submerged and Surface Trials Are to Be Made-New Thing in Naval Warfare.

San Francisco, Jan. 21,-The submarine torpeda boats Pike and Grampus, which have been building at the Union Iron Works for the United States navy for some time past, are now nearly completed, and it is expected that they will be launched about the first of the coming month. Their trial trips, both submerged and on the surface, are scheduled to take place a few days after, as the boats will be practically completed and ready for service when they are launched. The transport Thomas, which has been undergoing repairs at the Union Iron Works for the past two weeks, has had the work upon her completed, and returned to the transport dock.

Work is progressing on the transport sherman and it is expected will soon
