#### QUEEN WAS COURAGEOUS.

The proximity of the coach of Grand Duke Vladimir of Russia to the royal coaches at the time of the explosion led many of the spectators to believe that the attempt had been against his life, but later it was generally accepted that it was directed against the king and queen. The courage of the latter was greatly admired. She was somewhat overcome with emotion at first, but the king calmed her, saying that it was nothing serious. Later she recovered her self-possession and bore herself well throughout the trying ordeal. Some of those who saw the young queen alight from the royal coach just after the explosion say that her bridal veil touched the bloody pools on the pavement, and that it bore an impress of the terrible scene as she returned to the palace.

#### GO AUTOMOBILING.

Madrid, June 1.—1 p. m.—King Alfonso and Queen Victoria appeared at noon in an open automobile and rode through the main thoroughfares without an escort.

This unexpected sight caused tremendous enthusiasm among the crowds who testified their joy at their majesties' escape from death yesterday by the wildest ovations. The king and queen appeared to be calm and undisturbed. His majesty wore the uniform of a general and smiling waved his hand to the people. There were no troops in the streets, only a few scattered mounted civil guards.

The search made by the police disclosed the fact that the author of the outrage was a man of luxury and wealth. He had many valuable articles and clothes behind him in his carriage, and was driving in an open automobile.

The individual arrested this morning and taken to the Medio dia police station closely corresponds with the description of the author of yesterday's explosion.

#### KING EDWARD REASSURED.

London, June 1.—King Edward and Queen Alexandra today received telegrams of a reassuring character from Madrid in response to their messages to King Alfonso and Queen Victoria expressing sympathy and thankfulness at their providential escape.

The Spanish embassy here is receiving very many messages of condolence and words of comfort from many diplomats and officials. Among the earlier arrivals from Madrid are the famous Spanish professor of singing, now over a hundred years old.

The officials of the Spanish embassy are giving the reports that the plot against the lives of King Alfonso and Queen Victoria were hatched by anarchists in London.

The Spanish charge d'affaires, Count De Pradere, says there seems little doubt that the plot was concocted in London, but the officials have not yet been able to ascertain if an Italian who is suspected of executing it actually went hence to Madrid.

A dispatch from Madrid says that an Englishman named Robert is detained there on suspicion of being an accomplice of the men who threw the bomb,

Washington, June 1.—President Roosevelt is in receipt of a cablegram from Mr. Whittington, the special representative of the United States at the wedding of King Alfonso relative to attempted assassination of the king and queen of Spain yesterday. "Madrid, May 31, 4:35 p. m.—The President, on returning from church after marriage bomb was thrown at king's carriage. Their majesties untouched; carriage stopped; two horses killed, also add de campo; soldiers killed and wounded. Great popular rage. Have called among very first and written concerning horror."

## OFFICERS SEARCH FOR AUSTRIAN.

Hiding in Jordan Bottoms After Committing Murderous Assault.

#### USED A HEAVY IRON BAR.

Struck an American Who Was Unconscious for Several Hours—Concussion of Brain Feared.

(Special to the "News.")

Bingham Junction, June 1.—Fearful that he has killed Jim Mabey at the smelters located in this city, a Greek whose name has not been learned, is hiding somewhere, along the Jordan bottoms, while Marshal Mauss of Murray and Deputy Sheriff Beckstead of Bingham Junction are trying to locate him. Mabey, who is an American, is seriously injured, but it is not thought he will die. He was knocked unconscious by the Greek laboree who struck him over the head with a heavy bar of iron, and he remained in that condition for several hours. He finally returned to consciousness, however, and it is thought now that concussion of the brain will not set in.

Just how the fight occurred is not definitely known. The generally accepted version is that Mabey was using a metal bar with one end when another stepped up from behind and held him to the ground with a heavy blow from iron bar similar to that which they were struggling for. The Greek who struck the blow fled. He was traced down across the bottom lands to the Jordan river, and out on the other side, he having forded the stream. It was thought he came into Murray, and Deputy Sheriff Beckstead made a careful search of the foreign quarter near Murray for him without avail. It is believed that he will surrender himself when he learns that Mabey has recovered.

Orpheum—Tonight is "society night" at the Orpheum, and a big turnout is expected for "The Charity Ball." Scene painters are now hard at work on some new sets, which are to be used in "Almada," which will be the bill next week.

Grand—"The Great Poison Mystery" was presented to a fair-sized house at the Grand last night. The leading roles were in the hands of Whit Brandon and Miss Gertrude Perrie and the support was good. The play is intensely melodramatic, and the audience was kept in a wrought-up state during the greater part of the evening. Otto Peck and Margaret Gederich (the latter by the way is Mrs. Otto Peck) are no longer playing here, but have been transferred to the New York stage of the circuit. Their places here have been filled by equally clever people.

## BIG SUIT FILED IN COURT TODAY

Involves the Purchase of Street Railway System in Manila.

#### DEMANDS SUM OF \$160,000.

Plaintiff Claims He Went to the Philippines and Made an Examination Of Property in Question.

An action in which the purchase and operation of the street railway system of Manila, P. I., is involved was filed in the district court today by Walter G. Pifer against the Buhl-Kimberly corporation and Frank H. Buhl to recover the total sum of \$160,000 for services rendered by plaintiff in examining the property purchased and in securing franchise for the operation of the railway.

It is alleged that the property was offered for sale to plaintiff for \$135,000, and he recommended to defendant Buhl that he purchase the same. It is claimed that Buhl engaged plaintiff to go to Manila and examine the property and secure the franchise, which the latter did. For his services he was to receive 10 per cent of the profits from the transaction and was to manage the railway system at a salary of \$15,000 per year. After the deal was closed, it is alleged that defendant Buhl and the corporation which he organized for the purpose of financing the affair failed and refused to pay plaintiff for his services. Hence judgment is asked against them for \$160,000.

#### C. & N. W. TO EXTEND.

Will Let Contract for Another Stretch Of 100 Miles in Wyoming.

#### (Special to the "News")

Shoshone, Wyo., June 1.—It is reported here on what is considered the very best authority, that the northwestern will soon let the contract for the further extension of its track west 100 miles through the Shoshone or Wind river reservation, which is to be thrown open to settlement Aug. 15 next. The line will cross the Big Horn river west of Shoshone, and continue west across the big bench lying between Wind river and Muddy creek, will run along this bench for about 40 miles, entering the Wind River valley near the mouth of the creek. At the western terminus of the line near the present site of Dubois, another town will be started. The region through which this extension is to run will be one of the richest agricultural and mining districts in the state, and there is no doubt but that it will do an immense business. The bench along which it is to run for over 50 miles is a slight ascent to the west, without a break or a ridge, and will need very little if any grade.

The southern extension of the Northwestern's line toward Lander is now in process of construction, and with the finishing of this line, the extension west from this point, and the completion of the Burlington from Worland, and Thermopolis on south through Shoshone this town will become one of the railroad centers of the state.

Casino Park—After a rest of several days to let the clouds roll by and the chilly nights warm up, the Zinn Travesty company appeared again last night at Casino park, and "played to good business" as the box office man puts it. The "Mascot," the familiar old opera, well known to Salt Lake years ago, was the bill, and it was heartily received, despite the fact that it had all the "latest eastern song hits" interpolated, and that some of them had been sung so much that their hitting power was almost nil. The "Mascot" consists of two acts at Rocco's farm, and the second at Lorenzo's palace, and there's something doing in the way of fun at both places. As usual the "gobble" duet led in the applause. The playlet or opera, call it what you will, continues for the weak, and will no doubt be well received.

#### Lyrics—The final performance of "The Fatal Wedding" is booked for this evening, and it will be followed by "The American Girl," tomorrow.

Salt Palace—The theater at the Salt Palace grounds is open every night, and on race nights big crowds are locked in.
