Wreck of a Portion of the Omaha Railroad Bridge.

OMAHA, 25.—At about 3.30 this morning, during the prevalence of a terrific rain and wind storm, about 500 feet of the eastern end of the Union Pacific iron bridge was precipitated into the river. The piers are left standing uninjured, but the rest of that part of the bridge is a total wreck. For the present all trains from the coast will probably have to transfer passengers and freight *via* Plattsmouth, Neb., and Missouri valley.

There are various surmises as to the immediate cause of the accident, but the general opinion is that it was a cyclone which struck it. John Pierson, night watchman, was at the guard house at the east end at the time the accident occurred, and had a narrow escape from death. He was pinned in the river for half an hour before being able to extricate himself. The loss is estimated at about $350,000. It will probably take two or three months to rebuild the structure.

The omnibus stable at Omaha was also blown down. No other damage.

Fight Between Indians and Miners.

DEADWOOD, 25.—The party of twenty persons who left here about two weeks ago for Little Missouri river, returned to-day. They report that last Tuesday afternoon the party discovered Indians close to them. They selected high ground and dug rifle pits. They had been digging about twenty minutes when near 500 Indians appeared on the bluffs opposite, about 400 yards off, and commenced firing at them. The fight lasted near four hours. Thomas H. Carr, Quartz recorder of Deadwood mining district, was shot through the head and killed. Twenty-seven horses belonging to the miners were also killed. After dark the Indians withdrew and the miners escaped, being obliged to walk 150 miles to reach this city.

Road Agents.

CAMP ROBINSON, Neb., 14—The Sidney coach from Deadwood was stopped last night above Buffalo Gap by five road agents, who fired into the coach before the word was given to halt. Ed. Cook, division superintendent of the stage line, was shot through the ear. The robbers secured $12 out of about $1,000 in possession of the passengers. One passenger obeying the order to throw up his hands threw up $50 with them. It being dark, it was not noticed by the robbers.

Wool Market.

BOSTON, 25.—Wool dull, sales were the smallest for several months, and prices rule in favor of buyers, although no material change has taken place since last week. Stocks of choice and desirable XX fleeces are held at 50, but this price could not be obtained; holders, however, are not disposed to urge sales. The supply of this description is very limited. Sales of Ohio for the week, only 65,000 lbs., include low Ohio 40, No. 1, and X Ohio 46 @ 47, and XX and above 47 @ 50, although if sales were now forced not over 46 @ 47 could be obtained for good average lots of XX; in other fleeces sales were only 100,000 lbs., and include common and choice Michigan at 40 @ 43. Wisconsin 40 @ 42½ for medium and X, and New York at 40. Prices of New York, Michigan, Wisconsin and New Hampshire may be quoted at 40 @ 43, and from 42 @ 43 are the outside figures for the best lots on the market; sales include fine fleece and choice combings at 50 @ 55, the latter is the outside figure and difficult to realize. California wool is very quiet, and sales been smaller than any previous week for upwards of a year, comprising only 151,000 lbs. of spring, at 24½ @ 26½ and 47,000 lbs. of fall at 15 @ 21; stocks of fall wool are light, but there is still a good assortment of spring to select from; pulled wool is very quiet, with sales of 96,500 lbs. of super and X at 32 and 45; choice superfines are scarce, but in limited demand.

Bank Robbery.

Bagnall and Loud, of Fulton Street, were robbed this afternoon of $29,000 in notes, mortgages, and cash. Two men engaged the cashier in conversation in the front part of the store while a confederate entered the rear door and rifled the safe.

$25,000 Fire.

PHILADELPHIA, 25.—The Richmond Hotel at the Yellow Sulphur Springs, was burned; loss $25,000, insurance $12. A colored boy was killed.

A New Machine.

NEW YORK, 25.—A machine has been invented in this city, mounted on wagon wheels, which is intended for use on farms in the west. It deluges the ground behind with smoke from burning chips and brimstone, and holds the smoke down long enough to suffocate any potato bug, locust or other insect that comes within its influence.

Indian Hostilities.

CHICAGO, 25. — *Tribune's* Washington: Government does not fear a general hostile combination of Indians against whites in the northwest, which some persons predict. The hostility between the tribes, especially between the Sioux and others, will prevent it. There is no intention of relieving General Howard from his command. The Secretary of War thinks he is doing the utmost possible with the few troops he has.

Railroad Bridge Burned.

CLEVELAND, 25. — The covered bridge spanning the Tuscarawas River, just south of New Philadelphia, Ohio, was completely destroyed by fire at noon to-day. It was a three span, double track bridge, 325 feet long. The loss will be about $40,000; insurance, $8,000.

FOREIGN.

GREAT BRITAIN.

Unfounded Reports.

LONDON, 25.—A blue book is published containing Col. Wellesley's report. He says, although he has not personally visited the alleged scenes of atrocities, he has, from examining reliable English and other witnesses of the operations, arrived at a firm and honest conviction that the accusations against the Russians, of the cruelties, are entirely unfounded. The war, however, is one in which little quarter is given on either side.

BRITISH AMERICA.

Shot and Killed.

MONTREAL, 25.—W. H. Jackman, living near Windsor Mills, shot and killed Robert Colby Wood, a surveyor. Jackman alleges that Colby attempted a criminal assault on his wife.

GERMANY.

The German Protest.

BERLIN, 25.—It is officially announced that all the great powers, and Belgium, Holland, Sweden and Portugal have adhered to the German protest against the Turkish cruelties.

Last Night's Dispatches.

EASTERN.

The Turkish and Russian Armies—The Situation.

NEW YORK, 26.—The *Times'* special from London says, the Turks have been blamed for not following up their recent successes at Plevna. Their inaction was not the result of apathy, they were waiting to attempt the movement *en masse*, deciding not to stir until all their forces were in position. The present activity shows that all the Turkish armies are acting under one supreme director. The correspondent of the *Times*, at Bucharest, writes that their forces now number 50,000 at Rasgrad, 40,000 at Osman Bazar, 40,000 with Suleiman Pasha, and 55,000 at Plevna and Loftscha, under Osman Pasha. To-day they are faced by 200,000 Russians. The reports of the engagement in Schipka Pass have been much exaggerated. It was only one feature of a general advance of the Turks. The villages in the immediate neighborhood of the Schipka Pass are now in Turkish hands, and heavy fighting is going on at various points, with evidences of brilliant generalship on the part of the Turks. The movement is tending in the direction of Tirnova. Reinforcements for the Russian army are pouring in, and many more are expected. The Turks must send 20,000 men from Plevna to meet the Roumanian army. The Russians are now as strongly posted at Tirnova as the Turks were at the battle of Plevna.

Rush to Watering Places.

The journals state that yesterday was unprecedented for the watering places in the vicinity. Coney Island had from 60,000 to 70,000 visitors. Long Branch and Rockaway never saw anything like it.

Senator Morton's Condition.

RICHMOND, Ind., 26. — The following dispatch was sent this evening in response to the enquiry as to Senator Morton's condition:

Richmond, 8:30 p.m.

To President Hayes—

Senator Morton rested easy, today. The indications are fully as favorable as he could expect.

Statistical Wheat Statement.

WASHINGTON, 26.—The Bureau of Statistics furnishes the statement that of the 27,560,885 cwts. of wheat, valued at £17,329,444 sterling, which were imported to the United Kingdom during the seven months ending July 31st last, 5,373,574 came from Russia; 2,689,022 from Germany; 2,841,611 from British India; and 11,318,646—41 per cent. of the whole—from the United States, of which 8,109,224 cwts. were shipped from Pacific ports.

Fatal Quarrel.

HARTFORD, 26. — Jno. Connell killed his brother-in-law, John Mahony; both were drunk.

Killed his Wife.

PHILADELPHIA, 26.—Wm. Wunder, after a night's debauch, killed his wife this morning.

Disastrous Rain Storms.

NORWICH, Conn., 26. — Heavy rains have swollen the streams, inundating the country, and washing away many culverts. The train from New London here tumbled into a culvert. Six train hands were injured. None fatally.

WESTERN.

Destructive Fire.

SAN FRANICISCO, 26.—The Oakland city hall was burned, last night. All the important documents and books were saved, and the prisoners removed to the county jail, none escaping. The building is isolated, and the fire originated in the upper story, which was unfinished; supposed incendiary. The hall was built eight years ago, costing $60,000; insurance $30,000.

FOREIGN.

GREAT BRITAIN.

Eastern War News.

LONDON, 26.—The Turks in strong force violently attacked the Schipka Pass on Thursday, on the three sides. All the onslaughts were repulsed. At nine in the evening the rifle corps reinforcement stormed the heights on the Russian right, and desperate fighting ensued until midnight, when an eclipse of the moon stopped the fighting. The Russians maintained their position notwithstanding the Turkish numerical superiority and cross fire. The Russians have now fought the whole of Suleiman Pasha's army for four days without partaking of rest or warm nourishment. Further reinforcements are expected during the night. The fighting on Friday was confined to a lively cannonade. The Turkish left wing, which threatened the Russian rear, has been driven from its position. All is quiet at Loftscha and Plevna.

Sulieman Pasha telegraphs, confirming the report of Wednesday's desperate fighting without any decisive result. The fighting was resumed on Thursday. The Russians are completely surrounded. We command their line of retreat from Gobrina. To-morrow a decisive assault will be made. As the Russians have not profited by the darkness to retreat, they run the risk of all being captured.

A Russian official bulletin admits the Russians, after defeating the Turkish attack upon Aghaslar, on Thursday morning, were compelled by strong Turkish reinforcements to retire to Sultan Zoi. Mehemet Ali's bulletin gives the Russian loss in these operations as 400 killed and many wounded.

The latest Russian bulletin says: Our attack upon Aghaslar has not been renewed since Thursday. The Turks have concentrated in strong force at that point, and are entrenching themselves. Our troops are concentrated in sight of the enemy. In the two engagements at Aghaslar, on Thursday, we lost ten officers and sixty-six men killed, and eleven officers and 274 men wounded.

A Russian bulletin, relative to the battle at Schipka Pass, says, the fighting was continued all day Friday. Our troops retain all their positions. Our losses during the four days fighting have been considerable, 200 wounded officers and 900 men being brought to Gabravs. The number killed is unknown. The cannonade in the pass was renewed on Saturday morning.

A Constantinople dispatch, dated Sunday, says, a telegram from Suleiman Pasha announces that he has taken the two Russian works in the pass.

A telegram from Adrianople says, news has been received that Suleiman Pasha had taken the third work, and was attacking Cabrosa.

A Russian bulletin, dated Cejorny Studeni, Sunday, says the fighting continued on Saturday in the pass with terrible violence. Our troops maintained the position and have repulsed several powerful attacks. To-day, Sunday, General Doroschinsky, who commanded the force holding the pass for the first three days, met a heroes death.

A dispatch dated Erzeroum, Saturday says the Russians advanced upon Kurnkara and Wesinkay on Friday, but were compelled to retreat after five hours engagement, during which some of their ammunition cases were exploded by Turkish shell.

A dispatch from Constantinople says, a telegram was received there that the Russians lost 4,000 killed and wounded in this affair.

Mukhtar Pasha telegraphs from Guedikler, on Saturday, as follows:

We have gained a great victory, having carried the heights of Kizilitepe during the night, and repulsed three Russian attempts to retake them. Two hundred cannon were brought into action. The engagement became a great battle, lasting until six o'clock on Saturday evening. The enemy were routed along the whole line, with a loss of 4,000 killed and wounded. We captured an immense quantity of arms and munitions. General Tchoutchowassoff, commanding the Russian cavalry, was killed. We lost 1,200 killed and wounded, including several officers.

Dervish Pasha, telegraphing from Batoum on Friday, claims to have captured the redoubt of Djianguir. One hundred Russians were killed.

WE ARE NOW PREPARED to receive orders for FAMILY RECORDS of an approved form.

Each book is divided into four forms.

The first form is that of a "FAMILY RECORD," with ruled and printed spaces for births, marriages, and deaths, in each family, also for names, dates, and places, one page accommodating one family.

The second form is a "CHURCH RECORD," with spaces for blessings, baptisms, confirmations, ordinations, endowments, and patriarchal blessings and various particulars of the same.

The third form is a "SEALING RECORD," with spaces for name of person sealed, birth, death, time, place, etc.

The fourth form is a "BAPTISM FOR THE DEAD RECORD," with spaces for names, dates, birth death, baptism, confirmation, etc.

Each book is furnished with a title page, on which the person owning the record can enter his or her name. An explanation of the forms, or instructions how to keep the record is also printed in each book, and its pages are numbered.

These Records are well printed and ruled on good ledger paper, substantially bound in full sheep, English roan, or Bock. We can furnish them of any size, from one to five quires, or larger, but probably five quires is as large as will be desired. We can also furnish the various forms in a record, proportioned to each other to order.
