—— At Blackfoot, Montana, recently, a man named Harris married a Chinawoman. The citizens of the town, remarks the Helena *Herald*, are greatly incensed at the base outrage perpetrated in their midst, and threaten the offender against public morals and decency with a coat of tar and feathers in the event of his return to that vicinity.

MUSEUM.—No extra prices. All the sights, including the Rocky Mountain Wild Animals, collecting for the Zoological Gardens at Philadelphia, 50c. Visitors to the Menagerie only 25c.

—— A Merced County (Cal.) farmer has raised a squash this season weighing exactly 127 pounds. It is seven feet in circumference.

A FULL LINE of Ladies' and Misses' Furs, purchased at panic prices. DUNFORD & SONS.

—— The Denver (Colorado) *Tribune* says a lumber dealer discovered in his yard, a short time since, a sack containing a human skull labeled "Slade, the Montana Murderer." The skull created a great deal of excitement, and a number of Slade's old chums examined it, and from peculiarities about the skull, pronounced it the veritable Slade's.

DUNFORD & SONS.

—— A perplexed editor wants the St. Louis *Republican*, which is Democratic, to swap names with the *Democrat*, which is Republican. He is as much bothered as the Dutchman with his oxen—one was black all over with a white face, and the other was white all over, with a black face, and he couldn't tell t'other from which.

CHEAP COAL.—Wasatch Weber Coal, $8 per ton at the Depot. Orders received at Globe Bakery, or at office, south of U. C. Depot.

—— Every hour a child lives a quiet, tranquil, joyous life, of such a sort as kittens live on hearths, squirrels in sunshine, is just so much investment in strength and steadiness and growth of the nervous system. Every hour that a child lives a life of excited brain working, either in a school room or in a ball room, is just so much taken away from the reserved force which enables the nerves to triumph over the diseases of its later life.

READ estray notice, American Fork district.

Message at the W. U. Telegraph office for John A. Irvin.

Large Mirror.—Mr. C.C. Assmussen has had a fine large mirror put up in his store. It is seven feet two inches by five feet six inches. He says it is the largest in the Territory.

Church's Musical Visitor for December has reached us. As usual, it comes laden with choice musical articles, and nine full sized pages of excellent vocal and instrumental music. It is published by J. Church & Co., Cincinnati, Ohio. Price $1.50 per annum.

Information Wanted of the whereabouts of Moses Scott, formerly of Jarrow, Newcastle-on-Tyne. Address: Richard Scott, Race Course, New Whittington Moor, Near Chesterfield, Derbyshire, England.—*Mill, Star*, November 11th.

Good for Burns.—The following, which we find in an exchange, is simple and if true very useful—

"Apply a layer of common salt and saturate it with laudanum. Hold it in position a few hours with a simple wrapper. The smarting ceases almost immediately, and the sore gets well with incredible rapidity."

Slacking.—Yesterday a couple of plasterers, thinking probably that they had swallowed a quantity of lime during the labors of the season, undertook to slack it by pouring a large amount of liquid down their throats. This raised the steam and made them feel lively, and they indulged in a fight last night. They were fined $10 each.

Quarrying Stopped. — Yesterday the hands who had been employed in quarrying rock for the Temple, in Big Cottonwood, came into town, having been obliged to suspend their labors on account of the severity of the weather. This work will not be resumed till next season. A very large amount of rock has been taken out during the past six months, the average quantity delivered at the Temple Block being from three to four car loads a day.

Mail Complaints.—Two subscribers from West Jordan Ward complain of the non-arrival of the DESERET NEWS and *Juvenile Instructor*. They are satisfied the fault is not with the post office, but in the transfer from Sandy to West Jordan.

The subscribers feel very much annoyed over the matter. We trust that those whose business it is to see to the rectifying of such irregularities will attend to this matter.

Cache Valley. — Bishop Merrill, of Richmond, Cache County, is in town. We learn from him that the grading of the Utah Northern Railroad is now completed to Franklin, with the exception of a fill, at Spring Creek, which will be finished, however, in a few days. The ties have all been arranged for and are being supplied rapidly. Mr. Charles Nibley is now in the East, making arrangements, in behalf of the company, for the requisite amount of iron to lay the track to Franklin.

Cache Valley.—A correspondent writes from Logan, Cache Valley, Nov. 24—

"I was shown to-day some first-class brushes, which were manufactured here in Logan by brother Sutton Isaacks, who does the whole of the work himself, including the preparation of the hair.

"During the past week the mails have again been very irregular. Yesterday (Sunday) morning the latest Salt Lake papers that were in Logan, were Thursday's date. The Ogden *Junction* for Saturday, however, was to hand.

"Last night, I understand, numbers of the letters and papers which came in the Logan bag, should have been sent to Salt Lake City; others to Ogden, some to San Francisco; others again were addressed to various parts of the States, and one or two to Great Britain. So it is not surprising if people complain that it takes a month for a letter to travel from Ogden to Salt Lake City. The other day the editor of the Corinne *Reporter* observed a parcel of Salt Lake papers that came in by train from San Francisco. Query—'Are the postal authorities powerless to check such gross neglect.' I have just been shown a letter that arrived last evening (23d inst.) from Bear Lake, the envelope bearing date November 15."

Fires.—The winter season is generally the time when extensive fires break out and consume untold millions of dollars' worth of property, as well as destroying many human lives in the large cities of the world, and especially in America. Preventive measures in this direction, as well as measures for the extinguishing of fires, is a subject that might receive some profitable consideration in this growing city. There is a fire ordinance which is very excellent so far as it goes, but it seems to scarcely cover sufficient ground. If an ordinance forbidding the building of edifices in certain localities defined by the limits of an established fire district would at present be inexpedient because that it would probably be inoperative, surely there might be a municipal law providing and requiring that every building within certain limits be provided with suitable flues and chimneys, and that the sticking of stove pipes through roofs and through the sides of wooden and other structures be positively forbidden under heavy penalties. The safety of the lives and property of a large number of citizens appears to require such a measure.

A better means of giving alarm in cases of fire would also be a good thing. The stormy weather of winter requires that the apertures around the City Hall tower should be closed, and, should the breaking out of a fire make the ringing of the bell necessary the sound would be so impeded that it would travel but a limited distance beyond the bell. Of course these apertures could be opened, but a time of fire is a time of great emergency, when every moment is precious.

We understand that several improvements in the apparatus of the fire department have lately been made, among which is the providing of one kind of coupling for all of the hose, so that it could be used to its whole length should it ever become necessary.

Indecorous.—Some people have a very bad habit of behaving themselves indecorously and unceremoniously in meetings of public worship.

For instance, there are those who attend public worship regularly, and as regularly do they enter the building after the services have commenced. The only reason that suggests itself for their doing so is, that they are probably fond of being looked at, or being made the centre of attraction, for they are a point to which all eyes gravitate as they enter. It may, however, be a habit in those persons to procrastinate in all the affairs of life, as well as going to meeting.

People crowding into meeting after the services have commenced has a bad effect in several ways; it disturbs the quiet and sense of rest that should ordinarily pervade worshipping assemblies, besides disturbing the person officiating as preacher or in any other religious capacity at the time.

There are those again who must look at everybody that comes in late, if they have even to put themselves to the inconvenience of twisting their necks around to do it, which also serves to distract the attention from the object for which worshipping assemblies meet.

The whisperers are a serious inconvenience to those who are anxious to listen to and be benefitted by the services. Whispering under such circumstances is very rude, being a decided breach of good manners that is positively inexcusable in grown up people; for children, of course, especially those in whom there is an exuberance of animal spirits, some allowance can be made in the matter.

Still worse than the whisperers are those who, during the service, write on slips of paper and hand them round to those sitting near them. But what of those who get up and flounce out of the meeting house before the services are concluded?

When people go to a meeting of public worship they should consider the object for which such gatherings are convened, and then seek to carry it out.

The same matters will apply, in a great measure, to public meetings of any other description. A little more courtesy and devotional feeling would put the matter right so far as religious assemblies are concerned.

Landed.—A letter has been received by the family of Elder John Squires, from him, stating that himself and fellow missionaries arrived at Liverpool on November 12th, at half-past 7 in the morning, the voyage from New York having lasted ten and a half days. The journey across the ocean was pleasant and prosperous. Some of the brethren were affected with seasickness, while others were well the whole of the way. Elder Squires was among the fortunate ones in this respect.

The missionaries were warmly welcomed by Elders L. D. Herrick, J. C. Graham and Geo. C. Gibbs. Elder Squires purposed leaving Liverpool for London the next morning, Nov. 13th. So long as he traveled in company with his fellow missionaries he scarcely realized that he was away from home, but now that they were beginning to scatter to different parts he commenced to feel that he was. He states that he felt well in health and spirits and determined to do all the good he could and carry out faithfully the labors of his mission.

Where is Frederic Renner?—He is a native of Nuremberg, Bavaria, aged thirty years, middle height, inclining to corpulency; has blonde hair and blue eyes, was engaged in mining operations in Montana, Colorado, and Utah, and has been lost trace of for the last year. Any information will be gratefully received by Mrs. A. Treutler, of St. Louis, or Mrs. Clara Folkmann, of Denver, Col.

Mrs. Folkman says F. Renner left St. Louis, Mo., to go to Montana, two years ago. He left that Territory for Colorado, where he also engaged in mining, and was last seen there in October, 1872, at the Denver Fair. Thence he came to Utah, where he is said to have been at Star Line station and this (Salt Lake) City, since when he has not been heard of. Mrs. Treutler and his other relatives are in the utmost anxiety concerning him, and his presence is greatly needed.

Received.—The *Aldine* for December contains "Christmas in the Fields," "Old Friends," "The Ruins," "Moonlight Scene," "God so Loved the World," "Summer Fancies," "A Trusty Friend," "Autumn Fruits," "A Polite Beggar," "The Love Token," "The Little Brother," "The Lottery Ticket," "Training Young Terriers," "Barnyard Petitioners," "Haidee," "Little Red Riding Hood" series, "Our Household Pets" series, "Feline Felicity," "A Catastrophe," "A Narrow Escape." This is the concluding number of the volume, and is a most beautiful specimen of the art delineative and preservative. Mr. Harrington, of the *Herald* Office, is the agent for the *Aldine* in this City.

Utah Mining Journal for Nov. 22, contains "American Fork Canyon," "The Cottonwood Mines," "The San Juan Mines," "Real Estate Improvements," Fire Clay," "Outlook for the Winter," "Rock-drilling Machinery," "Government Schools of Mining," etc.

Vick's Floral Guide for 1874, contains 133 tinted pages of beautifully printed, profusely illustrated matter, interesting to all cultivators of the soil, also a beautiful colored plate of the "Double Portulaca." This is one of the most beautiful and useful of guides and catalogues of the kind, and is now published quarterly by James Vick, Rochester, N. Y.

Theatre.—The inclement weather did not help to fill the Theatre last night, but those who attended had the pleasure of enjoying their fill of hearty laughter at the humorsome eccentricities of Mr. Shiel Barry, in the character of "Thady," in the drama of "Esker Dhu," which was well cast and well played, and highly appreciated by those who were there.

This drama will be repeated this evening, and will be followed by the Irish extravaganza of the "Happy Man," in which Mr. Barry will appear as "Paddy Murphy."

"Faugh A'Ballagh" to-morrow.

Benefit of Mr. Barry on Friday.

Matinee on Saturday.

—— As reviser on the Western North Carolina Railroad United to a crowd of settlers, who had gathered to see the first train of cars come in. "Put down your axe-helves!" [yells some fun-loving wit in the crowd]. "The watermelon vines forward all!" once.

[REPUBLISHED BY ORDER OF THE CITY COUNCIL.]

AN ORDINANCE

For the Prevention of Fires.

SEC. 1. Be it ordained by the City Council of Great Salt Lake City, that no person shall set off any fireworks; set up any stove, furnace or other apparatus in which fire is to be kept; or carry fire in the streets, without observing the following regulations, under penalty of not less than one nor more than one hundred dollars for each offence.

SEC. 2. No person shall be allowed within the limits of the City to discharge or set off any rocket, squib, cracker or other fireworks without the consent of the Mayor, specifiying the time when and the place where the same may be done.

SEC. 3. No stove or other apparatus in which fire is to be kept shall be set nearer than eight inches from the floor except such as have no fireplace on the lower plate, such can be set within four inches of the floor on which they stand; and the top and side plates thereof shall not be set nearer than twelve inches off any wood partition, or other woodwork without protecting the same effectually from fire, by a metal lie, or other covering; and no pipe belonging thereto shall be put up, unless it shall be conducted into a chimney made of brick, stone or other incombustible material, or if passing through the woodwork or roof of a building, there shall be a space of not less than four inches between the pipe and the wood, and the pipe shall be kept from nearer contact with the wood, by some safe material, and shall project four feet above or beyond the roof or wood work. *Provided*, the Mayor or any Alderman shall deem the above to be equally safe, then to be certified under his hand.

SEC. 4. No person shall be allowed to carry or cause to be carried in any street, thoroughfare or lot of this city any burning coals or brand of fire, unless the same be in a covered vessel.

SEC. 6. The owner or occupant of any house, shop or other building shall cause the flues or chimneys thereof to be swept or burnt out as often as may be required to keep the same clean. In case of burning out flues, it shall be done in the day time, and only when the roof and other surrounding combustibles are wet. Any person suffering the flues of any house occupied by him or her to become foul and take fire, or be fired at any other time than herein specified, shall be liable to the penalties prescribed in the first section of this ordinance.

SEC. 7. It shall be the duty of the Inspector of Buildings to examine carefully, under the direction of the City Council, any cause from which immediate danger of fire may be apprehended, and remove or abate, with the consent of the Mayor or any Alderman (in case of neglect or refusal of the owner or occupant) any cause from which danger may be apprehended, and to cause all buildings, chimneys, stoves, pipes, hearths, ovens, boilers, ash houses, and other apparatus used in any building which shall be found in such condition as to be considered unsafe, to be without delay, at the expense of the owner or occupant thereof, put in such condition as not to be dangerous in causing or promoting fires.

SEC. 8. If any person shall obstruct or hinder any person under the direction of the Inspector of Buildings aforesaid in the performance of his duty, under the preceding section, such person for every such offense shall forfeit and pay the penalty of twenty-five dollars.

Passed January 7th, 1862.
