

WAKEMAN'S WANDERINGS

AMONG THE FAMOUS SCHOOLS OF ENGLAND-I.

Worcester College, and its Plethora
Founder, the Rev. Thomas Wakeman, of
England-Colonial States in the Amer-
ican City and various Antiquities at
the Queen's School - "Wakeman's
Wanderings."

[Copyright, 1895, by Edward L. Wakeman.]
Worcester, England, Oct. 25 - There is
a very rich and colorful story of my
wanderings in the schools of England and
America. I have been to many of the
most famous schools in the world, and
I have seen many of the most famous
buildings in the world. I have seen
many of the most famous buildings in
the world, and I have seen many of
the most famous buildings in the world.

Similarly with men, when the shadows
begin to lengthen, an almost overbear-
ing gloom comes upon the face of the
eye, turning from the stern affairs of
life, and upon the faded walls of some
old school. It does not matter whether it
be a historic spot like Winchester, a trans-
ient place of temporary habitation, or a
modern school, the same feeling comes
over the mind of the wanderer, making
him feel that he is in the presence of
something that is old and true, and that
he is in the presence of something that
is old and true.

All this gentle influence will reach and
touch you at Winchester College. There
is a great and stirring story here, and
it is a story that is old and true, and
it is a story that is old and true. It
is a story that is old and true, and
it is a story that is old and true. It
is a story that is old and true, and
it is a story that is old and true.

This William of Wykeham was an ex-
traordinary man. He was a man of
many talents, and he was a man of
many talents. He was a man of many
talents, and he was a man of many
talents. He was a man of many talents,
and he was a man of many talents. He
was a man of many talents, and he
was a man of many talents.

In 1362 he was made keeper of the Privy
Seal, then in 1367 Bishop of Winchester,
and the same year he was appointed Chan-
cellor of England. He was for a second
time appointed Chancellor from 1391 to
1397, and the pleasure of Wykeham had
become virtual ruler of England. What
ever his political or strictly educational
ability and power, his fame will chiefly
rest upon his architectural skill and his
educational foundations. He transformed
Winchester Cathedral and was national in
spirit, feeling and purpose. He is re-
garded as the father of the Perpendicular
style of architecture, and his own chan-
celry here, built by himself, is one of
the most magnificently beautiful crea-
tions to come to be found in all Britain.

It stands between two pillars in the
shape of the cathedral, in the south tower
and curiously enough the great prelate
placed his own monument on that part of
the structure plan of the cathedral which
originally exactly corresponded with the
paved side of the Bayard on the Cross.

There is no doubt of Wykeham's piety.
He was determined to improve the edu-
cational and social condition of the clergy.
His college was dedicated to the Virgin
Mary. William prelateness entrance was
made into the structure at 1362 on the
morning of March 30, 1362, a few months
less than 500 years ago. The tower of
every office, feature and relic in that part
of this historic structure, carefully pre-
served in a vaulted room, is still preserved.
And the school that Wykeham's never
poor scholars' class entered in standing
here today just as Bishop Wykeham built
it, apparently have and stand enough to
show "Wykehamism" as its motto are
practically intact, for over half a thousand
years.

Winchester is not only an old school
town, but it is a town of many old
buildings and many old buildings. It is
a town of many old buildings, and it is
a town of many old buildings. It is a
town of many old buildings, and it is
a town of many old buildings. It is a
town of many old buildings, and it is
a town of many old buildings.
