DESERET EVENING NEWS: SATURDAY, JULY 21, 1906.

Convicted Murderer Tries to Kill **His Wife Then Commits** Suicide.

DROPPED DEAD ON SIDEWALK.

Something of the Career of David Gallefent Who for Years Has Been A Source of Terror.

After a fierce but futile attempt to take the life of his former wife, David Gallefent sent a bullet crashing into his own brain and fell dead at her feet. The terrible deed was committed on State street, just below Third South, about 6:30 o'clock last evening, when the thoroughfare was thronged with clerks and business people on their way home. The man had his arm around his intended victim's neck, and pulled the trigger of the pistol three times. Twice the weapon responded only with a click, and the third time exploded. Mrs. Gallefent was defending herself as best she could, and succeeded pushing the revolver aside just as the shot was fired. The bullet missed its niended mark and was imbedded in ; ale of hay that lay upon the sidewalk Perhaps thinking that the shot had taken effect in the body of Mrs. Gallefent, the man turned the weapon upon himself, and a moment later was dead.

RUSHED TO WOMAN'S RESCUE.

Just before the fatal shot was fired,

J., C. Bean, who was passing, was has-ioning to the woman's rescue, and this ubtless led Gallefent to abandor attempt to send her into eternity be-fore ending his own existence,

NOTORIOUS CAREER.

Gallefent had a notorious career. For is years he had been in the public eye as an all-around had man. His criminal acts began with the killing of a human being, and ended with self-murder. For the pality sum of 35 cents Gallefent murdered a blacksmith named Fowler, under bruta; and cowardly circumstances. The blacksmith had shop across the street from a butcher shop run by Gallefent, the latter establishment being located where the New Grand theater now stands. The o men had a quarrel over the payment and the butcher was struck by Fowler. Going to his shop, Gallefent secured a revolver and went after the man who struck him. The latter was shoeing a hores and had the animal's leg across his knee, when he was shot five times in the back by the butcher. Gallefent was tried for murder in the first degree, but was convicted only of man-slaughter. His sentence was five years in the state prison, and when he had served little more than half of the term, he was pardoned

through the strenuous efforts of the faithful woman who he has abused ever since and who he yesterday tried to murder.

EVER IN TROUBLE.

From the day of his exit from the prison to the time of his death David Gallefent never was out of trouble and seldom out of fall. He drank, caroused and fought, at home and away from home. He abused the patient woman and brutal to his children. When Mrs. Gallefent could stand the cruelty no longer, she sought relief in the divorce court. The Gecree was granted some weeks ago. If is thought that Gallefent sought for a reconciliation yesterday, and failing attempted to murder the woman and then killed himself. There are six children in the Gallefent household. The mother worked hard to sustain herself and family, and was assisted by her sons and daughters who were old enough to work. She sadly deplored the track ending of the life of the man who had wrecked her life, and said all the good of him that she possibly could when he lay dead.

COUPLES PUT ASUNDER.

Judge Morse Breaks Bands for Unhappy Men and Women.

Judge Morse vesterday afternoon granted four divorces during his regular weekly divorce grind. The plaintiffs in the following cases were granted decrees of divorce: Martha Gough against Richard H. Gough, non-support and drunkenness. Plaintiff was awarded alimony in the sum of \$40 per month and attorney's fees amounting to \$50. Gough was cited for con tempt of court for failing to appear when ordered and show cause why he should not pay his wife temporary alimony.

James M. Hansen, Lake Shore; Sarah A. Rust, Payson. John C. Butler, Park City; Winnle May Tucker, Park City. teresting. Benjamin Goddard expressed to Mr

Meakin the appreciation felt for the vigorous manner in which he defended the maligned people of Utah against the assaults made upon them by a certain class of papers and individuals. Mr. Meakin responded in a happy vein. Refreshments were partaken of, and

the remainder of the evening was pass-ed in listening to vocal and instrumenselections, and readings by Mr. Meakin.

DAUGHTERS OF PIONEERS.

You are one and all invited to old-fashioned rag-bet at the Lion House, relic room, Aug. 4, 1906, at 10 o'clock in the morning. Please bring your pleake and two pounds of rags ach. We want to carpet our room. All members and prospective members invited

the Priesthood is desired. HUGH J. CANNON.

CITIZEN TELLS HOW A UTAH EDITOR MIXES THINCS IN NAVY

To the Deseret News:

In last Monday's issue of the Evening Telegram the editor of that enterprising paper, under the heading of "Plans for Fighting Ships," quotes a few extracts from an article in the Army and Navy Gazette, and taking these for his text, starts his commentary as follows: "The writer forgets one thing-the

Idaho is a sister ship of the Oregon. The Oregon won the battle off Santiago and the Idaho was helpless. Capt. Clark was on the Oregon and Com-mander Bob Evans was on the Idaho." etc

Having spent the greater part of my life on the Atlantic coast, I have taken great interest in the growth of our new navy since the launching of our finest "White squadron," and kept a record of all of Uncle Sam's battleships and cruisers, and the order in which they were launched. I take exceptions to having our new navy mixed up in the above manner by the editor of the Telegram. I wish to kindly inform the editor that the Idaho is not a sister ship of the Oregon. The Idaho is a sister ship of the Mississippi, and these and ready for commission under a year. Therefore, the Idaho could not have been at the battle of Santiago. Year. Capt. Evans (now rear admiral) com-manded the battleship Iowa at the bat-tle of Santiago, and if the editor of the Telegram told Fighting Bob that his ship was helpless during that scrap I know what Rob would say; but I will not write it.

The Oregon is a sister ship of the Massachusetts and the Indiana, and (excepting the old second class builtship Texas) were the first buildeships built for our navy. They are each 10.-000 tons displacement and 2,000 tous smaller than the new Idaho and Mississippi now in course of construction These three ships Oregon, Massachu setts and Indiana-were not built for sea-going battleships, but for coast de-fense ships, and were constructed with a very low freeboard, their decks being not much higher from the water than the deck of the big monitor Puritan, and when running in a heavy sea their decks were submerged most of the time. The unpleasantness with Spain forced Uncle Sam to use the Oregon and her sister ships for scagoing bar-tleships, and all three proved able sca-boats for ships of their class. This war also opened Uncle Sam's eyes to the necessity of a fleet of first class seaof the war 15 first class sea-of the war 15 first class sea-going bat-tleships have been added to the United States navy, namely: The Kearsarge and the Kentucky, of 11,000 tons displacement. (These two ships were the first to be constructed with superposed Salt Lake City, July 2

bank and the Wisconsin, sister ships of 11,000 tons displacement; th hew Maine, the Missouri and the Ohio sister ships of 12,060 tons displace-ment; the Virginia, New Jersey, Georg Ia, Rhode Island and Nebraska, of 15, with superposed turrets. The Nehras ka, built at Moran's yard, Seattle, h practically completed, but not yet fa commission. The next addition to the

the Mississippi, sister ships, of 13,000 tons displacement, and the New Hamp ship of the Oregon. The Idaho is a sister ship of the Mississippi, and these two ships have been launched but a few months and will not be completed few months and will not be completed

were originally designed. As Uncle Sam new has a good fleet of seagoing barrie-ships and armored crutsers, it will nev-

with out latest fighting machines. FRANK J. EMERSON.

Trying to Live Down a Bad Name.

Missouri outlaw, is now a full-fledged

lawyer. He recently passed a successful examination before the Misscuri state board of examiners, and was enrolled in the courts of that state as an attorney-at-law.

In a class of thirty-seven Jesse James stood first. His average in all branches was 91 per cent, says the San Francisco Call. Henry A. Ashley, chairman of the boord of examiners, said after the examination that Jesse James had the brightest legal mind of any young man who ever appeared before the board.

Jesse James is a self-made man. He was handleanned as few hovs are. The of an outlaw, he was left an orphan at 6 years of age, without money and with a bad name to live down. Soon after the burial of his father his mother went to Kansas City and made a living for herself and her two chil-iren by sewing. Jesse went to school intil he was 12 years old, when he deded that he was old enough to work for his mother. One Sunday he saw the following advertisement in a newspa-

tunnels, carrying two 13-inch and two 8-inch rifles in each turret.) These were followed by the Illinois, the Ala-906 tons displacement, and constructed baitleship fleet was the Connecticut and the Houislana, sister ships of 16,000 tons displacement. There are now six battleships in course of construction-the Idaho and

shire, the Vermont, the Minnesota and the Kansas, each of 16,000 tons dis-placement. Resides these ships there were two battleships of 16,000 tons dis-placement, authorized in 1805, the keels of which have not yet been laid down. The fact that England had launched a Dreadnaught of 18,000 tons, to carry 10 or more 12-Inch guns, caused the navy instead of four. Also a short time be-fore the adjournment of the last see-sion of Congress a may Constitution was authorized to be built, in order to keep abreast of England and Japan; and although the plans for this ship are not yet drawa, it is safe to say that Uncle Bam will show John Buil and the mikado that they cannot be the "biggest toads in the puddle." The famous old Oregon and her sis-ter ships we learn are to be added to the coast defense fleet of monitors and torpedboats, the place for which they were originally designed. As Uncle Sam

et again be necessary to send these ald ships to a foreign station.

Since the Oregon and her sister ships were built, great improvement has been ande by Uncle Sam in the construc-tion of heavy guns, and the new 12-inch times with which our latest hartbeships are provided, throw a projectile with much greater velocity, and by im-proved mechanism are more quickly manipulated and more rapidly fired than the old 13-luch rifles carreld by the Oregon. Massachusetts and Indiana. Also for a secondary battery a new rapid-firing 7-inch rifle has taken the place of the 6-inch rifle caried by our older ships. This rifle will throw a projectile with greater velocity, and is more rapidly fired than the old 8-inch rifle. Therefore, taking into consider-ation, the great improvements in ships and ships the ships of the ships of the ships of the ships in the ships of the shi and guns, the Oregon, although a for-midable ship, is not to be compared

Jesse James, son of Jesse James, the dissouri outlaw, is now a full-fledged awyer. He recently passed a suc-essful examination before the Misthe crime of train robbery. It was charged that he, with accomplices, had held up a Missouri Pacific train and robbed the safe in the express car of \$59,000. It was a dramatic train rob-bry, as much so as was ony of the robberies of a similar nature which ad made his father's name notoriou

throughout the world. He was tried. was ably prosecuted and was ar But the criminal charge against him was a serious setback to his hopes and ambitions. It had taken all his

Jesse worked harder than ever at his business. He had a chance to sell out

PE-RU-NA RECEIVES PRAISE For Relieving Such Symptoms as Debility, Backache and Headache.

THERE are a great many phases of Of the vast multitude of women Dr. woman's allments that require the Hartman cures annually, only a small assistance of the surgeon. But by far the greatest number of

such cases are amenable to correct medicinal treatment.

No surgeon in the world has relieved so many women from the different phases of ailments peculiar to woman. kind than Dr. Hartman through the use public print. of Peruna.

He receives many letters from all parts of the country relating to subjects of vital interest to womankind.

States of the st

per cent. of them consider it necessary to write to the Doctor at all. Not one in a thousand of these for-

tunate women report their success. Of those who do write testimonials, only a very small per cent. are ever used in

While it is not affirmed that Peruna will cure every case of this kind, it is certainly the part of wisdom for every woman so afflicted to give Peruna a fair trial. Her chances of relief are so many that any woman would be doing herself an injustice to neglect such nity of relief.

Mrs. Emma E. Gildner, 729 Santafe Ave., Denver, Col., Financial Secretary Germania Order der Haragari, writes: "Peruna has been a great blessing to me. I suffered agonies with severe headaches and a weak back and could hardly drag myself around.

"A friend who was visiting me was taking Peruna for the same trouble and induced me to try it. I soon found that I was being helped and in less than Very Precatious Condition, Mrs. Lutie Ward, 617 Tracy Ave., Kansas City, Mo., writes: "A few years ago my health was in a very

precarious condition, the result of womb trouble and general debility. I suffered a great deal and was glad to try Peruna when it was recom mended to me so highly. I found it very beneficial. In a short time the pains greatly decreased and in two months I was completely restored. I am pleased to endorse it."

Mrs. Louis Lacomb, Hayward, Wis., writes:

IN LUTIE WARD 9

Very Precarlous Condition,

"I have followed your treatment as closely as I could and **am now entirely** well. We had two doctors and one said that I would have to have an operation performed before I could regain my health,

"We then decided to write you as to my condition, as I had been suffering nearly a year with severe pains and headeches at times so that I could searcely stand up.

"Now I feel so well after a short treatment with your remedy, and am so grateful that I do not know how to express my thanks.

"I thank you many times for the kind advice I have had from you."

ind ambitions. It had taken all his savings to hire lawyers to defend him-relf, and the worry had caused his mother's health to fall. Soon after-

MET AT THE MEAKINS.

Friends Appreclate Good Work Done In East by the Professor.

A number of the friends of Mr. and Mrs. John P. Meakin dropped in upon them last evening at their home, near the corner of Fifth and L streets, and a most enjoyable time was had until a late hour. The gathering was occasioned by a desire on the part of the visitors to show their appreciation of the good work that has been done by Mr.

Meakin for Utah and her people during his recent visits to the east. The host told many amusing stories

***** Found on the Skin Phosphate Direct from the Brain # We know that active brain work

throws out the phosphate of potash, for this product is found on the skin after excessive brain work, therefore, brain workers, in order to keep well, must have proper food containing phosphate of potash to quickly and surely rebuild the used-up tissue. That one can obtain such food has been proven in thousands of cases among users of Postum Food Coffee and Grape-Nuts.

Both contain phosphäte of potash in minute particles just as it is fur-nished by nature in the grains.

This product makes from albumen the gray matter that builds the brain and fills the nerve centers.

In no way can this gray matter be made except by the action of phosphate of potash upon albumen, and this mineral should be introduced to the this body just as it comes from nature's laboratory, and not from the drug store. The system is more or less fastidious about taking up the needed elements, and, as might be suspected, it will favor the products of Mother Nature than the products of the drug ship, however valuable they may be for

certain uses. Athletes, lawyers, journalists, doctors, ministers, business men and others, who earn their living by the use of the brain, are using both Postum Food Coffee and Grape-Nuts food. Both products are manufactured for a reason. They were originated by an expert, and the regenerative value of both the Postum Coffee and the Food has in demonstrated beyond question. All first-class groc rs sell both Postum and Grape-Nuts, and the Postum Cereal Co., Ltd., manufacture them at the Battle Creek factories.

In New Quarters.

Dr. C. W. Higgins, the avel known specialist, has now filed up one of the finest suites of rooms in the city, and has installed every modern conventence

known to the confort loving connois-sets. This is no bold missisfement, and as seeing is bolicving, his old friends

will be agreeably surprised at the new spaclous and up-to-date office. The air

of prosperity that pervadas every nock and corner breathes success, and sure-ly the doctor has been successful. This no one can deny. There was a time when no one could hoast finer horses

than the doctor, and most of his favor-ites are photographed, handsomely framed, and still keep him company as they hang from the walls. The doc-tor stated that it was like leaving bone indeed to be the the doctor
