Correspondence.

PINTO, April 17, 1871.

Editor Deseret News:—Dear Brother:
—On Friday the 14th, I visited the Iron
works in our Ward, and saw the breth-
ren actually making iron. After some
three years hard struggling, success
has crowned their efforts. I saw several
tons stacked by the works, and they
were tapping the furnace at regular
intervals, and running out some eight
hundred pounds every eight hours.
No interruptions or stoppages by non-
fluxing or chilling or uncontrollable
obstructions occur, as perplexed the
brethren at Cedar City years ago; but
everything seems to work very satis-
factorily. Bro. Richard Harrison
of this place was present, a man
long experienced in moulding
iron in England, and he pro-
nounced the iron No. 1. Bro. Adams,
Bishop of Adamsville, who is their
furnace manager, and has had a long
experience in the business in England,
calls it the very best of iron. Their
blast is blown by a small steam engine,
imported from the East at considerable
cost. The members of the company,
few in number, have labored hard and
long to bring about the present result.
There are some dozen or fifteen hands
at work, running night and day, and
when the material on the ground is
used up they will be compelled to stop,
and blow out the furnace, not having
hands or capital enough to keep it run-
ning and supply it at the same time.
The company is making arrangements
to cast the iron into useful articles,
such as hand irons, sad irons, hollow
ware and stoves, and show to the
people in Utah and the world that the
manufacture of iron in Utah is a fact.

As I said, the few that stuck to the
enterprise have labored hard, and have
become somewhat reduced in circum-
stances, but as success has attended
their efforts, they are quite elated in
their feelings at the prospects of the
future. The company is organized on
the co-operative principle, with Bro.
Ebenezer Hanks as President, who is
quite a business man. Bro. Homer
Duncan is vice-President, with good
men for Directors. Bro. Seth M. Blair
is Secretary.

This enterprise is worthy of being
pushed forward, as we need cast and
wrought iron and steel; and if it be
manufactured in the Territory it will
enable us to keep the means at home
that we now send abroad, and thus
take another step to live within our-
selves. Here, then, is a good opportu-
nity for some of our capitalists to invest
their wealth, enrich themselves and
build up the country. The production
of iron here is no phantom, but is a
fact, and I am told the ore is inexhaus-
tible and very rich, giving at least 75
per cent., and the fluxing material is
near by. Stone coal is found near by, a
little of which was shown me; and
there are thousands of acres of cedars,
good wood to make into coal near by,
so you will perceive that all the materi-
al wanted to carry on iron making on a
large scale is here. I hope to see the
time when all the iron that is needed
for railroads, quartz mills and domestic
use will be produced in our midst. I
understand a specimen of this iron is to
be sent to President Brigham Young's
office and you will have the pleasure of
seeing it yourself.

A few words with regard to other mat-
ters and I will close. Grasshoppers are
hatching out thick, rendering the
prospects for farmers rather poor. We
shall soon have our co-operative dairy
in operation, and be able to produce a
large quantity of butter and cheese of
good quality.

Hoping you and yours are well, I re-
main, yours in the gospel,
RICHARD S. ROBINSON,
Bishop of Pinto.

FEED SHORT IN CALIFORNIA.—In conse-
quence of the shortness of feed for cattle
in California, large herds are being shipped
from some parts of that State to the sage-
brush plains of Nevada to be fattened for
market.

DIED.

At Scipio, Millard Co., April 9th, Rachel
Williams, aged 84 years. Deceased was a
native of South Wales. She came to this
country in 1854. She lived the life of a good
faithful Saint.—[Com.]

Millennial Star, please copy.

At Clarkston, Cache county, April 19th,
George Sparks. Deceased was born in Wor-
cester, England, Feb. 21, 1840, and emigrated
to this country in 1860. He died in full faith
of the gospel. The brethren of Clarkston
turned out en masse to follow his remains
to the place of interment.—[Com.]
