INSTRUCTIONS TO U. S. DELEGATES.

Participation in Moroccan Conference Based Exclusively Upon Treaty Rights.

MAINTAINS OPEN DOOR POLICY

Interest Does Not Stop There-Better Treatment for Jews Wanted--Against Monopolizing Public Services.

Washington, Jan. 16 .- What part will be played by the Washington government in the Moroccan conference now convening at Algeciras is clearly set forth in the instructions prepared by Secy. Root to the American delegates, Mr. White, the American ambassador at Rome, and Mr. Gummere, the American minister at Tangier. The instructions are included in a compilation of confidential correspondence relative to the Moroccan conference prepared at the department of state for the conventence and information of the American delegates.

At the outset of his letter of instructions the secretary announces that the participation of the United States in this conference is based exclusively upon its treaty rights with Morocco, a rearrangement of which is now pro-posed by the sultan, who has extended invitations to the United States and other powers signatory to the treaty of 1880 to join in a conference to discuss the manner for suitable reforms which the sultan has decided to introduce in his empire.

By the treaty of 1880, it is pointed out, this government is pledged the right of protection of a special class of native Moors. Further than this, the treaty rights of this government, it is declared, are confined to an equal share in whatever privileges of compares and protects. ever privileges of commerce and protec-tion of residence may be enjoyed by other foreigners.

As has been repeatedly announced by the department, the attitude of this government toward the policies of Mo-rocco is clearly laid down in the instructions of its delegates to the con-ference. The American delegates will have practically nothing to do with the solution of such problems, save to ex-press the hope that, whatever arrange-ments may be entered into, an equality of rights shall be guaranteed to the United States.

Organization, by way of an interna-tional agreement of the police outside the border region is the question of first importance to be considered at the con-ference and on this question the in-structions are clear and final. It is ex-pected the settlement of this question will open the way to the attainment of a far-reaching reform which will re-dound to the benefit not only of Morocco, but of all the powers concerned. The American delegation will endeavor to obtain such advantagse for American commerce, protection for life and prop-erty and such equality of trade rights as will effectively remove the barriers to foreign trade that have hitherto ex-isted, and make the door to commerce

of Morocco worth the opening.

They will impress upon their conferees the fact that while the Washington government believes in hearty indorsement of the principle of the open door, its interest does not stop there. This government desires not only that the door shall be opened to the world's trade, but that it shall be utilized in a way that shall prove beneficial alike to

forocco and to the treaty powers. Treatment of the Jews in Morocco is the subject of a special and supplemen-tary letter of instruction to the dele-gates. In this letter the secretary calls attention to the numerous and harsh discriminations imposed in Morocco against the Jews. The American delegates are instructed to devote their best efforts to obtain the removal of such discriminations and the hope is ex-pressed that these efforts will command the support of all the treaty nations.

With the suppression of the smug-gling of arms in the border regions between Morocco and Algeria, the Washington government is not so directly

Concerned.

On the question of financial reform, which is the second to be discussed, the instructions to the American delegates are confined to the general suggestion that the open-door policy will prove a In the consideration of this ! question, which carries with it no spe-

TIRED OUT.

There's many a wife sits in the growing shadows of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the

morning will find her. But it's another thing for the sick woman to sick woman to feel tired out. Rest only seems to increase her dering. She suffering. She feels acutely the aching back and throbbing nerves

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favor-ite Prescription. It establishes

regularity, dries weakening drains, heals inflammation and ulceration and cures female weak-

and ulceration and cures female weakness.

"I am pleased to inform you of the benefit
I received from using Dr. Plerce's Favorite
Prescription and Golden Medical Discoverry, "writes Mrs. Elizabeth A. Oswold, of 45
Brant Street, Windsor, Essex Co., Ontario,
Canada. "Was quite discouraged when I
wrote asking your advice, as the physicians
here told me I could get no relief except by
an operation. Suffered for four years from
irregular and profuse menstruation, had sick
and nervous headaches most of the time,
and at times could hardly walk across the
hoor from weakness. I thank God there is
such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had
taken the first bottle the headaches had left
me and it was not long before regularity was
established and still continues so. Have just
finished house-cleaning which I never expected to be able to do again, and can truly
say I never felt better than at present. I
gladly recommend Favorite Prescription
to all who suffer from female weakness. It
has cured me and made me stronger in every
way. Neither my husband nor myself can
say enough in its praise."

The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.

cial proposition for the establishment of a predominant foreign influence.

Nor is the United States concerned
with the third subject of the program,
the more economical collection of the
revenues and the establishment of new taxes or dues—unless commerce should be discriminated against or affected. Here, as in the discussion of the first subject, the American delegates are in-structed to insist upon equality of treatment for American commerce. trade,

avigation and individual activities.

The American delegates are instructed heartily to support the fourth sub-ject of the program, which has for its object the prevention of private mono-poly of the public services by letting them out of diverting them in some other manner which might prove injurious to the rights of the treaty pow

ers as a whole.

The delegates will be in constant touch with the department by cable and whatever decision they may reach will be subject to the approval of the de-partment. In the event that a treaty is agreed to, the American delegates will subscribe to it ad referendum, leaving the question of the approval of their acts to the consideration of the department of state, and if the department's approval should be given, leaving the resulting treaty to be passed upon by the American senate before its final

EX-CONVICT MAKES THREATS.

Des Moines, Ia., Jan. 16.-D. S. Clayman, an ex-convict, was arrested at the door of the senate chamber of the Iowa legislature this afternoon, charged with threatening the lives of Representative H. E. Teachout and Sentaor C. C. Dowell, because the lat-

He served out his time and then came to Des Moines, soliciting a job during the legislative session because, he said, he had served the state for 12 years. He also threatened to blow up house when arrested. It is believed he is insane.

MILITIA CALLED OUT.

Milford, Del., Jan. 16 .- A hurry call to prevent a mob breaking into the jail to take out John Long, a negro, accused attempting to assault Miss Flora oze, a schoolteacher, near here, yes-

SALOON MEN RETALIATE.

Minneapolis, Jan. 16 .- In retallation for the mayor's order closing saloons on Sunday, E. S. Cary, representing a faction of the liquor retailers, today served warrants on six theatrical people, charging them with violating the Sunday theater law. Arraignments will be made tomorrow.

How to Fool a Lazy Liver with Artificial Exercise

VERY serious Sickness has a small beginning. And, in nine cases out of ten that small beginning is

made in the Bowels. Indigestion is the beginning of most diseases.

It paves the way for all others, Lack of exercise, hasty eating, improper

food, are its first causes.

Laziness, and postponement, permits it to grow into Chronic Constipation, which means life-long Discomfort.

It isn't necessary to be sick-a-bed, you know, in order to be mighty uncomfortable.

Even slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

And, Indigestion once started, grows fast, corrodes temperament, and discounts happiness, good cheer, capacity,

It does that long before it puts you on the Sick list. Every thinking Doctor knows why.

. . .

Professor Rand knew it. That's why he framed up for students his famous formula for Happiness, viz.: "Trust in God, and keep your Bowels

The Bowels need adjustment from time to time, just like a clock, or a watch. No "Good time" is humanly possible

without this. And, the time to adjust the watch is not when it has run down, nor when the main spring is broken, but at the very minute adjustment is discovered necessary.

The time to adjust the Bowels is not merely when your Head Aches, when your Liver is Sick, your Stomach in Revolt, and Nature's Food Process retarded for 24 hours or longer.

The proper time to adjust them is the very minute you suspect they need adjust-

-If your tongue is slightly coated, -If your breath is under suspicion, -If your Head feels a trifle heavy or

-If digestion seems even a little slow, -If Heartburn, Belching, Colic or Restlessness begin to show themselves, -That's the time to eat a Cascaret.

Don't imagine the Cascaret is ineffective because it is pleasant to eat as Candy. It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your

It is not a "Bile-driver" which floods out your stomach today with fluid juices

needed for tomorrow. But, it acts like Exercise, instead.

It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically digest food and drive out the

The time to use a Cascaret is when you first suspect you need one.

The only way to have them ready to use precisely when you need them is to carry them constantly in your pocket, as

you do a Watch or a Lead pencil. The ten cent box of Cascarets is made thin, flat, round-edged, and small, for this

precise purpose. Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC."

IF FREE TO OUR FRIENDS! We want to send to our friends a beautiful French-designed, GOLD-PLATED EONBON BOX, hard-enameted in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this dainty trinket is loaded.

The Send to-day, mentioning this paper, Address Sterling Remedy Company, Chicago or New York.

UNITED AMERICAN MINE WORKERS.

Mitchell Tells Them Progress is Being Made Towards Conference With Operators.

DREW ROUNDS OF APPLAUSE.

Has No Use for Voluntary Advisers-Miners Should Share in Present Prosperity by Getting Better Wages.

Indianapelis, Ind., Jan. 16.-President John Mitchell's announcement this afternoon that "satisfactory progress is being made toward a conference between the mine-workers and the operators of the anthracite region" drew round after round of applause from 1,200 delegates assembled in Tomlinson hall for the seventeenth annual convention of the United Mine Workers of America, which began this morning. This announcement was made in the course of the president's annual report and address, almost as an inci-

dental remark. There was no further explanation in regard to the anthracite situation from President Mitchell, but the word of their chief was enough, and when, a few minutes later, delegates came in from the streets with a rumor that President Thomas of the Lehigh Valley company was reported to have said that the anthracite operators had agreed to hold a conference with the committee appointed by the mine-workers in their Shamokin convention, the enthusiasm knew no bounds.

In his annual address before the Mine Morkers' convention, President John Mitchell, in speaking of the policy to be pursued by the miners in the com-ing joint conference with the coal operators said:

operators said:
"You will recall the depression in
the coal trade in the fall and winter
of 1903, which culminated in a reduction of wages in the spring of 1904. The adverse conditions prevailing at that time continued during the year 1904 and even up to the spring of 1905. From that time on there was a gradual im-provement both in prices and tonnage, which has continued until the present and if the activity in the iron market in the railroad, industrial and com-mercial affairs of the country is any barometer by which future conditions may be forecasted the prospect of con-tinued prosperity in the mining indus-

try seems assured. "I recognize the fact that there is little sentiment and no philanthropy in the determination of our general wage agreement; however, it appears to me that inasmuch as we gave relief to our employes by accepting lower rate of wages at a time when there was little demand for coal and when prices were falling below a profitable margin, they should reciprocate and voluntarily share with us their present and pros-pective prosperity.

"I recommend that the scale commit-tee take these facts into consideration

in the formulation of their report. "In the opening paragraph of this re port reference was made to the ob-stacles we have encountered in the work of organization. Lest our language be misunderstood when we speak Clayman was sent to the peniten-tiary for wife murder 12 years ago.

guage be misunderstood when we speak of 'open foes and professing friends,' I desire, even at the risk of giving offense and inviting controversy, to say that we have been attacked from two

sources which one would expect to be liametrically opposed:
"First—We have had the intense oppesition of the Parry-Post aggrega-tion of union-wreckers, who have antagonized every effort we have made to organize the non-union needs of the country, especially the Erwin, Con-nellsville and Meyerdale districts of Pennsylvania, the George's Creek dis-

reinsylvania, the George's Creek district of Maryland, the state of Colorado and the two Virginias.

"Second—We have been opposed with equal vigor—although with different weapons—by an organization styling itself the Industrial Workers of the World, and by its principal affiliated World, and by its principal affiliated body, the Western Federation of Min-

The recognized spokesman of the organizations profess great solicitude for the welfare of the coal miners; they

for the welfare of the coal miners; they seek to convey the impression that the coal miners are so densely ignorant that they are unable to conduct their affairs or successfully to manage an organization of their own choice.

"Indeed, these self-constituted advisers, none of whom, to my knowledge, ever worked in a coal mine in his life and most of whom have made fallures of the several organizations with which they have been connected, justify their attacks upon us by saying that we make trade agreements which so the the hands of our members as to render us unable to strike at any time during the year when conditions would seem propitious. They lose sight of the fact that if we had no agreements and were therefore at liberty to strike at our own sweet will, the operators would have precisely the same right."

Mr. Mitchell said that notwithstanding "opposition of open foes and professing friends," there had been a substantial Increase in the numeracal strength of the organization the paid-up membership having passed the 200

strength of the organization the paid-up membership having passed the 300. mark. The gain in the anthracite field was 41,477.

President Mitchell said the committee

appointed at the Shamokin, Pa., con-vention to confer with representatives of the mining companies for the pur-pose of formulating an agreement was making satisfactory progress. He called attention to the increase in machine mined coal to 25.78 per cent of the total production and urged that strenuous efforts be made to establish a fixed differential.

erential. The executive board, he said, had prepared a bill for presentation to state legislatures, the object of which is to provide for the examination of persons seeking employment in mines and so prevent the employment of in-competent men. The bill passed in Congress for the creation of a govern-

Congress for the creation of a government bureau of mines was indorsed in the address.

W. B. Wilson, secretary of the United Mine Workers, in his annual report, ed Mine Workers, in his annual report, said that, notwithstanding the increase in the per capita tax by the last convention, the expenses of the organization had been exceeded by the income by \$214,406. There are now 4.634 men on strike in Alabama, Tennessee, West Virginia and Kentucky. There is \$2,679,133 in the organization's treasuries. The total income for the year was \$310,264 and the expenditures \$1,024,679; balance on hand, \$389,546,40. nce on hand, \$389,546,40.

The balance on hand is the amount now in bank to the credit of the Na-tional treasury and does not include the sums in the treasuries of the districts, sub-districts and local unions.

AGREE TO MEET MITCHELL. Philadelphia, Jan. 16.—E. B. Thomas, president of the Lehigh Valley railroad, stated today that the coal operators have agreed to hold a conference with Mr. Mitchell, not as the representative of the miners' union, but "as the representative of the miners, just as we met him in 1902."

ENGINEER STEVENS WANTS CHINESE ON THE CANAL

Washington, Jan. 16.—Chief Engineer Stevens, in charge of construction of the Panama canal, was before the senate committee on interoceanic canals throughout the day. He gave much important testimony in regard to the labor conditions, declaring that the acts making the sight, hour day and acts making the eight-hour day and Chinese exclusion laws applicable to the canal zone must be repealed if the situation is to be met economically and the canal built within a reasonabl

The minority report of the consulting board of engineers regarding the type of canal was not received today and therefore Mr. Stevens will be recalled for examination on this subject before he sails for the isthmus.

The committee will meet tomorrow to take up the nominations of a canal commissioners, but there is said to be little chance of agreement being reached at this meeting to report the

nominations the senate.

Sanitary and labor conditions on the isthmus were the chief facts considered today. Mr. Stevens described the ne-gro laborer from Martinique and Jamaica as shiftless and incompetent to such an extent that the payment of a such an extent that the payment of a small wage for an eight-hour day is proving an extravagance. He declared that the repeal of the eight-hour law, so far as it applies to the canal zone, is a necessity and that it would be beneficial to jegislate so that the Chinese exclusion act will not apply to

He said that such action would in no manner injure American labor, as the latter is unfitted for employment there. It was his opinion that the commission is getting matters in shape so that a good showing can be made in Congress in the near future.

MERIWETHER'S TRIAL.

When Court Reassembled Midshipman

Entered Plea of Not Guilty. Annapolis, Md., Jan. 16 .- The evidence of those whom Midshipman Minor Merriwether, Jr., was accused of hazing was given rapidly today after the court had disposed of the objections offered by counsel for the defense. Six midshipmen of the fourth class connected Mer-riwether in some way with the hazing and they were positive in four cases. Corroborative testimony in several instances was given.

stances was given.

The prosecution closed its case and the defense examined some of its witnesses, but did not close. Nearly all the fourth class men said they did not consider that the exercises which had been required of them were in the least hamiliating. that they had enjoyed the fun and tak-en it as a part of the natural order of things at the academy. However, the things at the academy. However, the judge advocate brought out the fact they believed they would have incurred serious consequences if they had not done what the upper classmen told them to do.

them to do.

As the "rabbit dance" was a form of hazing with which the court had not dealt before, Midshipman F2dunt was asked to illustrate it, which he did.

Merriwether's counsel, James M. Monroe, entered challenges to certain members of the court this morning. Mr. Monroe challenged Lieut. John W. T. Monroe challenged Lieut. John W. Y. Timmons, Lleut. Commander T. M. Nul-ton, Prof. P. R. Alger and Commander Valentine S. Nelson. Mr. Monroe al-leged that the officers named were disqualified because they had determined upon a fixed definition of the word "hazing" and had refused to admit evidence on the meaning of the word. The challenges were overruled.

A charge of hazing, supported by six specifications, was lodged this morning against Milishipman Chester Bloss of St. Charles, Mo., a member of When the court reassembled Merri-

WHAT DO YOU CARE? YOU'VE GOT YOUR HEALTH

Great Natures Do Not Despair at Disappointment-They Look For Something Eise to Do.

The broad-gauged man of today loes not get blue just because things ton't alway's come his way unless there is something the matter with him. If he fails down on one proposition he impossible the state of the stat

does not get blue just because things don't always come his way unless there is something the matter with him. If he "falls down" on one proposition he immediately starts to look up another, hie always looks forward and keeps on hustling. A man with his health and faculties has piently of opportunities and the man who gives up or even feels like it has either a small nature or some physical weakness.

Dyspepsia certainly puts the best of men out of condition for work of any kind. You cannot blame the dyspeptic for getting blue. The very nature of his disease is most depressing and calculated to deprive him of amoition, energy and hope. There is hope for him, however, certain and sure.

Stuart's Dyspepsia Tablets are recognized throughout the length and breadth of the land as the one cure that's safe and sure, Their unbounded popularity—resulting from the thousands and thousands of cures they have effected, prove beyond the shadow of a doubt their greatness as a cure. Wherein lies their greatness as a cure wherein lies their greatness? In the very fact that they are Nature's own simple remedy, They do the exact work in exactly the same way that the digestive fluids of the stomach do because they are composed of exactly the same elements and possess the same properties. They relieve the weak and wornout stomach of its burden of digestion and permit it without let or hindrance to rest and grow sound and well. The stomach will get well quick enough in its own natural way if it is let alone. That is what Stuart's Dyspepsia Tablets do. They not only let it alone themselves but make the food taken into the stomach do the same.

You can satisfy yourself of the truth of this statement by putting the food you would eat into a glass jar with sofficient water and one of Stuart's Dyspepsia Tablets do. They not only let it alone themselves but make the food taken into the stomach do the same.

You can satisfy ourself of the truth of this statement by putting the food you would eat into a glass jar with sofficient water and o

wether entered a plea of not guilty to the charge. Midshipman Franklin Van Valkenberg said that Merriwether had made him stand on his head once dur-ing September, but had desisted when

ing September, but had desisted when he learned that Van Valkenb 2g had re-cently undergone an operation. The witness said that he had not been in-suited or annoyed by the hazing, but that he knew he had a lot to learn and
