Complaints on Car Service—There has been complaint from the merchants of lower Main street because the First and Sixth avenue cars make the turn at First South and Main, instead of making the turn at the Dooly block, Second South and West Temple street. The management of the Light & Railway company declined to return to the former arrangement, as the change was made to reduce Second South and Main street of the crush of cars there during the rush hours.

EARLY CHRISTMAS SHOPPING.

In the effort to save something of the severe strain on women clerks and the boys engaged in the delivery service, an official of the Associated Charities in New York has sent out some useful rules about Christmas shopping. Plain simplicity is worth practicing at holiday time.

First—Do as much of your holiday shopping as possible before Dec. 1.

Second—Finish it before Christmas week.

Third—Go to the stores as early in the day as possible.

Fourth—Avoid buying during lunch hours, and thus shortening this rest time for the clerks.

Fifth—Carry home whatever parcels you conveniently can.

Sixth—Allow a day, at least, for the delivery of parcels.

The very tired girls will wait behind the counter until our big store is closed at Christmas time. Its tax on their strength might be mitigated by the men and women who crowd the stores.

Those who come early to buy their Christmas books at the Deseret News book store will get first choice of the rarest assortment ever brought to Salt Lake. They will too, see the stock before it is "picked over," and can get the attention of clerks now who will later be too rushed to answer questions.

Do your Christmas shopping early.

present and take part in all proceedings.

Special music will be arranged and conducted by Rev. F. B. Short of the First Methodist church.

DAVID TOBIN SUCCUMBS.

Second Victim of Caliente Explosion Dies of His Injuries.

David Tobin, a railroad laborer, died yesterday at Holy Cross hospital, after several days of intense suffering caused by an explosion at Caliente. His fellow-laborer, Tom Duggan, injured at the same time, died Sunday, and the bodies of both are at Evans' undertaking establishment, awaiting disposition of the remains.

The men were working with a steam shovel when a quantity of blasting powder was accidentally exploded, and for nearly two hours Duggan, after his death, begged that some one would put him out of misery. On the other hand, Tobin made a brave and patient fight for life. Nothing is known here of relatives of the latter, but Duggan's mother is supposed to be living at Bradford, Conn.

GOULD LINES SHAKEUP.

Promotion of J. M. Johnson Brings About Avalanche of Changes.

With the retirement of W. C. Stith, from the position of freight traffic manager of the Missouri Pacific, J. M. Johnson, who was assistant to the vice president, has been made vice president of the Missouri Pacific-Iron Mountain system, with entire charge of both freight and passenger departments, in which capacity he becomes the successor of L. C. Bird, and will, virtually, be traffic director of all the Gould lines with the exception of the Wabash, says the New York Commercial. The position vacated by Mr. Johnson's promotion is given to E. E. Boyd, who has been manager of the transportation department of the Chicago board of trade.

It is said that while neither of these gentlemen has a title extending over the Wabash, they will have a voice in the handling of the traffic of that road. While Mr. Johnson will have his headquarters in St. Louis, he will have full charge of freight and passenger traffic there. That Mr. Johnson, in organizing the department, has made the following appointments:

M. Flippin, promoted from assistant to freight traffic manager in place of Mr. Stith, headquarters in St. Louis. W. B. Knight, assistant freight traffic manager, transferred from Kansas City to St. Louis; H. M. Wharry, general freight, Kansas City; L. Lincoln, assistant general freight agent, from St. Louis to the Royal Cafes there during the rush hours.

Bradford, appointed general agent at Dallas in place of Mr. Kooser.

It is understood that important changes are pending in the passenger department and will be announced later.

Mr. Johnson, the new vice president, has been with the Gould lines since 1900, when he was appointed to the place to which he is now promoted. All the duties of his superior officer were devolved upon him after Mr. Bird's health declined and compelled him to give up all active duty. Previous to becoming identified with the Gould lines, Mr. Johnson was in charge of traffic on the Rock Island, and for 20 years, connected with the freight department, established a very high reputation as a traffic expert.

ALL A MAN GETS.

Any way he looks at it is a good home and money doesn't even take the trouble to get it. It's peculiar to me, when the matter of obtaining a home of your own is so easy as we make it. Now you know we have just built a lot of fine modern homes up on Ninth avenue and we are selling them on long time payments, which really equals no more than rent. And that is all.

We have the plans in hand to build another hundred thousand dollars' worth in the same vicinity and we're going to sell them on the same terms, only when they're finished a year from now they'll cost more than the homes we are now offering, because the car line will pass the door by that time and there will be no room for improvement.

Go up to 438 C street and get the keys to these houses so that you can see for yourself how nice they are, then come in and let us explain the outward effects.

Take Hood's.
