MINING, BUSINESS AND STOCKS

DALY JUDGE WAS A BIG FEATURE.

Park City Stock Cut Important Figure in Sales of Mining Exchange.

MAY DAY WEAKENED AGAIN.

New York Remained Firm—Sales of Naildriver—The Closing Quotations.

The forenoon sales on the floor of the Salt Lake Stock & Mining exchange amounted to $27,887.50, representing the value of the 22,025 shares of stocks transferred. Nearly 1,200 shares of Daly Judge were brought out, the stock selling as high as $12.10 and as low as $12, the latter being the closing sale price. There is constant inquiry for this stock and conditions at the mine justify a much higher figure than it is now selling at. At least that is the consensus of opinion among those who are in touch with physical conditions as they exist at the mine. The ore body on the 1,500-foot level has been opened, according to report from the mine today, to the length of 235 feet and the end of the shoot is not yet in sight. May Day was not in as good tone today and the stock sold considerably under yesterday's figures. Beck Tunnel held its own, while Columbus Con. was brought out at $7.30. New York kept above 30 cents, but under 31 cents, and was numbered among the most active traders of the day. The announcement that work is to be resumed at the Naildriver created a demand for that stock and offerings made at 22½ and 22 cents were accepted. Black Jack found a market at 75 cents, while Lower Mammoth went at 37¼@38 cents.

SOME NEVADA DEALS.

The Goldfield News Gives a Terse Account of What is Going On.

The Goldfield News tells of a few deals now being engineered in Nevada in this brief way:

Sale of the Rush group at Bullfrog for $500,000. Gates had taken the property under bond and is now understood to have turned it, being represented in the deal by Dr. Lyman.

Posey, Brevoort and Salt Lake people are trying to effect a merger of the Manhattan Consolidated, Pine Nut and Mizpah. A holding company will be formed.

M. M. Johnson, representing Samuel Newhouse, has been in Manhattan the past few days, arranging for a merger of the Stray Dog, Jumping Jack and Indian Camp.

The Manhattan Dexter company is the owenr of 20 claims, chief among which is the Union No. 9. It is understood the Dexter company is to organize eight different companies on 19 claims, and that each stockholder will get a dividend of one share in each company for every share now held by him in the Dexter company. The original company will retain the Union No. 9.

Malcolm Macdonald has made an offer to consolidate the Jumbo and Red Top and turn it to Schwab.

JESSE KNIGHT RETIRES.

Leaves Management of Beck Tunnel To His Son.

At a meeting of the directors of the Beck Tunnel Con. Mining company in Provo yesterday, the resignation of Jesse Knight as manager, was accepted, and J. William Knight, his son, was chosen to succeed him. The latter recently returned from Canada to take charge of some of his father's mining affairs.

"Uncle Jesse," as he is often called, is going to take things easier than he has in the past, and no one doubts but that he is entitled to a well earned vacation, after being so many years in the harness, and achieving so many triumphs.

BINGHAM CENTRAL BONDS.

Expected They Will be Taken up by Purchasers Today.

It was stated this morning by an official of the Bingham Central Mining company that the $200,000 worth of bonds would likely be taken up by the purchasers during the day and that the money, which they represent as security, would thereupon be placed to the credit of the company.

LITTLE BELL ORE.

First Lot Shipped From Park City Mine Sold in Today's Market.

The first lot of ore to arrive from the Little Bell mine at Park City was sold in today's market on controls showing .05 of an ounce in gold, 69 ounces in silver, 22 per cent lead, 2.3 per cent copper and 9 per cent zinc. The lot consisted of 205,540 pounds.

Fifty tons will comprise the second shipment, which is now on the road to the smelters.

GUGGENHEIMS AT ELY.

Boston Comment on Mine Development and Smelter Plans.

In commenting on the Guggenheim control of the properties of the Nevada Consolidated at Ely, a Boston paper, says:

Since securing control of the Nevada Consolidated company the Guggenheim interests have materially changed the plans of the old management as to the erection of a smelting and reduction plant.

It was originally planned by the old management to build a 1,000-ton smelter at Ely, but the development of the property brought such a large amount of ore in sight, now estimated at 25,000,000 tons, that the original plans were enlarged upon and new plans completed for the erection of a 2,500-ton plant.

The Guggenheim interests, however, are planning the development of the Ely camp through the Nevada Consolidated and the Cumberland-Ely properties upon a still larger scale, and their engineers are working on plans for the erection of a 4,000-ton plant, which will permit the reduction of 1,500,000 tons of ore per annum.

It is estimated by the Guggenheim engineers that in the treatment of 1,500,000 tons of ore per annum the Nevada Consolidated company will be able to show net earnings of $3,000,000 at the minimum and $5,000,000 at the maximum, according to the price of copper, figuring upon a refined copper output of 60,000,000 pounds. There are 1,300,000 shares outstanding of Nevada Consolidated stock, which, at $18 per share, represents a selling price of $23,400,000 for the property.

The 150-mile railroad into Ely, which is owned by the Nevada Consolidated company, will not be completed until well into the summer, and it will not be possible to start construction work until the railroad is in operation.

NEW MILL FOR FAY, NEV., MINES.

Directors of Jennie Mining Company Made This Decision at Last Night's Meeting.

TO TREAT THIRTY TONS DAILY.

Nevada Camp Sure to Have a Boom—Snowflake Dispute Has Been Settled.

At a meeting of the directors of the Jennie Mining company held in this city last night, it was decided to erect a mill of 30 tons daily capacity for the property of that company, which is located at Fay, Nev. The principal owners of the property are Charles A. Short and H. R. Elliott.

Mr. Elliott returned yesterday from a trip east accompanied by a number of investors from Aurora, Illinois, who went south last night with Mr. Short.

Messrs. Short and Elliott are enthusiastic over recent developments in the southern camp and says it is almost certain to follow the wake of other Nevada camps and have a lively boom—one not founded on "hot air" either.

The dispute between Short & Elliott and G. Pray Smith, which occupied the attention of the courts for a time, over the ownership of the Snowflake property has been settled and all have agreed to pull together for the development and up-building of the camp.

The Jennie and Uvada properties have been securely financed and nothing now stands in the way of an active development and production campaign.

MORE VELVET MONEY.

Grand Central and Victoria Report With Increased Dividends.

(Special to the "News.")

Provo, April 10.—The directors of the Grand Central and Victoria mining companies held meetings in this city today. The result was the posting of dividends for distribution among shareholders of each corporation.

Those of the Grand Central are to receive six cents a share, or $15,000; which is a cent a share more than was received last month. The Victoria shareholders are to get 5 cents a share, or $12,500, which is one cent a share more than the company paid out at the same time in March.

The dividends are payable on the 15th to all shareholders of record on the 12th inst.

The statement was made by an official that the condition of both mines is favorable and that it is expected each will be able to maintain the dividend basis established today.

AT THE NEW ENGLAND.

Work of Building New Boardinghouse In Progress.

Henry M. Adkinson, manager of the New England Gold & Copper company, is in from the Bingham property of that corporation today and reports that development work is being pushed ahead in the usual manner and that the mill continues to turn out the usual concentrate product.

The construction of the boarding house is also in progress. The building will rest on a foundation 24x50 feet and will be two stories high. The roads in the upper part of the camp, Mr. Adkinson states, are in a frightful shape and teamsters hesitate about going up, or down, the mountain with heavy loads. Of course this has been a drawback to carrying out the improvement campaign outlined sometime ago and will delay some of the installation of the new compressor plant. The fact has been emphasized more than ever before that the company needs a tramway and it is not unlikely that one will be built during the present year.

The mine and mill are conveniently located in this respect, being not to exceed 1,000 feet from the tracks of the Copper Belt railroad near the Boston Con. loading station.

NEW YORK MEETING.

Directors Did Not Levy Assessment at One Held Last Night.

At the meeting of directors of the New York Bonanza Mining company held last night it was decided that it would not be necessary to levy any more assessments, not for a while, at least. During the past few days the management has moved 40 tons of ore to the Macintosh sampler at Park City to be sampled and forwarded to to the Salt Lake smelters.

President McGill says the ore is the best that ever came from the property, and should bring more than $100 to the ton.

The rich streak found recently on the 700 level is still being followed, and shows a width of from 14 to 18 inches.

J. A. Ingolls, superintendent of the Majestic mines in Beaver county, is up from camp on a brief business trip.

Negotiations are still pending looking towards a consolidation of the Comstock and California mines at Park City.

Manager G. D. B. Turner of the West Quincy mine at Park City, is expected to arrive from Los Angeles this afternoon.

George H. Robinson, of the Tintic Minig and Development and kindred companies, departed this afternoon for New York.

Secretary and Treasurer Henry Catrow of the Ohio Copper company returned from a two-days' trip to Bingham this morning.

Assistant Manager H. H. Green of the Bingham Consolidated Mining & Smelting company is at the Eagle & Blue Bell mine in Tintic today.

D. H. Peery has returned from a trip to Nevada in order to be present at the annual meeting of shareholders of the Montgomery Mining & Milling company today.

A. J. Bettles, of the Newhouse staff, departed for Beaver county last night to witness the try-out of the Waterbury leaching plant, recently constructed at Newhouse.

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrate, $20,000; base bullion, $32,000; gold bullion, $7,500.

William G. Sharp today assumed the duties of president of the United States Smelting, Refining & Mining company. The new president is expected to reach Salt Lake next Sunday.

The management of the Boston Con. Mining company yesterday placed an order for 50 carloads of Portland cement for use in the construction of its new 5,000-ton mill at Garfield.

The dividend declared by the directors of the Uncle Sam Con. Mining company will be paid on the 20th inst. to all stockholders of record on the 13th inst. The amount is $5,000.

The officials of the May Day Mining company who spent last Sunday in making an inspection of the Tintic property of that corporation have returned well pleased with the outlook for the future.

Judge Morse has rendered a decree in favor of plaintiff in the case of Worthen against the Peruvian Mining company, quieting his title to certain mining claims located in the Little Cottonwood district.

The management of the Scranton mine in the Tintic district expects to reach the market with ore this week. The roads are drying up rapidly, and if the good weather continues for another week they will be in first class condition.

The Bingham Con. Mining & Smelting company has issued a chattel mortgage in favor of the Federal Trust company for the purpose of covering the $1,000,000 worth of bonds, due in April, 1914. The instrument has been made to record in Salt Lake county.

The annual meeting of the shareholders of the Bingham Consolidated Mining and Smelting company is scheduled for the 18th inst. It is expected that at this gathering the public will become advised as to what part F. Augustus Heinze will play in the future management of the mines and smelters of that corporation.

STOCKS REFUSE TO RALLY STRONG

Opening Prices Were a Little Better With Dealings on a Moderate Scale.

EARLY GAINS WERE WIPED OUT

This Was Caused by a General Selling Movement Which Began About Noon.

New York, April 10.—Opening prices in the stock market today started towards recovery in the closing weakness of yesterday, helped by higher prices in London this morning. There were only a few exceptions to the advances, which were generally small and dealings were on a moderate scale. Nothern Pacific fell a point.

Room traders operating on the long side were encouraged by the stability of prices shown at the opening and their purchases carried the list considerably higher. Advances that were made of a point in Reading, Northern Pacific, Amalgamated Copper, Locomotive, Sugar and International Pump, were not long retained, however, the market reacting to yesterday's closing level, when business in the money market reached 20 per cent.

Reading was bought at an advance of 1½ with good effect on the general tone. Great Northern preferred gained 3¾. Consolidated Gas 2, Northern Pacific 1⅝ and Union Pacific, D. & H., Brooklyn Transit, Colorado Fuel, National Lead and People's Gas a point. International Paper preferred fell 1¾, Pittsburg Coal 1⅝, and Northwestern 1. The market halted and prices fell back a fraction before noon.

Early gains were wiped out by the general selling movement, which began during the noon hour except where stocks had been especially strong and prices were forced below yesterday's closing. Smelting gave way a point.

Business increased when a selling movement began which cost a number of stocks a point or more. Continued high money rates seemed the motive of selling. St. Paul, Missouri Pacific, Wheeling and Lake Erie, Northwestern, Atlantic Coast Line, O. & W., Sugar, International Pump, International Paper and Brooklyn Transit fell 1 to 1¾. Smelting and Northern Pacific 1½, Great Northern preferred 2⅝, Delaware & Hudson 3¼ and Nashville, Chattanooga and St. Louis, 4¾. The market became weaker late in the day and prices tumbled rapidly. Union Pacific, Reading, O. & W., New York Central, Amalgamated Copper, Smelting and Sugar lost 2, Illinois Central 1¾, Great Northern preferred and Delaware & Hudson, Northern Pacific and General Electric and the active stocks generally a point or more. The closing was active and weak.

Prices broke with some violence and on largely increased dealings. Quick partial rallies suggested raiding tactics by bears as partly responsible.

Bonds were heavy at noon.

PRODUCE.

CHICAGO.

Chicago, April 10.—The wheat market opened easy on lower cables and reports of spring weather in the wheat belt, but there was little trading, dealers apparently holding off for the government crop report, which is expected late in the day. May opened ⅛ to ¼ lower at 77⅞ to 78, and declined to 77⅝@77¾.

Minneapolis, Duluth and Chicago reported receipts of 234 cars.

Corn was easy, chiefly because of a decline at Liverpool and a prediction of clear weather. The May option remained around 45¾@46.

The market in oats opened easy in sympathy with wheat and corn, but grew firmer shortly after the opening. May opened a shade to ⅛ lower at 31½@31⅝, and sold at 31¾.

May pork was up 2½ at 16.30. Lard opened 2½ higher at 8.60. Ribs were a shade higher at 8.75.
