

PROJECTING THE NEW S. L. & O. LINE

Surveyors Making Rapid Progress
in Laying the Route.

WILL INVESTIGATE ABUSES

Now Trains Will Run Under New
Schedule East and West—General
Railroad Notes.

Surveys for the new line to be built between Salt Lake and Ogden are hard at work laying the route for its rails. That the company is desirous of commencing early construction work is evidenced in the fact that storms are not allowed to interfere with the operations of the surveyors. The road will be of great benefit to both Salt Lake and Ogden and will doubtless be hailed with delight for the reason that it is proposed to make some sweeping reductions in the charges for transportation, in both the freight and passenger services. This summer ought to see the work to completion.

Time Card Out.

The Rio Grande Western has issued the new time card which goes into effect on Sunday morning. Transcontinental passengers will have at their disposal an improved schedule and splendid service. Here is a synopsis of the time card:

GOING EAST.

Train No. 6, carrying through San Francisco-Chicago sleepers via Southern Pacific, Rio Grande Western, Denver & Rio Grande and Burlington, also connecting at Ogden with the Oregon Short Line with through chair car and tourist sleepers, Portland to Denver, will leave San Francisco, 6:30 p.m., arrive Salt Lake 5:05 a.m.

Leave Salt Lake, 8:10 a.m. Arrive at Denver, 1:25 a.m.

Leave Denver, 9 a.m. (Burlington route). Arrive at Chicago, 2 p.m.

Train No. 2, carrying through sleeper from San Francisco to Chicago via the Southern Pacific, Rio Grande Western, Denver & Rio Grande and Rock Island, will leave San Francisco, 8:30 a.m., arrive at Salt Lake, 2:10 p.m.

Leave Salt Lake, 2:20 p.m. Arrive at Denver, 5 p.m.

Leave Denver, 9:30 p.m. (Rock Island route). Arrive at Chicago, 3 a.m.

Train No. 4 will connect at Denver, Colorado Springs and Pueblo with fast east-bound trains over the Burlington, Rock Island, Missouri Pacific and Santa Fe roads. It will have through sleepers from San Francisco to Denver via the Southern Pacific, Rio Grande Western and Colorado Midland, also through sleeper from Ogden to Denver via the Rio Grande Western and Denver & Rio Grande. This train leaves San Francisco at 9 a.m. Arrives at Salt Lake, 7:35 a.m.

Leaves Salt Lake, 8:05 p.m. Arrives at Denver, 9:15 p.m.

GOING WEST.

Train No. 1 will carry a through sleeper from Chicago to San Francisco via the Rock Island, Denver & Rio Grande, Rio Grande Western and Southern Pacific, and will leave Chicago, 10:30 p.m. (Rock Island route). Arrives at Salt Lake, 11:45 a.m.

Leaves Salt Lake, 12 noon. Arrives at San Francisco, 5:15 p.m.

Train No. 3 will carry a through sleeper from Denver to San Francisco via the Colorado Midland, Rio Grande Western and Southern Pacific. Passengers from Salt Lake can board the sleeper when it reaches this city without transferring at Ogden. This train will also carry a through sleeper from Denver to Ogden via the Denver & Rio Grande and Rio Grande Western. This train leaves Chicago, 1:30 p.m. (Burlington route). Arrives at Salt Lake, 8:25 p.m.

Leaves Salt Lake, 9:05 p.m. Arrives at San Francisco, 9 a.m.

Fixing the Damages.

The Denver Republican says that General Manager Dickinson of the Union Pacific railroad, accompanied by L. H. Korty, superintendent of the line, has been in Denver to testify before the board of appraisers selected by the district court in the case of the Postal Telegraph company against the Union Pacific. The Postal company recently secured a decree allowing it to use enough of the right of way of the Union Pacific between Cheyenne and Denver to set a line of poles and string wires, and a board of appraisers is to settle the amount of damages. The case has been appealed to the State supreme court, and it is intended to take it to the top of the federal judicial ladder if necessary, but meantime the appraisers will fix the amount to be paid by the Postal company, and its poles will be erected. If the telegraph company wins its suit in the higher courts the way will be open for it to parallel the Western Union wherever it pleases, all over the country. Dickinson and Korty had a long conference with H. M. Orin, the road's local attorney, on the further prosecution of the litigation. The two officials returned to Omaha yesterday afternoon. The board of appraisers heard witnesses and attorneys for both sides yesterday and will decide tomorrow whether to inspect the section in dispute.

Will Make Inquiry.

M. D. Ratchford, ex-president of the United Mine Workers and a member of the National Industrial commission, has sent John Mitchell, president of the United Mine Workers, the following, which has been adopted by the Industrial commission:

"Complaints have been received that the Philadelphia & Reading Railroad company has recently discharged a large number of its employees really because they were members of a trade union."

"Resolved, That the relation of that company and its employees be investigated."

"Resolved, further, That the relations of said railroad company to the mining interests along its lines be also investigated."

The United Mine Workers look upon this resolution as the opening wedge to the anthracite railroads' dealings with employees.

RAILROAD NOTES.

Railroad offices were closed at 1 o'clock this afternoon.

An excursion went to Ogden over the Western this morning.

Vice President Cornish of the Oregon Short Line returned east last night.

R. P. Neveling, agent of the Denver and Rio Grande, is in Nevada.

R. P. Miller, general agent of the Missouri Pacific at Lincoln, Neb., dropped dead in his office yesterday. Apoplexy is assigned as the cause.

No one has as yet been appointed to fill the position made vacant by the resignation of General Agent Sneed of the Rio Grande Western at San Francisco.

Supt. Sheldon of the Union Pacific's

telegraph system is making a tour of inspection of the line, he reached Ogden yesterday and returned to Omaha today.

The new big freight engines on the Union Pacific are creating great talk on account of their wonderful performance in the matter of pulling heavy trains. They are likely to cause some great changes in the traffic handling on all railroads.

The tracks of the New York Central between Albany and New York were submerged by the rainstorms which recently swept over the New England States. While the line was under water trains were sent over the Harlem branch.

The Wadsworth Dispatch says that the route of the road connecting the

& C. with the Central Pacific at Wadsworth will be via Buckland's, the Carson river and Stockton Well flat, a level stretch of ground that will not require grading, and tap a prosperous agricultural territory.

MILLARD'S DELEGATES.

Republicans at Fillmore Choose Men for State Convention.

[SPECIAL TO THE "NEWS."] Fillmore, Utah, Feb. 21.—The Republican county convention convened in this city at 10 a. m. After some preliminary matters were attended to the convention adjourned until 2 o'clock p. m., when the following named persons were elected delegates to the State convention.

C. W. Watts, W. F. Aldrich, F. T. Slaughter, H. S. Cahoon, E. W. Kelly, Henry Hughes, Andrew Peterson, F. E. Brown, Virgil Kelly, Joseph Peterson, T. C. Callister and C. D. Smith. Alternates, George A. Black, J. S. Black, Dr. Stephens, C. W. Aldrich. The delegates are undivided.

TO THOSE WHO USE TIMBER

Department of the Interior Issues Instructions Governing Their Action.

Measures to Protect Forests on Public Mineral Lands in Several of the Western States.

The following instructions have been issued by the department of the interior and will prove of interest to users of timber:

By virtue of the power vested in the secretary of the interior by the first section of the act of June 3, 1878, entitled "An act authorizing the citizens of Colorado, Nevada and the Territories to locate and remove timber on the public domain for mining and domestic purposes," the following rules and regulations are hereby prescribed:

1. The act applies to the States of Colorado, Nevada, Montana, Idaho, Wyoming, North Dakota, South Dakota, Utah, and the Territories of New Mexico and Arizona, and all other mineral districts of the United States.

2. The land from which timber may be felled or removed under the provisions of this act, must be known to be of a strictly mineral character and "not subject to entry under existing laws of the United States, except for mineral entry." Parties who take timber from the public lands under assumed authority of this act must stand prepared to show that their action is within the prescribed terms of the law granting such privilege, the burden being on such parties of proving by a preponderance of evidence that the land from which the timber is taken is "mineral" within the meaning of the act.

3. The privileges granted are confined to citizens of the United States and other persons, bona fide residents of the States, Territories and other mineral districts, provided for in the act.

4. The uses for which timber may be felled or removed are limited by the wording of the act to "building, agricultural, mining, or other domestic purposes."

5. No timber is permitted to be felled or removed for purposes of sale or traffic, or to manufacture the same into lumber or other timber product as an article of merchandise, or for any other use whatsoever, except as defined in section 4 of the act.

6. No timber cut or removed under the provisions of this act may be transported out of the State or Territory where procured.

7. No timber is permitted to be used for mining purposes, including the separate and distinct industry from that of mining.

8. No growing trees of any kind whatsoever less than eight inches in diameter are permitted to be cut.

9. Persons felling or removing timber under the provisions of this act must utilize all of each tree cut that can be profitably used, and must dispose of the tops, brush and other refuse in such manner as to prevent the spread of forest fires.

10. These rules and regulations shall take effect February 15, 1900, and all existing rules and regulations heretofore prescribed under said act by this department are hereby rescinded.

"Better the Feet Slip Than the Tongue."

There is one slip Nature never forgives. It is the carelessness of ignoring the signal that the body is in danger of wreck. It may be that the kidneys or the stomach or the head gives the warning sign. But remember, the blood feeds every organ of the body.

Make no slip, but first tone up the system through the blood, and health will surely follow. Hood's Sarsaparilla is the best preparation man has devised to make pure, life-giving blood.

General Debility—"I have taken Hood's Sarsaparilla for general debility with marvelous effect. My blood is pure and I feel better and stronger." Frederick Reeb, 98 Herkimer St., Albany, N. Y.

Disordered Stomach—"Now-a-days I can eat anything I wish, because Hood's Sarsaparilla keeps my stomach in order. It is the best tonic medicine." H. Stone, Sherman, Mass.

Catarh—"Hood's Sarsaparilla has cured my catarh troubles, and given me relief from sick headache." Mrs. J. W. Morris, Binghamton, N. Y.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver trouble, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

Guaranteed.

Our Three Crown baking powder is used in the finest hotels, bakeries, restaurants and families, manufactured by people who have lived in Salt Lake twenty-five years; what more can be said of Three Crown baking powder, and what risk can you take by giving it a fair test. Price, 25cts a pound. All Three Crown goods guaranteed to give perfect satisfaction, or money refunded.

HEWLETT BROS. CO.

WASHINGTON'S BIRTHDAY.

It Was Generally Observed as a Holiday Throughout the City.

No Public Observance—Annual Meeting of the Sons of the Revolution—Daughters Entertain Tonight.

The anniversary of Washington's birthday was generally observed as a holiday throughout the city, and business was practically suspended.

The banks and public offices were all closed, and the courts adjourned over until Friday. Sunday hours were observed at the postoffice.

There was no public observance of the day, although there were many social gatherings.

The annual meeting of the Sons of the Revolution was held in the afternoon and tonight the members will be entertained by the Daughters of the Revolution at the home of Mrs. G. Y. Wallace.

G. L. NYE PRESIDENT.

The annual meeting of the Utah society, Sons of the Revolution, was held at the Knutsford this afternoon, those officers being elected: Geo. L. Nye, president; Dr. J. C. E. King, vice president; Gen. John C. Cannon, secretary; Eugene Gaylord, treasurer; Dr. E. W. Whitney, registrar; D. R. Gray, historian; Dr. S. E. Swin, chaplain.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Groves' signature is on each box. 25c.

IN "DIXIE"

Mr. John Chidester was in town today from Panguitch, Garfield county, and reports that there is very little snow down in that part of the State. "We are building some reservoirs down there, however," said Mr. Chidester, "in order to try to save ourselves. Our county Republican committee will meet tomorrow to select delegates to the convention. The Democrats have already done so. The health of the country is good and we are generally prosperous."

Stops the Cough and works off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25c.

MEETING OF CREDIT MEN.

Constitution for the New Association is Adopted.

The Utah Credit Men's association met in the Knutsford hotel last evening and framed a constitution and by-laws for the government of the organization. The officers and standing committees will be installed at the next annual meeting, to be held March 13.

Messrs. Wallace, White and Romney, however, were appointed to look into the matter of making the association a corporate body. They will report at the next meeting.

Any party desiring information relative to the new association may obtain from Acting President Duncan who will be pleased to furnish it. The constitution will be completed by the following wholesale firms and jobbers:

F. W. Hanson Produce Company, Geo. M. Scott-Strevell Company, J. H. Boxrud Company, Lambert Paper Company, Salt Lake Drug Company, Hines Mercantile Company, Salt Lake Hardware Company, B. K. Bloch & Co., Salt Lake Saddlery Company, Smith Drug Company, Intermountain Milling Company, Utah Implement Company, Consolidated Implement Company, Utah Store & Hardware Company, H. Dinwoodey Furniture Company, A. C. Smith Company, F. Auerbach & Bro., Kahn Bros., Freed Furniture Company, G. F. Culmer & Bro., Sym's Utah Grocery Company, Cudahy Packing Company, Co-op Implement Company, Romney Shoe Company, J. Scovcroft & Son, James G. McDonald Candy Company and New York & Utah Paper Company.

BIG GALE.

Wind Blew at a Terrific Rate Early This Morning.

There was a gale of very respectable proportions in progress at between 5 and 6 o'clock this morning. The wind howled and shrieked as it seldom does out in this part of the country and many people throughout the city became very much frightened on account of the shivering and rocking of their houses. The high wind did not last long, but it was wild while it was here and played some wilful pranks with loose articles and timid townspeople.

TROUBLE IN TURKEY.

British Vice Consul's Son Wounded by a Mussulman Mob.

Beyroot, Syria, Feb. 20.—A mob of Mussulmans has wounded the son of the British vice consul, Abela, at Sydon, and has surrounded the consulate. Troops have been dispatched and the consul general has gone to the scene of the disturbance.

Puerto Rican Bill.

Washington, Feb. 22.—The House began holding early sessions today, meeting at 11 a. m., owing to the pressure for time in the Puerto Rico debate. Mr. McClellan (N. Y.) opened the debate, speaking in opposition to the bill.

PUMPING STATION FOR SUGAR WORKS

Site Will be Located Just North of Bingham Junction.

MACHINERY NOW EN ROUTE

When Completed the Plant Will Practically be a Duplicate of Springfield Factory.

[SPECIAL TO THE "NEWS."] Lehi, Feb. 22.—The factory site deal for an auxiliary pumping station in Salt Lake county was finally consummated yesterday in the purchase of thirty-one acres of land from W. H. Bird and James Wardle for \$3,000, situated about one-half mile north of Bingham Junction station, on the Rio Grande Western, and eighteen miles from Lehi.

While this land question has been pending for the past two months it could not be purchased until the requisite amount of water had been secured which was leased by the Utah Sugar Company from Bishop Brinton a couple of days ago.

Work will commence at once, excavating for the building, and the machinery for this plant, which was contracted for last August by Manager Cutler, consisting of the following, is now on the road:

One beet wheel, one beet washer, diffusion battery, lime mixers, juice press, pumps and one engine.

The plant when completed will be practically a duplicate of the Springfield factory, and will have the same capacity (400 tons of beets per day). In addition to this two large beet sheds will be erected about 25 feet wide by 500 feet long each, and one large silo for the storing of the pulp. The beet sheds will be of the latest design, having a slope of 45 degrees. Thus the beets will feed into the water flumes in and of themselves.

It is the intention, says Manager Cutler, to get the pipe-line laid before the warm weather sets in, as it is very difficult and unpleasant to the workmen to handle the black pipe in the hot sun. This eighteen miles of pipe will be coated in and outside with Utah asphaltum (but before doing so the asphaltum had to go to Chicago for treatment and then returned) making it impervious to the actions of the soil for many years.

The exact route of the pipe-line is not yet determined, although the Utah Sugar company has the privilege wherever they deem it expedient to follow the Rio Grande Western track.

The elevation of the Bingham Junction site is 150 feet lower than the Lehi factory, thus the pressure that will be brought to bear on the pipe will be very great and will require very strong pipe, and on this account it is the intention of the company to put in an electrical auxiliary pump about midway between the central factory at Lehi and the rapier at Bingham Junction.

The pipe as well as the machinery is now in transit and the whole building will be completed. The pipe laid, and the machinery all put up in ample time to work up the beets of Salt Lake county this coming season.

INDIVIDUALITY IN THE VOICE.

You expect obedience of the hand, do you not? You want the bread before you, and your hand goes out and grasps for you, doesn't it? Well, every bit of you belongs to you just as completely as does your hand. Shall you command your body, or shall a hoard of uncombed habits, vagrant fancies, disorganized passions insolently tramp by you, and commanding expression, control your body to their purpose? Shall fear rush shrieking down your voice, while you cringe inside and burn with shame to hear yourself cried coward? Shall a quivering trickle of thin words belie at your lips the honest impulses of your heart which you are not able to force into expression? Nonsense! Sit up and think!

"When there is just one idea that asks expression, it usually flows

that's the word for GRAPE-NUTS FOOD

"I want to tell you about Grape-Nuts, and my experience with them."

"I had for a year or two, felt a general debility creeping on me, and also suffered from flatulency, piles, etc., which I began to think was due to advancing age, now being 65 years old, in the providence of God, as I believe, the Grape-Nuts Food was brought to my notice, and tried as an experiment."

"I used it with milk, as usual. In a week I found a decided improvement in myself and have kept improving ever since. Now about three months, and am being congratulated on the bright change in my appearance by all acquaintances. Not only so, but I feel I have the reserve force so that I do not feel weary at night, although I have worked continuously this last three months, from 7:30 a. m. until 9 p. m. Need I say that I recommend your Grape-Nuts to my friends and acquaintances, and that all of my family use the food, and that we use it at every meal whatever else is omitted? I write this being desirous of giving vent to the grateful feeling I entertain for the benefits received from the use of your incomparable food. Although a total stranger to you, I beg to subscribe myself sincerely your friend and well-wisher, John C. Fletcher, New Rochelle, N. Y."

The particular element which produces the feeling of strength is the delicate particles of phosphate of potash, not the phosphate of the drug-store, but that which is prepared by Nature and furnished in the grains. This delicate element, not observed by the taste, is used by Nature in connection with the albumen of food, to repair and rebuild the gray matter in the nerve centers throughout the body and in the brain and solar plexus, so that one thus nourished and rebuilt is very sure to feel the effects of this rebuilding within a week or ten days, and this feeling grows and becomes fixed as one becomes a steady, every-day user of Grape-Nuts. The food is made by the famous pure food manufacturers at Battle Creek, Mich., the Postum Cereal Co., Ltd.

through properly. But how often are we simple-hearted enough to speak from one idea? When a tremendous situation vibrates us, body and soul, into harmony with it, things "line up," big ideas march glorious into even unaccustomed places. Then even the most purposeless individuality stands up and gives straight orders, and the great ideas swing to splendid expression." From "The Every-Day Voice," by E. V. Sheridan, in Werner's Magazine for January.
