9; and New York, 9. The failures in New York had little significance.

Wool

BOSTON, 9.—A fair business is doing in wool, but the sales are small compared with the corresp nding week last year, when some 3,600,000 pounds were sold, against 1,700,000 pounds this year.

More Robbers Captured.

KANSAS CITY, 9.—The four train robbers were corraled in the woods 13 miles northwest of Kirksville, at six o'clock this morning, and they surrendered. Fox and Morris are recognized, the others refuse to give their names. The friends of the robbers are congregated at Kirksville and they say the prisoners shall not be taken to Brookfield. A fight is looked for.

Hanged.

BROWNSVILLE, Tex., 9.—Guirino Garlan was hanged this afternoon before a large crowd, mostly Mexicans. He died game. He murdered Louis Contreras at a dance.

Richmond, Va., 9. — Armstead Gray (colored) was hanged about noon at the Powhattan court house, privately. Gray killed his son, aged 14, for stealing molasses.

Murderer Caught.

EAST SAGINAW, Mich., 9.—Jas. O'Neil, alias John Sheehan, who murdered a man named Stroude at Navajo Springs, was captured here to day.

Lynched.

LAS VEGAS, N. M., 9. — James McHau and John Graves, employed on the railroad section at Pecos, 30 miles south of Las Vegas, engaged in a fight last evening. McHau shot and killed Graves. He escaped, but was afterwards overtaken by a party of 40 men and lynched. The body is still hanging.

BRIEF TELEGRAMS.

The backbone of the strike is broken at Cleveland, the men being disheartened at the vigilance of the police in preventing bulldozing.

It is understood that Trescott will refuse to testify regarding his instructions without the consent of the State Department and the President.

General Scoville, author of the temperance plank in the Ohio platform, is in Washington. He says the republicans will carry Ohio in spite of the unfavorable predictions.

An El Paso dispatch says a party of American railroad hands attacked a number of Mexicans at Iago Ranch this morning. Three Americans were killed and a number of Mexicans.

F. W. Newburgh, forger, who secured $20,000 from the State Treasury, against whom 52 indictments were returned, was taken to the penitentiary for six years, having pleaded guilty to two indictments only.

Elmer Quinn and David Goodrich, the inmates who fired the asylum for imbecile youths at Columbus, O., in November, 1881, by which the State lost some $300,000, were acquitted of arson on the ground of insanity.

At Cairo, the Government has deferred payment of half the land tax, so that the people will not be forced to sell their crops when all the Europeans have left and the banks have refused to give credit because of the insecurity prevailing.

The elections committee will consider the case of Samuel Lee, republican, against J. T. Richardson, the sitting democratic member from a South Carolina district, to-morrow. Lees' case is said to be exceedingly strong, and the probabilities are that Richardson will be unseated.

Burke, who was assassinated yesterday, recently informed the authorities that he knew he would be shot. When the news of Burke's murder reached London, his brother went into the lobby of the House of Commons and accused Parnell and Biggar of being the cause thereof.

Blaine's enemies have been attacking him over the request made for $90,000 for the secret service abroad, supposing there was some dark business about the Peruvian affairs. It now turns out that the money was asked by Frelinghuysen for the purpose of watching American interests in the Panama canal scheme.

Special Agent Chamberlain, of the Treasury Department, reports that the disturbed condition of the sugar trade is due to the artificial coloration of imported sugars, by which high grades are imported at low tariff, and being refined are exported with a large drawback to importers and refiners. The system is driving honest operators and refiners out of business.

B. F. Stillwell, Esq., corner Twelfth and Broadway, Oakland, Cal., had been confined to his room for days with a severe sprain. In answer to a San Francisco newspaper reporter he said: "My speedy recovery is due entirely to St. Jacobs Oil. My injury was a severe and painful one. Other remedies failed to benefit me. With the use of the Oil the swelling disappeared quickly, as did also the pain, and I am as well as ever. Credit to what credit belongs, I say.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

This standard Article is compounded with the greatest care,

Its effects are as wonderful and astonishing as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, dandruff and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.
