SPECIAL AUDITORS STIR THINGS UP.

Statements Challenged by Ex-Mayor William Glasmann And Others.

PREPARING FOR TRAVELERS.

Committees Make Partial Arrangement for Gala Days, June 7, 8 And 9—News Briefs.

Ogden, May 18.—Next Monday evening at the meeting of the Ogden City Council Mrs. Hattie Brown, former city auditor, whose work in that department of the city's government was so severely criticised by Special Auditors Hollingsworth and Harris, will be given an opportunity to explain away some of the charges of carelessness in her work made by the gentlemen. Mrs. Brown is a lady who is highly esteemed in this city, and though perhaps not an expert accountant, has performed the duties of her office in a very creditable manner. She may have made some slight mistakes, but feels that she was not deserving of severe criticism, and President Craig of the city council has announced that the privilege will be given her to explain to that body her position in the matter, so that they will be better prepared to act on the report when it comes up again for their consideration.

Mrs. Brown says that the special auditors did not at any time during the three months they were examining the city's books ask her for any papers or explanation of anything that appeared to them to be wrong, otherwise she would have been able to have shown them the vouchers and other papers they do not seem to have found. She declares that at no time did she ever draw warrants or pay any bills until authorized to do so by the council and mayor, and she invites any business man or other person to visit the auditor's office and inspect her books. She further states that in 1905 a government auditor inspected her books and commended her work, stating that her records were in good shape and it only took him three weeks to perform his work. City Recorder Critchlow and other of the city officials may also appear before the council to defend their work.

The report of the auditors has caused a great amount of talk, and will, it is feared, result in some harsh feelings before it is disposed of.

Ex-Mayor Glasmann, over his signature, published in his paper last evening a severe reprimand of the special auditors, declaring that their report is false in many respects, and makes the serious charge that Mr. Hollingsworth, while county clerk, approved a bunch of padded pay-rolls, running up to \$100 in some instances. He also offered the following challenge: "They say in 1904 and 5 the mayor does not appear to have approved over his own signature more than 10 percent of the claims and pay-rolls. I presume they meant such resolutions ordering claims paid as passed by the council. I had no right to approve others."

PREPARING FOR TRAVELERS.
Committees Meet and Make Partial Arrangements for Festivities.

Ogden, May 18.—The committees of the United Commercial Travelers Association appointed to prepare for the entertainment of the traveling men in this city next month, June 7, 8, and 9, met last evening and decided on a number of plans. An appropriation of \$2,800 was ordered made for immediate use in making preparations. The city hall grounds will be enclosed and used as an entertainment ground. It will be elegantly decorated. A fine parade is being arranged for in which will be seen floats from a number of the business houses, fine horses, automobiles, light bands, fire department, policemen and many others.

Arrangements have been completed for the stringing of 3,000 electric lights up Twenty-fifth street from the depot and along Washington avenue to Twenty-third street.

All those who have teams they can spare one day have been asked to assist in conveying the visitors to and from Ogden Canyon.

Yesterday was the first day the finance committee has started out to collect funds and they met with great success, having collected in excess of \$1,700 from the merchants of the city. Another meeting will be held at the same place next Monday evening.

DANCES MAY CONTINUE.
Dancing parties may be continued in the O'Neill block, located on Twenty-fifth street, by the Eagles' lodge under a decision handed down by District Judge Howell yesterday afternoon. J. P. O'Neill, owner of the building, leased the same to the Eagles' lodge. Several months ago he objected to them continuing dancing in the building, but they refused to obey his request and therefore Mr. O'Neill was compelled to take the case into court and ask for an order to restrain the lodge from using the hall for dancing purposes, claiming that it was unsafe and damaging to the building. Considerable testimony was taken at the hearing and Judge Howell reserved his decision until now, when he ruled against the plaintiff and the hall will be used for dancing purposes as heretofore.

\$200 FOR 10-MILE WALK.
Ralph Wilcox has been granted a judgment of \$200 against the Oregon Short Line Railroad company by Municipal Judge Murphy. Wilcox purchased a round trip ticket to the Utah Hot Springs several weeks ago. He rode out to the springs for a bath, and was ready to return to Ogden on a later train, but the train crew

refused to stop the train for him, and he was compelled to walk to Ogden, a distance of 10 miles. He sued the company for \$200.

MORE PORTLAND CONTRACTS.
The Westinghouse Electric company has been awarded another contract by the Union Portland Cement company for \$15,000 worth more machinery, such as stockers and auxiliary engines to be shipped to its plant at Portland, Oregon county, as soon as possible. The cement company is pushing its work with every possible haste, being desirous of getting its plant in readiness for manufacturing cement this fall. It has placed orders for the greater portion of its machinery, and the work of laying the concrete foundations is now progressing rapidly.

SAN FRANCISCO BANKS OPEN.
The Pingree National bank has received the following telegram from the Anglo California National bank of San Francisco: "Commercial banks will open May 23. Saving banks May 28. You may therefore resume your usual remittances at once on all points." This will be good news to many as it is assurance that the business of San Francisco is being resumed, and will continue.

BOY HAS DANGEROUS FALL.
Elmer Bartlett, a 12-year-old boy, was playing with several playmates on the new armory building, when he slipped and fell to the bottom of the basement, fracturing his right wrist, and cutting a bad gash over the right eye. He was picked up and taken to his home nearby, where Dr. Baker attended to him, reducing the fracture, and dressing the wound.

UNTAH COUPLE WED.
A license to wed was obtained by H. O. Woods, 25, and Miss Bertha Hammer, 18, both of Utah, Weber county.

BRIEFS AND PERSONALS.
The Utah and Idaho Railroad company commenced condemnation proceedings in the district court against Anna R. Shaw and Ann Corbett, to condemn pieces of land along its proposed car line route.

Elder Beaux, who has been laboring in the Swiss mission for over two years, has returned enjoying good health, and gives an excellent report of his labors in the French portion of Switzerland.

Tonight P. J. Lucas of the Y. M. C. A. of Salt Lake will lecture at the hall, 326 1/2 Twenty-fourth street, on "What to Do with Our Boys."

Dr. Egan will deliver a talk tonight at the Congregation church before the Men's club, on "The Modern Crusade Against Consumption, the Great White Plague."

Another booster for Utah industry has just been put on the market—MOUNT'S KETCHUP.

ORDERS FOR STEEL RAILS.
Pittsburg, Pa., May 17.—Since the order books were opened two weeks ago the United States steel corporation, the Colorado Fuel and Iron company, the Jones & Laughlin Steel company, the Pennsylvania Steel company, the Maryland Steel company and the Tennessee Coal and Iron company, have booked an aggregate of one million tons of steel rails for delivery in 1907. This is an unprecedented amount of business for this time of the year in the history of the steel trade. It is estimated that the total production of the various companies is more than 200,000 tons above the actual production of the United States in 1905. From present indications the year 1907 will be more active in the production of steel rails than any previous year.

SLIGHT SHOCK AT OAKLAND.
Oakland, Cal., May 18.—A slight shock of earthquake was felt here tonight and at San Jose, and other points. No damage is reported.

"BIG WATER SUIT" FINALLY SETTLED.

Judge Morse Signs Decree Establishing Rights to Sevier River And Tributaries.

ADJUSTED BY STIPULATION.

Compact Gives General Satisfaction to All Irrigators Concerned and There Will be no Appeal.

Special Correspondence.
Richfield, Sevier Co., May 18.—The case of the Richfield Irrigation Canal company et al vs the Circleville Irrigation company et al, commonly known as the "big water suit," was terminated today, when Judge Morse signed the decree establishing the individual and corporate rights of all parties who use water from the Sevier river and its tributaries as far north as Richfield.

There has been litigation from time to time covering different sections of the area embraced in the new decree, but these adjudications were only binding as between the parties to each action, and for several years past it has been apparent that no satisfactory and permanent basis could be established covering the whole watershed, and fixing the relative and proportionate rights of the different valleys and settlements without a judicial adjudication.

Accordingly the above entitled case was filed on the 14th day of August, 1902. Judge Childerster being an interested party was disqualified to sit upon the case, and accordingly Judge C. W. Morse was invited to hear and determine the issues. The trial was begun Dec. 11, 1905. The case being brought in a friendly way it was soon apparent to the court that much more could be accomplished in the same length of time by the parties entering into stipulations than by the taking of testimony. After consuming 20 days time the various parties succeeded in stipulating all of the rights embraced in the case and the stipulations were duly signed and filed with the court as a basis for a decree.

Practically all of the legal talent of the Sixth judicial district was engaged upon the case, and in addition such well known attorneys as William H. King, S. H. Thurman, E. A. Wedgewood, D. D. Houtz and M. M. Warner. The decree which will be filed tomorrow contains 75 typeset pages, and there are over 500 defendants. The aggregate amount of water involved was 741 second feet of primary rights and 180 second feet of secondary and third rights. The Pangloss section was awarded 125 feet of primary and about 50 feet of secondary and third rights; the Circleville section was awarded 91 feet of primary and about 30 feet of secondary and third rights, while the balance of 525 feet of primary and about 80 feet of secondary and third rights was decreed to Sevier and Grass valleys and some isolated defendants.

The court today appointed Alma F. Bohman commissioner of Monroe creek, his compensation to be fixed by the parties interested in the waters to be distributed. Mr. Bohman to give a bond of \$500. The court also appointed Lewis W. Jones commissioner to distribute all of the waters embraced in the decree, excepting those of Monroe creek, his compensation to be \$4.50 per day, and he is to furnish a bond in the sum of \$2,000.

The costs in the case, exclusive of witnesses and attorneys' fees, will amount to \$500, which amount the court has ordered paid by the different parties pro rata according to their respective rights as determined by the court.

Much credit is due the representatives of the people and the attorneys engaged for the earnest and energetic manner in which they have labored to harmonize the varied and conflicting interests which were found to exist. The decree being virtually a mutual agreement between the parties, there is no likelihood of an appeal.

On all sides are heard expressions of satisfaction at the happy termination of an issue involving such vast interests to the southern part of the state.

SETTING OF COURT CASES.

Judge Childerster today set cases for the May term of court as follows: May 20—State vs. Anton C. Jensen; State vs. W. A. Lipsey.

May 31—City of Richfield vs. J. G. Jorgensen; J. M. Peterson bank vs. F. M. Dorrity.

June 1—Oluf Anderson vs. Brig. Sandberg.

June 2—Lydia H. Bridges vs. Moroni Barney and Sorena Barney, his wife, June 2—Parley Magley vs. Frank Anderson.

June 5—W. A. Jensen vs. Annie Laura Mining company.

June 6—Black Knolls Creamery company, vs. Sevier Valley Creamery company.

June 7—C. Meyer vs. Eliza J. Meyer. In the William E. Henck estate an order was entered authorizing the administrator to sell certain real estate.

In the Niels Madsen estate an order for specific performance was made directing the administrator to convey to Ole Larsen certain real property.

The final account in the C. C. Christensen estate was allowed and the residue of the estate ordered distributed.

N. E. Ekelund today filed a petition for the probate of the last will and testament of Ingri M. Ekelund, deceased.

PANAMA POLICE.

Geo. W. Jiminez Gives up Attempt to Organize and Reform Them.

New York, May 17.—George W. Jiminez, the New York policeman who went to Panama seven months ago to reorganize the police department of that republic, has quit the task and reached his home in Brooklyn today. He said:

"The police of the republic of Panama are a national body and there is really no effective method of governing them. The discipline is very poor. There are about 1,000 men on the force and hardly two of them are dressed alike. It did not take me long to see that there was urgent need of many changes. But I soon found out that my hands were tied, as it were, for political reasons, and I found myself in so ridiculous a position that I resigned on May 3.

"The force is maintained primarily for the purpose of keeping the present governmental clique in control. Although Panama is a republic, with Manuel Amador in the executive chair, the government is in reality a monarchy. It is constituted on the plan of the old-time make-up of the big insurance companies—the president relatively holds jobs in the government service, and everybody who amounts to anything politically is a relative of some other potent factor in the affairs of the government."

An Important Scientific Discovery.

LIKELY TO REVOLUTIONIZE PHARMACY.

A HAPPY COMBINATION
Of just the right proportion of each of the roots of several indigenous, or native, medicinal plants, or rather of the active, medicinal principles skillfully extracted therefrom by the use of chemically pure glycerine of just the right strength, constitutes Dr. Pierce's Favorite Prescription for the cure of weak, invalid, nervous, "run-down," over-worked women. Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a far better solvent and preservative of the medicinal principles found in our indigenous, or native, medicinal plants, than is alcohol. Believing, as he does, that the use of alcohol, even in small portions, if long continued, works great harm to the human system, he determined not to employ this commonly used agent in making his medicines, but to use pure, triple-refined glycerine instead. Now, glycerine is not only perfectly harmless but possesses intrinsic medicinal properties, being a most valuable demulcent, solvent, nutritive, anti-septic and anti-ferment. Since they are non-alcoholic, Dr. Pierce's Family Medicines belong all by themselves. They are neither patent nor secret medicines. Their ingredients are printed, in plain English, on each bottle-wrapper.

The exact proportion of the several ingredients used in these medicines, as well as the working formula and peculiar processes, apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may not be infringed and trespassed upon by unprincipled imitators and those who may be piratically inclined.

WHAT OTHERS SAY.
With Dr. Pierce's medicines you don't have to pin your faith wholly to what the manufacturer says of their curative potency as with other medicines. Mercenary motives, the greed for money-getting, it is feared, often lead men, and women too, to put forth unreasonable claims for their loudly praised but many times nearly worthless compounds. Especially should the afflicted beware of the "Cheap-John," free, give away, "trial bottle" dodge. It don't pay to trifle with one's health. It should be regarded as too sacred to be experimented with.

Dr. Pierce's medicines have a record of nearly forty years of cures behind them, embracing many hundreds of thousands of bad cases restored to health and happiness.

THEY STAND ALONE
In having the professional endorsement of scores of eminent medical practitioners and writers, of all the several schools of medical practice, who praise the curative properties of the several ingredients of which they are composed, away beyond all that the makers of these medicines have ever claimed for them. These are more valuable because in every case written without the author knowing that he was praising articles entering into these popular medicines, the matter being composed for publication in various medical journals and books designed exclusively for professional reading and instruction. The afflicted can, therefore, rely upon such testimony as in every way truthful and trustworthy.

A LITTLE BOOK
has been compiled, made up of brief extracts from many standard medical works, giving, but only in part, some few of the many good things written by leading medical authorities concerning the several native, medicinal roots that enter into the composition of Dr. Pierce's medicines. Any one sending, by postal card or letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting a copy will receive it free by return post.

OPEN TO ALL
This little book of extracts, contains, in plain English, the name of every ingredient which enters into Dr. Pierce's Golden Medical Discovery, the famous cure for weak stomach or dyspepsia, torpid liver, or "biliousness," bad blood, and all catarrhal diseases of the several mucous passages. By reading this little book, you will learn why this medicine cures such a wide range of diseases. You will find that two of the prominent ingredients of the "Golden Medical Discovery" are recommended by the medical writers of all the several schools of practice for the cure of diseases of the mucous surfaces, as catarrh of the nasal passages, of the stomach and bowels, including ulceration of the same. You will find these agents also spoken of as the best of remedies for all cases of atonic dyspepsia, that is dyspepsia dependent upon weakness of the stomach itself—muscular weakness; also, for kidney and bladder diseases.

Several of the ingredients entering into the "Golden Medical Discovery," viz: Queen's root, Black Cherrybark, Stone root and Bloodroot are highly recommended for chronic, or lingering coughs, and for all chronic, bronchial and laryngeal, or throat affections. In fact, some of the writers go so far as to state that the active medicinal principle contained in Queen's root alone will cure bad cases of bronchitis. Is it not reasonable then to expect much in the way of curative results from a compound containing not one but four ingredients, each of which has a reputation for curing bronchial and throat affections accompanied with obstinate cough? Observation, however, leads the makers of this famous medicine to recommend the "Discovery" for chronic or lingering coughs, rather than for acute colds and coughs. In the latter case it is generally not quite "loosening," or expectorant enough unless mucilage of slippery elm, flax seed or Gum Arabic be drank freely at same time it is being used, but when the cough has passed its acute stage, if still persistent, the "Discovery" will prove a sovereign remedy for its control.

Dr. Pierce never believed it necessary or advisable to use alcohol in the preparation of either his "Favorite Prescription" for weak women, or his "Golden Medical Discovery" the well-known alternative tonic, which is so largely used as a remedy for indigestion, torpid liver, bad blood and kindred ailments. Over forty years ago, he discovered that chemically pure, triple-refined glycerine is a far better solvent of most of the active principles residing in our native, medicinal plants when used at a proper and sustained temperature than is alcohol; and, furthermore, he found that a glyceric extract kept much better than an alcoholic one, and that the glycerine possessed intrinsic remedial value, being demulcent, nutritive and an effective, antiseptic and anti-ferment. Although costing somewhat more, Dr. Pierce predicts that glyceric medicinal extracts will in the not distant future, largely replace alcoholic ones so generally prescribed by physicians and put out by proprietary or "patent medicine" manufacturers, as being more efficient and entirely free from the serious objection of making inebriates when used in lingering or chronic cases, where a somewhat protracted use of medicine is necessary no matter how good or well adapted to the case it may be in order to obtain permanent results.

Dr. Pierce's 1000-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing only. For 31 stamps the cloth-bound volume will be sent. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

OPEN PUBLICITY.

THE TRUEST GUARANTY OF MERIT.

OPEN TO EVERYBODY is the fullest information as to the properties and uses of the several ingredients entering into Dr. Pierce's family medicines. All observing people must have noticed a growing sentiment in this country in favor of using only put-up foods and medicines of known composition. It is but natural that one should have some interest in the composition of that which he is expected to swallow, whether it be food, drink or medicine. This sentiment has resulted in the introduction in the legislatures of many of the States, as also in the Congress of the United States, bills providing for the publication of formula or ingredients on wrappers and labels of medicines and foods put up for general consumption.

Recognizing this growing disposition on the part of the public generally, and satisfied that the fullest publicity can only add to the well-earned reputation of his proprietary medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast, and on each bottle-wrapper, a full and complete list of all the ingredients entering into his medicines, "Golden Medical Discovery" and "Favorite Prescription."

This striking departure of Dr. Pierce from the usual course pursued by the manufacturers of proprietary medicines, at once takes his medicines out of the class generally known as "patent" or secret medicines, neither of which term is at all applicable to them, as their formula now appears on the wrapper of every bottle leaving the great laboratory at Buffalo, N. Y. It places them in a class all by themselves. Neither of them contains any alcohol, which fact alone should cause them to be classed all by themselves and as entirely harmless, vegetable extracts, made and preserved by the use of glycerine and not with the usually employed strong alcohol, which works so much injury, especially in cases where treatment, even though of the best, must be continued for considerable periods of time, in order to make the cure permanent.

Many years ago, Dr. Pierce found that chemically pure glycerine, of proper strength, was far better than alcohol both for extracting and preserving the medicinal principles residing in our indigenous, or native, medicinal plants, such as he employs exclusively in manufacturing his medicines.

Some of these medicinal roots have, since Dr. Pierce first commenced to use them, advanced so in price, that they may be cultivated with great profit by our farmers. This is especially true of Golden Seal root, which enters into both the Doctor's "Golden Medical Discovery" and his "Favorite Prescription." It now brings upward of \$1.50 a pound, although formerly selling at from 15 to 20 cents a pound. Many tons of this most valuable root are annually consumed in Doctor Pierce's Laboratory.

In this way the afflicted, who may think favorably of using these non-secret medicines, are taken into Dr. Pierce's full confidence and are informed as to the properties and uses of each of the several vegetable ingredients of which they are composed.

When a woman takes "Favorite Prescription," she knows just what she is using. Dr. Pierce takes his patients into his full confidence. His medicines are not secret compounds, are not patent medicines, but the favorite prescriptions of a regular, graduated physician of large experience in actual practice.

Thus you do not have to rely upon Dr. Pierce's recommendation alone as to the marvelous curative properties possessed by his "Golden Medical Discovery" for the cure of weak stomachs, dyspepsia, torpid liver, or biliousness, impure blood and kindred ailments, nor of his "Favorite

Prescription" for the cure of weak, nervous, invalid women, for you have in addition the strongest kind of endorsement of each and every ingredient entering into the composition of these world-famed medicines by numerous leading medical writers of the several schools of practice. In fact nothing which Doctor Pierce has ever said in recommendation of these medicines is quite so strong and laudatory of their merits as what has indirectly been said of them through the numerous unqualified endorsements and recommendation of each of their several ingredients by the leading writers on *Materia Medica*.

Among the well-known authorities will be found Drs. Bartholow, Hare, Johnson, Wood, King, Scudder, Hale, Coe, Ellingwood and many others.

The ingredients are all indigenous, or native, medicinal roots. Dr. Pierce believes that medicine can cure disease only as it assists Nature to overcome the abnormal or diseased conditions. For thus assisting Nature in throwing off disease, Dr. Pierce believes the best and only real remedies are to be found in Nature's Laboratory. In the roots of medicinal plants found in this country, Providence has stored up most valuable, active, curative principles, which, when scientifically extracted and combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery, are most effective in curing a long list of chronic, or lingering, and most obstinate diseases.

From the same little book of extracts it will readily be seen why Dr. Pierce's Favorite Prescription works such marvelous cures in those chronic and distressing diseases peculiar to women. In all cases of pelvic catarrh with weakening drains, bearing or "dragging-down" pains or distress, and in all menstrual derangements and irregularities, the "Favorite Prescription" will be found to be made of just the right ingredients to meet and cure the trouble.

In all irregularities and painful periods to which women are subject, also in leucorrhoea, or "female weakness," displacements, as prolapsus, anteversion and retroversion of the uterus, ulceration of uterus, inflammation of ovaries, and kindred maladies, Dr. Pierce's Favorite Prescription has more real cures to its credit than any other medicine put up and sold through druggists for the cure of this class of weaknesses and diseases.

In cases of weak stomach, indigestion, dyspepsia, ulceration of stomach or bowels, torpid liver, or biliousness, the "Golden Medical Discovery" has never been excelled as a tonic and invigorator which puts the effected organs "in tune" and enables them to perform their proper functions. It purifies and enriches the blood, curing all manner of "humors," blood taints, scrofulous and skin affections.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

Doctor Pierce's Pleasant Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heartburn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, tightly corked, therefore always fresh and reliable. One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels.
