once to her stateroom. Mr. Earle arrived soon after and together they appeared on deck to meet the reporters. They posed together for a photograph. Mrs. Earle declined to make any statement, but her husband, who seemed highly pleased at the attention he was receiving, said: "Mrs. Earle is bearing up bravely under the ordeal. This notoriety is worth five years' work to me. We part with a full understanding and Mrs. Earle is as much agreed to it as I am. I believe it is the right thing to do."

Mr. and Mrs. Earle then went to her stateroom and bade each other goodbye.

TO STUDY HUBONIC PLAGUE.

Berkeley, Cal., Sept. 4.—The department of bacteriology at the University of California is planning a series of experiments in bubonic plague. The object of the experiments is to determine whether the California species of fleas can transmit the disease through a common rat to a healthy person. Fleas and rats will be collected from the ships that come into San Francisco from oriental ports where plague is known to be prevalent.

CURED HAY FEVER AND SUMMER COLD.

A. J. Nushbaum, Batesville, Indiana, writes: "I have had a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I started using Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." For sale by F. J. Hill Drug Co., "The Never Substituted."

SUICIDE AND INSURANCE.

Topeka, Kan., Sept. 4.—The order to exhumate the body of Lucius H. Perkins of Lawrence, Kan., the manner of whose death has been a matter of controversy between certain life insurance companies and his heirs, was not made by Judge Smith McPherson of the federal court here today. At the morning session of the hearing Judge McPherson apparently made it plain he intended to issue the order in the afternoon, but late in the day he postponed the hearing until Sept. 14, to give the attorneys for the executors an opportunity to produce evidence as to what Perkins did with the poison which it is alleged he purchased on the day of his death.

TAPPS' SAILING DELAYED.

Misoula, Mont., Sept. 4.—Secy. of War Taft was notified today that the steamer Minnesota, upon which he is to sail for the east, will not leave Seattle until Sept. 12. She was scheduled to sail Sept. 10. The delay will bring him to Manila at least two days too late for him to preside at the first session of the new Philippine assembly, which convenes on Oct. 16. The Philippine commission probably will change the date to Oct. 20, instead of Oct. 15.

TELEGRAPH OPERATORS TO SEEK EMPLOYMENT.

New York, Sept. 4.—The World today says: From now on the striking telegraph operators will seek temporary employment in other trades. The 400 girls in this city will start this morning to get employment in dry goods stores. The summer vacations are over and they say they can easily find other employment as telephone operators. Twenty of the men obtained other employment yesterday and on Oct. 1, next, when the eight-hour law goes into effect, compelling railroads to make three shifts of eight hours each in 22 states, 600 men from New York and Chicago will become telegraphers on railroads.

RUNYAN'S CASE.

New York, Sept. 4.—Laura M. Carter, charged with having received the \$20,000 fortune of the Windsor, was today found guilty by a jury in her own trial and denied the principal part of the story told by Runyan. She was sentenced to the reformatory for 18 months. Runyan has given \$10,000 to a friend, and that she received the \$10,000 and went to the police to get the information which resulted in her arrest.

GET DIVORCE THAT HUSBAND MAY REMARRY.

New York, Sept. 4.—A woman more than twice as old as her husband, who had been married to him for 20 years, today secured a divorce from her husband, so that he may remarry. The woman is Mrs. Marie E. Harris, 42 years old, and her husband is 21 years old. The divorce was granted by Judge Charles B. Smith.

RAILROAD PRESIDENTS MEET.

New York, Sept. 4.—The presence here of an unusually large number of railroad presidents from all over the country gave rise to reports in the financial district today that a conference of the executive heads of various railroads was being held to discuss the 2-cent rate proposition and other questions affecting railroads now under public consideration. These reports were denied by railroad officials, who stated that a large number of board meetings were scheduled to be held at this time and that the presidents of the road were here to attend the meetings.

WIDOW PLACED UNDER ARREST

Developments in Case of Murder Of John J. Phillips Came Thick and Fast.

THE WOMAN HAS COLLAPSED.

She Reported Husband Had Been Shot By a Burglar—Mystery Surrounds Whole Affair.

Cleveland, Ohio, Sept. 4.—Developments in the investigation into the death of John J. Phillips, coal operator, broker, banker and club man, came thick and fast today and took a sensational turn late this afternoon when Mrs. Phillips, widow of the deceased, was taken into custody by Chief of Police Stamborger of the aristocratic suburb, East Cleveland. Mrs. Phillips has been in a highly nervous state since the tragedy early Monday morning, after which announcement was made that her husband had been shot and mortally wounded by a burglar. This afternoon she collapsed and was not able to attend the funeral, which was held before a justice of the peace, conducted the inquest. Asst. Prosecutor Mooney and others, he had taken the widow into custody, and that four deputies would guard her in her home till she recovered sufficiently to leave before a justice of the peace. The police are reticent in the case, and whether they really believe Mrs. Phillips culpable in the murder, or whether they merely believe that she can give facts concerning the tragedy which would solve the mystery surrounding it, does not appear at this time.

The inquest into the death of Phillips was resumed this morning by Deputy Coroner Houck. Dr. O. L. Richardson, the first witness, testified that he had not been summoned until 4 a. m., more than three hours after Phillips was shot. He had been called by telephone, Mrs. Phillips admitting him to the house. She exclaimed: "Oh, doctor, something dreadful has happened. Mr. Phillips has been shot by a burglar." He found the wounded man in bed. He called Dr. Rhodes. After they reached the house, Phillips asked them to leave the bedroom, as he wished to talk with his wife. Husband and wife were together alone for perhaps two minutes. He said there was a trace of blood on the stairway. He had been in the Phillips home today. The police ransacked the house in search for the revolver or other evidence in connection with the case, but so far as is known no revolver was found. Phillips' secretary reiterated today his belief that with the life insurance policies left by him the estate would pay all of Phillips' debts and possibly leave something for the family. The police, however, have so far not been found.

OF INTEREST TO MANY.

Foley's Kidney Cure will cure any case of kidney or bladder trouble that is beyond the reach of medicine. No medicine can do more. For sale by F. J. Hill Drug Co., "The Never Substituted."

NO ACTION FOR STATEHOOD FOR ARIZONA AND NEW MEX.

Phoenix, Ariz., Sept. 4.—The following letter was given out today from the office of Gov. Kibbey: "Dear Mr. Kibbey: Secy. Garfield has been to see me and has reported to me in full the condition of affairs as he found them in Arizona and New Mexico. He has reported to me the attitude of the people of each territory toward the question of joint statehood. His report makes it evident to me, as I was already prepared to believe, that the convictions of the people are settled and will not change. Under these circumstances, I shall take no further action looking toward joint statehood for the two territories. I am at liberty to publish this letter. Sincerely yours, THEODORE ROOSEVELT."

KING OF ANNAM ABDICATES IN FAVOR OF YOUNG SON.

Paris, Sept. 4.—A dispatch received here from the governor-general of Indo-China declares that Thach That, the deposed king of Annam, has abdicated in favor of his 8-year-old son, who now rules Annam with the aid of regents, consisting of the council of ministers. Thach That was deposed by the French residents of Annam and interned in his palace. This step on the part of the French authorities was taken only after a long series of atrocities committed by the king.

MORMON IMMIGRANT HELD.

San Francisco, Sept. 4.—Antonio Tari, a 16-year-old native girl from the Society Islands, who arrived here yesterday, on the steamer Marlboro, in charge of E. C. Hall, a Mormon elder, bound for Utah, has been detained by Immigration Inspector North. This morning she was subjected to an examination for trachoma, an eye disease which, if she is afflicted with, will cause her immediate deportation to her native land.

UNIVERSITY OF UTAH.

Instruction begins Monday, September 16th. Registration of students, September 13th and 14th. Entrance examinations, September 11th, 12th and 13th. College, engineering, medical, law, normal and preparatory courses are offered. SOME FIGURES AND COAL FACTS

Utah Shows Increase in Production and Value in 1906.

HAD MOST MEN EMPLOYED.

This State Has Vast Areas Awaiting Development—Obstacles to Work in Coalville District.

SPECIAL CORRESPONDENCE.

Washington, D. C., Sept. 2.—The coal production of Utah, which had shown a decreasing tendency in 1904 and 1905, felt as did the other Rocky Mountain states, the stimulating influence of the shortage created by the suspension of work during the spring of 1906 in the states of the Mississippi valley. Utah's output increased from 1,332,372 short tons, valued at \$1,750,130, in 1905, to 1,772,531 short tons, valued at \$2,403,381 in 1906, a gain of 440,159 short tons, or 23 per cent, in quantity, and of \$651,771 or 37.5 per cent in value. The percentage of increase in Utah was larger than in all the other coal-producing states. There was no material change in price, the average for 1906 being \$1.36 per short ton, against \$1.35 in 1905. The number of men employed in the coal mines of Utah in 1906 was 1572, against 1,361 in 1905, and 1,374 in 1904. The average working time in 1906 was 288 days, against 247 in 1905 and 294 in 1904. Utah enjoys another distinction in coal mining besides the largest percentage of increase for the year, and that is in having the highest average production for each man employed. In 1906 the average production for each man employed in Utah was 1,127.6 tons, the nearest approach to which was 1,027.7 tons in Wyoming. In 1905 Utah's average production per man was 1,027.7 tons, against 977.3 tons for Wyoming. The average daily production for each man in Utah in 1906 was 3.92, against 3.96 in 1905.

The coal mining industry of Utah was not in the least affected by the labor troubles in the spring of 1906, there having been no strikes or suspensions at any of the mines in the state. According to Mr. Gomer Thomas, state mine inspector, there was a total of 22 accidents in the mines of Utah in 1906, of these, seven resulted fatally; of the non-fatal accidents, 15 were serious and six were of a minor character; explosions of gas caused four deaths, and falls of roof in the mining chambers the other three. Seventeen of the injured men were killed by a roof fall, which were in rooms and nine in gangways and entries.

Like the other coal producing states of the Rocky Mountain region, the coal areas of Utah are widely distributed. The largest field and the most important in respect to thickness and development of the coals as far as known is that of the Book Cliffs, extending from the Colorado line westward to Castle Gate, near the center of the state, and thence southwestward in the eastern escarpment of the Wasatch plateau, to eastern Sevier county. Its length in the state is about 160 miles. Only the western half has been surveyed, but the total area will probably approximate about 1,600 square miles.

Next in importance as regards known occurrence and developments of coal is the Coalville or Weber River field, situated in Summit county, off the eastern flank of the Wasatch mountains. This field has an area of a few square miles of available coal. The protracted faulting and tilting of the strata including the coal beds are obstacles to the extensive development of the Coalville coals.

Other known coal areas are on Henry's Fork and Ashley Creek, in the northeastern part of the state; on Colob plateau, in the southwestern part and in the Henry's Mountains district. Workable coal beds are reported to occur at a number of places in the northern part of Uinta reservation in Uinta county, but little is known of the extent or quality of the coals in these areas. According to reports coming from the Colob and Uinta fields, it is possible that their combined areas may equal that of the Book Cliffs coals.

All of the really large mining properties are in the western part of the Book Cliffs field, at Sunnyside, Castle Gate, Winterquarters, and Clear Creek, in Carbon county, which produce 95 per cent of the coal mined in the state. These coals, with that at Coalville are bituminous in character and of fair grade. Some of them making good coke, over 550,000 tons of the total production in 1906 having been thus consumed.

During 1903 the United States geological survey made an investigation of the eastern part of the Book Cliffs field, from Grand River, Colorado, to Sunnyside, Utah, connecting at that point with the work which had been done during the previous year, and parties now in the field are extending the work.

An advance chapter from "Mineral Resources of the United States, Calendar Year 1906," on the production of coal in 1906, by E. W. Parker, chief statistician of the United States geological survey, will be ready for distribution by that bureau in September.

HEALTH IN THE CANAL ZONE.

The high wages paid make it a mighty temptation to our young workmen to join in the force of skilled workmen needed to construct the Panama Canal. Many are restrained, however, by the fear of fevers and malaria, and the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influences with Electric Bitters on hand, cure blood poison, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by Z. C. M. L. Drug Store, 112-114 So. Main Street, drugists, 50c.

CAN YOU SEE PERFECTLY? Do objects like large letters appear confused at a distance, or is it difficult to recognize your friends & block away. If so, your eyes need attention. J. H. KNICKERBOCKER, O. D., 175 N. 1st Street, St. Paul, Minn.

NOTICE OF ASSESSMENT No. 2. CHERRY CREEK MINING COMPANY. Principal place of business, Salt Lake City, Utah. Notice is hereby given that at a meeting of the Board of Directors held on the 31st day of June, 1907, an assessment of two (2) cents per share was levied on the unpaid stock of the corporation, payable immediately to H. F. McEwan, Secretary, at his office in the State Bank of Utah, Salt Lake City, Utah, and on account of an erroneous publication of the date of the delinquent sale of said stock, the directors at a meeting held on the 17th day of August, 1907, ordered that a notice of said assessment be re-published, making the same effective as if it had been published by the Secretary, at his office in the State Bank of Utah, Salt Lake City, Utah, and notice is hereby given that any stock on which this assessment may remain unpaid on the 31st day of September, 1907, shall be delinquent and advertised for sale at public auction, and unless payment is made in full before, will be sold at a public auction, to pay the cost of advertising and expenses of sale.
