

structed to make explanation in full in the college Tabloid.

The budget was then presented in its modified form as follows:

#### FACULTY CHANGES.

William Jardine was appointed assistant professor of agronomy and statistics agriculturist to succeed Lewis A. Merrill.

Prof. Joseph W. Jensen, who has heretofore acted as assistant professor in engineering, was relieved.

W. W. McLaughlin was named as irrigation engineer at a salary of \$1,600 per year.

Dr. E. A. Yoder was appointed director of the experiment station at a salary of \$2,000, with free residence and use of his house.

Prof. Kester, in explanation, stated that Dr. Kester and Prof. L. A. Merrill were not in accord with the trustees and president, and not in harmony with the faculty of the institution. He said he was prepared to present specific charges, and summon witnesses to substantiate this statement if desired, but he preferred to let the statement suffice.

#### PREST. KESTER RE-ELECTED.

Stohl then moved that the president's report be not adopted. The vote stood, Stohl, Smart and Gates for Whitmore, Owen and McAllister against. President McCormick cast his vote against the motion, Whitmore then moved the adoption of the report. The vote was, McCormick, Whitmore, McCormick and Owen for the motion, with Smart, Stohl and Gates against it. Owen moved that Prof. Kester be made president of the college faculty, at a salary of \$3,000 per year, with house rent free, and care for one team. Stohl moved as an amendment that Dr. Widstrom be made president, at a salary of \$3,000 per year. President McCormick stated that Dr. Whitmore told him that he would not accept the presidency of the college if it came to him by unanimous vote, so Stohl moved to withdraw the motion, but he believed Dr. Whitmore would accept it if tendered him, but admitted that he was acting without his knowledge or consent. The vote on the amendment stood 3 for, and 4 against, which defeated it, and the original motion was adopted by a vote of 4 to 3. McCormick, Whitmore, McAllister and Owen supporting the motion, and Gates, Smart and Stohl opposing. President McCormick, through President Kerr, should think the board for the home conferred, but Stohl passed this action as unnecessary.

President Kerr then suggested that action be taken towards completing the upper story of the main building, the work on which would cost \$3,000. The board authorized its completion.

#### REBATES ALLOWED.

Bills allowing Prof. Widstrom and Merrill a rebate of \$449 for improvements made in their residences at the college were favorably acted on.

#### ON PAY UNTIL AUGUST 30.

The president then suggested that all business of the experiment station be transferred to the new director at once; and when this is done that Prof. Widstrom be granted a leave of absence until the end of his term, Aug. 30, with full pay. Prof. Merrill's term ends at once.

President Kerr thanked the board for its support, and promised to give his best efforts to the college.

Stohl wanted the board to pass upon the wording of the announcement to be made in the catalogues on the engineering courses affected by the new law.

The president was instructed to have President McCormick pass upon the insert in the catalogue.

Soc'y Britzler desired a record made of the fact that Edger A. of the college is lost. He wanted to know where it was. The executive committee was instructed to investigate.

#### WILLIAM JARDINE.

William Jardine, the new professor of agronomy, was born at Maidu, Idaho, and spent his youth on his father's farm. When he had completed the work of the common schools he entered the agricultural college, from which he graduated with a bachelor's degree in 1893. He taught in the district school for two years during his senior year. After college was given the position of assistant in agriculture. He was elected instructor in agriculture, and assistant agriculturist for the experiment station for 1894 and 1895, when he resigned to attend the Agricultural college for one and a half years, ending in June, 1895, and as a result of civil service examination was appointed an engineer's aid in the reclamation service in the department of the interior. In November, 1895, he became assistant engineer in the reclamation service at the San Joaquin station, and was transferred from the department of the interior to the office of experiment station in the department of agriculture. He took charge of government work in Utah in January, 1896, and was elected a member of the American Society of Civil Engineers in February, 1896, and was transferred for the season from Utah to Montana under co-operative agreement between the departments of agriculture and the state of Montana, March, 1895, and was promoted from assistant in irrigation investigation to irrigation engineer.

#### PROF. McLAUGHLIN.

Walter W. McLaughlin was born Jan. 6, 1859, receiving his education in Colorado and California. He attended the Salt Lake seminary in 1888, and entered the Agricultural college in 1895. While at the college he was employed as student assistant in the chemical laboratory, also as assistant to the instructor. He graduated from the Agricultural college with the degree of B. S. in civil engineering. He was an instructor in mathematics at the Agricultural college for one and a half years, ending in June, 1895, and as a result of civil service examination was appointed an engineer's aid in the reclamation service in the department of the interior. In November, 1895, he became assistant engineer in the reclamation service at the San Joaquin station, and was transferred from the department of the interior to the office of experiment station in the department of agriculture. He took charge of government work in Utah in January, 1896, and was elected a member of the American Society of Civil Engineers in February, 1896, and was transferred for the season from Utah to Montana under co-operative agreement between the departments of agriculture and the state of Montana, March, 1895, and was promoted from assistant in irrigation investigation to irrigation engineer.

#### PROF. YODER.

Prof. Yoder is a native of Indiana and was born in 1863. Until he was 11 years of age he attended the district schools and worked on his father's farm. He then commenced to get a higher education and when 16 years of age he began studying law. He was graduated from the Indiana State Normal school in 1884. During the last two years of his presence in that institution he was recognized for his faithfulness and made assistant in the laboratory work of the school, being particularly able in chemistry and physics. He graduated from the University of Chicago. He remained there for a year and a half and was granted a leave of absence to go to Germany for further advanced work. From there he returned to the United States in 1891 and went into the service of the Agricultural college where he has been until the present time.

#### HIT WITH A HATCHET.

Father Defends His Son by Badly Wounding His Assailant.

At the gravel pit on Capitol hill there was a row yesterday which resulted in one man receiving rather serious injuries.

Bert Thomas is the name of the injured man, and the man who inflicted the wounds was Mr. Saine. The weapon used by the latter was a hatchet.

The row began over some feed, however. The son of Saine's boy, however, started to give him a whipping when the father seized a hatchet and started to the rescue. The two men engaged in a wordy war and then came

## The State Chemist, Herman Harms, Ph. G. Says of THREE CROWN

### BAKING POWDER.

"I have purchased in the open market, a can of your 'Three Crown Baking Powder' and submitted same to a careful chemical analysis.

Have found the powder to be a "PURE CREAM OF TARTAR BAKING POWDER," absolutely free from Alum, Lime, Ammonia, or other foreign admixtures.

All of the ingredients are of the purest quality obtainable and combined in proportions to make the powder of exceptional high "leavening" strength."

Respectfully,  
HERMAN HARMS."

to blows. Thomas received a stinging wallop on the nose, and started in to finish slapping when the latter sprung the hatchet, catching Thomas on the head. The latter went down and out, and was "out" for a long time. He received an ugly wound, which bled freely.

Thomas was taken home and word was sent to the police station. The patrol wagon went to the scene of battle but no arrests were made.

### HOLD-UPS HELD UP.

Officer Brown Turns the Table on Three Highwaymen.

While on his way home at an early hour this morning, Police Officer J. D. Brown observed three men skulking in the shadow of trees on Fifth South between Second and Third West streets. It was evident to the officer that the men proposed to hold him up, but Brown had different ideas, and an ugly looking Colt's gun, which he is not at all backward in using, came to his rescue.

The men started for Brown, but he drew the gun on them and did a little hold-up on his own hook. One of the men broke and ran, and as Brown started for the other two another made a dash for liberty. Brown called out to the fellow that he would be after him if he attempted to get away. The fellow was taken to the station, locked up, and the others are now looking for the other two. The prisoner gave the name of Jerry Kelley.

### MAUDE AND MRS. ADAMS.

They Will Send a Check for \$50 to the Veteran Actor, Phil Margetta.

Manager Fifer of the Salt Lake Theater received through Mrs. Eddie Price the other day a check for \$50, with the request that it be handed to the veteran actor, Phil Margetta, with the compliments of Maud Adams and her mother, Mrs. A. A. Adams. At the time of Mr. Margetta's recent testimonial benefit, both ladies were away from home, and news of the event did not reach them till after it had transpired, otherwise their offering would have gone to the receipts of the night. Mr. Fifer promptly wired to Mr. Price to check to Mr. Margetta, who, needless to say, received it with pleasure, as was heightened by the knowledge that he was still remembered by associates of the old pioneer days of the drama, Maudie Adams, and by her world-famous daughter, Maude.

### CHURCH NOTICES.

Regular services of the Church of Jesus Christ of Latter-day Saints will be held in the Tabernacle at 2 p. m. tomorrow, Sunday. Sunday school at 10 a. m., and meetings in the city ward assembly rooms and adjacent wards as follows:

### WEATHER REPORT

Record at the local office of the weather bureau for the 24 hours ending at 4 a. m. today:

Barometer reading at 6 a. m., 26.73 inches. Temperature at 6 a. m., 63° Maximum temperature, 57° minimum, 60° mean, 74, which is normal.

### FORECAST TILL 6 P. M. SUNDAY.

Local forecast for Salt Lake City and vicinity:

Fair tonight and Sunday.

### WEATHER CONDITIONS.

Precipitation occurred over portions of the British Northwest Territory, Rocky Mountain slope and eastward to the Atlantic coast with heavy rainfall as follows: Athabasca 3.16 inches, and Jacksonville 3.04. Thunderstorms were quite general over the rain area. It was raining this morning at Rapid City, Abilene and Oklahoma. The temperature changes were unimportant as a rule.
