

solid for the democracy for all time to come. Our people would rather be placed in their graves than again be subjected or affiliated with radicalism in any shape." This, he said, "is a thing I very much regret. Sectionalism, in any form is deplorable." Commenting further on the hostility of the South to republicanism, Hill said, "We like the President. He has expressed kindly feelings towards us, and followed them with kindly deeds, and our people entertain towards him and his policy nothing but the most cordial feelings. I have been credited with enmity to Hayes. There is not a word of truth for its basis."

ST. LOUIS, 3.—A Fort Smith special says: A tramp, named Holland, shot a traveler in Little Rock County, a few days ago. Pursuit was made, and the murderer captured and hung.

CHICAGO, 3.—The corner in wheat develops a very slow advance today, being less than a cent over yesterday's close. James K. Keene, of California is here, but refuses to state his plans regarding the deal, and grain operators are entirely in the dark. Reporters have failed to draw from any of the persons supposed to be interested in the corner even the least hint of what the manipulators will do. It is not probable that Keene, seeing the heavy receipts undiminished, is considering the propriety of withdrawing for the present, as it is evident that much more money will be required to hold the incoming product than was at first calculated. The receipts to-day were 238,000 and the shipments 70,000. The average daily receipts have been over 200,000 bushels every five days, and if the receipt keep up, will make the receipts for December 6,000,000 bushels. There is as yet, however, no sign of weakening on the "bull" side, and a stampede could easily be made which would result in a material advance.

WASHINGTON, 3.—A member of the Potter investigating committee stated here, to-day, that it was the intention of the sub-committee at New Orleans to continue the investigation there, which was terminated by the yellow fever.

Senator Sargent was not able to attend the session of the Senate to-day, but sent word to his friends that he was better and expected to be out before the end of the week.

The House committee on elections, to-day, decided to receive additional testimony in the contested election cases of Harriolson vs. Shelly of Alabama, and Frost vs. Metcalf of Missouri, Shelly and Frost being the sitting members.

The first of the Pacific railroad cases of the Union Pacific company against the United States was argued to-day, in the Supreme Court, together with similar cases set for argument on the 12th inst. Among the questions raised is one as to what legally constitutes the net earnings of a railway company.

The bill introduced, to-day, by Representative Phillips, provides that the redemption of notes in coin shall be suspended whenever the coin in the treasury shall be reduced to \$50,000,000, and that when the amount of coin in the treasury exceeds \$100,000,000, the surplus shall be used for the redemption of bonds bearing the highest rate of interest that are subject to call.

A joint resolution was introduced to-day by Representative Springer to request the President to give notice to the government of Germany that the treaty of February 22, 1868, known as the Bancroft treaty, will be terminated by this government at the end of twelve months, after giving notice. The objectionable part of the treaty is the clause which provides, with reference to naturalization, that the intent not to return to one's adopted country may be held to exist when the person naturalized in one country resides more than two years in the other country. If the Bancroft treaty be remitted the rights of the citizens of either country residing in the other will be determined by the treaty of 1828, which recognizes the equal rights of native and naturalized citizens to sojourn in the territories of each government.

Nearly a dozen bills were introduced into the House of Representatives, to-day, proposing the conversion of trade dollars into silver dollars by coinage and reduction of the weight to 412½ grains, the two coins meanwhile to be interchangeable at the United States Treasury. Another bill was proposed to make subsidiary silver coins full legal

tenders, and still another, introduced by Fort, of Illinois, is intended to stop the further coinage of trade dollars. Fort strenuously endeavored to obtain the reference of his bill to the banking and currency committee, but Alexander H. Stephens insisted that it, and all others concerning the trade dollar, should be sent to the committee on coinage, weights and measures, of which he (Stephens) is chairman, and carried his point by an overwhelming majority. Fort's motion receiving only fourteen votes. This reference is considered fatal to the measure, for Stephen's committee at the last session reported a bill providing for the coining of all trade dollars up to the maximum. There does not seem to be any probability whatever of the enactment of a bill this session to make the trade dollar and standard silver dollar equal in nominal value, either by leveling the one up or the other down. The conflicting propositions are likely to kill each other in both houses.

The President sent the following nominations to the Senate to-day: New York—A. Merritt, collector of customs; Charles R. Graham, surveyor of customs; Silas W. Burt, naval officer; Thomas Hillhouse, United States assistant treasurer. United States consuls—Andrew Cohen of Pennsylvania, at Pernambuco; Henry Dithmar of New York, at Breslau; G. W. Fish, of Michigan, at Tunis; John L. Frisbee of Michigan, at Rio Grande, Brazil; Asa C. Prindle of New York, at Para; Henry Ruggles of Connecticut, at Malta; Eugene Schuyler of New York, at Birmingham; Wm. Thompson of the District of Columbia, at Southampton; John C. White of Illinois, secretary of legation at Brazil; S. Newton Pittes of Pennsylvania, minister resident and consul general of Bolivia; G. Harris Heap of Pennsylvania, consul general at Constantinople; Russell B. Harrison of Pennsylvania, to be assayer in charge of the office in Helena; John S. Mosby, consul at Hong Kong; Henry S. Foote of Mississippi, superintendent of the New Orleans mint; Harrison Gray Otis of California, collector of customs, San Diego; Isiah Hocker of Oregon, collector of customs, southern district of Oregon.

The United States minister to Japan reports to the Department of State that the value of imports into that country during the month of July last was \$2,778,765, while the exports of native goods for the same time amounted to \$1,975,511, showing a balance of trade against the country of \$803,254. The export of gold and silver coinage during the same month amounted to \$478,000 being an excess over imports of \$442,000.

TAKE NOTICE.

LENZ'S HELVETIAN SALVE

Reduced to 25 cts. per box.

Wholesale price \$1.80 per dozen boxes.

A HOME PRODUCTION.

G. W. CROCHERON, Sole Agent, Salt Lake City, Utah, opposite Kimball Block. Post Office box 419.

Half a Block South of Theatre.

OLD, TRIED, AND TRUE.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST

This Liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 35 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast.

To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

THE ORIGINAL & ONLY GENUINE "Vibrator" Threshers,

WITH IMPROVED MOUNTED HORSE POWERS, And Steam Thresher Engines, Made only by

NICHOLS, SHEPARD & CO., BATTLE CREEK, MICH.

THE Matchless Grain-Saving, Time-Saving, and Money-Saving Threshers of this day and generation. Beyond all Rivalry for Rapid Work, Perfect Cleaning, and for Saving Grain from Wastage.

GRAIN Raisers will not Submit to the enormous wastage of Grain & the inferior work done by the other machines, when once posted on the difference.
