THIRTY-NINTH SEMI-ANNUAL CONFERENCE.

Wednesday, 2 p.m.

The meeting was called to order by Pre-ident Young. The Tabernacle Choir sang the Hymn on page 115, commencing "On the mountain tops appearing."

Prayer by Elder Horace S. Eldredge. The Tabernacle Choir sang the hymn on the 199th page, beginning "The glorious day is rolling on."

Elder OBSON PRATT addressed the Conference. During his absence from this city he had neglected no opportunity to meet with the few Saints who live in Williamsburg, It was with the Saints that he had joy, for ever since the Church was organized God has been day. The work in which we are now with us, At its commencement it only comprised six members. God gave revelations in relation to the Holy Priesthood to those few individuals. In the year 1831 He gave additional revelations concerning that Priesthood and its power, and new councils were organized. Then the Saints were in experienced and were liable to be led astray by spirits not of God; some pretended to have manifestations and revelations for the purpose of leading the Church. The Lord declared in a revelation that the Saints were not to be led by those influences, and said that He had appointed His servant Joseph, through whom he would lead His people. He directed that the Quorum of the Twelve Apostles should be organized, whose business it would be to preach the gospel to the nations, to the Gentiles first and then to the Jews. The Priesthood were called together after the building of the Kirtland Temple, and, in speaking of the Twelve Apostles, the Prophet Joseph said they had received the Apostleship with all the powers per taining to the same, just as the ancient Apostles; in this God had fulfilled His word to His people-He had bestowed upon men all the power and authority necessary was for the people to select one to preside over them who had already received an ordination to the apostleship, which is the highest authority ever bestowed upon man. If the people had not been satisfied with the selection that was made, I would not see before me this great congregation. There may be many people here who have never investigated the nature and authority of the Holy Priesthood. Many revelations have been given; one was given instructing the Saints to build a house to the name of the Lord in which revelation it was stated that if His people would go to work with all their might to build that house, and that, should their enemies come upon them and drive them and prevent them from fulfilling that work, He would no longer require that work at the hands of His servants. God has permitted us to be driven many times from our homes, but He has never taken from us the priesthood and kingdom. There is every evidence that can be desired that all the authority of that priesthood has been and is now with us. It is stated in the Book of Mormon that if the people of this nation rejected the gospel, He would take it from their midst. We had to leave our homes in the east before this prophecy could be fulfilled. It is still being fulfilled. The people are coming from the nations in hundreds and thousands. He heartily endorsed those great co-operative movements that had been introduced into the midst of the Saints. Unless we manufacture and export we will be unable to keep among us a circulating medium. May God grant that His blessings may be with all his Saints. Amen. President BRIGHAM YOUNG delivered a short but very interesting and ina short but very interesting and in-structive discourse, in which he gave Bishop John Stoker, Bountiful some interesting facts concerning the Bishop L W Hardy, 12th ward benefits arising from the system of Cooperation, and other matters of importance. His remarks were reported in full and will shortly be published.

only wisdom here." Prayer was offered by Elder Brigham Young, jun. The Tabernacle Choir sang "Give ear

to my Words." Elder LORENZO SNOW spoke. We are peculiar and distinct from all other people. What we do, we perform in the name of the God of Israel. When Moses was selected to lead the ancient people of God, he was clothed upon with the authority of Heaven; so it is in this engaged did not originate in the brain of any individual. The Almighty is the originator of it. The work which is called by our neighbors" Mormonism," is admired in its effects by many; they admire the prosperity of the Latter-day Saints and the peace and quiet which reigns throughout our cities and settlements which are not equalled anywhere else; but when it is said these excellent effects are produced by the Latter-day Saints performing all things in the name of the Lord, the world does not like it. If we professed to actas the world does, in our own name only, they would say all right, Probably if Jesus had come to the Jews in his own name, instead of John Thornton, Farmington the name of his Father, he would have T B Foote, Nephi hean received with open arms. Thos Jackson, Payson

The gospel has accomplished much for the temporal salvation of the Latterday Saints. Thousands have come from the old countries who, before obeying the command to gather, were living un-der bondage and in poverty. They were dependent on the fluctuations of trade and the whims and caprices of their employers for their daily bread. They have come here and been able to lift themselves above that condition. Philanthropists admire this, yet they do necessary to carry on the building up of the kingdom of God. When Joseph vidual goes to the nations and declares not like the fact of it all being done in that he is a missionary from America, it is considered nothing surprising, but when he asserts that he has come in the name of the Lord, to deliver all who will receive his message, from their condition of bondage, and declare to them that, if they will obey the principles taught by him they will know for themselves that he is not an impostor, that there need be no deception, his message is not received. This work is the work of the Almighty, and it is His business to sustain it, and as long as we do right, we shall be sustained in our efforts to promote His cause. If, in our labors having this end in view, we do things that are disagreeable to other people, we can-not help it; we must do as the Lord directs at all hazards, and we must worship God in the way He has appointed. It would doubtless be agreeable to us when we go forth to declare the truth to the people, if we were received pleasantly, yet, if it be otherwise, we must nevertheless go forth in the name of the Lord. If we are faithful, the work cannot be hindered in its progress, but will surmount every obstacle and come off triumphant; which may God grant for Jesus' sake: Amen. The Brigham City Choir sang "My own loved Deseret," in a very sweet and tasteful manner, reflecting great credit upon the training of their leader, Bro. Fishburn. The names of the following brethren were presented to the Conference, by Elder Geo. Q. GRAND MASS MEETING OF THE CITIZENS OF UTAH!

THE MASS MEETING appointed for this afternoon, convened at 4 o'clock at the New Tabernacle, which was crowded with a most enthusiastic assembly of the citizens of the Territory, and was called to order by the Hon. Daniel H.

Wells, Mayor of this city.

President Brigham Young motioned that Hon. Geo. A. Smith, President of the Territorial Legislative Council, be Chairman of the meeting, which was unanimously carried.

Hon. Edward Hunter, of Salt Lake City, General Erastus Snow, of Washington Co., Col. Peter Maughan, of Cache Co., Hon. Charles C. Rich, of Rich Co., and Hon. Thomas Callister, of Millard Co., were then chosen Vice Presidents. On motion, Geo- Q. Cannon, T. B. H. Stenhouse and Geo. Reynolds, Esqs., were chosen Secretaries, and David W. Evans, E. L. Sloan and -Grimshaw, Esqs., Reporters.

The chairman then, in brief and appropriate terms, stated that the object of the meeting was to memorialize Congress for the admission of Utah Territory into the Union as a State. After which Hon. Daniel H. Wells

presented the following resolution, which was unanimously carried:

"Resolved. That a committee of thirteen be appointed to draft a Memorial to Congress for the admission of this Territory as a State."

On motion the following gentlemen were selected as said Committee.

Hon. D. H. Wells, Salt Lake City Hon. Jeter Clinton, Salt Lake City Hon. Brigham Young, Jr., Salt Lake City Col. David McKenzie, Salt Lake City Hon. Lorenzo Snow, Box Elder Co Col. Wm. H. Dame, Iron Co Hon. Francis M. Lyman, Millard Co Gen. Albert K. Thurber, Utah Co Hon. Orson Hyde, Sanpete Co Gen. F. D. Richards, Weber Co Judge Hector C. Haight, Davis Co Hon. Abram Hatch, Wasatch Co Capt. David P. Kimball, Rich Co.

The Chairman then instructed the Committee to retire and prepare the necessary Memorial. During the absence of the Committee several speeches were made, setting; forth in eloquent language the necessity for the agitation of the subject of aumission into the Union, and, that Utah, having been settled upwards of twenty-two years,

ing nature's fertilizing elements over an area of some eight hundred thousand acres of what was once a parched and naked desert. We have erected and paid for over five hundred miles of telegraph line, and we have graded about four hundred miles of the Pacific Railroad. We have established cities, towns and villages, and our two hundred grist mills, our cotton and woolen inctories, cocooneries, tanneries, and our manufacturing houses in every department of art, speak in language unmistakable of our enterprise and industry; 'while, at the same time, the Territory is not only free from debt, but the county and city local scrip is held at par with the currency of

the United States. Liquor and gambling houses and their kindred temples of vice are comparatively unknown, while, on the other hand, at least ninety-five per cent. of our families dwell in their own houses. These facts are indications of the rapid

growth of a prosperous, virtuous, and in every sense au intelligent and valuable community, worthy of a voice in the election of their rulers, and competent to rank in the family of States.

Your memorialists feel that a Territorial form of government is at best an oppressive one; that it is a relic of the old colonial form which our fathers, unable longer to tolerate, threw off, because of its injustice, exaction and tyranny. It is a form of government subversive of the fundamental principle of American liberty that "governments derive their just powers from the consent of the governed." The practice of Government has been to select and appoint officers from distant States, men unacquainted with the habits, laws and necessities of the people who, to

a greater or less degree, would be under the influence of the traditions, habits and customs of the State or country from whence they came, and which might be totally inapplicable to the Territories. If, under these circumstances, any attempt should be made to force unpopular measures upon the people, the result must be a conflict of feeling, and distrust and enmity are at once created which should not, and under other circumstances, would not exist. If a Territorial government can be consistent with a republican government, it is when the wishes of the people are consulted respecting their officers; but not while the right of absolute veto may be exercised upon every act of their Legislature by an officer who may be obnoxious to the people.

Therefore, as these considerations only serve to prove more fully the unfitness of a Territorial form of government for the ople of this Territory; and that it is unsuited to our present condition and subversive of harmony between us and the General Government, we, the people of Utah, in mass meeting assembled, do once more make an earnest and solemn appeal to the Senate and House of Representatives, relying on their magnanimity and sense of justice for a dispassionate and unprejudiced consideration of our claims for a speedy admission into the Union upon an

Elder ORSON HYDE was the next Bishop Charles S Peterson, Weber City speaker. He rejoiced in everything Bishop Alex F Barron, Panacca that tends to the defense of the Kingdom of God. If the Saints take head to the counsels of the servants of Ged he did not opine that any serions inroads would be made by any power that might be arrayed against the Zior of God. There are living witnesses that lived and associated with the Prophet Joseph, and will continue to live and Bolivar Roberts, testify to the truth until the Kingdom Henry Houts, can take care of itself, and till that time E T Browning, 7th God will take care of it. At one time the Prophet Joseph said that he would shortly rest from his labbors and exclaimed: "I now roll the bbors and exclaimed: "I now roll the responsibility of bearing off this king-dom on the shoulders of the Twelve Apostles." We did not think then that he was so soon to be taken from us. After he had been taken away, when the Twelve returned to Nauvoo, a meeting was appointed. President Brigham Young went to the stand, most of Elisha H Davis, Lehi ham Young went to the stand, most of the rest of the Twelve dispersed them-selves in the congregation to learn the feelings of the people, and when Presi-dent Young arose to speak, his voice, gestures, his features, his form, and even his stature was Joseph's. There are many who can testify to this fact as well as myself. Here was evidence that monited no argument to prove that Presiweil as myself. Here was evidence that required no argument to prove that Pre-aident Brigham Young was the chosen of God to lead Iarael, for here was Joseph in the porton of Brigham. We need have no fears as to who should lead the Church, for whatever may happen, the Lord makes manifest his choice in so plain a manner that it can be comprehended even by a child. It is the constitutional right of Presi-dent Young to wield all the influence over the people of this Territory that he required no argument to prove that Pre-sident Brigham Young was the chosen of God to lead Israel, for here was Joseph in the porton of Brigham. It is the constitutional right of Presi-dent Young to wield all the influence over the people of this Territory that he can obtain. Many, when they see the influence wielded by our President, are jealous; they are not willing that a man

Elder WILFORD WOODBUFF addressed the Conference. Previous speakers have alluded to our past history. The doings of our enemies are recorded in the heavens and on the earth. Those things, are past, and we have a great future before us, for the set time to favor Zion has come. The Lord has promised that He will never forget Zion, and. He never will. Men may seek to overthrow this work, but they will never prevail.

I rejoice at the host of men of God who are going forth to this nation to call on the people to repent of their sins and turn unto the Lord, before His udgments are poured out upon the inhabitants of this country. It is the future that our mindsshould be directed towards, for Zion is not yet what it will be. In relation to being subject to the laws, there is an important consideration, which is, whether the law is righteous or not. For instance, if a law were in existence to the effect that we should not be baptized for the remission of sins, this would be in opposition to the law of God and it would consequently be wrong to obey it. We must obey the law of God at all hazards. It is right for us to obey every righteous law, and every principle which is consonant with the glorious Constitution of our country. We are required to build temples and attend to those ordinances that will unite us with the dead who have gone behind the vail before us, without whom we cannot be perfected, neither can they be perfected without us. It is our duty to labor and to pay our tithes to build the temple. Zion is arising. We have no time to lose. We must listen to the living oracles, without which we would be as lost sheep. He felt as an indi-vidual that he would be glad if the Lord should command that this people should not buy another yard of cloth anywhere until they had used up all now in the Territory. Let us do what s right, independent of consequences. Amen. The Tabernacle choir sang the hymn

The committee returned and presented. the following memorial which was read by the Secretary, Hon. Geo. Q. Cannon, and, on motion of Hon. Wm. H. Hooper, was unamimously adopted.

To the Honorable the Senate and House of Representatives of the United States in Congress assembled: We, the people of Utah Territory, in

presenting this Memorial before your honorable body, respectfully solicit your calm and dispassionate consideration, and such favorable action thereon as the justice of our cause demands.

In the year 1849, the people of Utah Territory organized the "Provisional Government of the State of Deseret;" a government republican in form, having a written Constitution, providing for Executive, Legislative and Judicial departments, for the election of its officers by the people, for revenue and all other things necessary in the government of a republican State.

Under this provisional government, counties were organized and elections held. The Legislature convened, passed laws suitable to our condition, and, at that very session, Congress was petitioned for our admission into the Union.

Subsequently, in 1856, we held a convention, and adopted a Constitution and Memorial, and elected our delegates, who presented them to Congress; but no formal action was had thereen. Again, in 1862, another convention was held, and another Constitution was adopted. This, also, was strictly republican; but, although properly presented to Congress, was never brought to vote.

The organization of the "State of Deseret" is still preserved, however, and, though petition after petition has been presented in vain, we are still full of hope, and all prepared for the change that shall convert on page 118, "How Beauteous are their us from our present colonial condition to the glorious dignity of a free and independ-

And what of the future? Here we are today, an organized republican State, in a country wrested by our battalions from a semi-barbaric foe, on a soil reclaimed by our industry from the sterile grasp of untold ages, and made fruitful for the support of a nation. Owing to the late hour in which the meeting was held, we are unable to give a full report of the proceedings, it not having adjourned when we went to press.

THEATRICAL .- Last night the play of "Cardinal Richelieu" was presented in grand style to a very good house. Mr. Warner excelled, if possible, his former very fine rendition of this famous character. He was well supported, Miss Lockhart, Mr. Hardie, Mr. Lindsay, and others playing in their very best style. In "Nan the Good-for-nothing" Miss

Annie Ward gave another evidence of her ability as a soubrette, she was perfectly at home, and kept the audience in a continual roar.

To-night "Macbeth" will be performed, with all the beautiful music and choruses. Mr. Warner will appear as Macbeth, Mr. D. McKenzie as Macduff. Other characters by the company.

This is one of Warner's greatest characters, and all who wish to see a vivid and aithful portraiture of this famous Shakespearian creation will have an opportunity of doing so to-night. The witch scenes, with the choruses and beautiful music, are an immense attraction.
