

TO THE MERCHANTS OF UTAH!

A. T. GREEN,

Successor to

JAMES LINFORTH,**Commission Merchant,**

3 FRONT STREET, near Market.

SAN FRANCISCO, CAL.

MERCHANDISE and MACHINERY of all descriptions purchased or imported for UTAH TRADERS on the most favorable terms and at lowest current rates.

The near approach of the CENTRAL PACIFIC RAILROAD to the principal business points in Utah, affords an opportunity to merchants to quickly and frequently replenish their stocks at any season of the year.

Many articles of general consumption, both of foreign production and California manufacture, can be obtained at less cost from San Francisco than elsewhere.

California and Oregon-made Woolen Goods, Blankets, Cassimeres and Clothing, such as underwear and Hosiery, are superior to anything imported and intrinsically cheaper.

SAN FRANCISCO

Unquestionably

The Market for Utah!

And ahead of all others in the advantages offered.

Actual market quotations and all necessary information furnished to merchants on application.

Having been for the last sixteen years engaged in the Wholesale Trade of this city, and acquired a general knowledge of this Market, and the wants of the Country Merchants, through direct intercourse with them, I feel justified in saying that all orders for Goods, of any description, or any other business entrusted to my care will be attended to with satisfaction to my patrons.

Respectfully soliciting a continuance of the business, as heretofore confided to Mr. Linforth, I beg to refer (by permission) to the following gentlemen.

A. T. GREEN,

No. 3 FRONT STREET, SAN FRANCISCO.

**IRON
WARE**

WE ARE NOW MANUFACTURING, IN CONNECTION WITH THE

ST. LOUIS STAMPING COMPANY,

A new line of

TINNED and POLISHED WROUGHT IRON WARE, suitable alike for

HOUSEHOLD,**MINERS' OR CAMP USE.**

And take pleasure in calling the attention of Stove, Hardware and general dealers to the many desirable qualities of this NEW WARE, not only as an article of trade, but of UTILITY, combining as it does, NEATNESS, CONVENIENCE and LABOR SAVING in the care of utensils that are in every day use, in the most important of all HOUSEHOLD DEPARTMENTS. We desire and request every housekeeper to see our Tea Kettles, Sauce Pans, Dippers, Dish Pans, Wash Basins, Polished Stew and Fry Pans, as we are sure they have only to be seen to be appreciated.

Many of the articles are made entirely of one piece of wrought iron which, during the process of manufacture, receives several coatings of black tin; this leaves a surface, when finished, perfectly smooth, easily kept clean and entirely protected against rust. The cost is but little more than common tin ware, and every article will do ten times the service. The shape enables us to pack the various sizes in nests so as to occupy but little space, and being but a little heavier than tinware, the cost of transportation is very small. At present our assortment consists in part of

Tea Kettles, Camp Kettles,
Hess Pans, Dish Pans, Sauce Pans,
Dish Kettles, Fry Pans,
Fadles, Dippers, &c., &c.

We are now preparing a new Catalogue and Price List, and we believe Stove and Hardware Dealers will find it to their interest to send for a copy of each before purchasing elsewhere. Address

Excelsior Manufact'g Company,
ST. LOUIS, MO.

For the Deseret Evening News.

By Telegraph.**GENERAL.**

[Conclusion of letter from Gen. Lee to Gen. Rosecrans, the first part of which appeared in our last issue.] healed. So far as we are advised, the people of the South entertain no unfriendly feeling towards the government of the United States, but they complain that their rights, under the Constitution, are unjustly withheld from them in the administration thereof. Their idea that the Southern people were hostile to the negroes, and would oppress them were it in their power to do so is entirely unfounded. They have grown up in our midst, we have been accustomed from childhood to look upon them with kindness, and the change in the relations of the two races has wrought no change in our feelings towards them. They still constitute an important part of our laboring population, and without their labor the lands of the South would be comparatively unproductive; while without the employment which Southern agriculture affords they would be destitute of the means to live, and would become paupers, and be dependent on public bounty. Self interest, even, if no higher motive, would, therefore, prompt the whites of the South to extend to the negroes care and protection. The important fact that the two races are, under existing circumstances, necessary to each other, is gradually becoming apparent to both, and we believe that, but for the influences excited to stir up the passions of the negroes, the relation of the two races would soon adjust themselves on a basis of mutual kindness and advantage. It is true that the people of the South, together with the people of the North and West are, for obvious reasons, opposed to any system of laws which would place the political power of the country in the hands of the negro race; but this opposition springs from no feeling of enmity, but from deep-seated conviction that, at present, the negroes have not the intelligence nor the other qualities necessary to make them depositories of political power, and they would inevitably become the victims of demagogues who, for selfish purposes, would mislead them to the serious injury of the public.

The great want of the South is peace. The people earnestly desire tranquility and restoration to the Union, and deprecate disorder and excitement as the most serious obstacles to their prosperity. They ask for the restoration of their rights under the constitution; and they desire relief from oppression and misrule. Above all they would appeal to their countrymen, for the re-establishment in the southern States, of that which has justly been regarded as the birth right of every American—the right of self government. Establish that on a firm basis, and we can safely promise on behalf of the southern people, that they will faithfully obey the Constitution and laws of the United States, treat the negroes with kindness and humanity, and fulfill every duty incumbent on peaceful citizens, loyal to the constitution of their country.

New York.—The Herald has a long account of an alleged discovery of a new method of electrical subaqueous communication, by which the discoverer claims that he can communicate through the longest distances under water, without cable or other conductor, using the water alone as the conducting medium. He proposes to establish communication by this process within three months between Manhattan Point and Spain. He says it can be done for \$100,000. Electricians here express incredulity at this statement, though the inventor declares that he has carried on a conversation by this process 130 miles through the waters of Lake Ontario.

New York.—It is stated that a powerful and rich company has been formed in London, with Cyrus W. Field, controlling man, to form a continuous line of telegraph from England to China by way of the Mediterranean, Egypt and India. This company has purchased the cable line from Malta to Alexandria, and are about to re-lay it in deeper water.

San Francisco, 9.—General Halleck furnishes reliable information with regard to the abuses existing in Alaska, which have been made the subject of a special investigation during his recent visit to that Territory. Much of the dissatisfaction among the natives arises from the fact that the old fur company carried on a sort of patriarchal government, taking charge of everybody and everything in the settlements. Under the new regime the people are thrown
