system, leads the assault on Mayor Bransford, The problem is whether the fire de-partment shall be run wholly for poli-tics, or for efficiency. Specifically It is whether James Devine's experience as chief, and the fact that the city pald him liberally to gain a chief's educa-tion, justifies him in taking up a now disorganized department, or whether the city shall again pay for the break-ing in of a new man, wholly unpre-pared for the responsibility, perhaps to throw him over as soon as his ap-prenticeship is paid for. The question, fought out nationally in favor of the stand that Mayor Bransford takes, accomplished the se-curing of effeciency in the national business. The same issue of citizen against the machine manipulator has become a local problem, and the bat-tle promises to rage all this week, un-til Monday evening next. Then the climax is scheduled in the form of a big club of Spolis Lippman and Sefrit, big club of Spolis Lippman and Sefrit, The problem is whether the fire de

Satisfield with Salt Lake-Architect Satisfield with Sali Lake—Architect J. C. Craig has returned from a six months' absence on the Pacific coast, better satisfied than ever, to remain in Sali Lake, which has the advantage over so many other sections of the country where the building has been pushed to the entire limit, and now must wait for the population to catch up and forge ahead before the build-ing band wagon can be pushed ahead ing band wagon can be pushed ahead again. Mr. Craig finds that Salt Lake has not experienced the abnormal growth that has characterized so many other localities. The growth here has been conservative: so the building has not outstripped the population, and there is room, therefore, for a good, steady building development.
