

PIERPONT MORGAN AT WHITE HOUSE

Saw President by Appointment But Object of Visit is Not Divulged.

SITUATION IS SATISFACTORY.

Everything Possible Being Done to Relieve Money Stringency—Cortelyou Talks of Subscriptions.

Washington, Nov. 22.—J. P. Morgan and George F. Baker, the latter president of the First National bank of New York city, arrived here today for a conference with Secy. Cortelyou of the treasury department. At 10 o'clock tonight Messrs. Morgan and Baker, accompanied by Asst. Secy. Robert Bacon of the state department, went to the White House to see the president, by appointment. The object of their visit was not divulged, but it was believed to be in relation to the financial situation. Upon leaving the White House at 11:25, after being 15 minutes in the house and a half, Mr. Morgan on being asked in regard to the developments, replied that conditions in New York were reassuring.

He said that everything possible was being done to relieve the money stringency and that the situation was satisfactory. Mr. Morgan said also that his object in coming to Washington today was to see Secy. Cortelyou in furtherance of the conference he had with the secretary in New York last week, at which time means were discussed for the further relief of the situation. He said Secy. Cortelyou before going to the White House, and he called on President Roosevelt tonight to pay his respects. Mr. Morgan probably will return to New York tomorrow. He could not say whether he would again see the president before leaving for New York.

CORTELYOU TALKS.

The secretary of the treasury stated this morning that subscriptions to the 2 percent certificates were being received in large numbers and that the issue was already a successful one. In addition to subscriptions from individuals, many of the national bank depositors in the crop moving sections of the south and west are availing themselves of the opportunity to purchase the certificates, receive a large portion of the proceeds as a deposit on approved securities, and increase their circulation to the amount of the registered certificates. In the discretion of the secretary of the treasury, the beneficial results of this increase in circulation will be most helpful, and the government will be enabled to make its collections and expenditures in such manner as not to be a disturbing factor in business operations.

National banks entitled to do so will be allowed to increase their circulation by depositing currency for treasury certificates, which, however, would be retained in the treasury as security for the increased circulation. Simultaneously the purchasing bank on state, municipal and railroad securities, 75 per cent of the amount of the currency put up for certificates.

As an illustration, it is said that a bank wishing to increase its circulation by \$100,000 would deposit that amount of currency, when it would be allotted \$100,000 in treasury certificates. These would be retained in the treasury as security for the \$100,000 additional circulation. Of the \$100,000 in currency paid in for the certificates the secretary would immediately re-convert with the bank 75 per cent of \$75,000. By the transaction the bank would pay in \$100,000 and receive \$75,000 additional circulation and a public deposit of \$25,000.

The secretary also stated that a bank not entitled to additional circulation could put up currency for certificates and receive in return as a public deposit 75 per cent of the currency so deposited on approved state, municipal or railroad securities. As to the purchase of treasury certificates, the statement that the department would endeavor to restrict allotments to persons who had drawn the money from the banks for the purpose of making the purchases. Persons who were hoarding money would be encouraged to invest in the certificates.

BOSTON SUBSCRIPTIONS.

Boston, Nov. 22.—The subscriptions to the sub-treasury today to the issue of government certificates of indebtedness amounted to \$2,567,550. These subscriptions were all made by individuals, and the amount is greatly in excess of the total of the past two days. On Wednesday, the first day of the sale, the total receipts of subscriptions at the sub-treasury were \$1,263,950, while on the second day the total receipts were only \$1,300. On the two days national bank subscriptions to the issue amounted to \$318,890, while the subscriptions from individuals were only \$17,150 in all. The remarkable increase in the subscription by individuals today is regarded as the best evidence of the existing growing confidence in the issue.

CONDITIONAL SUBSCRIPTIONS.

Chicago, Nov. 22.—Eight Chicago banks today pledged conditionally for subscriptions to \$2,000,000 of the new 2 per cent treasury certificates. Fred. E. Fisher, chairman of the clearing house committee, said the subscriptions were subject to certain conditions, the nature of which he would not discuss. The subscriptions are reported to have been made with the understanding that the banks be allowed to hold 75 per cent of the purchase price of the certificates.

Do not be scared into thinking that every pain in the back denotes kidney trouble. It is probably rheumatism and easily curable by Dr. Williams' Pink Pills. Rheumatism frequently affects the kidneys, the secretion is reduced in amount, is strongly acid, contains sediment and is of a high color. These misleading symptoms disappear when the rheumatism is driven from the blood.

Our free book, "Diseases of the Blood" tells all about the treatment.

AN IOWA WOMAN CURED "A few years ago," says Mrs. J. G. Bryan, of Woodbine, Iowa, "I had an attack of rheumatism in my back, which pained me so that I could hardly stand. For a period of six weeks I was obliged to stay in bed in order to get any relief, and although I tried several remedies, none of them gave me more than temporary benefit. I had been troubled like this for five years before I tried Dr. Williams' Pink Pills. They helped me right away and I felt so much better that I took them until I was cured."
