It is really surprising to the traveler, MISSIONARY LABORS - OPPOSI- not only in the United States but abroad, to see how extensive has become the use, or rather the abuse of that narcotic plant-tobacco. It is not limited to any sphere of society. From the Irish navvy who whiffs its noxious vapors through a short stemmed, and thickly coated clay pipe, to the nobleman who wafts a befogging stream of blue smoke as he sucks his Havannah cigar, tobacco is found to be the universal resort for consolation. By the delicate and fastidious dude, it is used as an "appetizer." by the dilapidated dyspeptic it is taken to stop "a craving in the stomach." By the disconsolate was then with Elder Miner Wilcox, of it is regarded as a "comfort." By the joyful as a good vent for high spirits. This then is the private sentiment of one of the leading physicians of the age. Now who among our young men, would like to think it possible that he would weaken his own intellect so as to unfit him for position, for place, or power, or sef ulness in any sphere? Yet hundreds are doing that very thing by this accursed practice. The adviceof the writer to all who use tobacco, and especially the youth of Zion, is,—
